About the Author

Foreword

Mike Sparks, is the author of the highly respected and ground-breaking book, James Bond Is Real which disclosed the secret rescue of Hitler and Eva Braun by Ian Fleming and his British Commando Team from the Nazi Command Center in the Berlin Bunker, with dead body doubles were left to mislead the Allies.

In his new Book, Hive Theory, Mike Sparks effectively explains how ordinary members of society as well as high U.S. Government Officials and other public servants who are supposed to be making sure the U.S. Government represents the interests of We The People, end up supporting Plutocratic top Policy-Makers who behave in ways to support their own specialized interests--rather than the interests of We The People.

Sparks explains the mystery of how such criminal psychopathic behavior of these top U.S. Government Officials and Top Policy-Makers could be so clearly criminal and yet go unnoticed by the American people who continue to support this dysfunctional, criminal behavior.

Sparks does an effective job explaining how reality becomes defined by one's peer group. For those in high positions of government and society this is best described as a group reality which resides in these powerful subcultures of the Super-Elite deviants that have risen to high positions--and actually run the U.S. Government--as well as the American Society. The more powerful the Plutocratic leader's peer group is, the more their reality is able to drift into ways which become more and more oriented to the self-interests of themselves--rather than to the interests of We The People.

In a sense, these powerful subcultures that sit at the top of the societal hierarchy of status, money and political power are powerful enough to create their own reality by controlling the Major Mass Media because the owners of the Media are part of

the Establishment Club (Plutocracy) and willingly serve the needs of the Establishment and the groups at the top of the Political Pyramid. Plus, these Plutocrats have enough money, assets and power to get what they want in most cases if they are willing to make deals and accommodate the needs of their peers when they arise.

In a society where 1% or less are true criminal psychopaths in the classical sense, how interesting that the ability of these Plutocrats who run the Establishment are able to control what We The People believe is true--even when it is mostly or completely **false** by controlling what information the controlled major mass media dispenses which is based on Big Government Lies, false-narratives and government and corporate propaganda. In this way, these Plutocrats are able to actually mind-control the masses and transform at least another

24% of the generally good, ordinary people into misinformed victims who believe lies are true. This process is one of cultural mind-control and basically transforms ordinary folks into functional sociopaths who support illegal, un-constitutional, unprovoked, undeclared, un-winnable perpetual wars of aggression which mass-murder millions of innocent foreigners and cause many thousands of dead, wounded and disabled American Soldiers.

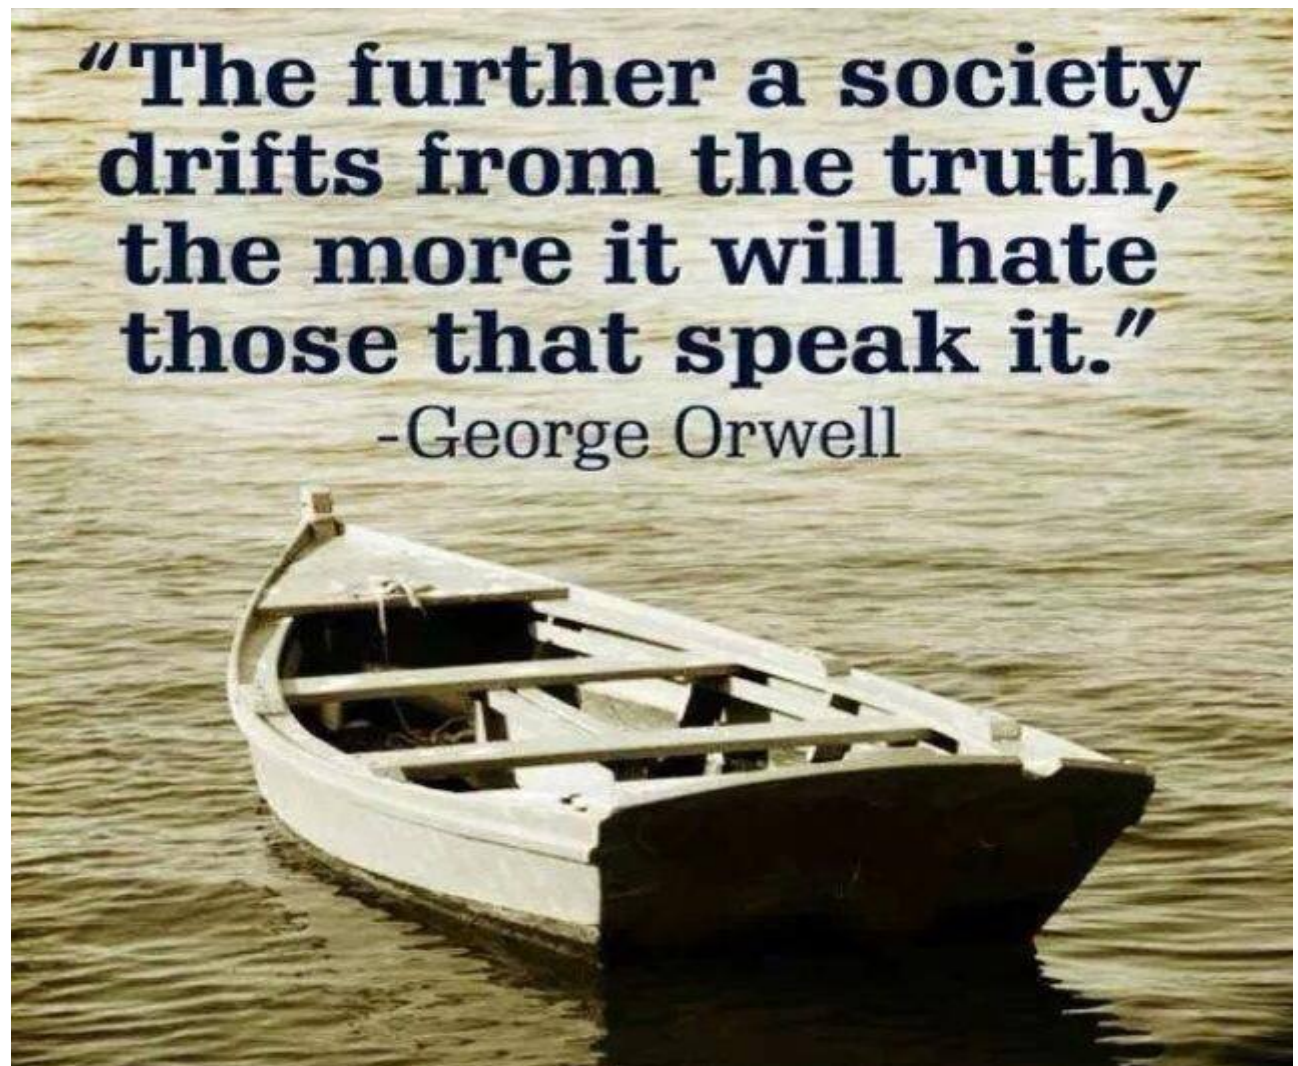

Anyone who tries to convince these ordinary people (who are actually operating as functional sociopaths) of the truth, is quickly labelled a *"crackpot"*, *"disloyal to the USG and/or the American Soldiers fighting"*. The Plutocrat's ability to mind-control the American public has been so effective that truth is considered a lie by the masses and truth-tellers are considered crazy crackpots or *"conspiracy theorists"*.

In this book, Hive Theory, Mike Sparks is able to clearly show this process which has so effectively mind-controlled the masses to cause them to support the actions of their Plutocratic

high USG Officials which seem “okay”--but are actually 100% against their own interests. What Sparks effectively illustrates is the process by which the ordinary masses can easily become “hived” like a swarm of bees into functional sociopaths who support actions which are against their nation, the Constitution and their very own interests; all the while having no idea how much harm, death and suffering they are causing to others.

Author's Preface

*"None are more hopelessly enslaved than those who
falsely believe they are free".*

--Johann Wolfgang von Goethe

There is a constant bitter in-fighting going on between left and right sheeple wanting the American Hive (AmeroHive) to be their way; its become necessary to have the following always ready on paste as an universal corrective message--that perfectly launches this book:

Choose any daily outrage. This is what happens when America became a HIVE--instead of a nation of free individuals following their consciences. If you don't like this or that social conformity and the resulting evils, don't advocate either a left or right-wing, conscience-over-riding HIVE. 25% of ALL humans are psycho-sociopaths. This is based on the life work of Andrew M. Lobaczewski's landmark 1998 book, Political Ponerology:

doomsteaddiner.net/uploads/peter/ponerology.pdf

His critical warning is on page 48 that societies are:

"insufficiently resistant to evil"

The summation of his work is expressed below:

SOURCE:

<http://ponerology.blogspot.com/2005/12/role-of-psychopath-in-generation-of.html>

*"if we speculate the actual number of psychopaths to be around 6 percent - or even just 4 percent as Stout claims - then these other 'people' Lobaczewski is talking about could be as frequent as 12 to 18 percent of the population. That would mean that the total number of psychopaths plus 'almost psychopaths' would be 16 to **24 percent of the total population**. However, it is obvious that the statistical spread can be different in different countries at different times. We will look at that issue further on."*

Lobaczewski offers a cornucopia of mental defectives he calls "deviants" who have a James Bond-type villain's megalomania to take over the world to compensate for the fact that they themselves suck as he puts it in Leonard Nimoy Spockish terms. I ascertain his lesser mental defectives as being weak-conscience sociopaths. A sociopath knows right from wrong; a psychopath does not--neither have a working conscience to rule over their bad natures.

Houston, We Have a Problem: Nature or Nurture?

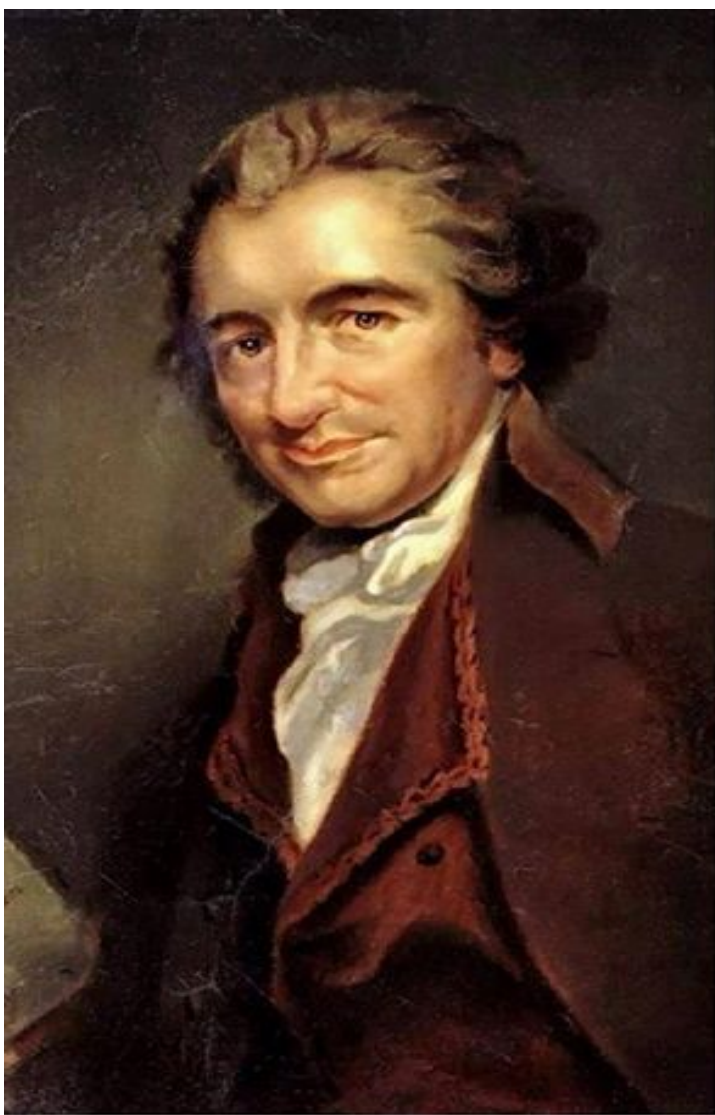

This means 75, 000, 000 (75 million out of 300 million) Americans are psycho/sociopaths like the asshole who violated traffic rules and hit a 77-year old man and drove away. He is now clinging to life paralyzed from the neck-down. America the beautiful, huh? This is no small problem.

Lobaczewski's brilliant main idea is that a LARGE proportion of society is BORN or damaged into being as EVIL people (aka assholes) and that society isn't adequately guarded against them.

Bravo!

Brilliant!

Society rejects the truth that a huge proportion of its people are born/damaged (nature) into an evil psychology because it is lazy and wants to think it has time all the way up to adulthood to Hive-condition people (choice: aka nurture) to be decent when the truth is that we have a huge, societal, "*ticking time bomb*" that starts from the hospital maternity ward. We all love cute little babies and want to believe they are sinless and a blank slate with which they can be influenced to choose to be decent, when the truth is we need to be on guard from Day 1 that the infant might already be a psycho-sociopath--which explains why some kids grow up in good homes with decent parents yet end up as serial killers or secret society mass murderers like Germany's Kaiser Wilhelm II who when Austria and Serbia got into a feud decided to illogically invade France so he could have warm water ports for his battleships acting as his private bath tub toys. FACTS mean nothing to the psycho-sociopathic mind and that mindset can extend into the entire nation infecting it with evil--Lobaczewski calls this "*ponerization*". Lobaczewski rightly demands why the German people let ass-clowns like the Kaiser and Hitler lord over them in their Hives? That question answers itself because when sheeple want to live in a Hive, they consciously choose to not think and be responsible--like a drunk getting into a car and killing people in a collision. You would think they'd want a "*sober, good driver*" to be in charge--but not if the psycho-sociopaths dominate. Lobaczewski misses this in his book; that the majority of the people in society want to not be concerned with any facts and live care-free (un-thinking) in a Hive on someone else's autopilot.

"To argue with a person who has renounced the use of reason is like administering medicine to the dead."

Thomas Paine

English-American political activist, writer and revolutionary.

When you take the 65% who will murder someone if an authority figure tells them--proven in the infamous Milgen experiment--and remove the 25% psycho/sociopaths, this leaves a 40% who have no initiative of their own--who stood by and gawked at the 77-year old man as he lay in the street and did nothing--not even stand to direct traffic away from him. Is it a surprise how our psycho/sociopath "*All Volunteer*" victim farce military populated primarily by weak ego, malignant narcissist Americans brutalized Iraqis/Afghanis overseas in light of how we miss-treat our own people?

ponerology.com/evil_2b.html

"One phenomenon all ponerogenic groups and associations have in common is the fact that their members lose (or have already lost) the capacity to perceive pathological individuals as such, interpreting their behavior in fascinated, heroic, or melodramatic ways" (Lobaczewski, 158). When a group has succumbed to pathological influence its members soon lose the ability to distinguish normal human behavior from pathological."

Lobaczewski describes how nations go through a moral panic he calls a *"hysterical"* cycle where success leads to excess and a lack of general empathy for others which means that while society thought it had time to mold all its people to include ticking-time-bomb, psycho-sociopaths with their Hive, the already adult evil people TOOK OVER THE HIVE! Once in control of the Hive, the gates were thrown open to all psycho-sociopaths--and slammed shut if any decent people try to enter and gain power over the Hive. So even if whether one is evil or not is 100% a choice without any nature compelling them to be either good or evil, the Enlightenment's delusions collapse if evil people have already taken control of the castle, and if you storm it with pitch-fork have-nots--whose ranks have also not been removed of their own psycho-sociopaths--you just end up with the Guillotine--and a lot of bloody severed heads.

Pathocracy Meets Plutocracy

Most of these conscience-less monsters are secret society members with no intention of living life in good faith like decent folks. Secret societies control BOTH the republican and democratic parties. We are failing to block these criminals from running the nation's major institutions. I don't want to be in ANYBODY'S HIVE--nor should YOU. If we start addressing the real issue--the sheeple's desire to be in a HIVE and the psycho-sociopaths who want to rule over them--we can win. America was not meant to be a Hive. We are to work together as our consciences allow--not at the expense of truth.

Hive = LCD (Lowest Common Denominator) consensus

Freedom = GCD (Greatest Common Denominator) consensus

The 2 Illuminati Secret Society Heads: Rothschild & Rockefeller

It would be significant if we could get back to life the GCD way. Being less crowded would help--America is the 3rd largest populated nation now with 310M sheeple who are also crowded MENTALLY by the internet, cell phones and other media. Turn them off and uncrowd your mind.

Christian Ponerology Offers Hope

I am a Christian, Lobaczewski' is not--or seems that way reading his book. Lobaczewski and I do agree that 1/4 of all people (add up all his deviants) are born or neuro-damaged to

be defectively evil. I wrote this book, Hive Theory before reading Lobaczewski's book knowing only of his 24% evil severity figure. These are my thoughts and conclusions driven by over 30+ years in the U.S. military-industrial congressional complex (MILINDCOMP) and civilian life. Profoundly, Lobaczewski notes that the deviants once in power, change the Hive so decent people can't get in charge and it should be the other way around--they should be blocked from power. Lobaczewski as a non-Christian looks at man like an animal and has a strange detached view of the evil the deviants do likened to a blood-sucking bat that can't help being the predator that he is. He wants society's guards up--but his naturalistic delusions and liberal naivete' that we can Einstein-style, out-understand-them probably explains why he wrote his 2005 edition introduction as a self-described presumably defeated "*old man*". When a Stalin or a Hitler descends upon society we can't just detach them from our necks and take them to a lab to put them on a psychiatrist's couch--when that blood-sucking bat dives onto your neck, YOU RIP HIM OFF AND YOU KILL IT, NOW. If you don't, you get possibly rabies like what happened to an Army buddy of mine, MSG Ernest Hoppe when he went to Jungle Warfare school when it was still in Panama and got bit by a bat.

He Said What?

" Today, we need a nation of Minutemen, citizens who are not only prepared to take arms, but citizens who regard the preservation of freedom as the basic purpose of their daily life and who are willing to consciously work and sacrifice for that freedom."

- John F Kennedy

SIDE BAR: How Do You Reason with an Armed Psycho-Sociopath?

So that fun filled holiday weekend has come around once again. The 1,222d anniversary of Lindisfarne Day!

That wondrous morning when a peaceful Norse fishing fleet noticed a fire in the sleepy little Saxon community and monastery of Lindisfarne.

Totally disregarding their own personal safety, these brave fishermen leaped ashore and began rescue operations. Through their valiant efforts, hundreds of homeless widows and orphans were saved. These generous sailor's not only took these refugees into their home's, giving them food and shelter but also gave them useful work to do, thus totally integrating them into the community. Additionally, at great risk to themselves, these brave fishermen saved literally millions of dollars in in property, livestock and religious artifacts from the raging firestorm. While most of this property went unclaimed, it was donated to the, Jarl's Fishermans Relief Fund, where it was distributed to the needy and deserving.

Is anyone having a cookout?

Sounds like the DoD Press Statements before Invading a Country for Wall Street, Doesn't it?

So I disagree with Lobaczewski's pollyanna wishful thinking that force is not needed to keep deviants out and stop what they are doing if they are in charge of the Hive.

Moreover, his analogy that God is an absent beekeeper who isn't here to correct-the-Hive from its delusions is false again, based on his secular, evolutionist belief that man is but another animal. Man is not an animal--he can choose to act like an animal but even if he is born mentally defective or made defective by brain damaging without an effective conscience he can still either choose to live by his LCD urges or not. Man has a mind that thinks abstract thoughts not necessarily driven by his physical urges. In otherwords, Lobaczewski is wrong by making man too much about his nature and the Enlightenment authors are wrong by making man all about his choices. The objective reality truth is that it's both--and a little bit more.

Secular Ponerology (Lobaczewski): Man is an animal; driven by how he was born (or brain-damaged along the way)

Enlightenment (Voltaire): Man is born a free agent; its up to him what he chooses to be or do

Reality: Man is born in error; some are morally defective; fortunately he can consciously overcome his nature--what he chooses to be and do defines him

The whole point of life in the PLAN B after the Garden of Eden fall is for each man to realize he needs a legal pardon metaphysically to avoid judgment but also to be his own beekeeper who can as Lobaczewski points out switch-out bad queen bees to keep the honey coming. Lobaczewski inadvertently describes the original purpose of man as created by God to caretake Planet Earth which means he has the ability to rise above his natural urges and make even arbitrary decisions--man is part angel and part animal--a "*killer angel*" as Michael Scaara concluded in the book by the same name in plural.

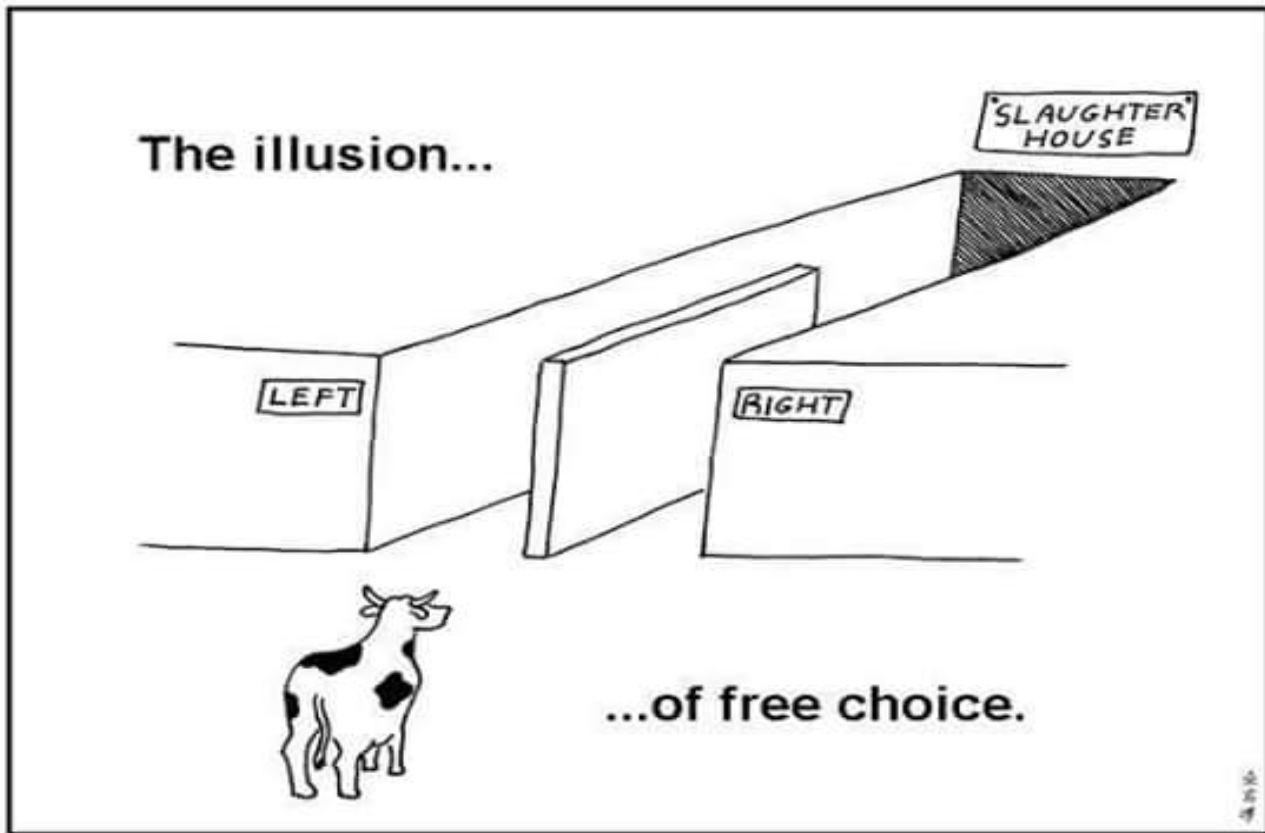

This book--Hive Theory--constitutes the first stab at a **Judeo-Christian Ponerology**.

Unlike Lobaczewski, I am willing to use carefully justified force based on a complete understanding of man as a killer angel to offer a better societal way with actionable, tangible reforms and safeguards--not just hope psychiatrists are going to into their labs and couches and come up with a wire diagram formula of understanding that will save-the-day without self-defensive force. The Stalins and Hitlers would simply have all the psychiatrists killed if they pulled such a stunt.

Unfortunately, today after years of ponerization (corruption) most Americans are degraded, unthinking, materialistic "*bees*" to fit in with the "*Hive*" analogy---however, "*sheeple*" is a better term since bees are industrious and are full of God-given virtue--we don't want to insult them or the Creator. Most Americans are either 25% psycho-sociopaths or 40% apathetics who want someone to rule over them = a 65% Milgen experiment-like majority who have turned the American experiment in individual

freedom into a social-approval, fact-less, fascist or socialist-flavored HIVE.

Can I be any more clear?

Operative Glossary

““Hope has two beautiful daughters; their names are Anger and Courage. Anger at the way things are, and Courage to see that they do not remain as they are.”

--Augustine of Hippo

You need to know the meaning of key words we use in this book NOW—not too late at its end. And most importantly, WHY? Obviously, at first use I will define terms, too.

You probably will note the author is angry—he damn right is angry. Not only has he been personally wronged and libeled over 30+ years of continuous USMIL/defense good faith service, he has seen America degenerate from the optimistic ‘60s into a don’t-give-a-damn-about-anything, indecent surveillance police-state suffering a *moral panic* stemming from False Flag Attacks (FFAs) on September 11, 2001 (9/11). The decency bottom has fallen out from under America--and its time we codemn it and fix it. Strong medicine is required and its not going to taste like a chocolate milk shake. Sorry.

Racket: a continuous financially-lucrative activity that deliberately milks problems rather than solving them decisively for the decent public good. Thanks be to General Butler for this revelation!

Sheeple: I do not use the “*people*” word anymore to describe the American of today since he/she does not deserve that neutral label having abrogated their responsibilities to be decent and instead have let the American experiment turn into a digital surveillance, police hell state. The author’s contempt is deliberate, justified and necessary as it embeds an explanation as we discuss events. Obviously, you the reader, are probably an American and might be “*offended*” but this is too damn bad. I’m not going to suck-up-to-you and feed you the-people-are-good cliché’ platitudes when they are simply not true. The American sheeple are not going to spontaneously rise up against the tyranny they tolerated in the first place leaving the reader not to worry about having to get off said ass and do something at individual risk-cost to correct injustices and save our nation from self-destruction. Most people are NOT good ie; live their lives in good faith and its high time we start facing this unpleasant truth. You should be mature enough to understand that if you are one of the few who do live their life in good faith to not be offended like a spoiled child. If the shoe fits, wear it. If not, it’s not yours.

Psycho-Sociopaths: Human beings who are born defective without consciences (1%) or who have weak consciences (24%) who they refuse to act on regardless.

Evil: Everything that is not good or upholding of decency. A terrifying, definitive discussion of what evil completely, really is takes place later in the book.

Plutocracy: The rich 1%er secret society rule of human societies. The same 1% figure of who are the megarich coincides exactly with the sub-percentage of those who are psychopaths. If you see a rich person he/she is probably also a psychopath. Think Rupert Murdoch and Bill Gates. When I want to stress the money-hoarding aspect of evil men I will use the term *plutocracy*.

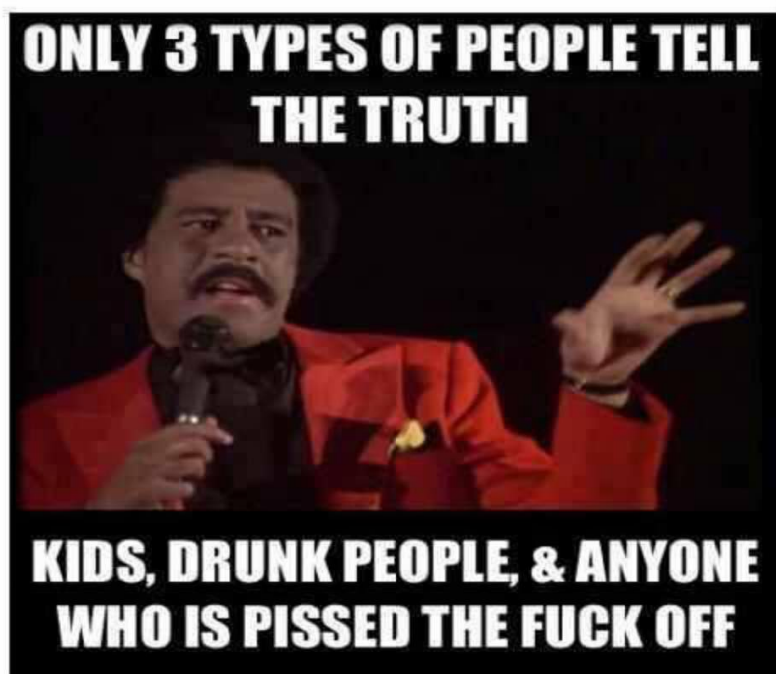

Pathocracy: The 1%er secret rule of societies by psychosociopaths. When I want to stress the lack of empathy and conscience of the power elites, I will use this term created by ponerologists (those who study evil).

Illuminati: The name the 1%ers generally refer themselves as since they think they are smarter and better informed than all other human beings, getting tangible supernatural help from the leader of an active rebellion against God Almighty, Lucifer/Satan.

Sub-Fonts will be used when quoting large portions of other texts to differentiate them from my own words.

I like to use a number say a “1” or a “2” rather than spelled-out “*one*” or “*two*” because the latter simply does not communicate the idea. Sorry, book publishing protocol.

In this book, “*Hive*” is alway capitalized because I’m damn well trying to make it known that this is a by-name phenomena. Again, fuck the rules of English writing, this is my damn book and I’m going to clearly communicate. Why the use of the “F” word? is also described and explained later.

Hive Theory: Why Humans Stay in Unhealthy Rackets

“From the time a person leaves its mother's womb, its every effort is directed towards building, maintaining, and withdrawing into artificial wombs, various sorts of substitute protective devices or shells.

The objective of these artificial wombs is to provide a stable environment for both stable and unstable activity; to provide a shelter for the evolutionary processes of growth and maturity - i.e., survival; to provide security for freedom and to provide defensive protection for offensive activity.”

--CIA Manual “Quiet Weapons for Secret Wars”

“Who controls the food supply controls the people; who controls the energy can control whole continents; who controls money can control the world.”

--Dr. Henry Kissinger (Rockefeller toady, war criminal, globalist, Club of Rome member, sadly a former U.S. Army Non-Commisioned Officer)

Introduction

Sheeple

Sheeple (a portmanteau of "sheep" and "people") is a term in which people are likened to sheep, a herd animal. The term is used to describe those who voluntarily acquiesce to a suggestion without critical analysis or research. They undermine their own individuality and may willingly give up their rights.

"They were screaming"

--Last Minutes of Germanwings Flight 9525 before crashing into the Swiss Alps, Murdering 150 people in 2015.

FLT 9525 is a perfect analogy for the American or any other naive, apathetic sheeple passively instead of actively living their lives: they boarded a flight from the indoor comfort of their homes expecting to stay in a shirt-sleeve environment all the way to another comfortable location--all done for them by a bureaucracy--a Racket that deliberately exploits them to shake money from them---on literal "*autopilot*". The price for their refusal to live the active life was premature death.

My FLT 9525 Causation Hypothesis

Unlucky for them, the passengers and crew of FLT 9525 got in the middle of a larger, more deadly Racket--the war profiteers who want a new Cold War with Russia--but were thwarted by German Prime Minister Merkel instigating a cease-fire in the Ukraine. To punish Germany, the American CIA, keeping the locked flight door vulnerability under their sleeve for a "*rainy day*" when they concocted the fake 9/11

skyjackings, dispatched a MKULTRA team to hypnotize the co-pilot to have him lock the door and dive an airliner full of 149 other sheeple to their deaths. The CIA has pulled this *Goldfinger*-style death dive stunt before to murder JFK Jr. and 2 completely innocent women in 1999 and probably got the pilot to dive EgyptAir FLT 990. Assassination-by-aircraft is a CIA M.O. they learned from the British in WW2.

The controlled mass media as Dr. Viken puts it will put on a “happy face” by using sophistry relativity statistics:

You are supposed to then accept the establishment's mass murder because it has been worse in the past etc. etc. Man-is-getting-better, so STFU. Nevermind that 644 deaths in 2014 is still 644 too many deaths due to flimsy tube & wing planes. Mark Twain said: *"There are lies. There are damned lies, and there are statistics"*. The media doesn't report on the safer Burnelli Blended Wing Body (BWB) plane designs that are available—or any other game-changing safety reform—just the boo-hoo "human interest" to keep the sheeple upset and defeated to accept their fatal fate.

Hope First: Always Offer a Quick Answer

What should happen is PM Merkel should get her intelligence agencies to discover some evidence of CIA MKULTRA instigation of FLT 9525's murder--and then tell the world in a press conference. In it, she should give the U.S. 30 days to 1.)

disband the CIA 2.) identify the specific guilty persons or she will order the American embassy to pack all its things and leave her country, breaking all diplomatic relations. Murdering German citizens is an ACT OF WAR--and the American government and the CIA should not be allowed to get away with murder.

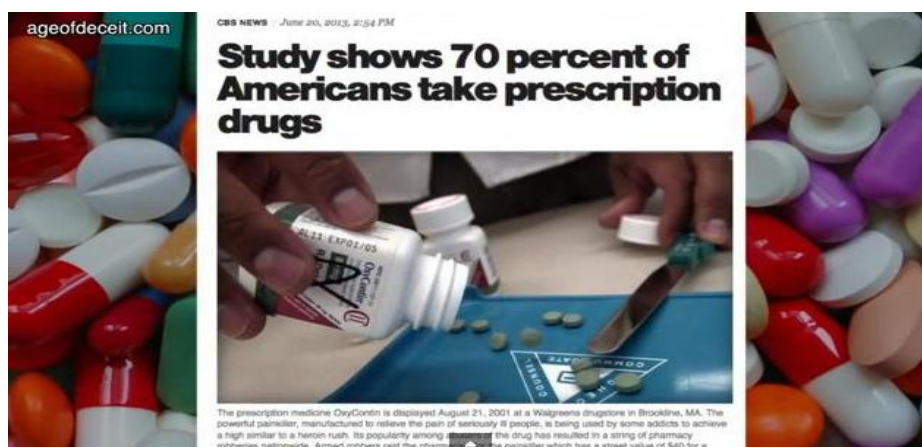

What the Skysheeples should do is DEMAND that 1.) safer Burnelli Blended Wing Body (BWB) planes replace flimsy tube & wing airliners 2.) escape parachutes and in-flight opening rear doors be supplied so no matter what the excuse why the plane is crashing, THEY CAN BAIL-OUT and not be the news at 11 and pawn-victims in a Geopolitical murder plot. If this doesn't happen, they should BOYCOTT air travel and take trains that have less laws-of-physics, potential kinetic energy consequences of a crash ie; safer.

Hacker Gains Control of Ugly United Airlines Plane In-Flight!

upi.com/Top_News/US/2015/05/16/Hacker-took-control-of-United-flight-and-flew-jet-sideways-FBI-affidavit-says/2421431804961/

If he were on the Germanwings flight and saved everyone HE'D BE A HERO. He might still be a hero if he provides a way for a designated stewardess to be able to fly & land the plane if a CIA MKULTRA pilot stooge tries to crash it. P.S. who were the corporate hacks who decided to paint United's planes to look like an ugly memo pad?

Controlled opposition leader Alex Jones has limited hang-outed the Germanwings crash by speculation the co-pilot was suicidal due to SSRI drugs—a ½ truth is still a lie.

Yet none of this is likely to happen because Americans especially are drugged and TV brain-washed into sheeplehood in an elaborate Hive created by the Rockefeller Illuminati secret society that now controls every walk of American life--except the very baseline nuclear family huddled together in moral panic, shell-shock since the former's 9/11 False Flag Attacks. The American sheeple live in a delusion land where complex technologies like mind control/hypnosis "*don't happen*" and somehow evil men don't do conspiracies when they plan complex evils daily. In fact, the ability to reality-fraud American sheeple since the 1963 President Kennedy group ambush has only intensified. American sheeple can't come to grips with even simple cons like a popular rock band member dying and being replaced by a look-a-like for years! Billy Shears Campbell who replaced Paul McCartney who burned-up in a 1966 car

crash, later sang the title song for the James Bond film, “*Live & Let Die*”: how fitting! Major politicians have used body doubles—*doppelgangers* to avoid assassinations and the public thinks it’s the real person when they see them. Moreover, as Bond says in *Goldfinger* in 1964—Beatles music is noise requiring ear muffs which is a coded warning that its Rothschild Illuminati, Tavistock Institute mind control to get young people to self-destruct using rock music, drugs and sex. The seemingly innocent “*I want to hold your hand*” Beatles of the ‘60s gave ways to the demented songs of the ‘70s like “*Yellow Submarine*”—a veiled reference to Hitler’s besieged Berlin escape by mini-sub in 1945 later air-conveyed to Spain by Commander Ian Fleming as Greg Hallett argues in [Hitler was a British Agent](#) (HWABA).. My room-mates and I in a street ministry once had to combat a demon-possessed street person who was set-off by listening to “*Yellow Submarine*”. Beatles music is dangerous MKULTRA crap. I don’t listen to it. Nor should you! Sorry, my friend, Dr. Jim Fetzer!

http://jamesfetzer.blogspot.com/2015/05/why-ringos-confession-we-replaced-paul_11.html

These pictures from 1966 show the great resemblance between Paul McCartney on the left, and William Shears Campbell on the right, at the time of McCartney’s alleged death.

As proven in James Bond is Real: The Untold Story of Political & Military Technological Threats Ian Fleming Warned Us About, there are 2 main Illuminati crime families running-ruining the world—the Rockefellers in America and the Rothschilds in Europe. While ostensibly united that they want 1-world government tyranny, they do differ in **who** will run everything and by what **political flavoring** by either a violence-loving fascism or a tree-hugging socialism with lots of elite sex orgies.

The Illuminati have for thousands of years perverted government into Hives filled with myriad of busy-work Rackets to keep the sheeple in them focused away from their rule and the important issues of life--like why are we here? And what does God want from us? Instead, as proven in RACKET THEORY: How Humans Behave, all of life's problems are milked into never-ending futile struggles since keeping sheeple busy means more economic activity--which means more money for the elites.

RACKET THEORY: How Humans Behave

combatreform.org/RACKETTHEORYv6.0.htm

It would not be far off-target to ascertain by James Bond action the names of every Illuminati secret society member and by law bar them from public office and all governmental jobs. However, whenever evil men are purged throughout history the supposedly good men replacing them fail because they take along with them their own psycho-sociopathic “*bad apples*” that shouldn’t have been there. We will tackle this problem and reality head-on, NOW.

Pathocracy: Who Ruins America—and the World

<http://ponerology.blogspot.com/>

Definition: pathocracy (n). A system of government created by a small pathological minority that takes control over a society of normal people (from Political Ponerology: A Science on the Nature of Evil Adjusted for Political Purposes, by Andrew Lobaczewski).

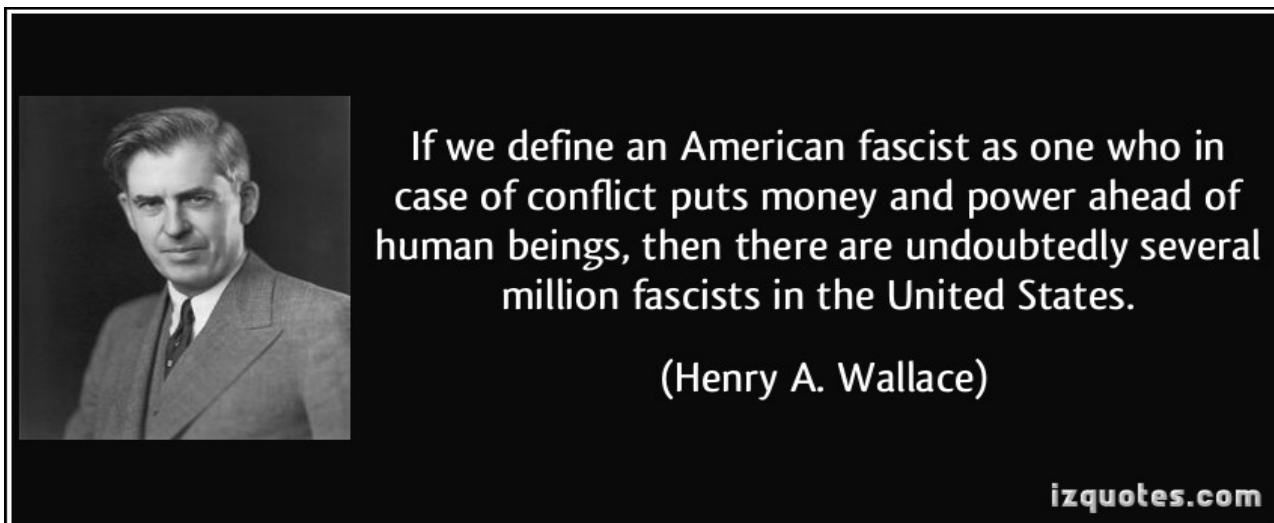

Years ago, I learned of the psychological split ponerologists ascertained lead by Dr. Lobaczewski. What no one has done until now...has had the courage to apply their reality to what’s going on. Here is the ugly truth:

24% of all people are psychopaths or sociopaths.

41% of all people are apathetics who do whatever authority tells them.

35% of all people are conscience following, do-or-die decent folks.

These numbers are proven by the Milgen experiment where 65% of the test subjects thought they were shocking mock prisoners to death. Only 35% said no.

For the sake of simplicity and a full 100%, I round 24% up to 25% since there's so much evil going around the number might still be too low. A lot of people tell me 35% conscience doers is too optimistic, but its how one is born that is what we are talking about—we may actually have less than 35% conscience-doing lions now as time and Hive pressures have taken their toll on decent folks.

Some have said they don't like the distinction between psychopaths born without consciences and sociopaths who have them but don't follow them. Don't blame me. This distinction comes from ponerologists—and psychologists.

“Differences Between a Psychopath vs Sociopath”

By John M. Grohol, Psy.D.

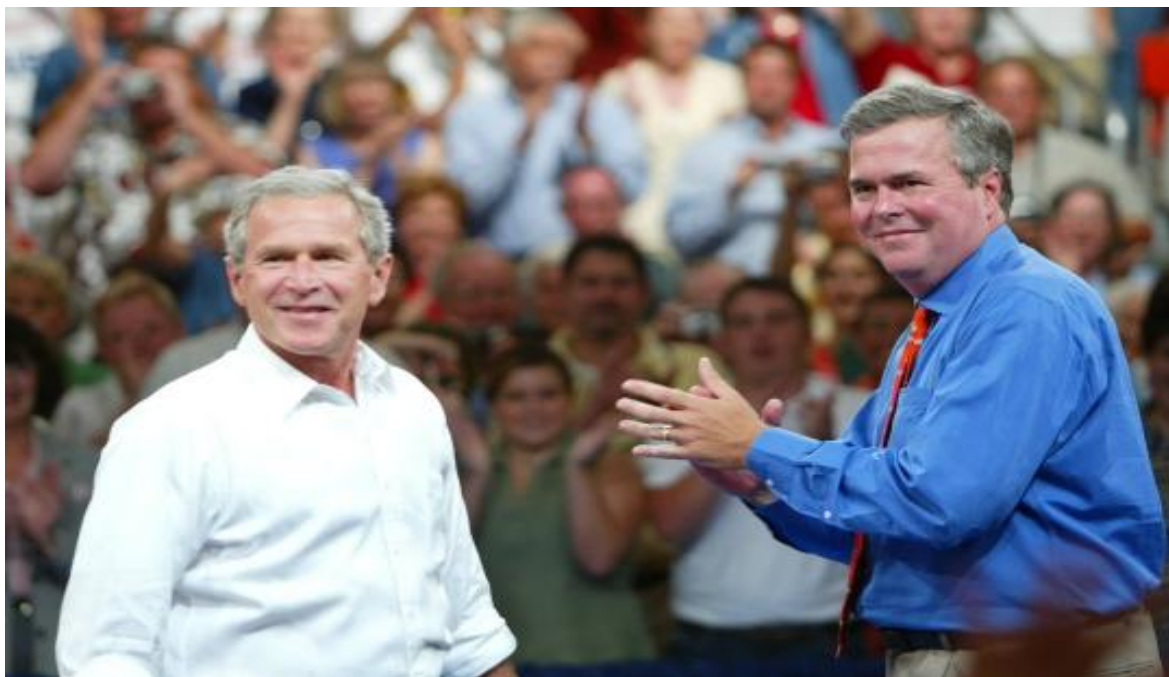

Nonetheless, there **are** some general **differences** between these two types of personality types, which we'll talk about in this article.

Both types of personality have a **pervasive pattern of disregard for the safety and rights of others. Deceit and manipulation are central features to both types of personality.** And contrary to popular belief, a psychopath or sociopath is not necessarily violent.

Psychology researchers generally believe that **psychopaths tends to be born** — that it's a genetic predisposition — while **sociopaths tend to be made by their environment.** Psychopathy might be related to physiological brain differences. Research has shown psychopaths have underdeveloped components of the brain commonly thought to be responsible for emotion regulation and impulse control.

Both psychopaths and sociopaths present risks to society, because they will often try and live a normal life while coping with their disorder. But **psychopathy is likely the more dangerous disorder, because they experience a lot less guilt connected to their actions.**

A psychopath also has a greater ability to dissociate from their actions. **Without emotional involvement, any pain that others suffer is meaningless to a psychopath. Many famous serial killers have been psychopaths.**

2 Psychopaths: W and Jeb Bush of the Bush Illuminati Crime Family

What this means cannot be stressed enough—1 out of every 4 people you meet is a psycho-sociopath—possibly an evil asshole—a wolf in sheep’s clothing. No wonder mankind can’t live in peace! No wonder why the wolves run the sheep around and devour them—and no wonder why when rescue teams come to save-the-day, these lions bring with them people who betray them. We have met the enemy and he is us—but we need more than fuzzy guilt-think here.

Mission Statement

The 40%er Sheeple love bureaucratic Hives and Rackets to hide them from life (reality). The 25%er psycho-sociopaths love running the Hive. The current mentality of the Hive (*zeitgeist*) changes every 10 years by natural human tendency to create an illusion of humans-getting-better progress. These decade-ending, *zeitgeist* switch-overs (DEZSOs) are deliberately instigated by the power elites using sophisticated mass psychological means perfected at the turn-of-the-20th Century by that master asshole, Edward Bernays. The elites have learned they can perpetrate massive reality frauds like 9/11 upon the sheeple and their cover stories can ward off any effective sheeple push-back by leaking limited hang-outs long enough that the decade ends so any sheeple outrage is gone. The 35%er conscience-doers are left holding-the-bag trying to keep society together.

The American Declaration of Independence (ADI) states:

*“...all experience hath shewn that mankind are **more disposed to suffer**, while evils are sufferable than to **right themselves by abolishing the forms to which they are accustomed**. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their **duty**, to throw off such Government, and to provide **new Guards** for their future security.”*

The mission of this book is to create a truer understanding of human nature within James Bond Citizens (JBCs) and revive the American government so it has adequate, overmatching safeguards against evil psycho-sociopaths and to defeat the current pathocratic tyranny.

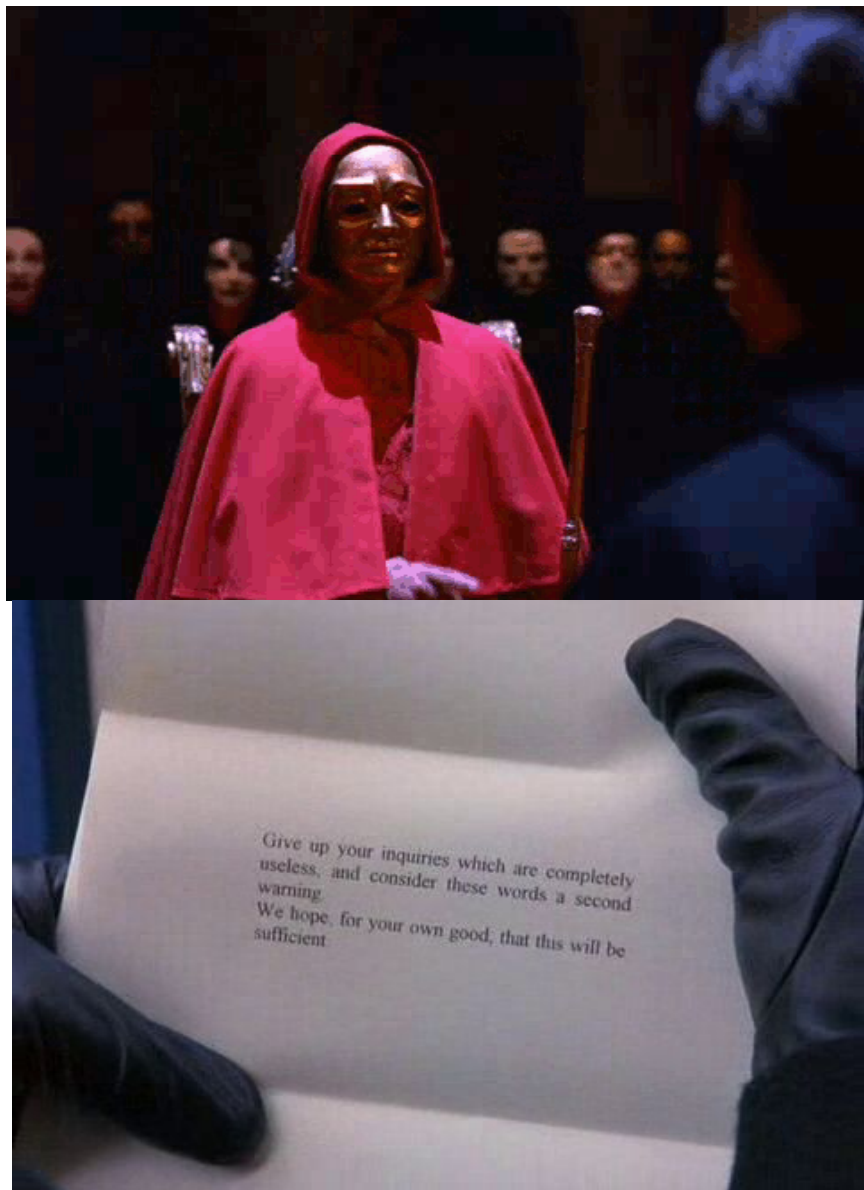

James Bond Citizens (JBCs)

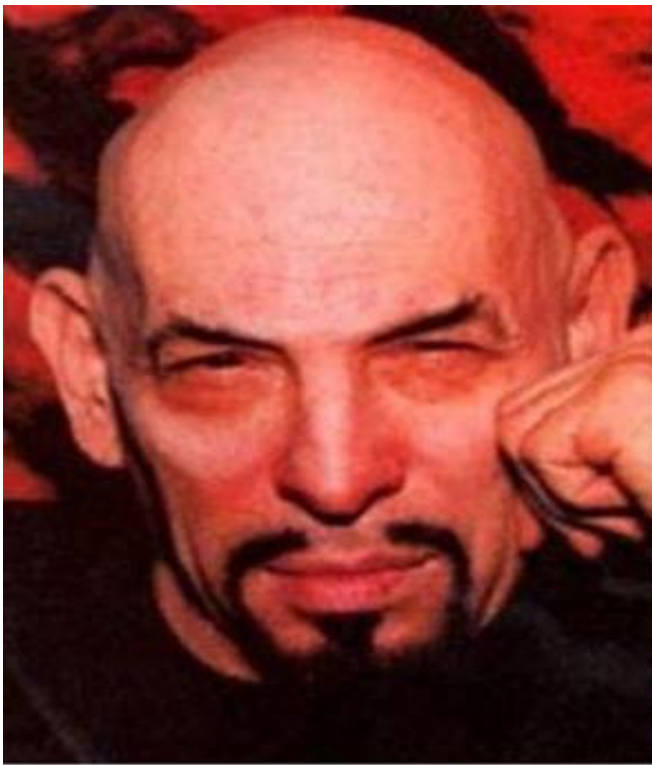

Commander Ian Fleming's James Bond is the model of the investigative Citizen-Soldier who unravels elaborate Illuminati plots and defeats them. It is no accident that his knight errant, James Bond was made in modern form by him—having participated in several disgusting plots during the war like tolerating the Japanese attack on Pearl Harbor in order to get America's industrial might and population into the war against the dire mortal threat of high-technology Nazi Germany—he wanted to set his moral compass right beginning with Casino Royale in 1953. This book is NOT about him having bachelor life blues over marrying Anne—he was ordered by MI6-SIS to write the novel to improve the agency's public image in light of British ruling class defections to the Soviets. The theme of the book is not partying—its how does one know who the good guys are from the bad guys—and what cause is morally right?

Since you are not likely to read Casino Royale here is the answer from his mentor, French agent Renee Mathis:

'When you get back to London you will find there are other Le Chiffres seeking to destroy you and your friends and your country. And now that you have seen a really evil man, you will know how evil they can be and you will go after them to destroy them in order to protect yourself and the people you love. M will tell you about them. ...Surround yourself with human beings, my dear James. They are easier to fight for than principles.'

Illuminati orgy scene from Kubrick's "*Eyes Wide Shut*": they hide themselves by societal masks during the light of day, too

“My religion is just Ayn Rand’s philosophy with ceremony and ritual added.”

– Anton LaVey, founder of the Church of Satan and author of the Satanic Bible

“The reason I got involved in public service, by and large, if I had to credit one thinker, one person, it would be Ayn Rand.....I grew up reading Ayn Rand and it taught me quite a bit about who I am and what my value systems are. It’s inspired me so much that it’s required reading in my office for all my interns and all my staff.”

– Paul Ryan, presumptive Republican VP candidate

If you then follow your decency common sense, when these public servants defecate on the public you can examine their actions compared to their beliefs to see their likely Illuminati secret society membership card

For details of Commander Fleming’s involvement in several sordid WW2 affairs including Pearl Harbor, read my good friend, John Ainsworth-Davis’ last book, his autobiography that stops just short of the 1945 time period covered before in his 1996 book, OpJB: The Last Great Secret of the Second World War which describes his 1945 mission to bust the 2nd highest-ranking, Nazi Martin Bormann out of Berlin: The Mountbatten Report: Churchill’s Spy-Assassin John Ainsworth Davis

lulu.com/shop/john-ainsworth-davis-and-ami-de-creighton/the-mountbatten-report-new-edition/paperback/product-22040015.html

Notice figuring out who the bad guys are from the good guys is a very REAL problem--which is why we now have the important handle—who are the ones without consciences? Who are the psycho-sociopaths? This is the key—and we now have it.

JBC Functions

Now that we have the weapon of understanding to smash the Illuminati and their plans, it's up to James Bond Citizens (JBCs) to apply this wisdom to actionable intelligence. I was still working on this when we created the *Brave American* web page and I was interviewed by *The Daily Bell* to summarize James Bond is REAL secrets. You will note several calls-to-action that run from refusing to participate in evil--all the way to offering a better way.

REFUSENIK

You don't need to read this entire book to get immediate answers: stop taking drugs, turn off your TV. Don't wear a cell phone or base your life around it. Don't base your life around any social media and social approval groupthink. Don't vote. Don't join the USMIL beyond 1 tour of duty to gain necessary outdoor survival skills. Don't do business with entities you know are evil if you can.

SheepleReach is the primary way to get REFUSENIK action by getting others to refuse to go along—but we are all still in an Illuminati Hive and it will continue doing evil with the other 40% sheepletons. .

DREAMER

Both sheeple and Hiveminders are to be reached with our dreams to establish the HOPE that there IS indeed a feasible, better way.

REFORMER

Hivemind(er)change is the primary way to get REFORMER actions.

We will in detail discuss these possible corrective actions in the 2nd half of the book. First, we must state and fully understand the problem.

IN CONGRESS, JULY 4, 1776

The unanimous Declaration of the thirteen united States of America

When in the Course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that **all men are created equal**, that they are **endowed by their Creator with certain unalienable Rights**, that among these are **Life, Liberty and the pursuit of Happiness**. — That to **secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed**, — That **whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness**. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly **all experience hath shewn that mankind are more disposed to suffer, while evils are sufferable than to right themselves by abolishing the forms to which they are accustomed**. But when a **long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards** for their future security. — Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government. The history of the present King of Great Britain is a history of repeated injuries and usurpations, all having in direct object the establishment of an absolute Tyranny over these States. To prove this, let Facts be submitted to a candid world.

He has refused his Assent to Laws, the most wholesome and necessary for the public good.

He has forbidden his Governors to pass Laws of immediate and pressing importance, unless suspended in their operation till his Assent should be obtained; and when so suspended, he has utterly neglected to attend to them.

He has refused to pass other Laws for the accommodation of large districts of people, unless those people would relinquish the right of Representation in the Legislature, a right inestimable to them and formidable to tyrants only.

He has **called together legislative bodies at places unusual, uncomfortable, and distant from the depository of their Public**

Records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved Representative Houses repeatedly, for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time, after such dissolutions, to cause others to be elected, whereby the Legislative Powers, incapable of Annihilation, have returned to the People at large for their exercise; the State remaining in the mean time exposed to all the dangers of invasion from without, and convulsions within.

He has endeavoured to prevent the population of these States; for that purpose obstructing the Laws for Naturalization of Foreigners; refusing to pass others to encourage their migrations hither, and raising the conditions of new Appropriations of Lands.

He has obstructed the Administration of Justice by refusing his Assent to Laws for establishing Judiciary Powers.

He has made Judges dependent on his Will alone for the tenure of their offices, and the amount and payment of their salaries.

He has **erected a multitude of New Offices, and sent hither swarms of Officers to harass our people and eat out their substance.** [ED: bureaucracy, baby!]

He has kept among us, in times of peace, Standing Armies without the Consent of our legislatures.

He has affected to render the Military independent of and superior to the Civil Power.

He has combined with others to subject us to a jurisdiction foreign to our constitution, and unacknowledged by our laws; giving his Assent to their Acts of pretended Legislation:

For quartering large bodies of armed troops among us:

For protecting them, by a mock Trial from punishment for any Murders which they should commit on the Inhabitants of these States:

For **cutting off our Trade with all parts of the world:**

For **imposing Taxes on us without our Consent:**

For **depriving us in many cases, of the benefit of Trial by Jury:**

For transporting us beyond Seas to be tried for **pretended offences**:

For abolishing the free System of English Laws in a neighbouring Province, establishing therein an Arbitrary government, and enlarging its Boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these Colonies

For taking away our Charters, abolishing our most valuable Laws and altering fundamentally the Forms of our Governments:

For suspending our own Legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated Government here, by declaring us out of his Protection and waging War against us.

He has plundered our seas, ravaged our coasts, burnt our towns, and destroyed the lives of our people.

He is at this time transporting large Armies of foreign **Mercenaries** [ED: Blackwater/Xe/Academywhatever] to compleat the works of death, desolation, and tyranny, already begun with circumstances of Cruelty & Perfidy scarcely paralleled in the most barbarous ages, and totally unworthy the Head of a civilized nation.

He has constrained our fellow Citizens taken Captive on the high Seas to bear Arms against their Country, to become the executioners of their friends and Brethren, or to fall themselves by their Hands.

He has **excited domestic insurrections amongst us**, and has endeavoured to bring on the inhabitants of our frontiers, the merciless Indian Savages whose known rule of warfare, is an **undistinguished destruction of all ages, sexes and conditions**. [ED: looks like CIA-ISIS doesn't it?]

In every stage of these Oppressions **We have Petitioned for Redress in the most humble terms: Our repeated Petitions have been answered only by repeated injury**. [ED: read that New Ager pacifists?] A **Prince**, [ED: Machiavelli reference] whose character is thus marked by every act which may define a Tyrant, is unfit to be the ruler of a free people.

Nor have We been wanting in attentions to our British brethren. We have warned them from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. We have appealed to their native justice and magnanimity, and we have conjured them by the ties of our common kindred to disavow these usurpations, which would

inevitably interrupt our connections and correspondence. They too have been **deaf to the voice of justice and of consanguinity**. We must, therefore, acquiesce in the necessity, which denounces our Separation, and hold them, as we hold the rest of mankind, Enemies in War, in Peace Friends.

We, therefore, the Representatives of the united States of America, in General Congress, Assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the Name, and by Authority of the good People of these Colonies, solemnly publish and declare, That these united Colonies are, and of Right ought to be Free and Independent States, that they are Absolved from all Allegiance to the British Crown, and that all political connection between them and the State of Great Britain, is and ought to be totally dissolved; and that as Free and Independent States, they have full Power to levy War, conclude Peace, contract Alliances, establish Commerce, and to do all other Acts and Things which Independent States may of right do. — And for the support of this Declaration, with a firm reliance on the protection of Divine Providence, **we mutually pledge to each other** our Lives, our Fortunes, and our sacred Honor.

“All Men Are Created Equal—Some More Equal than Others”

"The American political system was founded on the natural inequality of men."

--President James Madison

The American Declaration of Independence (ADI) is an amazing document for many reasons which we will discuss intensely. It's a manifesto against the abuses of psychosociopathic rule suffered by the founders while in Europe that continued when they thought they were free from these dirty tricks in America. You can see these same dirty tricks underway in America today. However, at its very core, its very beginning is a dangerous lie; a clever half-truth that emanates from the Age of Enlightenment that man is somehow born sinless and is an equal blank slate who is defined thereafter by what he does—good or evil—which is dependent upon how well he is educated while his urges are framed by limited government based on the consent of the people being governed. It doesn't take much argument to prove that since 1776 when the ADI was written and put into effect that the American part of mankind operating under the all-men-created-equal (AMCE) mindset have suffered immense tragedies by being swindled and murdered all the way up to complete genocides; the War for Independence, the Indian Wars, the Conquest of the West, the Civil War, Industrialization, WW1, the Great Depression, WW2, the Cold War, Korea, TV hypnosis, Vietnam, the bureaucraticization of every aspect of life, the assassinations of JFK, RFK, MLK, Watergate, Grenada, Panama, the Gulf Wars, the internet hypnosis, political correctness, the 9/11 False Flag attacks, the digital surveillance police state and new horrors on the way.

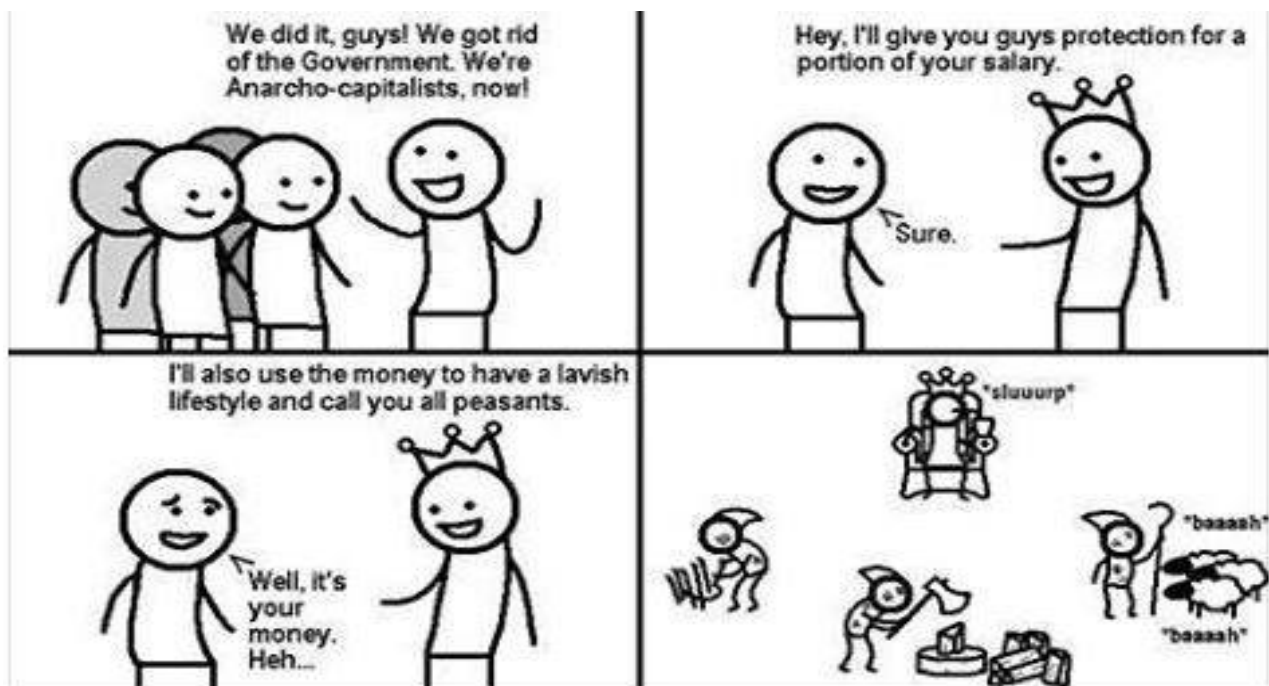

To get a full understanding of the Enlightenment source for the AMCE lie, please watch the BBC documentary below.

The Romantics: FREEDOM

[youtube.com/watch?v=oLwRXISgiSQ](https://www.youtube.com/watch?v=oLwRXISgiSQ)

To see the AMCE lie in action one only had to cross the Atlantic ocean to see how it played out in one group of rich psycho-sociopaths being replaced by another poor group that began to execute anyone that got in their way by the head-slicing guillotine death machine.

The difference between the American revolt and the French one was that the former was lead by rich, educated lawyers with the rule of law and separations of powers foremost in their minds to restrain evil men and the latter was lead by poor, uneducated common people seeking revenge driven by emotional blood lust as directed by the Jacobins whose Illuminati secret society fingerprints are well-known.

The \$64, 000 question is was the American revolt also an Illuminati experiment but with better self-control?

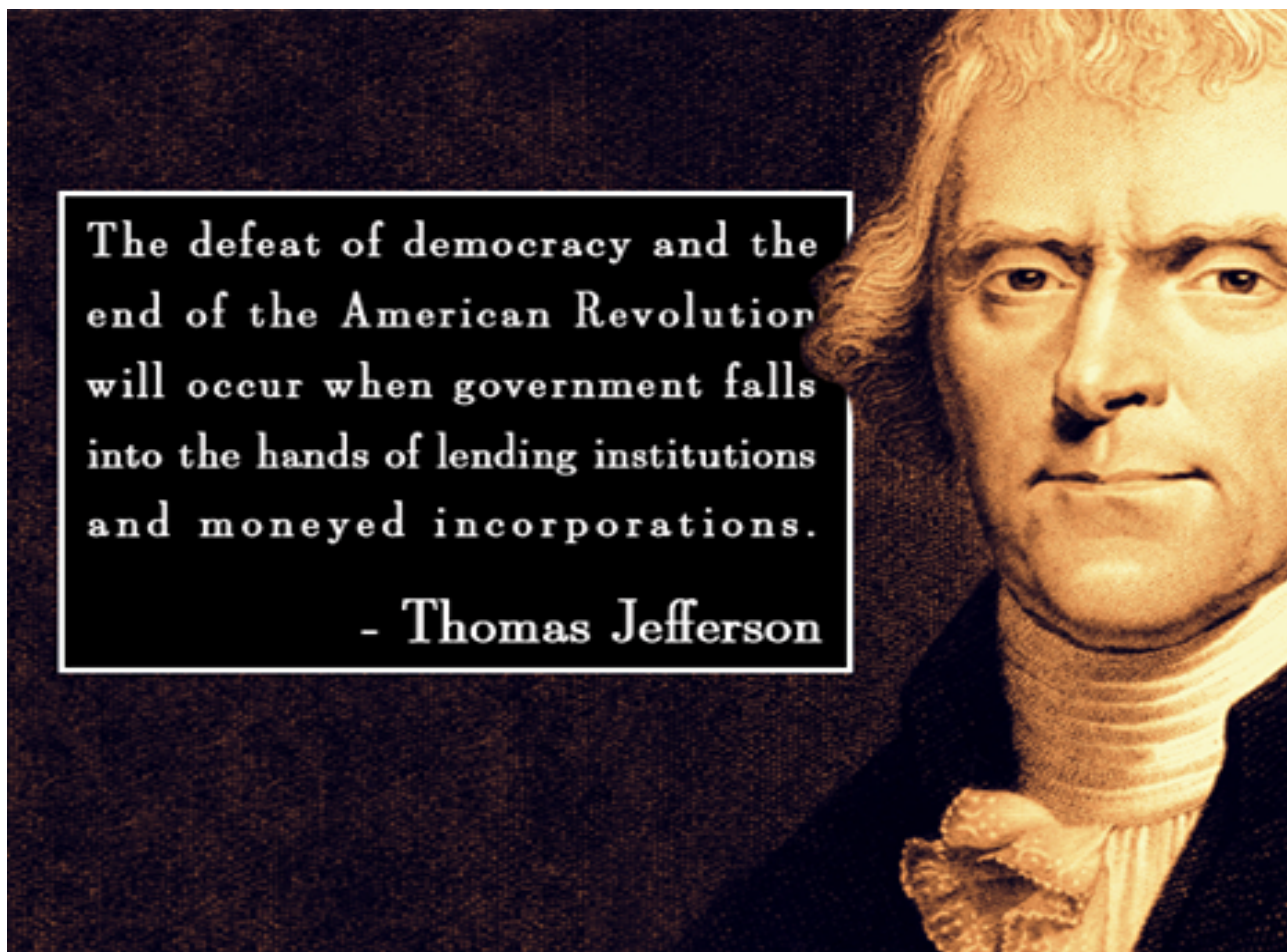

A strong case can be made that America is NOT a Christian country and its undeniable Masonic secret society founders, disgusting often phallic architecture screams out in our face that this is so.

America: Satan's Country

youtube.com/watch?v=YT4i-Yvh3RQ

However, I am going to go out on a limb here and propose a daring theory. While America was and still is a Masonic Illuminati experiment for continuing elite rule under democratic camouflage, the founding fathers snuck in governmental elements that inherently block and deny evil elite rule that gave the common people a 1-time shot at self-governing. And I did say 1-shot. Over time, it would and did come to pass that the anti-plutocratic safeguard elements of the U.S. Constitution would be over-turned. You might even surmise that what the ADI was really all about was one group of rich men imbued by Enlightenment ideas of AMCE revolting against another group of rich men who were unashamed, psych-sociopathic asshole snobs.

Rothschild Illuminati were at it even back then!

What we must, must understand is that in the process of breaking away from English rule, the American secret elites are NOT, repeat, NOT going to give their plutocratic rule game away to the sheeple. If the founding fathers want all Americans walking around disarmed because they naively think the power of an idea—AMCE is going to smother psycho-sociopaths then the many safeguards and separations of powers inherent in the original U.S. Constitution gives that lie away. What indeed may have happened is a classic bait & switch—the common people fed the AMCE lie--while essentially secretly within the workings of government there are many safeguards to insure American elites remain in power. This is not as bad as it sounds if the secret elites are benevolent non-assholes who want to cautiously engage the sheeple to somewhat run government avoiding the horrors of Greek democracy and Roman republicanism.

However, John Adams and Thomas Jefferson are not going to live forever to safeguard their limited sheeple self-government experiment and in fact both died the very same day in 1804. That their biological sons and their sons and their proteges' could somehow continue their benevolent plutocratic rule has not happened to compensate against evil men from over time over-throwing the safeguards and turning America back into an Old European tyranny police-state as it is today. Note the similarities of the grievances listed in the ADI to the crimes being done today in America—and around the world--and you'll realize its no accident.

Its my contention that the most important safeguard is missing from the U.S. Constitution: an accurate understanding of where evil comes from in human psychology and how prevalent it really is—which is 25% of all men are born defective without consciences or with weak, inoperatively-linked consciences. Whether the AMCE lie was put in as a good faith effort because the founders actually believed in Enlightenment delusions or as a clever manipulation to misdirect the sheeple as they actually ruled the government with patronizing, well-intended benevolence at this stage is sadly moot point now that the Illuminati psycho-sociopathic elites have thoroughly taken over every aspect of American life like a malignant cancer. The lack of a true understanding of the human psychological condition based on the AMCE lie is going to be FATAL to the United States of America if its not corrected.

What Does “*All Men Created Equal*” Really Mean?

At Face Value, (AFV) the phrase AMCE just says everyone is equal compared to eachother and doesn't state any VALUE of that relative equality.

Born 0 = 0 Equal

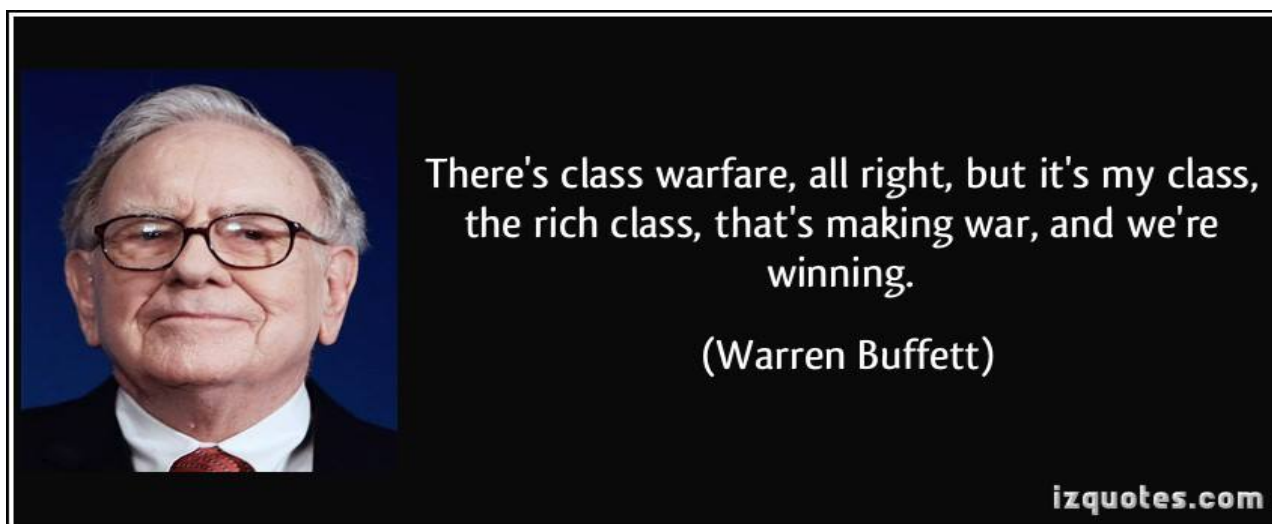

Born 6 = 6 Equal

Born 25 = 25 Equal

So you can see, saying everyone is born equal could mean different things to different people and poses no threat to the ruling class in itself. When coupled with the truth that everyone has a right to life, liberty and pursuing happiness—to include the non-rich is a bold, revolutionary statement that crosses the evil plans of the elites. Was John Adams and Jefferson exceeding their secret society orders when they inserted the common man having a right to a decent life? I think so.

If they had wrote all men are created equal UNDER THE LAW that would have been accurate as how a decent government should fairly view its citizens who have not done anything wrong and may never do anything wrong. However, that's not what's written. AMCE is followed by a bold assertion that everyone has a God-given right to life, liberty and pursuing happiness (LLPH), so even if no qualitative value for “*equal*” is given the implication is that all humans have great value coupled with a blank check to act as they want--and this is a dangerous lie because we know that at least 25% of all humans are dangerous psycho-sociopaths who have so far ruined America and the entire world.

Physically, Man is not Born Equal

“As in every social system approach, stability is achieved only by understanding and accounting for human nature (action/reaction patterns). A failure to do so can be, and usually is, disastrous.”

--Silent Weapons For Quiet Wars, 1979 CIA Manual

Sadly, the rise in birth defects has increased at an alarming rate as man has polluted the Earth. However, even in the best circumstances, some people are born smart, others less bright, some are tall, others shorter and these differences do provide functional advantages even if snobby American society run by the Illuminati want everyone subjugated into a low class existence rife with infighting over who is viewed the most sexiest and financially successful.

Believe it or not, there is an even darker truth to people being born naturally unequal. The Illuminati are deliberately poisoning the sheeple by vaccines and polluted water that has increased exponentially a series of ailments some of which create increased criminality. When I grew up in the '60s no one had this attention deficit disorder—and we ate a lot less sugar, too. I remember how drinking a can with a yank-off tab—of soda pop was a big deal treat. As kids we dreamt of having a tap to drink all the Coca Cola we could want. In the '80s soda pop began to be sold by the liter but by then as an adult I realized how drinking this battery acid is unpleasant for your stomach and bad for your health. The following web pages document the social ills created by Illuminati-instigated vaccinations, bad water, sugary diets that result in more defective people being born. Thanks be to anti-Illuminati JBC John Kimber for alerting me to this.

“Vaccine Side Effects” (Including Brain Damage)

“Vaccination and Violent Crime”

Harris L. Coulter, Ph.D.

<http://whale.to/vaccines/coulter6.html>

In trying to understand the reasons for the increase in violent crime, it is useful to note that this increase has been paralleled by an equivalent growth in other varieties of pathology -- both medical and social.

Let me show you some figures:

- * the incidence of epilepsy and other seizures disorders has risen from 2.7/1000 persons in the population in 1940 to 10/1000 today -- a 300% increase.
- * the incidence of asthma has risen from less than 1% of the population in 1840 to 5% today -- a 500% increase;
- * the number of cases of autism has risen from a total of 11 cases in 1943 to about 120,000 today;
- * the number of cases of diabetes has risen from 600,000 in the mid-1940s to 13 million today; since the population of the country has about doubled, the increase in diabetes is about 10 times.
- * the average value of SAT scores started to decline in 1963 and is still declining today.
- * the number of children in special education classes -- representing the incidence of dyslexia/hyperactivity/ attention-deficit syndrome -- has risen from zero in the 1950s to about 1 million today. About 10 million U.S. children are thought to be dyslexic.
- * Other types of pathology in the United States show a similar pattern of rapid growth since the 1950s or 1960s.:

- * obesity
- * suicide (especially among children and adolescents)
- * sexual disorders (homosexuality, bisexuality, sexual crimes)
- * eating disorders (bulimia, anorexia)
- * sleep disorders
- * allergies and auto-immune diseases
- * mental retardation
- * alcoholism and drug use

America is a rather sick society. This list of disorders represents a large part of the illness with which physicians and patients must cope today. They have largely replaced the infectious diseases of an earlier generation.

The question to be answered now is whether these conditions are discrete -- i.e., unrelated to one another, or, on the contrary, interrelated.

One body of evidence demonstrating them to be interrelated is provided by criminology. Any criminologist will know that hard-core criminals -- those who keep committing crimes and keep returning to prison (recidivists) suffer from most of the conditions enumerated above. They have very high incidences (much higher than the population at large) of: seizure disorders, dyslexia and hyperactivity, low IQ and mental retardation, autistic features, allergies, tendencies to alcoholism and drug abuse, etc.

Another body of evidence demonstrating them to be interrelated is provided by research connecting these variables together. One can find research associating virtually all of these variables with one another: autism with overweight, homosexuality with allergies, etc. etc.

We are justified in viewing these traits as part of a syndrome, one which is more pronounced in the prison population and less pronounced in the population at large--but a syndrome nonetheless.

What could be the cause of this syndrome? Research indicates that all of these conditions are recognizable as the long-term effects of encephalitis. This has been brought out in Coulter and Fisher's DPT: A Shot in the Dark and, more especially, in Coulter's Vaccination, Social Violence, and Criminality.

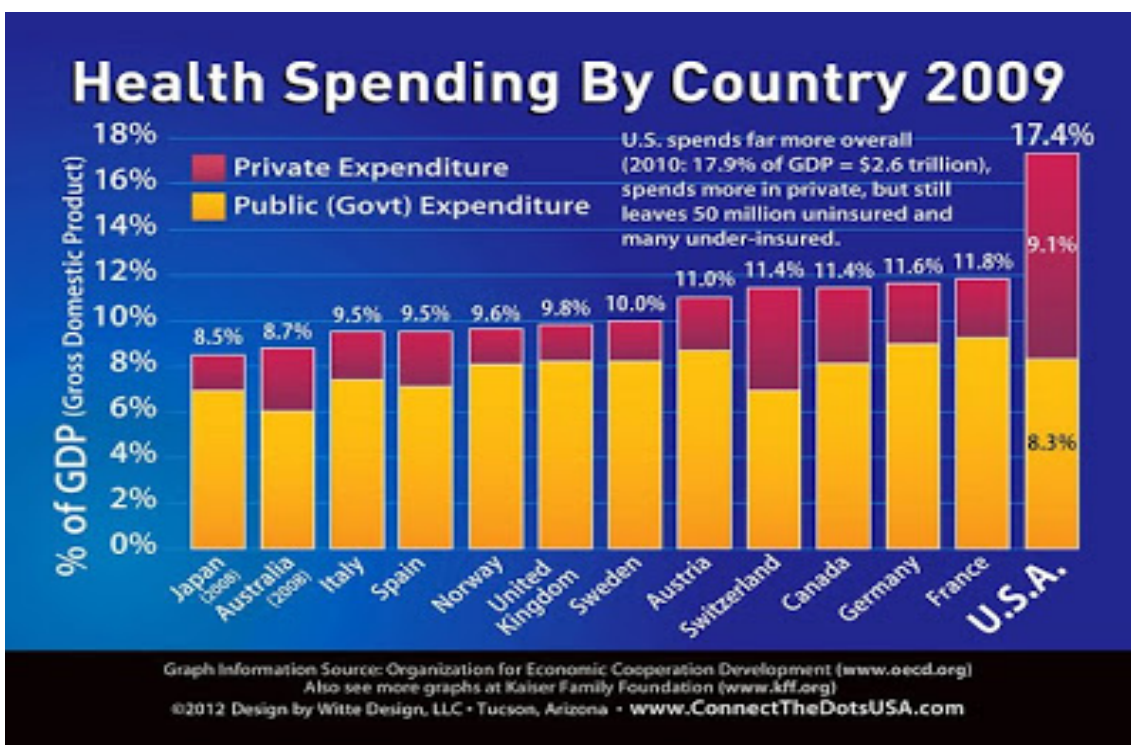

What could be the cause of so much encephalitis in the U.S. population?

The only possible cause is the childhood vaccination program.

The pertussis and measles vaccines are particularly dangerous, but all the vaccines have made a certain contribution.

This is not recognized by the U.S. Public Health authorities, but the dispute between us is only quantitative. Even these authorities have been brought to recognize that the pertussis and measles vaccines can do a certain amount of damage. They recognized that vaccinations can, at times, cause encephalitis (which they call encephalopathy). And they have estimated that 1 child in 100,000 suffers long-term residual effects of childhood vaccinations, but they insist that all others escape without any damage at all. This idea runs counter to the normal medical/biological way of thinking according to which the application of a stress (such as a vaccine) to a large body of individuals will not yield an all-or-nothing response, but rather a graduated one. In other words, at one end of the spectrum you will find a group of seriously damaged children; at the other end there will be a group of children who are apparently not damaged at all. But in between you will find all the gradations of damage ranging from slight to serious.

It is our contention that the varieties of social pathology listed above constitute this body of vaccine damage. *"We have met the enemy and he is us!!"*

Three comments:

1. It is not surprising that the rise started in the 1950s and 1960s. Mass vaccination started after World War II, in the mid-1940s. Discussion of why *"Johnny can't read"* started in the mid-1950s, when this vaccinated generation started going to school, as did the rise in autoimmune diseases. But when this generation came to the age of 18 (1963) and entered the adult statistics, IQs started to decline, the crime rate started to rise, etc. etc.

2. The role of genetics: not everyone suffers equally from a vaccination. This tendency does run in families, however, and would seem to have a genetic component.

3. The black population and urban violence. Black children suffer from a variety of disabilities which makes them much more vulnerable to the effects of vaccination: more than 50% are out-of-wedlock births, meaning no father, an uneducated mother, no funds, no pregnancy care etc. Also more than 50% (75% ?) are premature and low birthweight (under 4-5 pounds). This also renders them highly vulnerable to the effects of vaccination.

The author above concludes brain-swelling—**encephalitis—caused by vaccines is damaging not just 1 in every 100,000 but more persons with damages spread out.**

The inability of the average person to handle today's technological world is precisely why I refer to most of us as *sheeple*.

Watching Burke's *Connections* episodes I hadn't seen before, I was hit-by-the-side-of-the-head by an unpleasant American drug Racket reality: British colonization of North America was initially driven by the mind-numbing, drug crop of tobacco--exactly like opium drug exploitation was also done by the British Far East Asian Trading company that even sheeple are vaguely aware of. We like to think America was founded by Puritans seeking religious freedom from bureaucratic tyranny in old Europe--but Hepburn in Part 2 of Farewell, America reminds us that that even this pseudo-Christianity was corrupted by materialistic greed gain. Loot is surely compelling enough for Type A 25%er psycho-sociopathic personalities to do desperate things like colonizing a new world, but for the Type B personality sheepleton, mind-numbing and altering drugs is what they will pay high dollars for--creating a cash crop that other desperate sheeple will risk all to farm like slaves to obtain it--be it in Afghanistan today where the Pathocrats hypocritically embrace it for profits and to murder-off sheeple they see as weak or Maryland in the 1750s as Burke depicts in the *Connections* 3 episode: "*An Invisible Object*";

"Another amazing new indulgence up which Catherine [de Medici] is also probably the first used tobacco because Catherine has always suffered from migraines but in one form tobacco is supposed to be good for migraines--snuff. Anyway, in no time at all, smoking tobacco is the cure-all for everything: toothache, flatulence, sores, pregnancy pains, itching, halitosis, tetanus and believe it or not--a bad cough. Now the great news for the governments of Europe is the new commodity is apparently **addictive**--so you just know what's going to happen next: **colonies where you can grow the stuff, ship it back as a state monopoly and watch the money roll in.** By the 17th century, the English have found just a place to grow their new **drug**: America and in particular Maryland America. Most of the immigrants "*getting off the boat*" in America in the 17th century are single, young man with no jobs back home in England--where life has been real fun. I mean, you mention out loud words like "*freedom of movement*", "*religious tolerance*", "*justice for all*", "*a chance to get ahead in life*" and you can find yourself getting taken seriously--and **hanged**. So the next word that floats your mind is "*transatlantic*"--but where? New England is posting no vacancies, the Barbados plantation owners all he wants slaves--which leaves places like this: historic Saint Mary's city in Maryland. The only place for a fellow with no resume' to make-a-buck. **All you need is a case of severe desperation and a hoe to clear weeds, a few seeds, a lot of luck--and 18 hour days. All you do is plant & crop and move on--living in one-room, wooden huts. You sleep on the floor, eat meat and vegetable stew and cornbread--and drink booze [ED: another drug, alcohol]. And that is all you do: night & day, summer & winter--until you die--at around age 45.** So where are we? Titon, great portrait painter, goes to Augsburg--home of great jewelry were a goldsmith helps King Henry of France make enough money to pay for his wife's dinner parties where they first smoke tobacco that the English eventually get from Maryland where

they set up a tobacco-growing colony where colonists get to work themselves into an early grave...well back then, **life is pretty nasty--except for the people at the other end of this economic process"**

However, man was not made by God to artificially happy-fy (happify) himself by drugs--this is clearly a perversion of handed-down or acquired technology first seen with Noah growing grapes, letting them ferment and making wine which can in moderation numb one or in excess make you drunk, out-of-control and open to demonic possession. Before the fall of mankind and creation into sin-error, it appears there was no decay on Planet Earth nor degraded human minds needing stimulus to be happy. Could fermented wine even be made in the pre-fall, Garden of Eden where there was no biological death and entropic inefficiency? Clearly, **man is supposed to be happy by action-adventure: colonization of the Earth--and by implication other planets---stimulating his quick intellect and creating adrenaline-endorphins and by sexually loving his women to create orgasmic euphoria and multiple offspring.** That--is how we are supposed to be happy--by external, objective reality interaction--not by illegimately faking it by forcing drugs into our bodies in subjective introverted fantasies. Even sports are a semi-fraud as they create action-adventure euphoria but without doing any tangible societal-progressing work. Amateur sports as a character-building activity in schools so students later go on to actual action-adventure enterprises is beneficial; paid sports for-entertainment/delusion-of-the-sheep are not. Sadly, America was born as a drug nation with mind-numbing tobacco and today the majority of its sheep are addicted to it and more severe, mind-altering drugs and an electronic euphoric device--the TV. As time went on and the character-building aspects of colonization and westward expansion, external-reality-interaction gave way to stagnant city dwelling and more & more drug taking, the nation's character has gone-to-shit. What America needs to do--as well as the world--is to colonize space

as we were meant to do to be happy in a healthy, action-adventure, family-creating, genuinely heroic way. "*Little Space Capsule on the Martian Prairie*"--but with DaVinci-like, Yankee Ingenuity so its not a petty back-stabbing soap opera is outer space. It will take the leadership of 35%er high-minded men to make this happen.

America's Economic Drivers

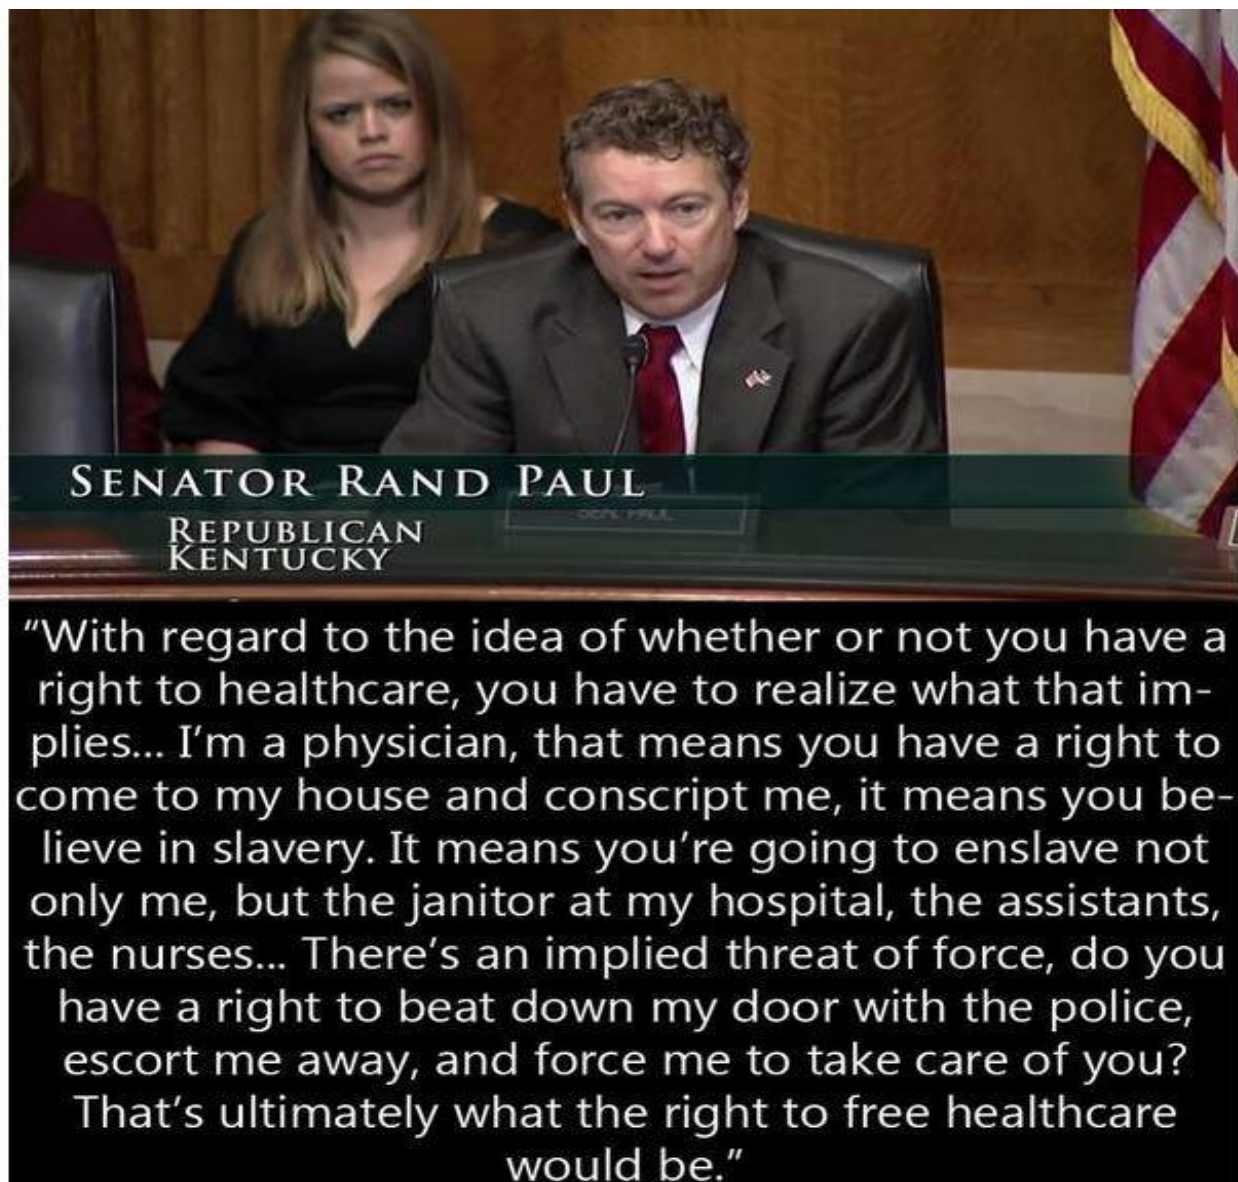

Rural Societies

1700-1800 Tobacco Drug Farming
1800-1900 Cotton Clothing Farming

Urban Societies

1900-1970 Oil Based-Manufacturing
1970-Today Oil-based Service to eachother (consumerism)

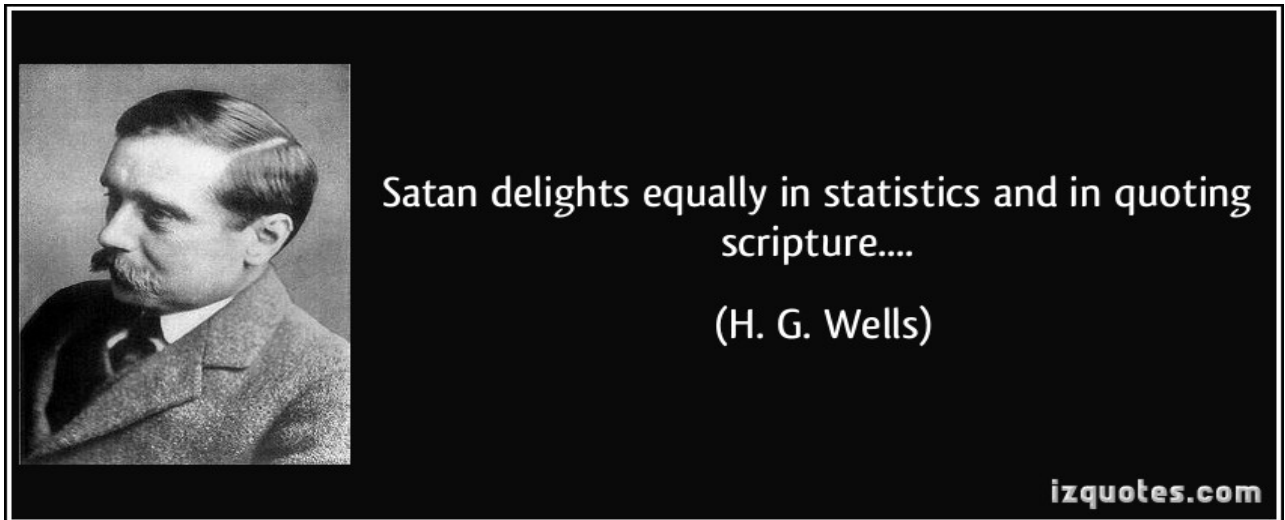

The only thing that will make an uninspired sheeple to colonize be it landing on America from the Old World or crossing the frontier to the West Coast is cash crop loot of some kind--tobacco drugs, gold/silver mining, buffalo hunting, or oil well drilling. Its not a pretty picture. Subsistence farming as depicted in Laura Ingalls Wilder's Little House on the Prairie books and TV show doesn't get one's penis erect if your mind is not engaged with technological creativity but wants instead a quick high. The best episode of the Michael Landon TV series was the last--in it, the town is bought up by an evil corporation exploiting a rich man's trick legal technicality--so the townspeople who built the town and should by all standards of decency own it--blow it up with dynamite. An important warning is given redeeming the years of portraying low-life, naive sheeplehood as virtue.

"With regard to the idea of whether or not you have a right to healthcare, you have to realize what that implies... I'm a physician, that means you have a right to come to my house and conscript me, it means you believe in slavery. It means you're going to enslave not only me, but the janitor at my hospital, the assistants, the nurses... There's an implied threat of force, do you have a right to beat down my door with the police, escort me away, and force me to take care of you? That's ultimately what the right to free healthcare would be."

So much for Republican POTUS candidate Rand Paul's concern for the sheeple's physical health. At least he opposes USG police-state surveillance. To an actual decent governmental leader, the PEOPLE are the nation's #1 "resource" and reason to exist. Fuk-you, pull-yourself-up-by-your-own-boot-straps when you are sick and can't work, doesn't "work". The elites want more Americans dying than the current 1 million each year because 2 million are being born. Until we remove the 1%er psychosociopaths from USG power America is being steered to their intended destruction. Did some "*stormtrooper bust his door down*" when he became a doctor and took the Hippocratic Oath to serve mankind unselfishly? Just checkin.

Is AMCE Even a Christian Concept?

The actual Biblical Christian concept is that all men are born with a defective sin nature--but still have GREAT intrinsic value. Man is a "*Killer Angel*" as Michael Schaara wrote in his masterpiece by the same name. This is not to say that the operative "*Christian*" concept is actually Christian ie; Biblical. The sad truth is a false Christian selfish, materialistic mentality has been in effect in America from the very beginning. Please read in it entirety the following:

"It is a mistake to look too far ahead. Only one link in the chain of destiny can be handled at one time."

--WINSTON CHURCHILL

2. Legacy

"The worst fault of a highly-intelligent sovereign is to impose tasks on his subjects which are beyond their forces, for his aims go far beyond what they are capable of doing and, when he is in charge of an undertaking, he thinks he can foresee its consequences. His administration is therefore fatal to the people. The Prophet himself has

said, 'Pattern your step on that of the weakest among you. Too great an intellect is a burden for the people.'

--IBN KHALDOUN

Americans are the sons of Calvin. John Calvin preached that the **pursuit of wealth and the preservation of property** is [ED: somehow] a Christian duty. He taught that the temptations of the flesh demand a discipline as strict as that of the military profession. *"He created an ideal type of man theretofore unknown to both religion and society, who was neither a humanist nor an ascetic, but a businessman living in the fear of God."* (1)

Two centuries later, this new type of man came under the influence of John Wesley. (2) *"We exhort all Christians to **amass as much wealth as they can**, and to preserve as much as they can; in other words, to enrich themselves."* For President Madison, *"**The American political system was founded on the natural inequality of men.**"* Correlatively, the moral philosophy of the United States is based on [ED: material] success.

At the end of the Eighteenth Century a Frenchman, the Chevalier de Beaujour, wrote on his return from North America, *"**The American loses no opportunity to acquire wealth.** Gain is the subject of all his conversations, and the motive for all his actions. Thus, there is perhaps no civilized nation in the world where there is less generosity in the sentiments, less elevation of soul and of mind, less of those pleasant and glittering illusions that constitute the charm or the consolation of life. Here, everything is weighed, calculated and sacrificed to **self-interest.**"*

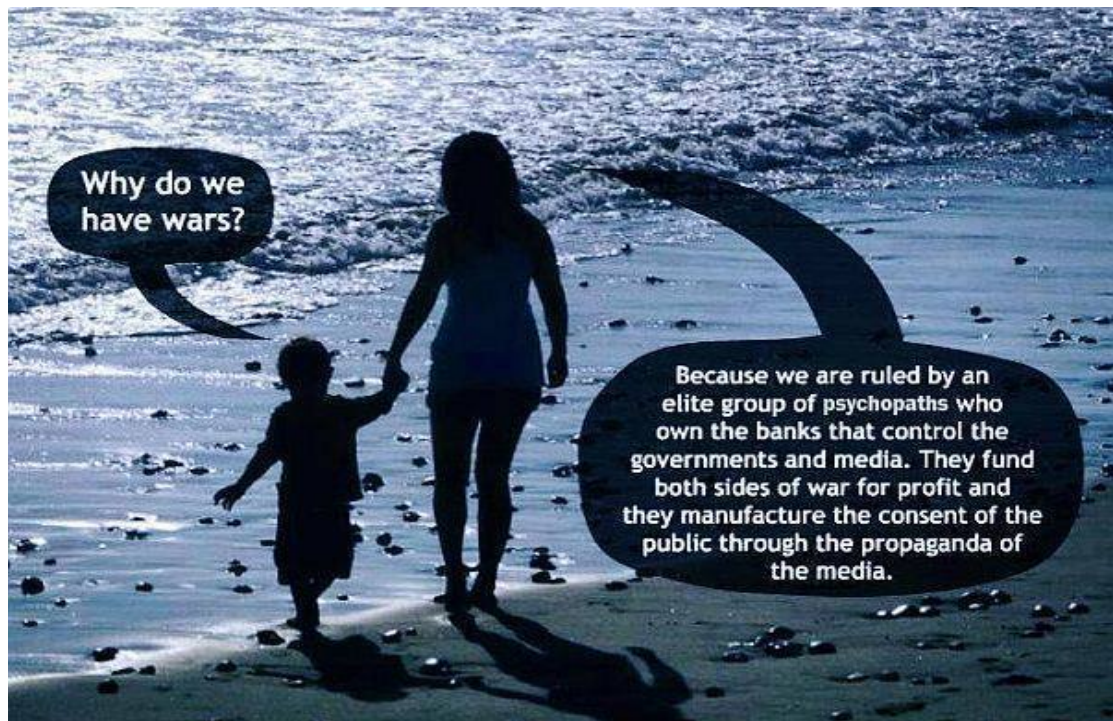

Another Frenchman, the Baron de Montlezun, added, *"In this country, more than any other, esteem is based on **wealth**. Talent is trampled underfoot. How much is this man worth? they ask. Not much? He is despised. One hundred thousand crowns? The knees flex, the incense burns, and the once-bankrupt merchant is revered like a god."*

The British went even farther than the French. *"They are escaped convicts. His Majesty is fortunate to be rid of such rabble. Their **true God is power.**"* (3)

In an introduction to a series of articles by historian Andrew Sinclair, the Sunday Times wrote in 1967, *"In the five centuries since Columbus discovered the New World, savagery has been part of American life. There has been the violence of conquest and resistance, the violence of racial difference, the violence of civil war, the violence of bandits and gangsters, the violence of lynch law, all set against the violence of the wilderness and the city."*

The opinion of these Europeans is subject to question, but George Washington, speaking of the future of American civilization, commented that he would not be surprised by any disaster that might occur.

The disasters began as triumphs. The conquest of the West, the rise of the merchants, the industrial revolutions were America's great crusades, and from them were issued her Titans and her gods. Every civilization has its ideal man. an archetype that stands as a model for the average citizen. Athens chose the philosopher and the artist; for the Jews, it was the law-giving prophet; for Rome, the soldier-administrator; for China, the learned Mandarin; for England, the empire builder; for Japan and German, the professional soldier; for India, the ascetic. For the United States, it was the **businessman!**

While other nations might have chosen wisdom, beauty, saintliness, military glory, bravery or asceticism as their popular divinities, the United States chose the civilization of **gain**. The true gods and the only Titans of America were Jay Gould, Daniel Drew, Jay Cooke, Andrew Carnegie, Charles T. Yerkes, Solomon Guggenheim and Irene Du Pont.

Some of these men, like J. Pierpont Morgan, became gay, high-living nabobs. But most, like Henry Ford, were frugal and dreary puritans. All of them, even the most devout, even the most devoted, even the most sincere, had one thing in common: where business was concerned, they were tough. The churches approved of this attitude. In his book Heroes of Progress, the Reverend McClinock wrote:

"May he long enjoy the fruits of his work and promote the reign of Christ on this earth, not only through the Christian use of the vast fortune with which God has favored him, but through the living example of his active and peaceful piety." He was referring to Daniel Drew, who cheated his associates, bribed municipal governments, and took advantage of the credulity of the people.

The first American giants -- **Rockefeller**, Vanderbilt, McKay, McCoy -- whether they were oilmen, shipowners, prospectors or livestock dealers, made or consolidated their fortunes by smuggling arms and supplies during the Civil War. Today's Titans are often college graduates. Some are affable and well-bred. They constitute an **oligarchy of directorial bureaucrats** who, while lacking the personal fortunes of the old Titans, have preserved their power and conserved their practices. For them, and it is true, profit is *"the remuneration of a decision made in conditions of uncertainty."* (4) But this equation has become the basis for a **moral philosophy that takes neither the nation nor the individual into account**.

"Men who spend every weekday making money, and every Sunday at the Temple, are not made to inspire the muse of Comedy," wrote Alexandre de Tocqueville, and he was correct. The standards of American society have been raised to untouchability. The dollar remains the criterion of worth and success. Money is the only real measure of human beings and things, and American society, while classless, is nothing more than a graph of economic levels. (5) *"That which a people honors most becomes the object of its cult,"* wrote Plato. This is a democratic notion in so far as it offers everyone a chance, or at least appears to, but its rigidity leaves room for all kinds of excesses.

In other times and on other continents, these Titans would have been, if not scorned, at least gauged by their relative worth. But the Titans have become the pride of every American citizen. In no other society is the cult of the successful man so strong, and it is unwise to disregard it. *"America*

has been built by individual effort and a recognition of individual responsibility . . . Government may guide and help its citizens, but it cannot supply talent to those who do not have it, or bestow ambition or creative ability on those who are not born with these qualities." (6)

This morality demands the tolerance or the complicity of those who hold political power: Congress and the President.

Theodore and Franklin Roosevelt were accidents along the way, deviates from the American mythology. An American who enters politics for unselfish reasons is regarded with suspicion. His attitude can only conceal a lust for power or a senseless and dangerous devotion to the "*public welfare*." Politics and the public welfare have little in common, and the activities of a politician are not considered normal or comprehensible unless they are pursued for selfish and material gain. President Jackson was condemned in 1831 by Vincenne's Gazette in these terms: "*Ambition is his crime, and it will be his undoing.*"

Harold Laski has written that "*a strong President is a moral threat*" to all those who have toiled to build an American society whose prosperity is based on initiative, energy and efficiency, but also on what Europeans call corruption, an additional arm made available to those whose sole motivation is profit. America, wrote George Washington, is a country where political offices bear no proportion to those who seek them.

America accepted Franklin D. Roosevelt only because she had no other alternative. She found herself again in Harry Truman, a solid citizen with no perverse ambitions who declared that "*the combined thought and action of a people always lead in the right direction.*" (7) Eisenhower was the ideal President. A victorious commander, he dazzled the crowds. Inconsistent, he had no dangerous political philosophy. A petty bourgeois, he dared not oppose the Titans.

And suddenly Kennedy appeared, the first President born in this century, a millionaire, a liberal, and an intellectual. The Democratic candidate nevertheless made no attempt to conceal his aims.

*"In the decade that lies ahead -- in the challenging revolutionary sixties -- the American Presidency will demand more than ringing manifestoes issued from the rear of the battle. It will demand that the President place himself in the very thick of the fight, that he care passionately about the fate of the people he leads, that he be willing to **serve them** at the risk of incurring their momentary displeasure."*

"We stand today at the edge of a New Frontier -- the frontier of the 1960's -- a frontier of unknown opportunities and perils -a frontier of unfulfilled hopes and threats." (8)

"Woodrow Wilson's New Freedom promised our nation a new political and economic framework. Franklin Roosevelt's New Deal promised security and succor to those in need. But the New Frontier of which I speak is not a set of promises -- it is a set of challenges. It sums up, not what I intend to offer the American people, but what I intend to ask of them. It appeals to their pride, not their pocketbook -- it holds out the promise of more sacrifice instead of more security . . ." (9)

"The Scriptures tell of a time when there were giants on the earth, and that is what our country needs today. This is not the time for futilities. This is not the time for petty complaints and half-measures. This is the time for men of action, not men of words -- this is the time for giant hearts, not faint hearts . . ." (10)

"We have no time for complacency, timidity, or doubt. This is a time for courage and action." (11)

"The old era has ended. The old ways will not do." (12)

It was all so beautiful, so unreal, that no one believed it. They even admired his inscrutability, his ingenuity in using a metaphor borrowed from American folklore, from the myth of the West, to mask a demagoguery that was all the more inoffensive because it seemed credible. Others, more cunning, grew concerned when, in West Virginia, under the low roofs of a forgotten America, the Senator from Massachusetts spoke to the abandoned miners, to the unemployed, to the families vegetating in the hills. America began to ask herself if Kennedy was speaking seriously when **he bent towards the little people and the forgotten.**

Kennedy's socialism aimed at enriching the poor rather than impoverishing the rich, but it was dangerous nevertheless. For one hundred million Americans, **the gravest danger, after bankruptcy, is that those just behind may catch up with them.** The nouveaux rich are only rich so long as no one grows richer. The **have-nots live in constant fear of the down-and-outs**, and the hate and fear of the little Puerto Rican for New York are really no more than the hate and fear of half of New York for the little Puerto Rican.

Millions of Americans have risen from the proletariat to the middle class with insufficient intellectual means. They or their sons want to continue to climb the ladder of society. This new American bourgeoisie, which has risen by its own toil, works less today and lives better, and pays less taxes. It claims to be descended from the Pilgrim Fathers, but its origins go back to the washing machine. The Great Society is essentially sectarian and violent. Its mottoes are *"each man for himself," "it's none of their business"* and *"woe to the vanquished."*

Today's American is at the mercy of his anxieties. The United States has grown so wealthy that she has lost touch with the rest of the world. America is neither here nor there, be it a question of power or of weakness. **She no longer knows what is happening on this earth.** Her universe exists in the third person.

The difference continues to widen between the American radicalism of the Thirties and the radicalism of today, whose ethical basis is possession. True, this basis can be traced far back into the American past, and finds its theme song in the ballads of the Far West, where men killed for a horse or a bottle of beer. But Jeffersonian tradition placed, or restored, human values above real estate values.

Hemingway's Americans saw the Spanish Civil War as a struggle for the preservation of spiritual as opposed to material values: the power of the Church, the domination of the Army, and the wealth of the big landowners. They were in sympathy with the other Spain, although to all appearances it was Red. But today, when a majority of Americans are landowners, what other insurgents scattered throughout the earth still have the sympathy, or at least the comprehension, of a sufficient number of Americans, of the men who nevertheless trace their origins back to the revolutionaries of the Thirteen States of the Union? And let no man be mistaken about the struggle for civil rights. The Negroes too want to become **landowners**.

America is no longer a young nation. There is New York, of course, superlatively demanding, offering, in the absurd and the sordid, the crude atmosphere of youth and folly of a town in search of its identity. Its culture is centered on the Jew and the Negro. It is a young city, but it is not an American city. It rejects the provincialism, the racism, the folklore, the religion, and the superpatriotism of the ordinary small town, whose preoccupations are diametrically opposed to the policies of any progressive and imaginative government.

Imagination itself has become "*un-American*." It is accepted, but with fear and distrust, when it embellishes a concrete experience, the story of how a fortune was made or a victory won. But where it exists solely for itself, when it becomes a culture or a dialectic, it is no longer tolerated. "*Americans are insensitive to philosophical ideas. They need something tangible, something concrete, something that has been acted on the stage. Acted, that is, seen and felt. What is said is not important. We are not impressed by explanations, and verbal play leaves us indifferent. What we want is action.*" (13)

It was to men without imagination that Kennedy addressed these words:

"Now the trumpet summons us again -- not as a call to bear arms, though arms we need -- not as a call to battle, though embattled are -- but a call to bear the burden of a long twilight struggle . . ."

The message got through, but there was something suspicious about the style. Culture is a major threat to modern American society. A society fears its deserters more than its enemies, and in its mind intelligence is too often equated with leftism. Kennedy said, *"Our nation cannot allow itself to be economically rich and intellectually poor."* And Steinbeck added, *"What a joy that literacy is no longer prima facie evidence of treason."*

But a portion of American society instinctively understood that Kennedy was declaring war on its own. *"High society,"* like the middle classes, felt only suspicion or dislike for his university professors. The American upper crust tries in so far as possible to preserve itself in a superb state of ignorance. For these people, brilliant men like Theodore C. Sorensen or Adlai E. Stevenson, the kind of men who are too poor to leave big tips and too proud to accept them, are intruders in a **society that places no value on pure intellect**, or accepts it only when it occurs in one of its sons.

Non-Specific Redress of Grievances by Controlled Opposition? *"We're protesting! We're Not Rich! Waaa!"*

These well-to-do, these **profiteers, these weaklings** [ED: 25%ers & 40%ers] , and these simple people had one thing in common: their fear of everything that Kennedy represented. His principal fault was that he was not like them. **He did not share their desires and their complacency, their weaknesses and their intolerance.** These citizens of the Twentieth Century had no conception of the responsibilities of a President whose role, in reality, is that of viceroy of the universe.

The United States has never faced the irreparable. She has never even experienced a catastrophe. She has known no Roman domination, no barbarian invasion, no feudal wars, no massive bloodbaths. In consequence, she finds it difficult to accept a dominant leader. On the contrary, she wants a President who is subject to the will of his constituents, and even of his adversaries.

The chances of becoming President of the United States are extremely slight, even for a man in the forefront of public life, and such opportunism is needed that the way is left open for a mediocre but crafty politician who knows how to please. With Eisenhower, the United States was content to spend eight years in an armchair. The intellectual emancipation and the agitation of the new generation succeeded at the beginning of the Sixties

in defeating, by a narrow margin, the advocates of a placid administrator of a complacent nation devoted to the welfare of the majority -- in other words, **corrupt**. It was the strength of his electoral organization that carried Kennedy to victory, with the help, perhaps, of the seasonal favor of an actual minority that suddenly tired of mediocrity or, like a woman, was momentarily seduced.

But, once he was President, Kennedy set out immediately to give the nation a sense of responsibility and of pathos. This was all the more disturbing in that it was abstract, and therefore unfamiliar. How many of the 185 million Americans in 1960 sensed that this man would betray their heritage, the American way of life, the established order?

Often primitive, readily stubborn, and **capable of sudden violence**, **the American character contains dangerous elements** with which men like Jefferson, Lincoln, and Theodore and Franklin D. Roosevelt have had to contend. If, as Machiavelli wrote, men find it easier to forget the loss of their father than that of their patrimony, then *"there is nothing more difficult, more dangerous, than to try to change the order of things."*

Hepburn has unintentionally described the 25%er psycho-sociopaths who are rich and the 40%er sheeple who want to be rich. When he talks about Jeffersonian values of treating people as equals this goes against the snobby desire of the 65% to denigrate life into a war for materialistic supremacy. Kennedy's lofty goals which can be embraced equally by all men destroys the snobby pursuit of materialism and social approval. JFK defecated on their god of money--to which I heartily concur.

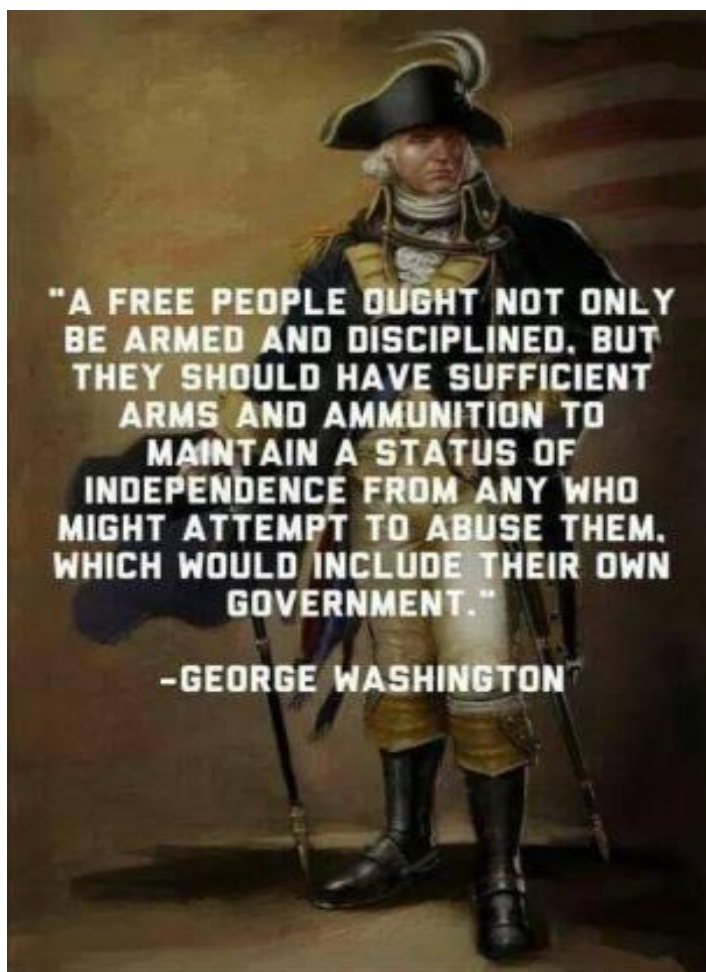

As much as we may admire intellectual egalitarianism, to delude ourselves that men physically and socially are somehow not born unequal and pose dire threats to decency is probably what got JFK killed. Allen Dulles was not a decent man—he was a dangerous psychopath who murdered JFK--and probably FDR before him. Clearly, AMCE is in itself a fundamental Enlightenment lie since all men are not created tangibly equal in physical attributes and some are dangerously defective without consciences. Coupled immediately afterwards with a LLPH behavioral blank check, this is a fatal recipe for geosocial disaster proven out in American history.

I am not saying that all 25% psycho-sociopaths should be rounded up and excuted French Revolutionary-style. And not just because we can't trust anyone to accurately ascertain who are the evil ones--but because fairness and decency demands that the law view everyone as a blank slate unless they actually commit some real crimes--which doesn't mean some BS bureaucratic Machiavellian infraction or "*pretended offenses*" as the ADI condemns. The ADI lists a bunch of bureaucratic infractions conjured up by the evil elites in England that look eerily similar to the BS being done to us today.

For examples of infractionism conjured up by psycho-sociopaths, consider that if you run a business in Georgia and sign-up to pay sale tax in good faith but if you fail to inform the state that one month you didn't have any sales--they think they are somehow justified to fine you \$50 because god forbid, **you didn't kiss their ass with a report**. Sales taxes should be paid

for actual sales--not for refusing to ass kiss some bureaucrat with a report to make it appear he is busy.

The Veteran's Administration (VA) tells us veterans that if we have an injury after regular 9-to-5 business hours to go to the nearest available ER and they will pay for it. When I did this, the assholes in the local VA claimed that since I hadn't been in to see them and participate as a cattle-like victim in over 2 years they don't feel they have to pay my (over-charged ie; medical Racketeering) ER bill of \$730 for fixing a gash on my forehead wth superglue and a tetanus shot at 1 o'clock in the morning.

The Obama administration thinking itself sly has gone after ammunition supplies by using tax dollars (fiat printed money) to buy all the ammo from shelves creating artificial scarcity to in spirit and deed undermine American 2nd Amendment rights

These are both examples of the evil Machiavellian dirty trick of concocting infractions by both federal and state governments usurping powers they are not entitled to—namely to order around business owners and veterans like tyrants. This is all about dictatorial control—having the veteran constantly submit himself to needless visits to the local VA where they can then pry into his life to find some excuse to label him “*mentally whatever*” to rob him of his 2nd Amendment right to be able to defend himself with guns to a fund-raising excuse by the state to shake-down businesses for more cash to run the police state or bog down owners with as much bureaucratic red tape as possible so he/she cannot have a successful business that could rival and threaten Illuminati businesses who by defecating on people for decades have tons of money to have finance people on the pay roll to waste their time feeding the State sales tax Racket with reports. **Infractionism** is Hivesters forcing decent people of conscience to become sheeple to their evil scams.

The point here is that while the law should fairly look at everyone equally until proven in court otherwise—does not mean we should delude ourselves that all men actually are equal when they damn well are not and that some are dangerously defective. As an operative philosophy and essential safeguard we should be always aware that 1 out of every 4 persons is an asshole. Moreover, what I am saying as shown by the VA and Georgia State dirty tricks is that our government **SHOULD NOT LET PSYCHO-SOCIOPATHS INTO POWER POSITIONS OF OUR SOCIETY.** This is not denying them a blank check for LLPH--as individuals—but to create safeguards so they can't corrupt our social fabric institutions. IMHO, **no psycho-sociopath should be allowed to be any kind of USG employee excepting 2 years of national service or allowed to run for elected office. Psycho-sociopaths should not be allowed to run any large business with over 10 employees.**

The American DCI's mentality that we should view all men as equals even though 1/4th are dangerous psycho-

sociopaths and let them run amok amongst our society is a dangerous lie that has ruined our country.

lipstickalley.com/showthread.php/873570-Dead-Woman-Has-Her-Corpse-SLASHED-and-Breasts-and-Toe-Removed-by-a-Romantic-Rival

Shayna Sims happy...seems “normal”

Here a beautiful woman reveals herself to be a psycho-sociopath--Shaynna Sims, 26, cut-off the breasts and toe of her DEAD romantic rival. Police say Sims used a folding knife to cut the deceased woman's face from hairline to nose tip at Moore Funeral Home in Tulsa, Oklahoma. The dead woman's family identified her as Tabatha, a 38-year-old insurance adjuster and mother of four who passed away from natural causes April 29.

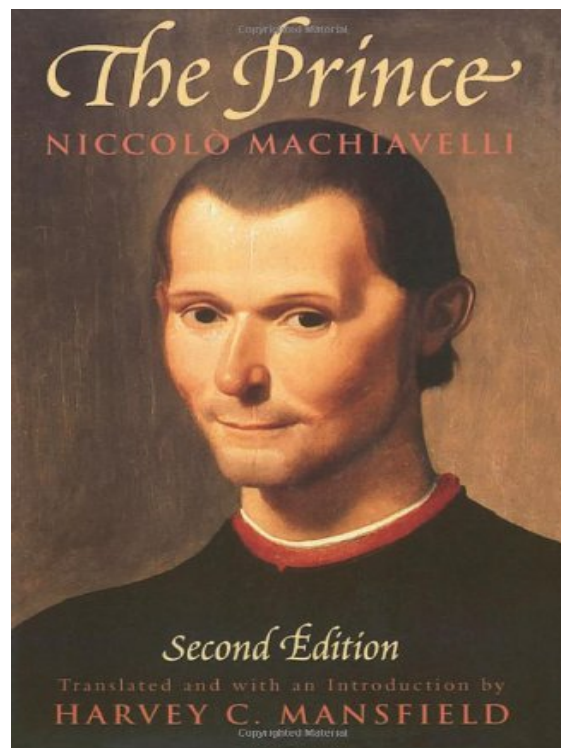

Shayna looking not so decent...

Tabatha's breasts and toe were removed by Shayna before her body was cremated

The above is visual proof that even people that look decent may not be. Even beautiful women. I'll try to remember that. If you want to see a man who looks like a psycho-sociopathic weasel, behold; Machiavelli.

The BBC Documentary on Machiavelli--who was a good faith bureaucrat but was betrayed, imprisoned and tortured leading him to write his infamous Illuminati guide for psycho-sociopaths to better demagog over the sheeple, "*The Prince*":

Who is Afraid of Machiavelli?

[youtube.com/watch?v=Mqj2z1-Hqu4](https://www.youtube.com/watch?v=Mqj2z1-Hqu4)

What is a Hive?

Hive: Sheeple tolerating multiple societal destructive Rackets because they collectively provide a short-term, comfortable social, political, military and economic womb.

The 1776 ADI lays the foundation of America as a well-intentioned governmental system that unfortunately ignored the 1/4th-of-all-humans-psycho-sociopathic reality whose criminality degenerated the entire nation into immoral materialism embraced additionally by the 40% apathetic majority that by the time of Hepburn in 1967 had created a Hive intolerant of money-less pursuits, talent, intellectual creativity and moral

decency that murdered its benevolent philosopher-president John F. Kennedy (JFK). Continued murders of his brother, Robert (RFK) and black sub-societal leader, Martin Luther King (MLK) further established the supremacy of the American GeoHive trampling under foot all decency in favor of economic expediency and the sheeple's TV & drugs false, delusional tranquility. Frank Capra's bankster Potter nightmare 1946 warning in *"It's a Wonderful Life"* has become the American Hive reality.

Rockefeller Illuminati oil created potentially a petroKINETIC society of thinker-doers that they knew had to be mentally diverted by vain materialistic urges using Bernays' public relations psychological dirty tricks via billboards, newspapers and radio. While making them immensely rich, they could be over-thrown if the sheeple were to properly direct their petroKINETIC powers as WW2 stunned them of what the *"George Bailey"* amateurs could do if allowed into power positions.

A change was needed to insure Illuminati propaganda was daily piped into every AmeroHive home more powerful than just the audio of radio which does not demand one's undivided attention hence people can kinetically multi-task as they listen—today's audio books continue this tradition. You can drive your car, clean your house as you listen to James Bond match wits against his father figure Goldfinger. What the Illuminati needed was the movie cinema in every American home to capture their undivided attention and stop all kinetic movements—they got their wish in spades with TV.

Reading through past issues of Popular Mechanics for technical insights and ideas before their time for military excellence, a disturbing truth is revealed: in 1944 as WW2 raged, the **American sheeple were completely aware of what TV was and plans were underway for its mass embrace** as a sort of reward for winning the war. You can even see clever circular moving studio sets to shoot TV shows under

consideration. This reality flies in the face of sheeple convention that TV was a “*new*” surprise in the 1950s.

Controversial documentarian Chris Everard makes many important, ground-breaking videos but has a bad way of offering them to the public with a clunky pay-for-view web site. When you can see one of his leaked documentaries you are in for a terrifying, disturbing ride. He reveals in “*Spirit World 1*” that TV is far from an innocent signal conveyance—the men who created TV; Sir William Crooks and John Logie Baird did so in order to communicate with spirits based on occultism. We know these to be fallen angels or demons that absolutely hate mankind. However, Secularism absurdly preaches only the scientifically verifiable is what ever happens in life but fortunately it’s a slam-dunk that watching TV puts the viewer into an altered state of consciousness—hypnosis. However, the electroDELUSIONAL effect on AmeroSheeple by television is greater than the sum of its scientifically-verified, hypnotic parts which makes it likely that the Illuminati are also piping in Satanic curses and incantations along with ostensibly sound and light to hex all who watch.

Watching Everard document how TV was born for occult reasons will force you to rethink its very validity.

Chapter 2: Who Built the American GeoHive?

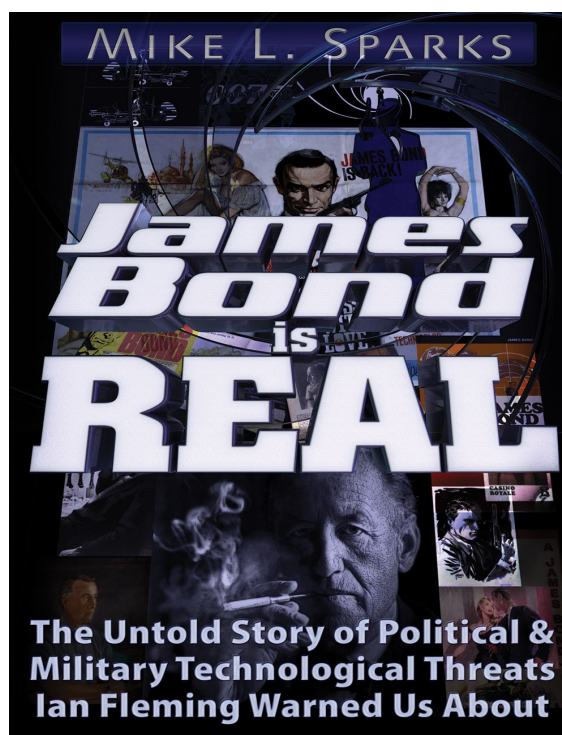

Short answer is American psycho-sociopaths beginning at the turn of the 20th century with these criminals using Edward Bernays' propaganda to effect public relations operant control of the masses by their urges. "*GeoHive*" refers to it being global in its cultural, political and military reach.

Now the Long answer.

We are not fighting a static enemy. America began with Enlightenment delusions as a farming society in 1776. As technological means improved to harness the powers of nature to drive machines, the psycho-sociopaths used mechanization of society into cities from family farms to enslave the sheeple while using their technoslave labor to keep the machines working to enrich themselves. In my opinion, America did not

become a “*Hive*” until the Industrial Age because while still living on a farm, men and women still had time to think about the evils going on and combat them. The current American Hive was created by the Rockefeller Illuminati to be dependent upon their oil and war profiteering through the stock market aka Wall Street. The Rockefeller and rival Rothschild Illuminatis created the German military threats in both world wars 1 and 2 as detailed in my book, James Bond is REAL: The Untold Story of Political & Technological Threats Ian Fleming Warned Us About in 2009: jamesbondisforreal.com

The IllumiNazis as you can rightly call them since they created Hitler and his political party as a Hegelian counterweight to the Rothschild's Russian communism--have been learning as time goes on, picking-off key elements of societal protection within the 1787 U.S. Constitution such that we are in a completely Racket cancer-ridden Hive today that Chris Hedges and others think can only be destroyed and started over. I think with strong anti-cancer medicine like forced carrot juice in a person's body, we can bring the Hive back from a self-destructive end. In stark contrast, as the IllumiNazis have picked-off protections, the sheeple sedated by the

Bernays feel-good delusions have not even noticed let alone learned. Here is a timeline of what seems to have happened—the psycho-sociopathic fingerprints are readily apparent:

Chronology of American Hive Construction

Action	Consequence
1869: Corporations viewed as persons	No social responsibility
1913: Direct Election of Senators	No State government oversight of temporary senators
1913: Federal Income Tax	No State veto of Federal government actions
1913: Banks Printing USG Paper \$	Illuminati controls \$ supply
1945: Disbandment of OSS	No citizens participation intel agency vs. fascism
1947: National Security Act	Creating of Nazi CIA, egomaniacal USMC/USAF to ruin war-fighting, no more Citizen-Soldier leaders

1950s: Television	Hypnotize the sheeple into endless consumer spending driven by decade-ending <i>zeitgeist</i> switches
1963: JFK Assassination	Ability to reality fraud American sheeple verified
1968: RFK-MLK Assassinations	Create angry hedonistic gangster black sub-class;
1969: Feminism	Women having to work corporations pay men less, neglected kids without love
1969: All Volunteer Force	No more adults in USMIL; no draftees to protest Wall Street wars like anti-war movement squashed Vietnam occupation Racket
1973: Watergate	Buy all newspapers and TV stations, end investigative journalism
1980s-90s: Out-Sourcing	Destruction of most industrial production so sheeple barely exist in service jobs
2001: False Flag 9/11 Attacks	Moral panic creates police surveillance state; ability to CGI reality fraud sheeple verified, endless Wall Street wars
2009: Obamacare Insurance	Destroy middle class so no one has any money or time to fight Illuminati anywhere
20??: Incompetent USMIL Defeat	Complete removal of Soldiers doing any fighting, mere technicians keeping robots functioning

NATO Round Table Meeting: The Real Deals are Made in Secret

If you think this is mere conjecture, read the leaked Illuminati document, *Silent Weapons for Quiet Wars: An Introduction Programming Manual*. ([SWFQW](#)) CIA Operations Research Technical Manual TW-SW7905.1. This document represents the doctrine adopted by the Policy Committee of the Bilderburg Group during its first known meeting in **1954**. The document, dated May **1979**, was found on July 7, 1986 in an IBM copier that had been purchased at a surplus sale and discovered inside details of a plan, hatched in the embryonic days of the "*Cold War*" which called for control of the masses through manipulation of industry, peoples' pastimes, education and political leanings. It called for a quiet revolution, putting brother against brother, and diverting the public's attention from what is really going on. Its based on Rothschild Illuminati economic inductance theories.

lawfulpath.com/ref/sw4qw/index.shtml – *preface*

This horrible document contradicts both the chaos-anarchy and socialism-can't-predict-humans schools of thought by showing mathematically consumer buying trends can be measured and predicted by isolating a shock driver. The current low gas prices of \$2-3/gallon meant to punish Russia and try to make it accept the CIA-instigated fascist regime in the Ukraine is one example.

The most despicable part of SWFQW is below:

“It is patently impossible to discuss social engineering or the automation of a society, i.e., the engineering of social automation systems (silent weapons) on a national or worldwide scale without implying extensive objectives of social control and destruction of human life, i.e., slavery and genocide. This manual is in itself an analog declaration of intent. Such a writing must be secured from public scrutiny. Otherwise, it might be recognized as a technically formal declaration of domestic war. Furthermore, whenever any person or group of persons in a position of great power and without full knowledge and consent of the public, uses such knowledge and methodologies for economic conquest - it must be understood that a state of domestic warfare exists between said person or group of persons and the public.”

Is this not clear *prima facie* proof that the CIA is a bad faith, treasonous bureaucracy working against the U.S. Constitution and the American people and should be immediately disbanded?

Here are the CIA's general principles stated in SWFQW:

Table of Strategies

<u>Do This</u>	<u>To Get This</u>
Keep the public ignorant	Less public organization
Maintain access to control point for feedback	Required reaction to outputs (prices, sales)
Create preoccupation	Lower defense
Attack the family unit	Control the education of the young
Give less cash and more credit and doles	More self-indulgence, more data
Attack the privacy of the church	Destroy faith in this sort of government
Social conformity	Computer programming simplicity
Minimize the tax protest	Maximum economic data, minimum

	enforcement problems
Stabilize the consent	Simplicity coefficients
Tighten control of variables	Simpler computer input data – greater predictability
Establish boundary conditions	Problem simplicity/solutions of differential and difference equations
Proper timing	Less data shift and blurring
Maximize control	Minimum resistance to control
Collapse of currency	Destroy the faith of the American people in each other

On the one hand, while keeping them **confused, disorganized, and distracted with matters of no real importance** on the other hand.

This is achieved by:

* disengaging their minds; **sabotaging their mental activities**; providing a low-quality program of public education in mathematics, logic, systems design and economics; and **discouraging technical creativity**.

* engaging their emotions, increasing their self-indulgence and their indulgence in emotional and physical activities, by unrelenting emotional affrontations and attacks (mental and emotional rape) by way of constant barrage of sex, violence, and wars in the media - especially the T.V. and the newspapers.

* giving them what they desire in excess - *"junk food for thought"* - and depriving them of what they really need.

* rewriting history and law and subjecting the public to the deviant creation, thus being able to shift their thinking from personal needs to highly fabricated outside priorities. These preclude their interest in and discovery of the silent weapons of social automation technology.

The general rule is that there is a profit in confusion; the more confusion, the more profit.

Therefore, the best approach is to create problems and then offer solutions.

Diversion Summary

Media: Keep the adult public attention diverted away from the real social issues, and captivated by matters of no real importance.

Schools: Keep the young public ignorant of real mathematics, real economics, real law, and real history.

Entertainment: Keep the public entertainment below a sixth-grade level.

Work: **Keep the public busy, busy, busy, with no time to think;** back on the farm with the other animals.

Consent, the Primary Victory

A silent weapon system operates upon data obtained from a docile public by legal (but not always lawful) force. Much information is made available to silent weapon systems programmers through the Internal Revenue Service. (See Studies in the Structure of the American Economy for an I.R.S. source list.)

This information consists of the enforced delivery of well-organized data contained in federal and state tax forms, collected, assembled, and submitted by slave labor provided by taxpayers and employers.

Furthermore, **the number of such forms submitted to the I.R.S. is a useful indicator of public consent, an important factor in strategic decision making.** Other data sources are given in the Short List of Inputs.

Consent Coefficients - numerical feedback indicating victory status. Psychological basis: When the government is able to collect tax and **seize private property without just compensation, it is an indication that the public is ripe for surrender and is consenting to enslavement and legal encroachment.** A good and easily quantified indicator of harvest time is the

number of public citizens who pay income tax despite an **obvious lack of reciprocal or honest service from the government.**

Why Do Americans Love Hive Bureaucracy?

“From the time a person leaves its mother’s womb, its every effort is directed towards building, maintaining, and withdrawing into artificial wombs, various sorts of substitute protective devices or shells.

The objective of these artificial wombs is to provide a stable environment for both stable and unstable activity; to provide a shelter for the evolutionary processes of growth and maturity - i.e., survival; to provide security for freedom and to provide defensive protection for offensive activity.

This is equally true of both the general public and the elite. However, there is a definite difference in the way each of these classes go about the solution of problems.”

--SWFQW

Americans worship their nation-state as media fed exceptionalist delusions by the elites and this con excuses their laziness to let some bureaucracy handle life’s circumstances for them. Americans like living in their fascist or quasi-socialist hive. They delude themselves that *“America is the greatest country on Earth”*--while the elites dismantle it into a third world country hell. The speech by the actor Jeff Daniels sums this BS up nicely:

[youtube.com/watch?v=Rpn0vh2Rj0Y](https://www.youtube.com/watch?v=Rpn0vh2Rj0Y)

The irony is Daniels early in his career made another important, legendary speech--about decency--playing egalitarian U.S. Army leader, Colonel Joshua Lawrence Chamberlain in *Gettysburg*. How America has degenerated from the heroes of the 20th Maine mutineers who saved the Union that day on Little Round Top to today’s Millenials who obsess over *“American Idol”* get-rich-quick by BS entertaining is worth pondering about...

What Chamberlain describes is an army in a war fighting for DECENCY—at the behest of a decent man, President Abraham Lincoln who the sheeple today adore--but refuse to

live by his ideals. We will examine his speech at the very end of this book.

American Hivism is classic German psycho-sociopathic, empathy-less, Zero-Sum-Thinking (ZST) fascism described by Bill Clinton's Georgetown Illuminati history-professor Dr. Carroll Quigley in 1965 in Tragedy & Hope:

[youtube.com/watch?v=Ss_sLBOAurU](https://www.youtube.com/watch?v=Ss_sLBOAurU)

*"A second notable carryover from childhood to adult German life was egocentricity. The whole world seems to any child to revolve around it, and **most societies** have provided ways in which the adolescent is **disabused of this error**. The German leaves childhood so abruptly that he rarely learns this fact of the universe, and **spends the rest of his life creating a network of established relationships centering on himself**. Since this is his **aim in life**, he sees no need to make any effort to see anything from any point of view other than his own. The consequence is a most damaging inability to do this. **Each class or group is totally unsympathetic to any point-of-view except the egocentric one of the viewer himself**. His union, his company, his composer, his poet, his party, his neighborhood are **the best**, almost the only acceptable, examples of the class, and **all others must be denigrated**. As part of this process, a German usually chooses for himself his favorite flower, musical composition, beer, club, painting, or opera, and sees little value or merit in any other. Yet at the same time, **he insists that his myopic or narrow-angled vision of the universe must be universalized, because no people are more insistent on the role of the absolute or the universal as the framework of their own egocentricity**. One deplorable consequence of this has been the social animosities rampant in a Germany which has loudly proclaimed its rigid solidarity."*

Sounds like FACEBOOK doesn't it? the BS you'd hear from a red-neck, America-worshipper or a marine doesn't it? It's NAZI BS; un-American snobby crap. We need to get rid of it.

The Young Bill Clinton and Hillary—YES, she was attractive in her youth. However, her psycho-sociopathic self has painted an ugliness upon her body over the years; how many did she and Bill murder when they held the presidency?

Let's see how the CIA's fuck-the-sheep, "*Silent Weapons for Quiet Wars*" manual describes Hive construction based around egocentricity and the desire to have life done for the sheep on autopilot. Emphasis added by **boldfacing**.

It is essential to recognize that at this time, public consent is still an essential key to the release of energy in the process of economic amplification. Therefore, **consent** as an energy release mechanism will now be considered.

Logistics

The successful application of a strategy requires a careful study of inputs, outputs, the strategy connecting the inputs and the outputs, and the available energy sources to fuel the strategy. This study is called logistics.

A logistical problem is studied at the elementary level first, and then levels of greater complexity are studied as a synthesis of elementary factors.

This means that a given system is analyzed, i.e., broken down into its subsystems, and these in turn are analyzed, until by this process, one arrives at the logistical "*atom*," the individual.

This is where the process of synthesis properly begins, at the time of birth of the individual.

The Artificial Womb

From the time a person leaves its mother's womb, its **every effort is directed towards building, maintaining, and withdrawing into artificial wombs, various sorts of substitute protective devices or shells.**

The objective of these artificial wombs is to provide a stable environment for both stable and unstable activity; to provide a shelter for the evolutionary processes of growth and maturity - i.e., survival; to provide security for freedom and to provide defensive protection for offensive activity.

This is equally true of both the general public and the elite. However, there is a definite difference in the way each of these classes go about the solution of problems.

The Political Structure of a Nation - Dependency

The primary reason why the individual citizens of a country create a political structure is a **subconscious wish or desire to perpetuate their own dependency relationship of childhood.**

Simply put, they want a human god to eliminate all risk from their life, pat them on the head, kiss their bruises, put a chicken on every dinner table, clothe their bodies, tuck them into bed at night, and tell them that everything will be alright when they wake up in the morning. This public demand is incredible, so the human god, the politician, meets incredibility with

incredibility by promising the world and **delivering nothing**. So who is the bigger liar? The public? or the "godfather"?

This public behavior is **surrender born of fear, laziness, and expediency**. It is the basis of the welfare state as a strategic weapon, useful against a disgusting public.

Walt Disney: brilliant Illuminati mind-controller. Sad, but true.

Action/Offense

WHEN GOVERNMENT DOES IT:	WHEN ANYONE ELSE DOES IT:
NO KNOCK RAIDS	BREAKING AND ENTERING
PROPERTY FORFEITURE	ARMED ROBBERY
CONSCRIPTION	SLAVERY
QUANTITATIVE EASING	COUNTERFEITING
INCOME TAX	MAFIA TRIBUTE
PROPERTY TAX	MAFIA TRIBUTE
REQUIRING PERMITS	MAFIA TRIBUTE
AIRPORT PAT-DOWNS	SEXUAL ASSAULT
SOCIAL SECURITY	PONZI SCHEME
WELFARE CHECKS	DISTRIBUTING STOLEN PROPERTY
BAILOUTS	DISTRIBUTING STOLEN PROPERTY
SUBSIDIES	DISTRIBUTING STOLEN PROPERTY
FOREIGN AID	DISTRIBUTING STOLEN PROPERTY
RAISING THE DEBT CEILING	SPENDING ON CHILDREN'S CREDIT
PATRIOT ACT	FELONY WIRETAPPING
WAR	TERRORISM
REPLACING FOREIGN LEADERS	TERRORISM
COLLATERAL DAMAGE	MURDER
ENHANCED INTERROGATION	TORTURE
INDEFINITE DETENTION	HOLDING HOSTAGES
THIN BLUE LINE	GANG LOYALTY

Most people want to be able to subdue and/or kill other human beings which disturb their daily lives, but they do not want to have to cope with the moral and religious issues which such an overt act on their part might raise. Therefore, **they assign the dirty work to others (including their own children) so as to keep the blood off their hands**. They rave about the humane treatment of animals and then sit down to a delicious hamburger from a whitewashed slaughterhouse down the street and out of sight. But even more hypocritical, they **pay taxes to finance a professional association of hit men collectively called politicians**, and then **complain about corruption in government**.

Responsibility

Again, most people want to be free to do the things (to explore, etc.) but they are afraid to fail.

The fear of failure is manifested in irresponsibility, and especially in delegating those personal responsibilities to others where success is uncertain or carries possible or created liabilities (law), which the person is not prepared to accept. They want **authority** (root word - "*author*"), but they will not accept responsibility or liability. So they **hire politicians to face reality for them**.

Summary

The people hire the politicians so that the people can:

- (1) obtain security without managing it.
- (2) obtain action without thinking about it.
- (3) inflict theft, injury, and death upon others without having to contemplate either life or death.
- (4) avoid responsibility for their own intentions.
- (5) obtain the benefits of reality and science without exerting themselves in the discipline of facing or learning either of these things.

They give the politicians the power to create and manage a war machine:

- (1) provide for the survival of the nation/womb.
- (2) prevent encroachment of anything upon the nation/womb.
- (3) destroy the enemy who threatens the nation/womb.
- (4) destroy those citizens of their own country who do not conform for the sake of stability of thenation/womb.

Politicians hold many quasi-military jobs, the lowest being the police which are Soldiers, the attorneys and C.P.A.s next who are spies and saboteurs (licensed), and the judges who shout orders and run the closed union military shop for whatever the market will bear. **The generals are industrialists.** The "*presidential*" level of commander-in-chief is shared by the **international bankers.**

The people know that they have created this farce and financed it with their own taxes (consent), but they would rather knuckle under than be the hypocrite.

Thus, a nation becomes divided into two very distinct parts, a docile sub-nation [great silent majority] and a political sub-nation. The **political sub-nation remains attached to the docile sub-nation, tolerates it, and leaches its substance until it grows strong enough to detach itself and then devour its parent.**

Read the part about the elite Racketeers using up the sheeple until they are rich and self-sufficient enough that they can kill the Hive off? Does this have to be spelled out for you?

THE RICH DO NOT GIVE A FUCK ABOUT YOU.

THEY WANT YOU TO DIE.

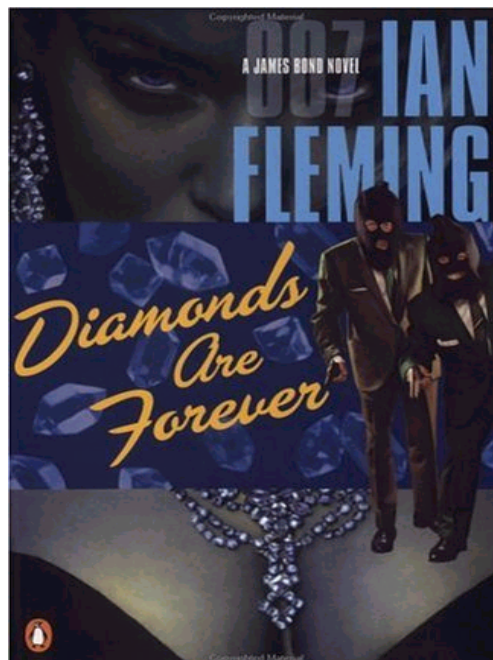

YOU ARE TYPE B PERSONALITY, AMBITION-LESS SCUM TO THEM.

Here's an example from today.

Chris Everard: EBOLA is a Bio-weapon used against Blacks in Africa so that DIAMONDS can be stolen

youtube.com/watch?v=ES3D4vLH3Lw

Untraceable diamonds are how U.S. Federal judges are bribed to obstruct justice. As Fleming depicts in "*Diamonds are Forever*" they are the ideal, lightweight to move large bribes around the world—much more portable than gold.

Consider the brilliant lyrics by David Arnold and Chris Cornell for the 2006 James Bond movie, "*Casino Royale*":

"You Know My Name"

If you take a life, do you know what you'll give

Odds are, you won't like what it is

When the storm arrives, would you be seen with me?

By the merciless eyes I've deceived

I've seen angels fall from blinding heights

But you yourself are nothing so divine

Just next in line

Arm yourself because no-one else here will save you

The odds will betray you

And I will replace you

You can't deny the prize; it may never fulfill you

It longs to kill you

Are you willing to die
The coldest blood runs through my veins
You know my name
If you come inside, things will not be the same
When you return to my night
If you think you've won
You never saw me change
The game that we have been playing
I've seen diamonds cut through harder men
Than you yourself
but if you must pretend...
You may meet your end
Arm yourself because no-one else here will save you
The odds will betray you
And I will replace you
You can't deny the prize; it may never fulfill you
It longs to kill you
Are you willing to die?
The coldest blood runs through my veins
Try to hide your hand
Forget how to feel
(Forget how to feel)
Life is gone with just a spin of the wheel

(A spin of the wheel)

Arm yourself because no-one else here will save you

The odds will betray you

And I will replace you

You can't deny the prize; it may never fulfill you

It longs to kill you

Are you willing to die

The coldest blood runs through my veins

You know my name

(You know my name)

You know my name

(You know my name)

you know my name!

You know my name!

You know my name!

At first, I thought the "*I will replace you*" indicates its MI6-SIS Head, Judy Dench's "M" talking--but the metaphysical aspects demand a higher interpretation. You can see James Bond is supposed to be working for the devil--who has plenty of psycho-sociopaths eager to kill. However, Commander Ian Fleming's Agent 007 is a man of conscience. A 35%er. He not only finds a way to win—he defends the good people from the bad. What makes the movie and book so remarkable is together they describe the dilemma of the good man who has to kill—do evil—to defend the Hive as the CIA SWFQW manual details.

Just one problem.

James Bond doesn't do it to serve the Illuminati elites or their master, he does it for God and the common people. Fleming's Bond has turned the tables on his masters; he has learned his lesson well.

Chapter 3: Who are the Hivesters?

Let's Face the Metaphysical Problems, Head-On, Shall We?

"As in every social system approach, stability is achieved only by understanding and accounting for human nature (action/reaction patterns). A failure to do so can be, and usually is, disastrous."

--"Silent Weapons for Quiet Wars", 1954 Bilderberg document reprinted as CIA manual in early 1970s

Hive Psychology Began at the Garden of Eden

Growing up in right-wing, asshole, probably psychosociopath-populated fundamentalist churches, for many years I wrongly ASS U MED that God punished mankind with death after-the-fact when Eve & Adam ate the forbidden fruit.

It took the recent death of my beloved cat, Midnight "*meathead*" to force me to be angry with God again for death.

"Why does God hate us so much?" were my thoughts. Certainly, not unique among every person on Earth.

Then a small, still voice beckoned to me to go back and really fact-check that question: "*Is that so?*" was what I heard.

What I discovered is not only a revelational, game-changer it makes me enraged at all the asshole, fundamentalist preachers who have fed me and many others this steady fake diet of God-as-Asshole BS who is really an image of their psycho-sociopath selves--with a guilt-mongering kaching! going into their pockets.

The FACTS:

God did NOT punish man afterwards for the sin of eating the fruit with knowledge of good & evil, THE FRUIT ITSELF CONTAINED METAPHYSICAL POISON.

Please read the following carefully and in its entirety.

bartleby.com/108/01/3.html

King James Bible

Genesis 2

1 Thus the heavens and the earth were finished, and all the host of them.

2 And on the seventh day God ended his work which he had made; and he rested on the seventh day from all his work which he had made.

3 And God blessed the seventh day, and sanctified it: because that in it he had rested from all his work which God created and made.

4 These are the generations of the heavens and of the earth when they were created, in the day that the LORD God made the earth and the heavens,

5 and every plant of the field before it was in the earth, and every herb of the field before it grew: for the LORD God had not caused it to rain upon the earth, and there was not a man to till the ground.

6 But there went up a mist from the earth, and watered the whole face of the ground.

And the LORD God formed man of the dust of the ground, and breathed into his nostrils the breath of life; and man became a living soul.

And the LORD God planted a garden eastward in Eden; and there he put the man whom he had formed.

9. And out of the ground made the LORD God to grow every tree that is pleasant to the sight, and **good for food; the tree of life also in the midst of the garden, and the tree of knowledge of good and evil.**

10 And a river went out of Eden to water the garden; and from thence it was parted, and became into four heads.

The name of the first is Pison: that is it which compasseth the whole land of Hav'ilah, where there is gold;

12 and the gold of that land is good: there is bdellium and the onyx stone.

13 And the name of the second river is Gihon: the same is it that compasseth the whole land of Ethiopia.

And the name of the third river is Hid'dekel: that is it which goeth toward the east of Assyria. And the fourth river is Euphra'tes.

And the LORD God took the man, and put him into the garden of Eden to dress it and to keep it.

16 And the LORD God commanded the man, saying, *Of every tree of the garden thou mayest freely eat:*

17 but of the tree of the knowledge of good and evil, thou shalt not eat of it: for in the day that thou eatest thereof thou shalt surely die.

18 And the LORD God said, *It is not good that the man should be alone; I will make him a help meet for him.*

19 And out of the ground the LORD God formed **every beast of the field, and every fowl of the air; and brought them unto Adam to see what he would call them: and whatsoever Adam called every living creature, that was the name thereof.**

20 And Adam gave names to all cattle, and to the fowl of the air, and to every beast of the field; but for Adam there was not found a help meet for him.

21 And the LORD God caused a deep sleep to fall upon Adam, and he slept; and he took one of his ribs, and closed up the flesh instead thereof.

22 And the rib, which the LORD God had taken from man, made he a woman, and brought her unto the man.

23 And Adam said, This is now bone of my bones, and flesh of my flesh: she shall be called Woman, because she was taken out of Man.

24 Therefore shall a man leave his father and his mother, **and shall cleave unto his wife: and they shall be one flesh.**

25 And **they were both naked, the man and his wife, and were not ashamed.**

Genesis 3

1 Now the serpent was more subtile than any beast of the field which the LORD God had made. And he said unto the woman, *Yea, hath God said, Ye shall not eat of every tree of the garden?*

2 And the woman said unto the serpent, *We may eat of the fruit of the trees of the garden:*

3 *but of the fruit of the tree which is in the midst of the garden, God hath said, Ye shall not eat of it, neither shall ye **touch** it, lest ye die.*

4 And the serpent said unto the woman, *Ye shall not surely die:*

5 *for God doth know that in the day ye eat thereof, then your eyes shall be opened, and ye shall be as gods, knowing good and evil.*

6 And when the woman saw that the tree was good for food, and that it was pleasant to the eyes, and a tree to be **desired to make one wise**, she took of the fruit thereof, and did eat, and gave also unto her husband with her; and he did eat.

7 And the **eyes of them both were opened, and they knew that they were naked; and they sewed fig leaves together, and made themselves aprons.**

8 And they heard the voice of the LORD God walking in the garden in the cool of the day: and Adam and his wife hid themselves from the presence of the LORD God amongst the trees of the garden.

9 And the LORD God called unto Adam, and said unto him, *Where art thou?*

10 And he said, *I heard thy voice in the garden, and I was afraid, because I was naked; and I hid myself.*

11 And he said, ***Who told thee that thou wast naked? Hast thou eaten of the tree, whereof I commanded thee that thou shouldest not eat?***

12 And the man said, *The woman whom thou gavest to be with me, she gave me of the tree, and I did eat.*

13 And the LORD God said unto the woman, *What is this that thou hast done?* And the woman said, *The serpent beguiled me, and I did eat.*

14 And the LORD God said unto the serpent,

*Because thou hast done this,
thou art cursed above all cattle, and above every beast of the field;
upon thy belly shalt thou go,
and dust shalt thou eat all the days of thy life:*

15 *and I will put enmity between thee and the woman,
and between thy seed and her seed;
it shall bruise thy head,
and thou shalt bruise his heel.*

16 Unto the woman he said,

*I will greatly multiply thy sorrow and thy conception;
in sorrow thou shalt bring forth children;
and thy desire shall be to thy husband,
and he shall rule over thee.*

17 And unto Adam he said,

*Because thou hast hearkened unto the voice of thy wife,
and hast eaten of the tree,
of which I commanded thee, saying,
Thou shalt not eat of it:
cursed is the ground for thy sake;
in sorrow shalt thou eat of it all the days of thy life;*

18 *thorns also and thistles shall it bring forth to thee;*

and thou shalt eat the herb of the field:

19 in the sweat of thy face shalt thou eat bread,

till thou return unto the ground;

for out of it wast thou taken:

for dust thou art, and unto dust shalt thou return.

20 And Adam called his wife's name Eve; because she was the mother of all living.

21 Unto Adam also and to his wife did the LORD God **make coats of skins, and clothed them.**

22 And the LORD God said, *Behold, the man is become as one of us, to know good and evil: and now, lest he put forth his hand, and take also of the tree of life, and eat, and live for ever:*

23 therefore the LORD God sent him forth from the garden of Eden, to till the ground from whence he was taken.

24 So he drove out the man: and he placed at the east of the garden of Eden cherubim, and a flaming sword which turned every way, to keep the way of the tree of life.

We know now that HOW YOU THINK drives whether you age or not:

BBC Special: *"How to Prevent Growing Old and Aging"*

[youtube.com/watch?v=ulhMEeylmO8](https://www.youtube.com/watch?v=ulhMEeylmO8)

In an experiment conducted in the 1970s, old people were told to act like it was 1957 20 years earlier. Amazingly, once they started to act like they were young, they began to physically be young. This you-are-what-you-think-you-are is described in the Bible and is the foundation of this current Quantum physics hubris that whatever we observe we can influence that is distorted into man-saving-himself non-sense.

Therefore, rather than killing man/woman and starting over fresh, God decided to **WORK WITH US** to get the metaphysical poison **OUT**.

That is LOVE, my friends.

DEATH is a result of the physical/spiritual/soul make-up of man being POISONED--not by God vengefully punishing us for merely eating a poison fruit he said not to eat. There is a huge difference between a petty asshole punishing one for eating something he told you not to eat and EATING POISON.

Its clear in the Bible that some God-given fruit in the Garden of Eden when digested gave INFORMATION as well as pleasure and biological kientic energy. This explains the "1st time" high-technology knowledge the pre-flood peoples had gained by "*direct download*" from supernatural beings and not the long, painful hard way by trial & error.

Death is NOT a punitive curse from God, its a negative consequence of a poisoned metaphysical fruit our ancestors unwisely ate at the behest of Satan/Lucifer.

What If Eve/Adam Did Not Eat the Knowledge of Good & Evil Fruit?

Cynics may and rightly ask, why did God even create such a poisoned fruit if he knew man could eat it?

Their argument is why set-up man for failure? but it is specious as it doesn't even give God the courtesy of an at face value chance at a reasonable explanation, the hatred of unbelief rears its ugly head here.

I speculate that God by having the fruit of good & evil AND the tree of life would have eased Adam into its dangerous wisdom in small bites. He may have only had Adam eat of both fruits to shield Eve. Or ease them both into it together. Either way, I don't think God put the 2 fruits into the Garden as PLAN

A entrapment for man and/or Satan/Lucifer. I think there was a PLAN A where Eve/Adam did not eat of the poisoned fruit and the tree of life's fruit had a central role in it.

We are now on PLAN B which entails man reaching out to the tree of life in a measured way through the Holy Spirit legally authorized by the Lord Jesus Christ who died in mankind's place for all our individual post-Edenic sins and collectively for the entire group of mankind's Edenic metaphysical poison. We die because our bodies are cursed by Edenic poisoning not by a fundamentalist hate-monger's non-existent, wrathful God inflicting death as a punishment. Individually, we must reach out for the tree of life pardon from the Lord Jesus Christ to negate our post-Edenic sins but our bodies are still going to die because God hasn't reversed the Edenic poison.

We don't die because God hates us. We die because our ancestors unwisely poisoned us. What did God, himself do just before he resurrected Lazarus?

“Jesus wept”.

My favorite verse in the Bible because it shows God gives-a damn-about-us. Why is he weeping if he's going to bring Lazarus back from the dead in a few seconds?

This is a huge distinction the equal-opportunity fundamentalist hate-mongers care not to specify which cries out the question if it were not indeed the same slick distortions of a Satan/Lucifer?

Consequences of Edenic Metaphysical Poisoning

What is evil?

Evil is zero. Nothing. The concept of non-existence. Not this BS fed us by fundamentalist preachers that evil is just not obeying authority (them).

Atheism

The belief that there was nothing and nothing happened to nothing and then nothing magically exploded for no reason, creating everything and then a bunch of everything magically rearranged itself for no reason what so ever into self-replicating bits which then turned into dinosaurs.

Makes perfect sense.

You can see this right away by Adam/Eve feeling naked.

What's naked?

Thinking you are naked means not this BS sex-is-dirty shame crap fed by the fascist preachers. It is clearly a Laws-of-Physics, objective reality, cause-->effect realization that asks what if? a destructive force were to strike upon one's soft flesh--particularly reproductive organs I would cease to exist, right?

Naked is about being TACTICAL, not guilty shameful, its the best way I can express it. Its asking the what if? zero, non-existence question--what if my body's systems were to be damaged/destroyed?

Notice God's good faith response of who says you are naked?

I like his above-the-BS answer, here.

He is saying who says you are vulnerable here when he is protecting you?

Also notice none of the BS American fascist sex-is-dirty crap shame in either Adam/Eve or God's communication.

In fact, reading before in Chapter 2 the way God describes woman made of man and both clinging to each other as 1 flesh and being naked without shame is frankly very erotic. The shame Adam/Eve felt in the garden was for disobeying God not for being naked. Naked is a realization of how vulnerable their bodies were vis-a-vis God who they disobeyed. Once the idea of how vulnerable the human body is kinetically was ingrained, God provided a more durable and practical for man-to-recreate technological way to body protect using animal skins than flimsy vegetation.

The Psychological Split of Mankind: Wolves, Sheeple, Lions

As mankind generated, one of the little-understood consequences of the Edenic poison is a sub-class of humans born without consciences (psychopaths) and those who refuse to listen to weak consciences (sociopaths) which ponerologists have determined is 24% of mankind. 1% are psychopaths and 23% are sociopaths. We round up to 25% in this book for clarity of assessment sake's. While most people rightly wail about biological death by age and/or destructive event few have fully factored into their minds--let alone their governmental societal systems the severity of evil.

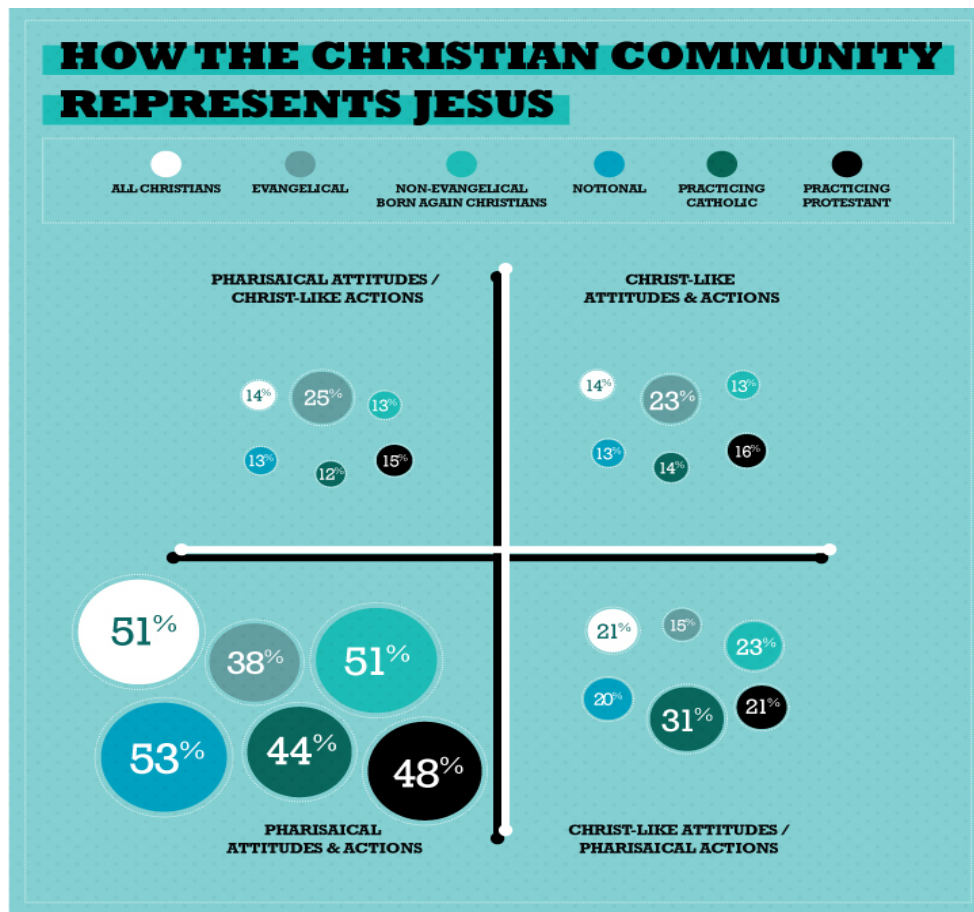

1 out of every 4 persons are functionally, operatively evil aka psycho-sociopaths; Type A personality wolves.

The next group are apathetic sheeple, Type B persons who do whatever authority tells them to do constituting 40%.

The last group, the lions are 35% conscience doers.

The probably psycho-sociopathic themselves fundamentalist preachers will bitch and moan about ALL of us being sinners and wrongly lumping in our individual post-Edenic sins in with original Edenic sin and in so doing with this **guilt smokescreen** hide the fact that whether we behave in good faith or not is a separate issue from DEATH. These psycho-socociopathic preachers want the 40% apathetic folk and the 35% conscience-doers lumped in with themselves when the fact is each group should be dealt separately in life mechanics. They are deliberately confusing legal standing before God with how we as humans should operantly live here on Earth. They present disinformational lies.

While it is true that a psycho-sociopath can and should accept Christ as their savior and be legally pardoned for his/her post-Edenic sins and this will result in the Holy Spirit living inside them as a guide, **IT DOES NOT CHANGE THE FUNDAMENTAL BODY THAT IS STILL GOING TO DIE AND STILL IS EITHER A PSYCHO-SOCIOPATH OR AN APATHETIC OR A CONSCIENCE-DOER.**

The classic socially irresponsible, fake Christian right-wing, “*Pharisee*” response to social ills and injustices is “*get everyone saved*” ie; legally pardoned and with the Holy Spirit inside them. I do not think this is alone the panacea we think it is because it appears many people who claim to be “*saved*” still act as psycho-sociopathic assholes perverting the Bible's verbiage into this sick, demented, intolerant fascism Chris Hedges gets so upset about. I tend to think anyone acting this way is not a Christian because the Holy Spirit should over-rule their bodily predispositions, but I'm not certain about this and hope for their sakes they really are Christians and just misguided by their bodily selves.

What I am presenting here in this book is that we need more than getting people saved; in the immediate here & now we must take **tangible steps to eliminate the 25%ers from having any leadership positions within society**--lest they

turn it into the hell hole described in the end of the Bible in the book of Revelation. We know how mankind's current ownership of the Earth will end, but this doesn't mean it has to be now or today. It does not mean we can't have a better plan than handing out gospel life preservers and watching the *Titanic* go down. I now think sociopaths flock to churches because they know they have been living wrong and want a once-a-week purge so they can go back to being assholes the rest of the week. The possible gospel ignorance danger comes from the conscience-doers who wrongly think since they live their bodily life in good faith they need not a metaphysical pardon if they bat over .500 good deeds more than bad ones etc. God demands a perfect score--so we all need Jesus Christ's pardon.

The church has deliberately and falsely over-simplified sin lumping together inherited bodily sin that causes biological death with individual life behavioral sin such that its not acting as a salt preservative to society to block psycho-sociopaths from committing all sorts of horrendous, despicable crimes.

Chapter 4: Hive Does Evil; What If Nobody Represents Us?

All a rich man's trick?

What happens if no one in Congress or the Presidency represents us beyond token demagoguery?

Best-selling author, Victor O'Reilly answers this question in his recent blog:

<http://victororeilly.blogspot.com/>

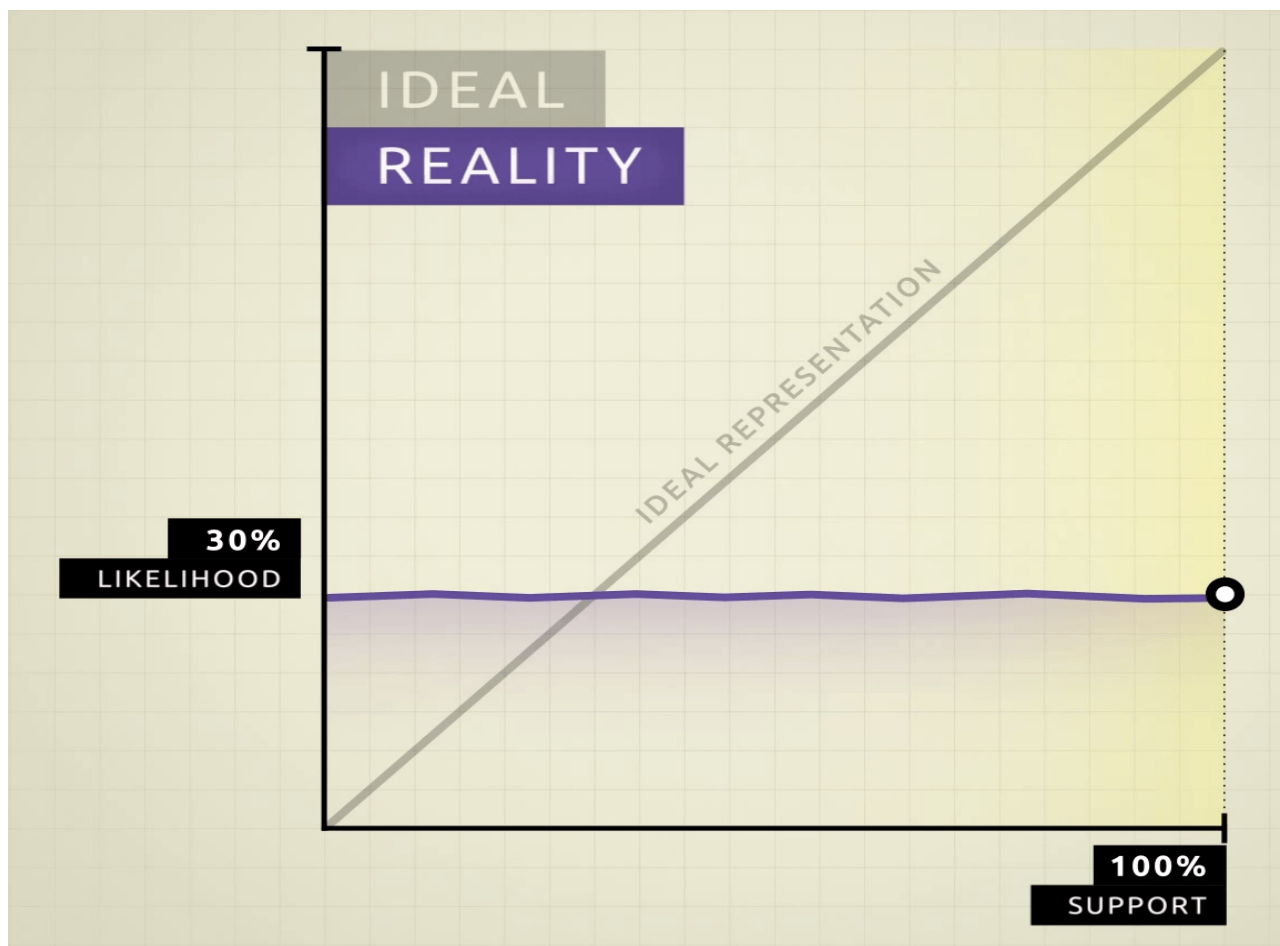

SHEER GREED APART, THE ROOT CAUSE OF THIS IS THAT THE U.S. POLITICAL SYSTEM HAS BEEN HIJACKED. WELL, TO BE MORE PRECISE, IT HAS BEEN BOUGHT.

HERE IS MORE EVIDENCE TO SUPPORT THAT STATEMENT

The following is from upworthy.com/20-years-of-data-reveals-that-congress-doesnt-care-what-you-think

It confirms that the U.S. is no longer a working representative democracy. That comes as a shock to some people.

It really shouldn't. It is painfully and blindingly obvious.

Professors Martin Gilens of Princeton University and Benjamin Page of Northwestern University looked at more than 20 years of data to answer a pretty simple question: Does the government represent the people?

Your opinion literally does not matter...

Their study took data from nearly 2,000 public-opinion surveys and compared what the people wanted to what the government actually did. What they found was extremely unsettling: The opinions of the bottom 90% of income earners in America has essentially no impact at all.

Put another way, and I'll just quote the Princeton study directly here:

"The preferences of the average American appear to have only a minuscule, near-zero, statistically non-significant impact upon public policy."

Really think about that for a second.

If you've ever felt like your opinion doesn't matter and that the government doesn't really care what you think, well ... you're right.

But, of course, there's a catch.

...unless you're an "*economic elite*."

If there's one thing that still reliably gets politicians' attention, it's money. While the opinions of the bottom 90% of income earners in America have a "*statistically non-significant impact*," Gilens and Page found that economic elites, business interests, and people who can afford lobbyists still carry major influence.

How could it be that our government, designed to function as a representative democracy, is only good at representing such a small fraction of the population? Just follow the money.

Why? Because purchasing political influence is 100% legal.

For example: Let's say a big bank wants a law that would force taxpayers to bail them out again if they repeat the exact same reckless behavior that crashed the global economy in 2008.

It's perfectly legal for our bank to hire a team of lobbyists whose entire job is to make sure the government gives the bank what it wants. Then, those lobbyists can track down members of Congress who regulate banks and help raise a ton of money for their re-election campaigns. It's also perfectly legal for those lobbyists to offer those same politicians million-dollar jobs at their lobbying firms.

Rep. Kevin Yoder (R-Kansas), shown speaking at an event in 2012, recently attached language originally drafted by lobbyists for CitiGroup to a financial services appropriations bill. Members of Congress who voted "yes" on the bill received, on average, 2.8 times more money from the PACs of CitiGroup, Goldman Sachs, Bank of America, and JPMorgan Chase than members who voted "no." Image by Information Technology Innovation Foundation/Flickr.

They can also literally write the language of this new bailout law themselves, then hand it off to the politicians they just buttered up with campaign money and lucrative job offers. And it's perfectly legal for those politicians to sneak the lobbyist-written language through Congress at the last second.

If that example sounds oddly specific, that's because it happened in December 2014. And it happens all the time, on almost every single issue, with politicians of both parties.

So is our Republic doomed? No.

Here's the good news: Every single practice outlined in this article can be made illegal by a simple statute — no constitutional amendment or overturning of Citizens United required. And there are thousands of people across the country fighting to make it happen right now.

The rebel alliance in action. Tallahassee voters approved the first municipal anti-corruption act in the U.S. by a 2-1 margin on Nov. 4, 2014. Image by Represent.Us.

My day job, for instance, is working with an organization called Represent.Us to pass state and local anti-corruption acts. We're one of many organizations fighting for reform and are working from the marriage equality and marijuana legalization playbook by using local wins to build momentum for national reform (you can learn a little more about the plan right here). It's working, too: The first municipal anti-corruption act in the U.S. has already passed, and more cities and two states are on their way in 2015 and 2016.

Looking for other reform organizations to get involved with? There's also Lawrence Lessig's MayDay PAC, a crowdfunded Super PAC to take down other Super PACs. And there's Take Back Our Republic: a conservative-leaning organization devoted to fighting corruption and cronyism. You could also get involved with EveryVoice. Or Common Cause. Or People for the American Way. Or Stamp Stampede. Or WolfPAC. Or Move to Amend. You've got options.

You can do something about it.

Big money in politics is emerging as a major issue in the 2016 election, and there are now dozens of organizations fighting hard for reform every day. If you're appalled by corruption, there's never been a better time to join the fight to stop it.

The anti-corruption legislation above isn't going to stop the Illuminati's long-term plans and actions that have no connection to any financial pay-off. The 40%er sheeple nod & wink at all the evil the AmeroHive does making the logical fallacy that the comfort of the Hive is the consequence of the 25%er psycho-sociopaths lead by the CIA

instigating wars and regime changes for Wall Street. The sheeple wanting to be rich like the Illuminati wrongly assume that their toleration of Wall Street thuggery results in them being bought off by cheap gas for their cars and consumerism. This does not follow. It's a non-sequitur. The Illuminati created the Hive to manufacture our defacto consent regardless of all the evil it does—occupying Iraq/Afghanistan did not help the American Hive's consumerism—it made the rich richer and furthered their goals of a 1-world tyranny.

To con the right-wing hater sheeple and glorify America, the PTB war/murder their hate scapegoats; and to con left-wing, slacker sheeple, they offer more bread & circuses. Beyond this, the daily dirty details of their deals and actions are decided in favor of the secret societies who control virtually all politicians.

- * Our criminal politicians change the laws to make their crimes appear legal and further their own interests

- * Only the criminally-rich have the money to run for public office which requires massive and expensive TV media SheepleReach;

If a wealthy good person can somehow get elected, they are often MURDERED: JFK, RFK, MLK, Senator Paul Wellstone etc.

- * Secret societies control nearly all politicians; SECRET SOCIETY MEMBERSHIP is a "*conflict of interest*" that intrinsically violates any oath to uphold the U.S. Constitution.

The question is: has the USA EVER been blessed with a 35% "*good conscience*" people flocking to governmental service? By design, is the U.S. Constitution systemically a "*rich man's trick*" where only the psycho-sociopath rich can afford to run for office? The videos below make a powerful case that this is so:

"America: Satan's Country"

youtube.com/watch?v=YT4i-Yvh3RQ

"Everything is a Rich Man's Trick"

youtube.com/watch?v=U1Qt6a-vaNM

The U.S. Constitution, at best, low balls criminality by at least 15%--- the amount of psycho-sociopaths in any society. And it doesn't take into account the accumulation of money that happened with the Industrial Age "widget" mass production that empowers the criminally rich to buy all politicians who need campaign funds to "appear" to be elected by the hivesters.

"You're rich and we're not!" Invalid Protest—Beautiful Women, 1 out of 2 ain't bad...

<http://anticorruptionsociety.com/noncompliance/>

And let's not forget, you are not voting for 'public servants' anyway. You are merely helping to select the employees for the Democratic-Federal Franchise system. **Once you elect them, for the most part, they disregard anything you say.** Just try contacting your state, county, municipal government 'representatives' with a concern, complaint, or suggestion. If you get anything more than a pat on the head and sheer frustration, please share your experience in the comments section. We would all appreciate knowing that there are some

folks working for the Corporation Nation who still believe they have a responsibility to the taxpayers.

Did you know that **when you vote you are signing up (again) to be a CITIZEN (artificial legal construct) of USA INC? As a CITIZEN, you are also agreeing that you support the endless wars USA INC is engaged in and accept responsibility for the national debt that our corrupt politicians have created.** Remember the '*national debt*' is not yours – it's theirs!

Recent ideas from POTUS Obama to force everyone to vote is a ploy to get the sheeple to acquiesce to the Illuminati secret society candidates set before them so as to tell them to "*STFU---you had your say-vote*" when really, we did not, because no candidate was offered who represented WE THE PEOPLE. Not voting is a visible statement and legal position that YOU DO NOT HAVE MY CONSENT to govern over me and this should always be a real man's choice: that the social contract is broken because criminals have taken over.

BOTTOM LINE: no matter who is elected from either party, the secret societal "*New World Order*" advances in either left or right-wing flavoring.

The American Exceptionalist Delusion: Thinking We Have Less Criminals Helps Criminals

The fundamental American AMCE delusion further manifests itself in the lie that America somehow has less criminals than other countries because our sheeple are better and are exceptional. The facts of human psychology do not change when you are born in a country with exceptionalist delusions—nor does a psycho-sociopath change and become a decent person just because he attended a U.S. military boot camp or a federal agency agent training. Picking up operational skills and some externally-induced bureaucratic, behavioral patterns doesn't change the person inside that if they are psycho-sociopaths must be screened-out—excluded—not allowed to participate at all. In our later proposals, psycho-sociopaths are not allowed to serve in the 2-year, National Service military or

police corps—nor should be allowed in the permanent military, police or intelligence agencies, either.

Since America has the same amount of criminals amongst its sheeple as any Third World country shiite hole, one has to realize Amerocriminal Rackets are just better hidden within the AmeroHive for cosmetic, American exceptionalist delusion-perpetuating reasons. Psycho-sociopaths tend to lack empathy and this manifests itself in the following snobbery: *“if the sheeple want to destroy themselves with say drugs—then supplying them is just helping society get rid of the unwanted. Moreover, I work hard and am under-paid keeping the streets outwardly safe for the ungrateful, un-skilled-at-police/military things--lesser beings who can’t defend themselves from thugs. I deserve some kick-backs for putting my ass on the line”*.

There you have the snobby, psychological mindset undercurrent of why the police go along with the drug Racket instigated by the treasonous CIA against the American sheeple. Unlike them, I have empathy for the 40% sheeple and offer a better way—don’t tolerate drug Rackets that prey upon their weak urge self-control--but instead to build character in them early-on with 2 years of national service and before then, a zero tolerance for drug experimentation in their teen years by drug testing for driver’s licenses to identify those who are dabbling before they become full-blown addicts. I believe non-psycho-sociopathic people can be changed through SOUND LEADERSHIP—and should not be destroyed by criminal Rackets. Notice the psycho-sociopaths are targeting the 40%ers for destruction when if there is anyone that needs to be *“culled out from the herd”* its THEM. Psycho-sociopaths need to be quarantined from any and all societal leadership and law enforcement positions within the Hive. A noted psychologist paints the following picture of America’s psycho-sociopath-run drug Racket.

The points he raise are excellent—the drug trade wouldn't happen within the Hive without the intel agencies and police in on the Racket. Very clever to tolerate a never-ending exchange

of drugs and money for years allegedly to "get Mr. Big". I always wondered how much evil/crimes should an undercover operation tolerate to get the "*big fish*"? I'm of the mind we close the border, arrest everyone whenever found, stop this undercover BS, make people take drug tests for driver's licenses, get druggies identified and sent to rehab--**DRY THE SWAMP OVERTLY**. No more of this undercover bait & switch.

TOPIC: Finally, serious evidence has emerged, Gary Webb was correct--this is historical

businessinsider.com/the-us-government-and-the-sinaloa-cartel-2014-1

The Bush1 run CIA murdered Gary Webb and the Major Mass Media wrongly reported it as a suicide. This was a favorite trick of the Dixie Mafia when the Klinton's were in power. This is best referred to as being "*arkensided*". Klinton's mama was the nurse that worked in the morgue and helped cover-up hundreds of Dixie Mafia murders. Bill's father was Nelson Rockefeller.

Intel insiders have been reporting this CIA/DEA/Mossad drug dealing for many years, but the mainstream media wouldn't touch this story. Now for the very first time, the mainstream Major Mass Media is reporting the truth. Like I have said for the last two years, all secrecy is ending and every single USG crime is going to be revealed, bit-by-bit.

My town, Mpls is run by the CIA/DEA/Mossad joint drug cartel and the Rothschild Khazarian Mafia (RKM). Any fed or cop that tries to expose it gets stepped on very hard.

About 20 years ago the Plymouth police murdered one of their own in a field to cover this up because he caught a small group involved. This murder was never solved. The one best witness was threatened as was far too scared to come forward. I know of a US marshal that tried to bust a major local CIA drug trafficker and he was stepped on very hard, transferred for a year and then they tried to murder him. Thankfully he survived. When I investigated a local CIA ring using an airport near to my home a sea food company that flew frozen or chilled seafood in from Florida with drugs mixed in, I found out it was all "*legal*". **They had official DEA controlled delivery formed filled out, signed and filed, supposedly justified to catch "Mr. Big"--which they haven't ever done for at least 20 years.** All the drugs end up on the street in my town and all over Minnesota. Two individuals at my local police dept were in-on-it as was a local "*drug task force*" which has special license plates on their own personal cars to identify each other easily.

This USG drug trafficking has ruined every single urban center and destroyed most of the urban poor and minorities which it was designed to do. LBJ got the war on poverty welfare funding passed to provide money for the CIA to sell drugs in the inner cities and gain huge "*off the books*" money for their deep-cover black ops.

Almost every single police chief in America has been compromised by the CIA in exchange for money and military arms and equipment after agreeing to sign a contract that they agree to secretly submit jurisdiction to the feds on any matter requested. Usually, they get a duffle bag full of unmarked bills and lots of machine guns, armored cars, grenades, etc. Obviously, the CIA wants local police completely militarized and to serve as agents of the state, their state.

The local FBI SAC and asst SACs have always known all about this but are afraid to touch it because they know who butters their bread.

Jeb Bush runs the Gulf cartel and is involved in all of them to a degree along with help from Ollie North (tradecraft name: John Cathey).

The psycho-sociopaths running-ruining America first hooked all Americans on TV to hypnotize them into kinetic inaction. To further their lack of thinking reflection, trains where you could read a newspaper or a book while restfully traveling were replaced by everyone becoming a stressed-out race car driver with unsafe gasoline-powered cars by building the inter-state highway system via Rockefeller oil Illuminati puppet, President Eisenhower in the 1950s. Paved-over America without nature to re-connect to and reflect on God's reality given to us became an urban jungle hell for everyone living there. Next, with rock & roll music with Tavistock subliminal embedded messages (The British Invasion—The Beatles) America was hooked on drugs. You could conclude logically that the psycho-sociopaths in general reject everything that is decent and connected to the God-made and would not be far off. However, their plans reflect tragically a diabolical, other-worldly, sinister, cunning ruthlessness that indicates long-term thinking unlikely from human origins.

The Illuminati Are Still Talking to the Serpent

Picture of a demon pretending to be a ghost of a deceased person

Evil people also get a lot of help from supernatural, evil beings to rule the world--and have been continuously from the time the first psychopath, Cain killed Abel. Chris Everard is his documentary, "*Demons of the Roman Empire*" reveals that the psycho-sociopaths of Rome deliberately worshipped demons that have no empathy or mercy.

[youtube.com/watch?v=SJjD1bkzjAI](https://www.youtube.com/watch?v=SJjD1bkzjAI)

If you think this is fantasy look at the picture on the previous page of the demon masquerading as a departed human being to con us into believing in feel-good ghost mythology. If still not convinced, look at the pics of the demon-possessed woman who walked onto a highway in England and was run-over by cars and suffered no bodily damage. Notice the empty, hate-filled non-human, eyes that match the figures carved into stone by the Romans. Also the demented laughter at tormenting we humans.

As terrifying as demon-possession is, it does have a silver lining: **it validates that the Biblical world-view is indeed true.** When Satan/Lucifer pulls off minor miracles like women getting run-over by cars and trucks it has the blow-back that it tells the sheeple that the Bible explanation is true. Pass me your King James Bible, quick!

Making the Volunteer MilHive Go to War Continually

The Good-Enough-to-Get-Hurt U.S. Military

The elimination of the draft by President Nixon in 1969 removed legal standing of the sheeple to protest Wall Street wars since only volunteers are in uniform; the public at large was no longer being forced to fight which demands wars be justified. With 75, 000, 000 psycho-sociopathic Americans, its entirely possible that ALL of the 2 million person active duty USMIL has been drawn from them but in my personal experience it seems 50% are Type A assholes getting off on ordering the other 50% Type B personality sheeple. There are no longer any 35%er conscience-doers in the current totally corrupt U.S. military. The Illuminati can direct the POTUS to wage wars without need of any consent of the AmeroHive sheeple since they are not involved or have signed-away their

right to complain by volunteering. Their door mat sons/daughters can be still killed and maimed that has resulted in parental outcry forcing hard body armor and land mine resistant vehicles but this is being removed by the Illuminati push for complete robotization of the USMIL as soon as technically possible. This is the kind of shit that's discussed at secret society meetings—how to further screw over the sheeple and advance the New World Order (NWO) tyranny.

Anyone who volunteers for the current corrupt, digital, bureaucratic USMIL is rightly considered a moral and/or mental defective. One caveat: being naive and thinking the USMIL is an action-oriented, meritocracy can be forgiven for one term of enlistment for the commissioned officer as a temporary mental lapse made in good faith.

The disgusting movie, "*Batman: Dark Knight*" glorifies 25% psycho-sociopaths via The Joker who gets the choice lines in the movie while the heroic 35%er Batman is forced to become a bad guy, "Dark Knight" in order to defeat him.

However, to continue past that requires one to be one of the 25% psycho-sociopath criminals or one of the 40% extreme apathetic lemmings with thick blinders on. To be in the corrupt USMIL today, past an introductory tour of duty, you have to be both immoral

and incompetent. The 35% conscience-following good people will not stay in---or be allowed to stay in---the criminally-run USMIL.

I got a glimpse of the horrific Millenial generation, psychosociopathic infestation-of-the-USMIL, “*reality check*” on the opening night at the local theater of “*Batman: Dark Knight*” when the seats filled with active-duty Soldiers who cheered the evil, disgusting *Joker* all throughout the movie. Every psychopathic act he did they fucking cheered. Disgusting. Batman is the hero--not the asshole Joker. If you don't see it this way regardless of Chris Nolan's confused angst, something is wrong with **you**. Something is definitely wrong with every Soldier cheering the Joker during the movie: they should not be on active-duty as nihilist rage, cannon fodder for the United State of America.

USMIL Corruption

- * No constituency for military excellence in USMIL
- * No draft, no non-glory-seeking ADULTS within military to stop military Racketeering BS
- * Volunteer victims desperately need to fit-in and go along with fool's errands fed to them by the milocracy
- * The criminally-rich love to see as many people die by deliberate military incompotence/brutality as possible to meet depopulation goals; this includes military senior officers. A depopulation agenda permeates all thoughts and actions; human life is not valued; we have plenty, so losing people is not a problem etc.

MilHive (MilSheeple and Milbureaucrats) are AOK with the get-hurt Military because they only go to war once a decade and its either over quickly, against a push-over opponent, or a comfy FOBBITIS occupation ie; their survival is not in jeopardy

Thus, a moral, kick-ass efficient End-War Military is opposed within the MilHive because that would requires them to:

1. Be alert, think, and take meaningful actions daily;
2. Have humility to admit mistakes & correct them;
3. Be egalitarian team builders who trust and empower;
4. Use every means to prevent/smother conflict usually non-heroically;
5. Be economical by using less monies by no longer prolonging war.

The secret questions the MilHivesters always ask in their minds in regards to ANY military reform:

Can I continue to drone daily? (See Dixon's On the Psychology of Military Incompetence)

Can I worship America and the USMIL as-is?

Can I still look down on others I dislike?

Can I just use just the tools I like?

Can I milk things for max budget?

Is there glory in it for me?

C'est le Guerre? No, Cest Le MILINDCOMP Racket

MilHivesters are AOK with the get-hurt USMIL because those who get hurt had it coming to them and getting their ass kicked by the enemy shows Congress/American people just how hard their mission is to insure job security and that they are entitled to be smug heroes who look down on civilians who are not playing the milvictim.

BOTTOM LINE: Milsheep are sent to Eastern Europe to foment wars in Georgia and the Ukraine and they are AOK with this; they do not protest and refuse to deviate from their perceived volunteer victim status. In the far east, where populations are growing out of control, as boundaries are contested, the Illuminati send planes and ships into these areas so lower-ranking milsheep can argue over radios instead of senior leaders meeting and handling and resolving the issues completely. WW1 was begun by anarchists

murdering the leader of Austria-Hungary and his wife. Having low ranking milsheeple clash smacks of inviting the same kind of who-takes-the-first-shot instigation for nation-state war.

Baby Machines: No wonder Half-Communist, Half-Capitalist China has a birth control problem!

The psycho-sociopaths running-ruining the USMIL have no clue about what war is, where it comes from or how to stop them--in fact they don't want to prevent them or even to win them decisively as per RACKET THEORY. Their want is to enrich their bank accounts \$\$\$ and egos with wars.

combatreform.org/RACKETTHEORYv6.0.htm

In the play and movie, "*Camelot*", King Arthur figures out right away that wars are going to happen as peoples--could be tribes, villages or nation-states--push out their boundaries and if there is no FENCING (walls etc.) this lack of DEFENSIVE measures invites wars instead of smothering them. The CHICOM's island land-grabbing in SouthEast Asia is fascinating as its a SEA CONTROL problem that regular land walls can't solve. Guess who doesn't give-a-damn about sea control even though its their damn job?

<http://foxtrotalpha.jalopnik.com/look-how-quickly-china-is-building-its-island-bases-out-1691571576>

Of course, land-grabbing can be a lucrative Racket that pays for itself--the CHICOMs get to the disputed islands first, plant the red star on it, their drone sheeple go to work making something out-of-nothing in a rice-flavored version of the American Manifest Destiny that evicted the Indians and the Mexicans from the coherent North American horizontal land mass that they were not doing much with. A perverse nod & a wink goes out to the CHICOMs from Wall Street that they out-assholed themselves in naked imperialism.

There IS a better way that war-loving Rogoway hasn't thought to advocate: DECENCY.

Starting with making America decent and stop taking lands for oil/drug crops by removing secret society members from ALL USG positions, we can show the world that a large nation-state can exercise SELF-CONTROL over its 25% psychosociopaths. The 35% decent CHICOMs should follow our example, evict their criminals from social fabric power and instead use Chinese ingenuity and technical know-how we all admire to DEVELOP THE DISPUTED ISLANDS AND SHARE THE PROFITS WITH THEIR NEIGHBORS.

Decency.

What a concept.

This is another way Nation-State Wars (NSWs) are instigated: place your compliant milsheeple into hot zones so they can be hopefully killed to get a knee-jerk, civsheeple revenge reaction to get Wall Street's war. Watch Tuchman's "*The Guns of August*" documentary to see how this you-killed-one-of-us, psychological con started WW1.

“The Guns of August”

[youtube.com/watch?v=h4zPg5Kv_ug](https://www.youtube.com/watch?v=h4zPg5Kv_ug)

Without a draft, there are no moral, conscience-following ADULTS in the "*All Volunteer Force*" (AVF) USMIL who would refuse to deploy on this illegitimate mission.

The American civsheeple 70% hypnotized by Illuminati-controlled TV/internet/cell phones and 70% on drugs (you figure out how much overlap if any!) don't-give-a-damn so long as their comfortable AmeroHive stays intact--which they illogically ASS U ME is the (+) positive consequence of letting "*our*" psycho-sociopaths run American government, business, media--all facets of life. They nod & wink at Ameroassholes thinking they will do the dirty work for them because the decency bottom has fallen out since the 9/11 false flag attack moral panic.

Real Peacekeepers Build Walls to Keep Psycho-Sociopaths Out

News Story: Baltic Nations ask for NATO Troops to Do Their Jobs of Defending Selves

<http://news.yahoo.com/baltics-ask-nato-thousands-troops-135444386.html>

Disgusting. You want your Russian neighbors to stay out? BUILD WALLS. Fortify your border like Finland did with the Mannerheim line. Don't be lazy weaklings asking NATO to use our Soldiers' bodies as inadequate human shields for you.

Human history cannot be understood without basing ALL analysis on the 25/40/35 human behavioral split factored into both RACKET and HIVE theories.

Pearl Harbor-9/11 were fear mongering but there is a more subtle way to drag the masses to war by TV propaganda mind control and the ruling criminal class going to war on their own using on-hand Soldiers/weapons/supplies while representing the nation at large and committing us all to it--without our consent.

Its not like we haven't seen European wars result with changing border lines on maps in psycho-sociopath's offices that result in civsheeple being shelled and murdered by their thugs. Step 1 if you want your border trace to keep out garden-variety foot gunmen with AKMs (assault rifles) and RPGs (rockets) out is a sensor-security fence backed by Quick Reaction Forces (QRFs). No small, anti-personnel land mines that civsheeple can stumble into and set-off—stance taken in honor of Princess Diana's efforts that cost her her life. Call this "*fencification*". Step 2 to keep thugs-in-vehicles out, is large land mines, obstacles like anti-tank ditches, razor wire (very nasty stuff!) backed by guard towers generically termed as "*fortification*". Step 3 is erecting an actual WALL at least 20 feet high that blocks not only movement but observation, too. Call this "*wallification*". There are more forms of military force than running around gunning things down or dropping bombs. This all falls under Combat Engineering---but Sappers never make it to the top positions in Western militaries whose Illuminati over them want wars not to prevent/smother them. Direct-fire milnarcissists tend to be who gets the top slots in Western

militaries. A moral military would smother conflicts by Combat Engineering.

PeaceMaking Combat Engineering Steps To Prevent/Smother Conflicts

- * Fencification
- * Fortification
- * Wallification

Notice none of this happened in the 1990s when parts of Yugoslavia broke away because the separatist politicians naively thought lines on maps somehow mean something to psycho-sociopaths who see unarmed villagers they can walk in and gun down or stand back from the high ground and drop high explosive shells on them.

The Death of Yugoslavia (TDOY)

Parts 1-6

A Cautionary Tale

As long as 25%er psycho-sociopaths run the figurehead governments and militaries/police they remaining 40/35ers will be either dragged into war or made the victims of war by them. Its not enough for the 40/35ers to be REFUSENIKS and have a mass protest where the police/military will close off the area then open fire on them. Only a general strike where the 40/35ers refuse to make war widgets and war supplies will have any significant impact on possibly getting the psychosocios running the government to veto their plans. However, with the AVVFF in 1969, the USMIL is now populated by 25ers and 40ers who will do whatever the Illuminati tell them to do--so they can go to wars without any consent of the majority of the govnrned even if the latter were to wake-up from its TV-induced

stupor. The cannon fodder-in-being AVVFF can use war widgets and supplies previously constructed before the sheeple realized and rejected a war to prosecute wars without the latter's approval.

Everyone should watch especially USMIL personnel.

Bombard & Occupy MIL malpractice

Fundamental incompetence is you can't defend a position--or town at the spot with DF weapons you must hold any surrounding high ground out to at least rocket/tube artillery range---this is NOT simulated in USMIL war games subsidizing infantry and tank narcissism Moreover, if enemy has aircraft defense must include going underground to shrug off aircraft bombardment and go after tacair at its bloated air bases if you have no tacair and/or overmatching air defense guns/missiles yourself to shoot them down

Depopulation drives all Illuminati thinking; after the Yugo civil war began under HWB but did not depopulate to levels they hoped for, secondary goals of kaching took over. The USMIL offered to tacair bomb the Serb artillery rininging Bosnian towns and occupay afterwards with peacekeepers to cash-in \$\$\$ since the butter Clinton administration had severely cut back MILINDCOMP budgets

From this peacekeeping Racket aligned to the Rothschild Illuminati Democratic party's faux humanitarianism was born the LAV-III/Stryker armored car brigades that have helped ruin the majority of the U.S. Army into road-bound land mine kill. When you watch TDOY you will see tracked TANKS as the decisive ground maneuver and peacekeeping/making weapons: even U.N. M113A3 *Gavin* light tanks are shown! However, the Clintonistas didn't want to improve the warfighting potential of anything when they spend money so they instead wasted billions on LAV-III/Stryker wheels. What was not understood at the time was replacing Clinton with W. Bush supposedly a right-wing conservative did NOT result in a repudiation of Army wheeled weakness in favor of tracked tank war-winning/ending because going overseas and getting hurt furthers depopulation goals and extends the occupation Racket in Rockefeller Illuminati death flavoring. With American blown and burned up in LAV-III/Stryker and *Humvee* wheeled trucks, the right-wingers use blood revenge lust to inflame the Amerosheep to keep feeding young men/women volunteer/victim bodies into the Afghan and Iraq civil wars. Not unlike the sunk cost blood lust the Yugoslav factions constantly used to not yield any territorial ground during any peace settlement negotiations. Wheeled trucks are obsolete and criminally incompetent means for wars--be it peacekeeping or peacemaking as they are easily ambushed along roads/trails they can't avoid because they lack off-road, cross-country mobility.

Where the American Hive is Headed: Military and/or Environmental Disaster

As said before, the evil elites are learning, sheeple are not. The QWFSW's report written in 1954 advocates the draft as a way of terrorizing young people into their rule and giving up believing in God. What's fascinating is the manual composed in the early '70s hasn't factored in that the draft back-fired on the Illuminati by the anti-war movement effectively forcing an end to their Vietnam occupation Racket because the desire for self-preservation was not factored in. The AVF composed of weaklings wanting to fit in solved this by creating a ready pool

of willing victims to any war Wall Street concocted. However, when the AVF victims returned home in caskets or mutilated bodies their friends, family members and parents began to stand up for their self-preservation even if their heroes in uniform would not. This is the only reason why hard body armor and land-mine resistant vehicles were supplied to us in Iraq/Afghanistan. Again, the Illuminazis took notice of the push-back and sought secret measures to not have it happen again like getting rid of as many mine-resistant trucks as possible once the Iraq/Afghanistan occupations dwindled down.

This isn't the full extent of the Illuminazi's learning lessons.

Bad Faith Military Female Narcissism Latest Slam on Dwindling U.S. Military Efficiency; Robotics Making it All Moot Point

"What matters in war is VICTORY--not prolonged operations, however brilliantly executed"

--Sun Tzu, The Art of War

Liberal Democrats (LibDems) are pushing 20% physically weaker women into the U.S. Army and marine infantry in bad faith to further erode military efficiency while feeding the women guinea pigs with triumphalist visions of Female Military Narcissism (FMN) to co-exist with the current Male Military Narcissism (MMN) embraced by Conservative Republicans (ConPubs) that has fatally harmed American ground maneuver over the years by its refusal to combine arms or use mechanical advantage to overmatch opponents to end wars-- instead of prolonging them for Wall Street profits. Whatever happened to the 1st woman West Point graduate? Did we make a stamp or coin with her pretty face? Or was such vain-glory forgotten while the more important issues of force structure and design went neglected resulting in military debacles on Koh Tang Island, Beirut and Mogadishu? Both the LibDems and the ConPubs want to instigate and prolong wars for Wall Street "MILINDCOMP" profits and hegemonic goals like world depopulation.

THAT MOMENT WHEN YOU REALIZE

**YOU WERE NEVER FIGHTING TERRORISTS,
YOU WERE ACTUALLY FIGHTING FOR G.O.D.**

Both parties act out of bad faith such that their inputs should be frankly disregarded by the military as left or right-wing flavored military efficiency sabotage. The U.S. military needs to wake-up and save itself--and start doing its job of defending the U.S. Constitution and the American people--not act as thugs for Wall Street. The current side-show of how well 20% slightly weaker females will behave in the infantry--or not--is great divide & conquer to keep us infighting--while in the minds of the elites its irrelevant as they delude themselves that future wars will no longer involve People As Weapon Systems (PAWs)--the dismounted infantry narcissism of WW1 relived in high-tech gadgetry today resulting in very financially profitable defeats in Vietnam, Iraq and Afghanistan--but increased public awareness of being robbed of their sons/daughters in war Rackets. Game over, even in the all volunteer (victim) "*force*" (AVF) if the sheeple negatively react to their door mat sons/daughters coming home in flag-drapped coffins or missing limbs and body parts.

The elite 1%ers also no longer want People Operating Weapon Systems (POWS) like maneuvering in light, airdroppable, amphibious and heavier tracked tanks that can move cross-country away from roadside bombs and advance in the face of enemy fires to march on enemy centers of gravity--like the 3rd ID (M) did to take Baghdad because if combined with border and sectarian walls, such WW2-style mechanized forces could smother to end conflicts too quickly harming their bottom line dollars.

OMG SADDAM HUSSEIN HAS KILLED 50,000 IRAQIS. WE MUST GO THERE AND STOP THE KILLINGS NOW.

REPUBLICAN PRESIDENT G.W. BUSH

SO WE WENT THERE AND KILLED 200,000 IRAQIS.

**5000 DEAD AMERICANS

NOW WE OWE \$6 TRILLION
CHENEY MADE \$39 BILLION**

ISIS WANTS TO KILL US

**GOP: IT'S ALL OBAMA'S FAULT
GOP: LET'S DO IT AGAIN**

POINT COUNTER POINT

What the richest 1%er elites want for the U.S. AVF military "*hired help*" to do is STFU and be People Executing Weapon Systems (PEWS) from a remote distance--custodians for robots--with their male & female bodies not involved so they can't push-back to any immoral orders like a SPC Bradley Manning--nor become embarrassing walking war reminder casualties back at home that could--possibly--rile the sheeple up into blood guilt political action to defecate on the 1%er's CIA-instigated wars for Wall Street.

Future Robot Wars

<https://youtu.be/-0VgrSSI/Goo>

This many videos decrying the "*Terminator*" technology-worshipping fantasy of machines becoming our primary enemies foolishly overlook the actual, REAL threat that machines are being **used by criminal HUMANS** to kill and maim us--we the decent folk.

You can't have a war on terrorism because that's not an actual enemy, it's an abstract. It's like having a war on dandruff.

That war will be eternal and pointless. It's idiotic.

That's not a war, it's a slogan. It's a lie. It's advertising, which is the only art form we ever invented in America. And we use it to sell soap, wars and presidential candidates in the same fashion.

GORE VIDAL

The U.S. Navy and marines still pack thousands of men and women into thin-skinned, bloated surface ships like aircraft carriers hoping an enemy will sink them but this "*Remember the Maine!*" ploy will probably only work one more time in the 21st Century--after this, the calls for complete unmanned, push-button warfare will be insufferable. Leading the 1%er charge is the appropriately evil-named Secretary of the Navy, Mabus who declared recently the F-35 "*will be the last manned strike fighter*"--exactly what the elites want: the farther away you are, the easier it is to murder. Future wars will be started by the criminal politicians at the instigation of their alphabet soup intel agencies without any sheeple democratic debate, followed

by no one in uniform actually fighting--they will have "*cut out the middle man*"--and woman.

The elites have been squeezing the American worker out of existence, now technology is making it possible for them to get rid of Soldiers. the disgusting CIA document "*Silent Weapons for Quiet Wars*" states:

"As time goes on and communication and education improve, the lower-class elements of the social labor structure become knowledgeable and envious of the good things that the upper-class members have. They also begin to attain a knowledge of energy systems and the ability to enforce their rise through the class structure.

This threatens the sovereignty of the elite.

*If this rise of the lower classes can be postponed long enough, the elite can achieve energy dominance, and **labor by consent no longer will hold a position of an essential energy source.***

Until such energy dominance is absolutely established, the consent of people to labor and let others handle their affairs must be taken into consideration, since failure to do so could cause the people to interfere in the final transfer of energy sources to the control of the elite."

You could and should cry out that FIREPOWER alone can't win wars that MANEUVER is needed and that must be efficiently done with humans.

However, who says the 1%ers want to WIN wars?

They don't.

They instigate and prolong them as long as possible to enrich themselves and cull the sheeple herd. Ponerologists have proven that 25% of ALL human beings are psychopaths or sociopaths--having no conscience or refusing to live by it. The 1%ers are ALL psycho-sociopaths--that's how they got rich--by walking all over decent people. This is why God Almighty says rich people are not going to get to heaven--they are another country--and you don't belong in their club! Be glad. Their end is not going to be pretty when they have to answer for their many crimes committed to God Almighty. 40% of the rest of mankind are weak, apathetic types who do whatever some "*authority figure*" tells them to do. Combined together, they are the 65% proven in the Milgen experiment who shocked mock

prisoners to death. This leaves only a 35% minority of conscience-doers who will do what they think is right--no matter what--even if it means they don't make general. We used to have a lot of 35%ers in the USMIL when we had a draft and forced adults who don't need self/peer lifer validation into the service--we actually won wars against difficult opponents then--WW2 and Korea come to mind--and some battles in Vietnam when smart, external cause-->effect objective reality, common-sense was applied--but the subjective-delusional, inward, fascist bureaucracy has been growing since 1945 by the 1%ers so their schemes couldn't be thwarted again by moral professional men like Generals James Gavin, Matthew Ridgway and George Patton.

The evil U.S. war future isn't going to have G.I. Jane with a Ranger tab or a marine eagle, globe and anchor (EGA) assaulting fortified enemy positions criss-crossed by inter-lacing arcs of fire, their Jennifer Anniston Aveeno soft skin shredded by razor wires and bodies exploded by high explosive mines and shells--unless this BS WW1 re-enactment is needed to blood rage the sheeple to blindly support Wall Street wars. Instead, G.I. Jane with her 20% less physically strong physique will be sitting behind a computer screen with a Ranger tab or EGA on their shoulder or breast pocket as a dumb jock narcissist initiation rite-of-passage, egobadge shared with their equally vain men while they both joystick control bombs onto civilians and designated bogeymen. Or they will perform continual maintenance on the war robots. As time goes on, technology directed by the 1%ers in politics and the 65%er Milgenists within the volunteer military will be used for less and less efficient fighting covered up by more Teenage Ninja turtle-style BS posturing like "*presence patrolling*" in wheeled trucks amongst weak civilians whose country we are occupying hoping for a relatively easy scrape we can then call "*combat*" and award ourselves egobadges--while any moral, efficient center of American military action has been functionally ripped out by war criminals.

The deliberately weak U.S. military will deploy & bleed on cue of war criminals regardless if its misled by liberal or conservative delusions of either female or male military narcissism until such time that robots take over and the ruling psycho-sociopaths will be completely free to wage wars at will for their profit a plutocratic egos.

Welcome to the Brave, New World of Military Corruption.

What Can and Should We Do About It?

If you are a woman, stop trying to be in the infantry as a pawn in anyone's political game. Remember why you are supposed to be in the military SERVICE.

The U.S. Army's Ranger school should be completely overhauled into a school teaching COMBAT OVERMATCHING tricks and mechanical advantage, combined-arms weaponry instead of a stupid dumb jock go-without-sleep gut check. Then we'd have less Cisternas and *Blackhawk Downs*! People should be afraid to go to Ranger school because its DANGEROUS, serious war practice not another BS psycho-sociopath harassment package. Time to grow up about war. 6-pack abs will not save you from explosions as former SEAL Scott Helvetsen's tragic end warns us.

The USMC should be completely disbanded as its malignant narcissism has missed the fact that all USN surface ships will be sunk in a global war, precision-directed munitions age against capable foes. We knew this 70 years ago at WW2's end with German guided bombs sinking the troop ship *Rohna* in 1943 and human-guided kamikaze planes incinerating dozens of ships off the coast of Okinawa in 1945. Then, in '46 General Geiger saw the nuclear blast at Bikini atoll water vaporize dozens of sample ships. The USMC didn't read the memo. Too much moola perpetuating the BS Iwo Jima amphib ship Racket. They spent too much time admiring selves in the mirror and trash-talking the other services to understand modern war.

The U.S. Army should resist this evil, immoral DoD slide into indecent, unmanned robotic firepower wars on moral and efficiency grounds. Maneuver is the way to end wars by smothering the fighting and forcing the belligerents into political settlements---the Army must become the world's leaders at rapidly getting governments on their feet and walling off trouble-makers--not chasing them through open borders around every bush in continuous, feel-good, cash-raking operations.

What matters in war is VICTORY--we should demand it.

Bombard & Regime Change: Exactly what Wall Street & USAF Psycho-Sociopaths Want: Global Strike From a Safe Stand-off from Manned Aircraft

News Story: csmonitor.com/Technology/2015/0519/Why-the-US-is-testing-hypersonic-weapons-video

USAF narcissists can place their cup of coffee down, scramble to their B-1/B-52/whatever--it could be a sexy converted 747--and out launches their "*Global Strike*" sub-orbital ballistic munitions to Land Attack at Mach 5 compared to the Navy's slow, subsonic TLAMs launched from their manned egowagons--surface ships, subs--Wall Street can bombard anyone who opposes them without risking any American milsheeple who if they died might upset their civsheeple parents. Exposed milsheeple on the ground on foot without tanks or packed in vulnerable surface ships/carriers/amphibs are reserved for bait to instigate wars where civsheeple blood rage is needed. For all other wars against easy, Third World shiiteholes which the Amerosheeple don't care about the USAF and USN can land attack to their heart's content with expensive munitions for max Wall Street \$\$\$\$ kaching!

Global Environmental and Human Tragic Consequences of AmeroHive Consumerism Racketeering

While the 2+ million compliant, volunteer-victim milsheeple make war all around the globe wack-a-moling rebels and bogeyman nation-states created by CIA instigations for max Rockefeller Illuminati kaching!, at home American civsheeple live selfish, consumerist lives destroying themselves in Hive-created accidents and diseases that collectively over time will destroy Planet Earth's environment and ecology mocking God's decision to give man dominion over the planet in the first place as per the Rothschild Illuminati's opposing "*butter*" NWO scam to the former's war Racket. What's mega infuriating is all the wailing and candle lighting the survivors of victims of car and plane crashes do--and not a single one of the sheeple has had the decency and brain power to demand substantive changes in the way the Hive is run. Its

like all they can do is cry. Thanks a lot! if you are a victim in a car/train/plane crash. Of course, the Illuminati don't-give-a-fuck about the civsheeple—don't hold your breath that they will make any safety improvements when they see 2 million Amerosheeple being born--and "*only*" 1 million dying from all causes. That's a major problem for the Illuminati's sick, psycho-sociopathic minds. More crashes, please, NTSB!

News Story: mirror.co.uk/news/world-news/georgia-southern-university-five-nursing-5567014

Its been said, "***You can't help those who don't help themselves***". The Puritan ethic used to be you prayed like everything depended on God--and you worked like it all depended on you. Today's sheeple don't do shit (either). They just cry at funerals. Mourning isn't going to do jack shit for anyone—***its up to us to make a decent way of life***—not God—and we have so far utterly failed.

Americans especially, **fundamentally disrespect and ignore the environment**. You see this in our incompetent military that ignores The Battle Against the Earth (TBATE) and wants what

they think are easier, maintenance-free rubber tired trucks then wonders why with their high ground pressures they are constantly getting stuck so they stay on roads/trails where the enemy blows them up with bigger and bigger land mines (The Battle Against Man). In civvy street, the civsheeple drive fundamentally unsafe, gasoline-powered cars—even the idiotic USMIL banned gasoline for all its vehicles after decades of burying burnt corpses, ash piles and skin-grafting screaming survivors in burn wards. Memo hasn't been received yet by the civsheeple. As Hepburn shows in Chapter 2 of Farewell, America, American materialistic resource-grabbing is based on Earth environmental consequence irresponsibility. Corporations have no social responsibility and governmental bureaucraticization has made a legalistic mockery of the concept of safeguards. Amerosheeple are in laws-of-physics, kinetic energy-denial about their unsafe gasoline cars as well as flimsy tube & wings planes they drive/fly/ride in--with of course inadequate training—and sleep.

DO SOMETHING TO IMPROVE SAFETY, don't just cry.

5 beautiful Georgian women almost done with their medical training were murdered by a sleep-deprived truck driver when

he plowed into their rear gasoline fuel tank--which exploded burning them to death. A glorious end in the eyes of the Illuminati. The driver says he wished he had died in the fiery crash he created--yet you don't see him committing suicide out of any kind of pennance/honor so STFU. Talk is cheap. What he could do is tell the truth that his asshole corporation didn't provide him enough sleep AND—to demand that some form of “*car catcher*” be added to all trucks to push smaller cars away so at least their gas tanks don't explode. Or to get as many cars/trucks off the road by American adopting a safe and sane 200+ mph High Speed Train system like civilized smart countries like Japan, China and some Euros do. Nope all every Amerosheepie wants to do is cry and keep the BS Hive that murdered their love ones going.

Small Plane Deaths 102

If the sheeple don't have enough of a visual illustration, recently a small single-engined Piper PA-24 *Comanche* plane had its engine conk out (ask movie star Harrison Ford about this) and it smacked into the concrete divider of an Atlanta highway and thousands of sheeple saw 4 people burn-to-death leaving nothing but aluminum ashes. Many cell cam video captured the event, yet not a single one of them has put 2 and 2 together and demanded the FAA mandate that all single-engined planes

have Recovery Parachutes (RPs) that would have saved these 4 people—one a pretty lady and her fiancée—and a small dog. Or the 4 that were incinerated days later in a similar Piper PA-24 crash in Texas.

Young couple needlessly burned to death in plane crash with their dog. FAA refuses to date mandate Recovery Parachutes that would have saved them.

For What's Its Worth (FWIW) I emailed the supposedly responsible FAA safety bureaucrat--who happens to live in the Atlanta area and may have actually seen the result of his agency's bureaucratic incompetence--hoping for some human compassion/integrity/empathy to sway him. Nope. Nadda. No reply. Probably a psycho-socipath full of bureaucratic excuses (shit). The message is below with his guilty name included, fuck him for doing nothing.

Dear Mr. Noles,

You might have witnessed first-hand, the fiery, 4-people-dead, single-engined plane crash tragedy in Atlanta. Another 4 were killed yesterday in Texas.

Four family members killed in Texas plane crash

By Jim Forsyth SAN ANTONIO (Reuters) -

Four members of a Texas family were killed on Saturday when their small plane crashed north of San Antonio, off...

All 8 people could have been saved had their planes been equipped with a Recovery Parachute (RP) deployed upon engined failure. Pilot, Engine, Airframe safety obsession is NOT ENOUGH. We must respect the laws of $F = M \times A$ physics on Planet Earth and have a PLAN B if/when PEA fails.

How many more will die before the will of the American people which is to avert these tragedies is acted on by YOU, the FAA mandating that ALL feasible single-engined planes be equipped with Recovery Parachutes (RPs) by x date?

People flying small planes have a social responsibility to not turn them into flaming bombs murdering themselves and people on the ground. I realize it will cost them more \$--but they shouldn't and wouldn't be flying frankly if they were not rich (middle class or higher). They could buy the RPs on credit, too. "If there is a will there is a way". Its time the FAA make the safety "will" happen.

Typical BS Pilot Relativity Arrogance: Cargo Pilot Eats Her Words in Fiery Death

dailymail.co.uk/news/article-2394257/Shanda-Fanning-pictured-Woman-UPS-pilot-killed-fiery-Alabama-plane-crash.html

"When friends asked if she ever feared for her safety flying so often she told them that 'far fewer deaths happen due to airplane crashes than to car crashes'."

Yeah, right.

All it took was 1 of those never-happens airplane crashes to turn this beautiful lady into a burnt corpse. All large cargo planes without passengers should have ejection seats. Too extreme for civsheeple and their BS-it-won't-happen-to-me attitude? We should FAA mandate it. Life and the laws-of-physics is not some huge lark.

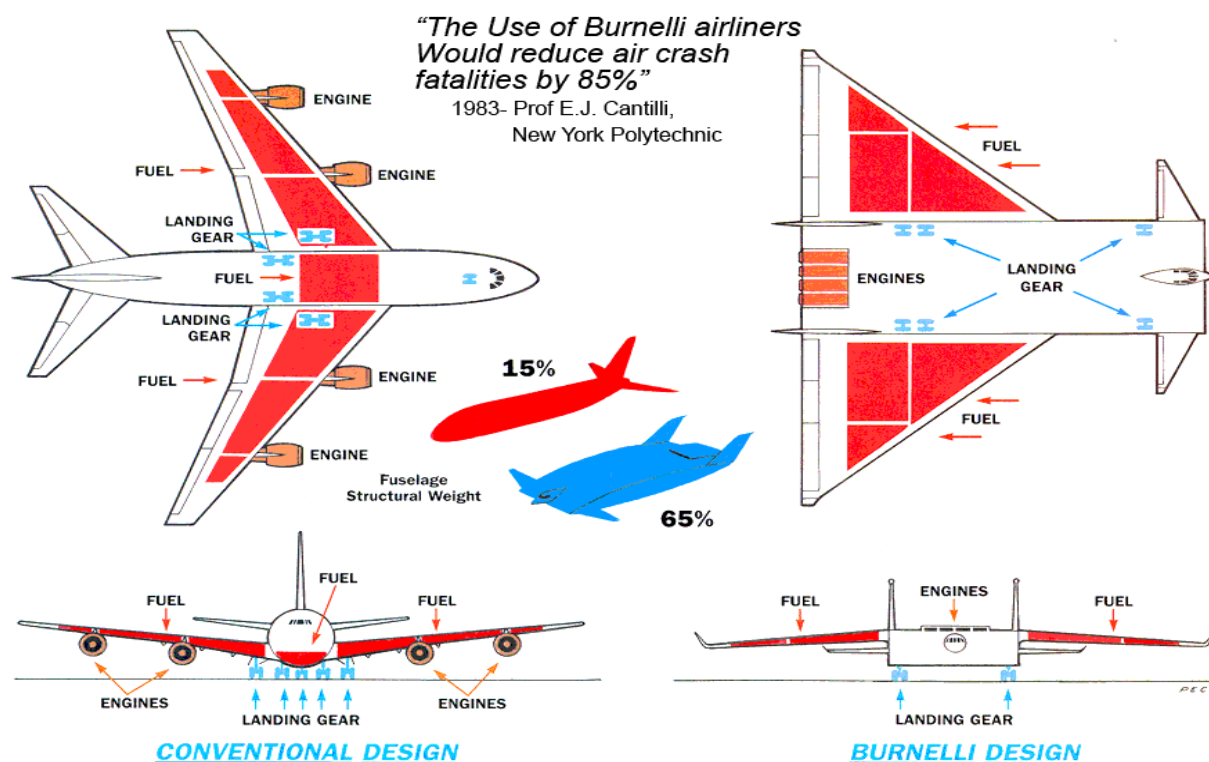

THERE ARE TOO MANY CAR AND PLANE CRASHES.

1. Comparing the two is a logical fallacy and irresponsible ignorance of aviation's on-going unsafe corruption--fed by pilot stupidity that ignores TBATE.

2. Tube & Wing planes need to be replaced by BWB Burnelli types that are crash-worthy:

aircrash.org

MOST AIRCRAFT DEATHS UNNECESSARY

Aviation is still in its infancy; give it a chance to grow up and they will see that I am right. The Lifting Fuselage is the first new configuration since streamlining was first introduced, and my plane carries more, carries it faster and safer."

V.J. Burnelli - 1950

3. Until then, pilots flying tube & wing transports should sit in EJECTION SEATS. Sorry if this ruffles pilot reality denial. Small planes have RPs.

4. Cow Catcher-type devices need to be fitted to both trains and trucks to not crush and explode car rear gas tanks incinerating those inside

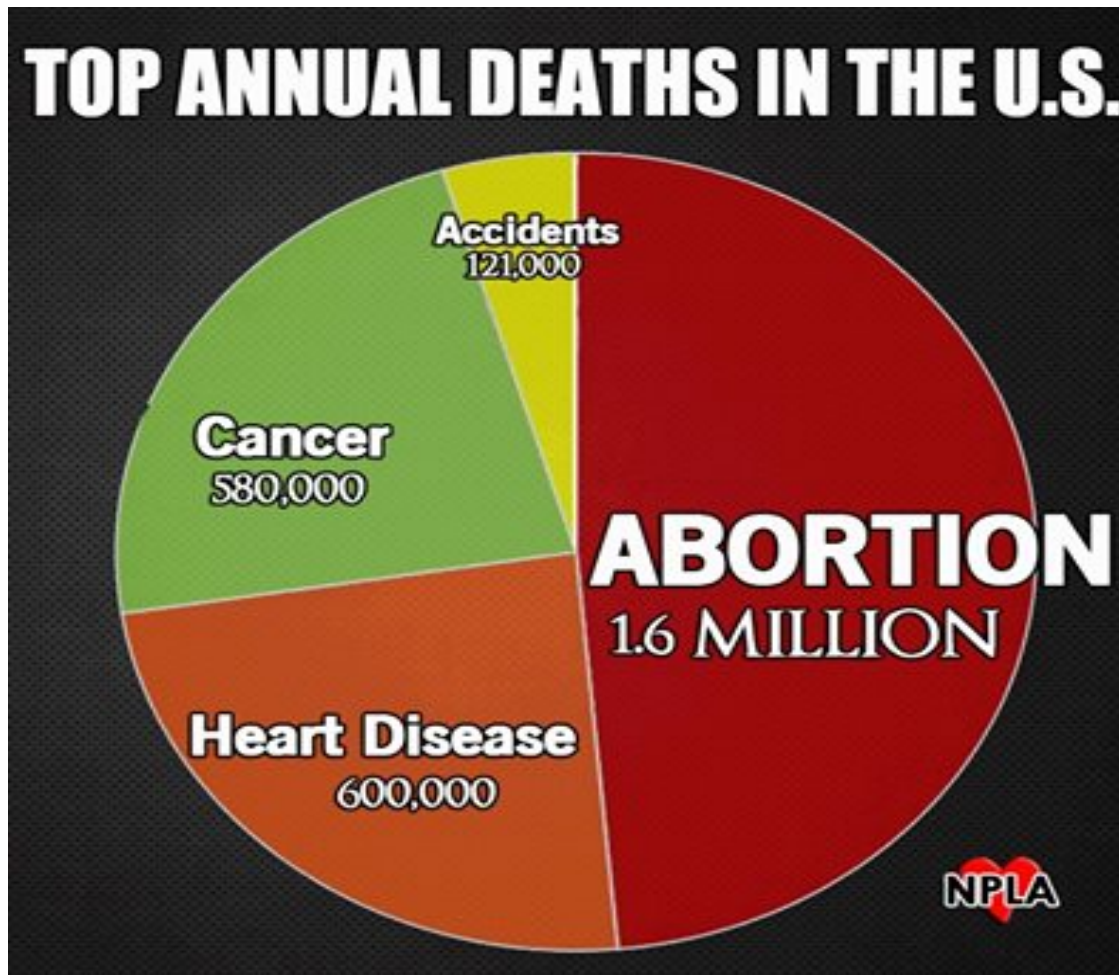

Cow catcher type devices needed under both trains and trucks; 1800s folk figured this out, what's our excuse?

We don't take life seriously, then wonder why we crash & burn?

So its no surprise that if the AmeroHive disrespects TBATE in its transportation that in its manufacturing and consumerist lifestyles is killing the Planet's environment.

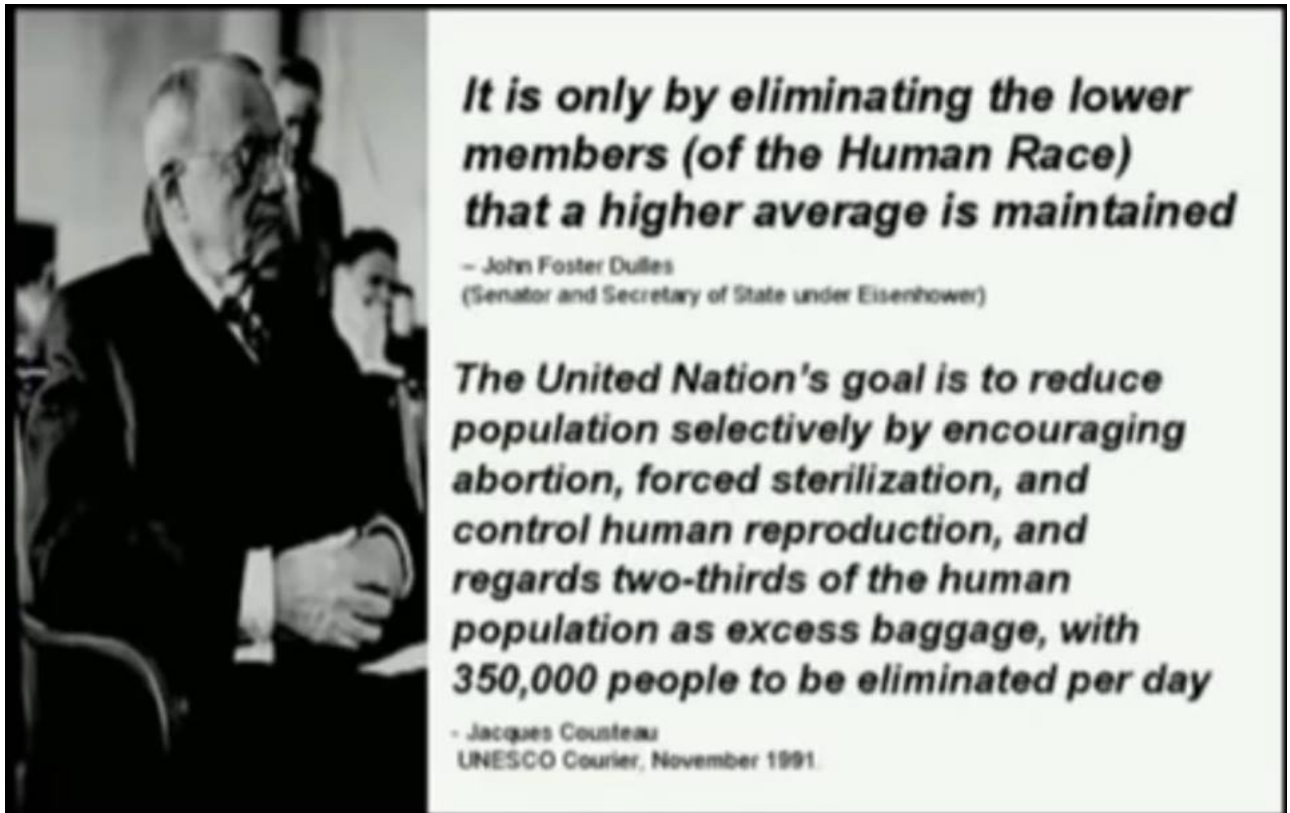

How Many Americans are Dying? Not Enough for the Illuminati?

With over 2M Amerosheep being born and only 1M dying, the Illuminati has zero interest in safety measures to lower accident deaths. Then there's the curse on our land of the over 1M abortion murders being done each year. Until you realize the psycho-sociopathic rich does not give a flying fuck about you, you'll never face the reality of what they do to destroy you—us--all of us.

No safer airliners, no safer cars/trucks, no recovery parachutes, no Burnelli BWB airliners, no High Speed Trains, no nothing.

THE RICH HATE YOU AND WANT YOU DEAD.

What is Decency?

AMCE can be only viewed in 2 ways: either it was written in good faith to boost up the mindset of the have-nots or as a sinister, bad faith LLPH blank check for the rich--knowing damn well they'd be in a superior economic and political position to go about resource-grabbing—just as Hepburn documented took actually place from 1776 to his time, 1967.

AMCE = Everyone equal starts on level playing field, go for the gusto!

Or...

AMCE = We the Rich are Going to Grab Everything; you sheeple have your chance, too (hahahaha) ie; a defacto blank check for psycho-sociopathic assholes. A mob of socially-irresponsible individuals consuming out-of-control for a Malthusian, ecology-killing end. Soyent Green is people.

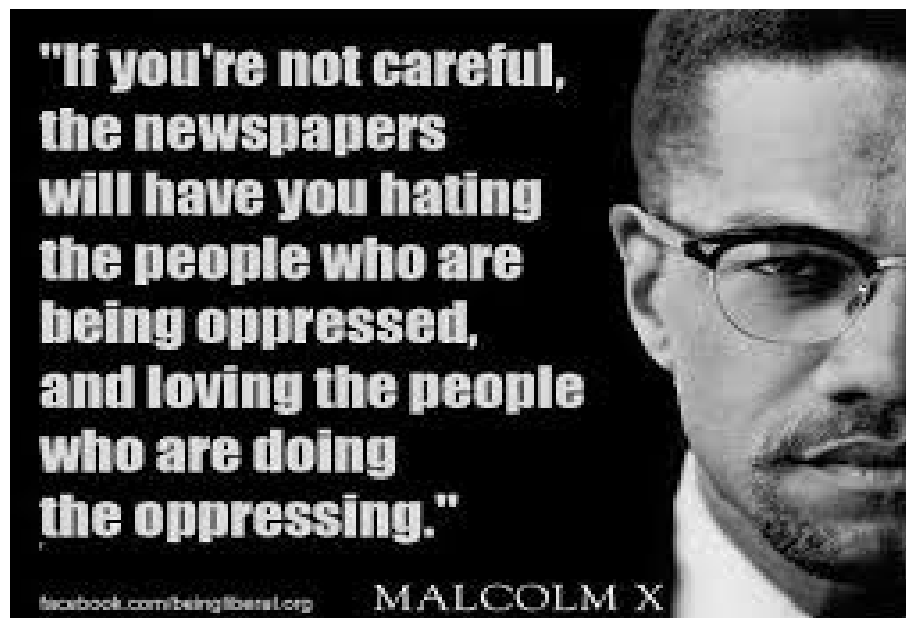

Considering AMCE as an Enlightenment good faith gesture for common human decency smacks of have-not whining. A bunch of people are being treating as unequal, sub-humans so they assert everyone is equal to try to get back to even when the very fact of them claiming it means it isn't true. I think of Vietnamese leader Ho Chi Minh in 1945 stating "*All men are created equal*" and not gaining a single ounce of pro-Democracy, anti-Communist traction from the Rockefeller Illuminati Wall Street run Truman administration. I can see why now. Ho came off as desperate to pull up and be equal--when he should have thought deeper about this and said ALL MEN HAVE INTRINSIC, GREAT VALUE, period including us Vietnamese—that would have rattled some cages. The evil American psycho-sociopaths had already cut-a-deal with their French counter-parts for the latter to regain control of Vietnam in betrayal of the latter helping fight the Japanese. I think a decent President Henry Wallace would have met with Ho, accepted him and his mildly socialist government with a French protective status so outside economic help would be welcomed in as long as the Vietnamese people would in return get a Decent Standard of Living (DSOL). More on this latter. No

Vietnam war (1945 to 1954) against the French. No Vietnam war (1958 to 1975) against the Americans. A strong American ally starting from 1945 to the present day. A combination of socialism and capitalism that has taken over Vietnam today which doubly makes the 2 wars needlessly moot point and tragic.

If AMCE was written in good faith, it would be better worded as:

“All Men are created intrinsically valuable, made in God’s image—but with a fallen nature. All men deserve to be treated decently. Men that overcome their bad natures, living their lives decently and in good faith towards other men have an inalienable right to life, liberty and the pursuit of happiness”.

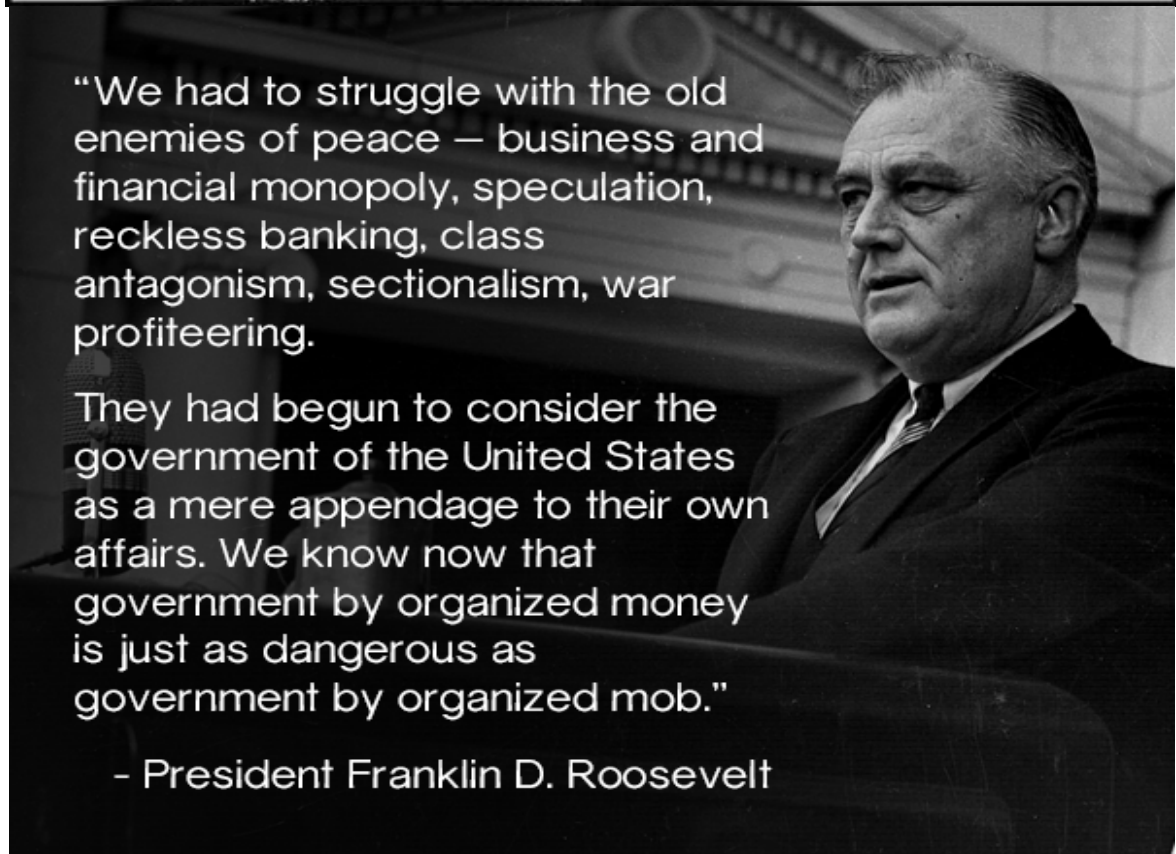

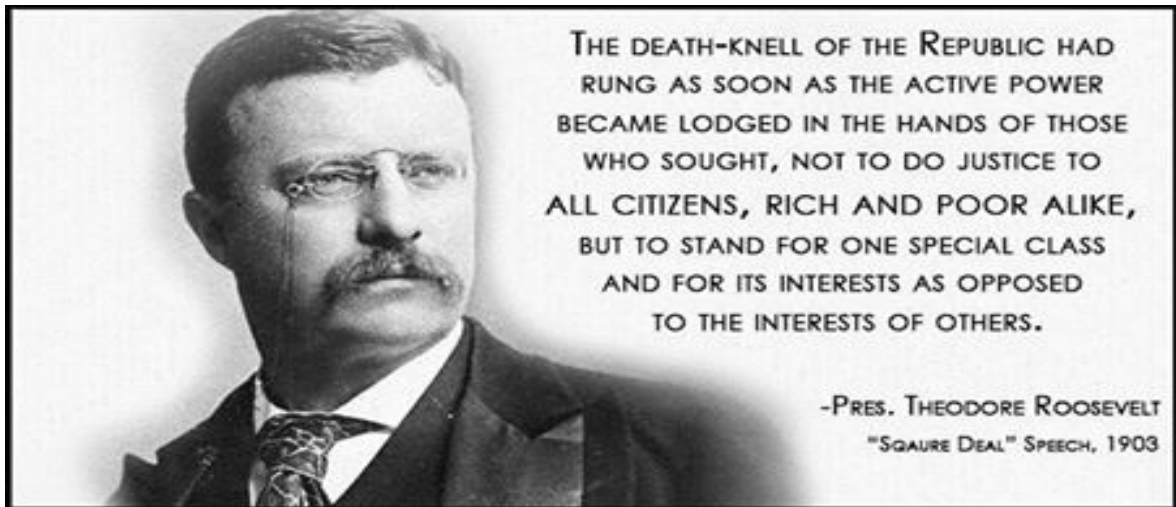

The above reflects the true nature of the human condition and offers the hope of a Greatest Common Denominator (GCD) equal to if not superior to the ADI’s dangerously wrong AMCE lie. It embeds a serious warning that evil resides in ALL men--and that if men give in to it, they must not be allowed to unrestricted life freedom. If the ADI writers wanted to say all men have value and deserve to be treated decently etc.--they should have said so instead of beating-around- the-bush with a relativistic, quantitative justification attempt. That the principle writer, Thomas Jefferson did not say all men have value and should be treated decently etc. but instead said *“men, here we are on the same start line—now lets go live it up!”*—smacks of a lawyer-talk, sinister ulterior motive—of a rich man—to get more richer and perhaps tolerate some new rich people to be made. In other words, the founding fathers were benevolent selfish assholes. This seems to fit the facts. *“I’m rich and I’ll let you become rich, too.”* The American dream of the immigrants flocking to the Statue of (Illuminati) Liberty on Ellis island. Better bread & circuses. Hardly Pilgrim’s Progress towards morality. However, a far better attitude than today’s Rockefeller Illuminati rich who don’t want us to be even ALIVE--much less wealthy.

The more sinister AMCE explanation is that it's a dangerous lie fed to the sheeple that they would somehow start-off economically equal to the rich land owners and that a level playing field awaited for them to work hard to become rich & corrupt, too—when the truth is that this was an excuse and a pretext for the rich to look down on them when the sheeple failed to become rich in the latter's unequal, rigged game. Remember there are a lot of signers to the ADI—not just decent, benevolent, Tom Jeffersons, John Adams and Ben Franklins. I do think AMCE is a rich man's trick. If it was written in good faith, it shouldn't have beat-around-the-bush and just said ALL MEN DESERVE TO BE TREATED DECENTLY not this everyone-starts-at-the-same-start-line-now-lets-go-off-and-have-a-life-orgy! The word "*liberty*" let's face it—to most unprincipled sheeple-- means LIFE ORGY.

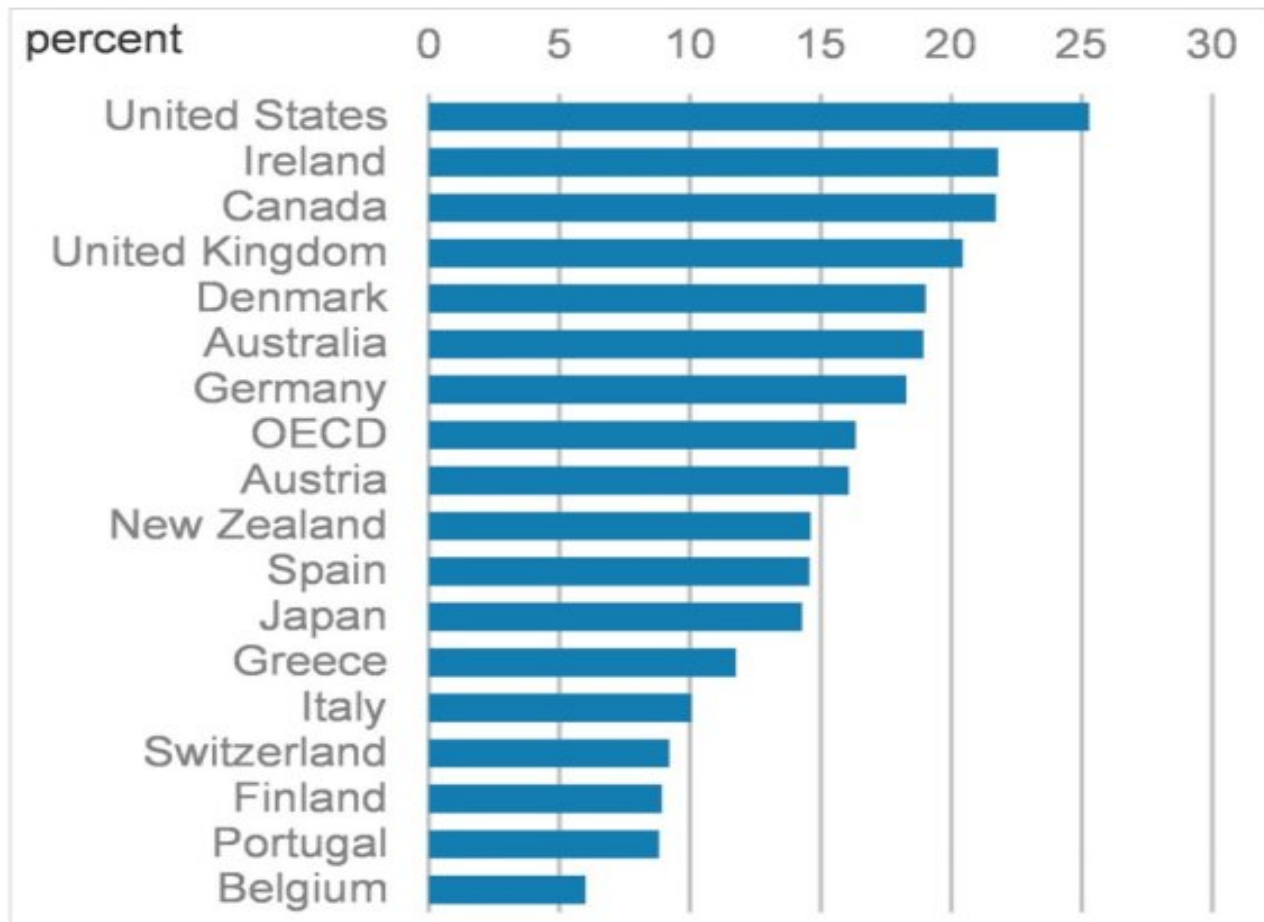

"Liberty" = LIFE ORGY.

To us 35%ers, "*Liberty*" means live a freedom to live a moral, decent life. Our meaning should be the societal meaning and ideal--not Type B personality consumer hedonism--nor Type A personality white collar criminal greed feeding frenzies. Love of money—mammon is not Christian, period. If you want to live for mammon, don't claim to be a Christian—you are not. Be ready for the God's judgment consequences.

The 2 Presidents Roosevelt bucked their Illuminati masters and did a lot of good for the American People; they were almost killed and killed for their decency

Exhibit 4: Share of Low Wage Paying Jobs by Country, 2013

Source: OECD Employment Outlook 2013, Morgan Stanley Research

However, I see this BS Horatio Alger myth of pulling one's self up by one's boot straps as a cruel lie fed to the poor by the rich who have no intention of paying them a decent wage for a decent life EVER if up to them to decide. The way American psycho-sociopaths treat Third World people in sweat shops today was exactly the same indecent crap they got away with Americans at the turn of the 20th century until President Teddy Roosevelt put a stop to it. What angers me is the smug asshole right-wing sheeple who bitterly damn FDR for trying to help the lower classes as if its spoiling some glorious game of fair play economic struggle as if the rich somehow cared for them.

“No business which depends for existence on paying less than living wages to its workers has any right to continue in this country.”

– Franklin D. Roosevelt

This is why Hepburn singles out Teddy and FDR out for praise in his masterpiece expose of American economic debauchery as pillars of decency. Likewise, in the aftermath of the Great Depression instigated by Rockefeller Illuminati Wall Street psycho-sociopaths, British governmental leader Winston Churchill in an interview asked the brilliant question—why are we ALL more poorer than we were just 3 years ago when all the pillars of society are still intact? Earlier, Churchill had told Rothschild to go fuck-off when the latter tried to force him to advance a Zionist state in the upcoming Cairo talks with the Arabs & Jews. This indicates that Churchill was a decent man--though an Illuminati secret society member--he was working for the good of the people—just like Commander Ian Fleming would work for him during WW2 and the common people afterwards despite being in the other country of the rich.

The best example of this un-Christian, right-wing, Zero Sum Thinking (ZST) comes when I was graduating from Liberty University. A faculty member asshole there, Robert Gaunt was lecturing me about how I shouldn't be upset at who was graduating. I told him when I began 3 years before, a bunch of people were with me and were now gone--the stress of having to pay one's way through college getting the better of them. I worried about them that more wasn't done to help them get through the difficult college experience.

Gaunt told me, *"Mike, you wouldn't feel the same way about your degree if they were all with you now."*

I replied: *"Yes, I would. My success does not depend on someone else's failure. Its called Christianity; something you need to find out more about."*

I wished I had punched his lights out. Not very Christian, I know. However, I needed to graduate and start my life as a commissioned U.S. military officer if I was to change any of the ills I saw as an enlistedman and NCO. Gaunt's comeuppance would have to wait for his 15 minutes of infamy here. However, what Gaunt describes is classic BS Zero Sum Thinking—the lie that the value of things are relative to humans some of whom have to lose—which is total non-sense—instead of the truth that the value of things are to be measured against absolute standards of objective reality. And I thought I was attending a Christian university! Here's how ZST is worthless in real life where we are actually all-in-it-together. If we are on say Mars, and the air lock is busted resulting in we are going to die without air, we don't need to think one person is a *"rock star"* and another a mere *"janitor"*—we all had better pitch-in and close the thing, NOW.

You can see this constant betrayal of the sheeple's good faith sacrifices for the British by the Arab revolt lead by Colonel T.E. Lawrence of Arabia and the thousands of Indians who fought and died in World Wars 1 and 2. I'm not just talking about them being given their own land to rule as nation-states. The rich

know there is much more to ruling than being-in-charge and them withholding civil rule skill-sets can be seen in the famous 1962 David Lean movie “*Lawrence of Arabia*” when General Allenby refuses to keep the electricity generating plants working. The Arabs are in charge—but can’t stop Damascus from burning down or people to start dying from lack of medical care. So much for AMCE. There’s more to life than that—and the rich know it.

In Part 2 of the brilliant *Churchill’s Bodyguard* mini-series inadvertently covers this ground extremely well—Colonel Lawrence travels with Churchill and uses his godlike—but earned-in-battle-for-them, respect from the Arabs to save him from mob assassination attempts.

Churchill’s Bodyguard

youtube.com/playlist?list=PLSqKSM2a4b3NmEu4VyTb_Bi8G8bOcJgyk

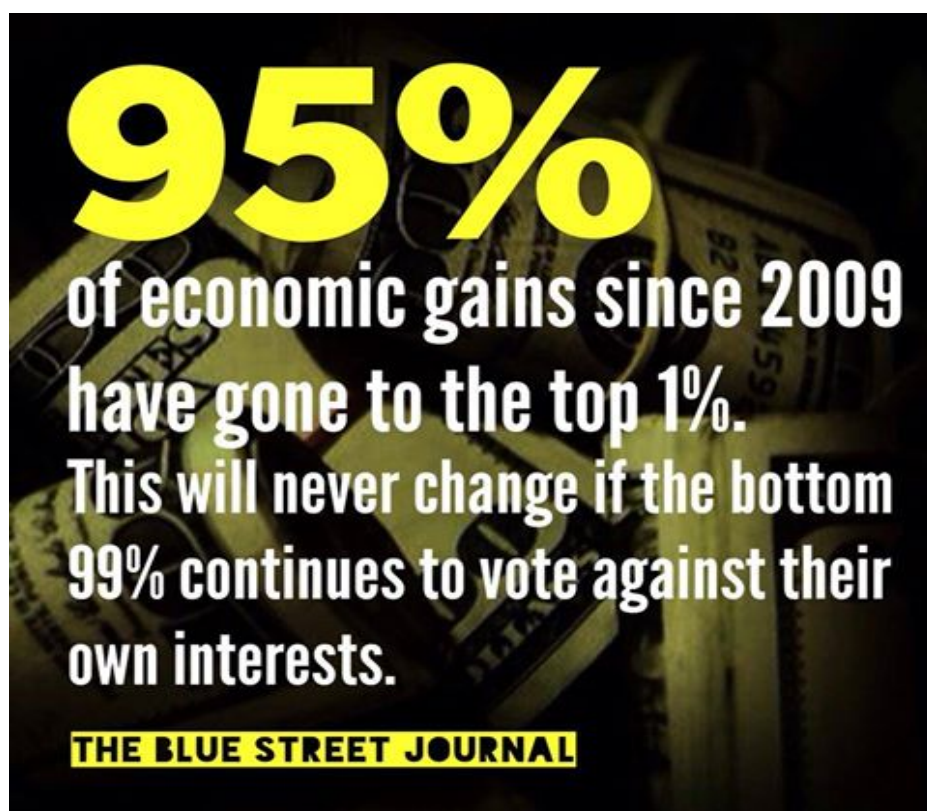

The betrayal the psycho-sociopathic British Foreign Office fed Lawrence and his Arab guerrilla warfare force after evicting the Turks from the Middle East in the former’s Anglo-French Syke-Picot plan was corrected by the decent & moral Churchill-Lawrence at the Cairo conference by the Arabs being eased into nation-state self-rule after a period of British help. This isn’t shown in the Lean movie, instead making Lawrence look like a defeated loser that ends up suiciding himself on a motorcycle while hiding out as a British enlistedmen.

Disgusting.

Laying on us an anti-establishment guilt trip.

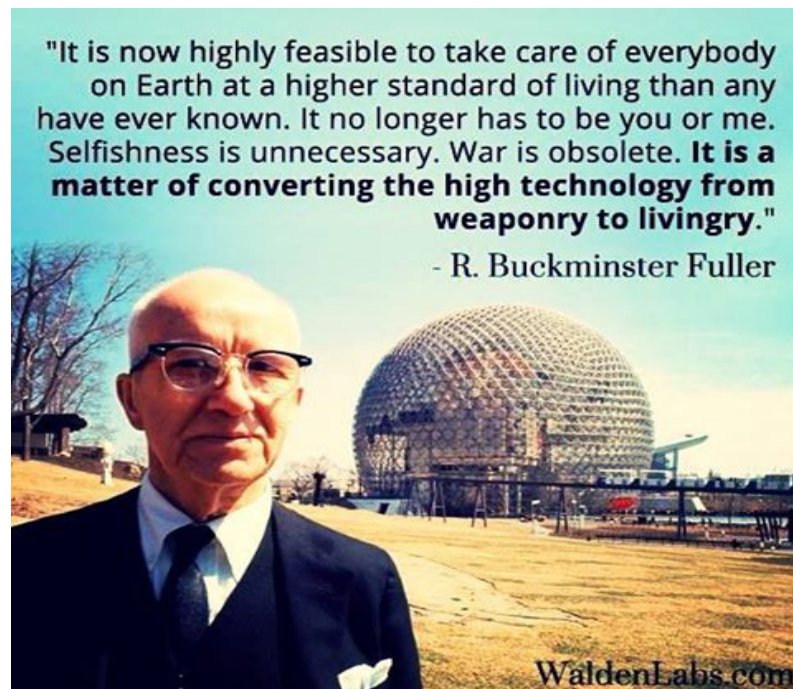

Did you hear that? This is coming from the author who is very anti-establishment—when its warranted. Moreover, this bitter interpretation doesn’t match the inscription Lawrence wrote on his own 7 Pillars of Wisdom book he gave Churchill thanking him for correcting the Arab revolt injustices. They (the Arabs)

got Jordan, Iraq and Saudi Arabia out of the correction—that's pretty darn good by anyone's measure. More than they had living as nomads from tents. Moreover, I am on the side of Churchill and against Mountbatten in giving India their independence. Since then, they have been living literally in feces and their own culture not only looks down on its own people by social class castes, it venerates lower animals and lets them defecate on them, too. I like the Indian people and want what's best for them. However, living in feces is not decent. Sometimes love has to be tough. I am not one who buys into blind cultural equality to exist and perpetuate—if the culture is indecent be it Hitler's Nazis or India's unsanitary cow worship/class snobbery then decency should over-rule.

So what exactly is this decency? Are we going to forever whine that the poor never having enough as one sees watching John Pilger's brilliant documentaries? I'm with Churchill—there are many solutions. Let's meet this issue head-on, NOW.

Decent Standard of Living (DSOL)

If “*decent*” isn’t objective-reality-defined, the psycho-sociopaths will slave-laborize the sheeple or worse roboticize all functions so they don’t have to pay anyone a red cent. The rich think this way—and they are indeed selfish assholes. Vulgarity earned. That’s why they are going to burn forever in hell unless they repent before they die. Can I be any more clear?

Economically, if a man or woman works full-time—40 hours a week—he/she should receive the following FAMILY wages/benefits:

- * 1 Spouse
- * 2 Kids
- * 2000 square foot, Wind, Fire-Resistant Home with Emergency Underground Shelter
- * Running, heated, clean water

- * Heat & Air Conditioning provided by renewable sources not dependent upon power grid

- * Safe transportation to and from work: trains are best

In other words, the above is exactly the living conditions we'd provide in a space ship to its crew/passengers traveling to say Mars. So why should it be any different here on Space Ship Earth?

Politically, the decent good faith man/woman worker should live in a thinking, problem-solving, decent LIFE STRONG Nation not a mindless, keep-problems-in-play, fuck-you, you-die, Hive.

Dr. James Viken commented:

“Mike, you should be the mayor of your town and then a U.S. Senator, if the U.S. lasts long enough. Your ideas make ultimate sense and are based on the rule ‘Do unto others as you would have them do unto you.’ This of course would make society work for everyone, the great and the small, the strong and the weak.”

THE DRAFT: According to the Illuminati

Compare how many social mentalities are still in play modified for the AVF. From the truncated end of SWFQW:

The Draft (As military service)

Few efforts of human behavior modification are more remarkable or more effective than that of the socio-military institution known as the draft. A primary purpose of a draft or other such institution is to **instill, by intimidation, in the young males of a society the uncritical conviction that the government is omnipotent**. He is soon taught that a prayer is slow to reverse what a bullet can do in an instant. Thus, a man trained in a religious environment for eighteen years of his life can, by this instrument of the government, be broken down, be purged of his fantasies and delusions in a matter of mere months. Once that conviction is instilled, all else becomes easy to instill.

Even more interesting is the **process by which a young man's parents, who purportedly love him, can be induced to send him off to war to his death**. Although the scope of this work will not allow this matter to be expanded in full detail, nevertheless, a coarse overview will be possible and can serve to reveal those factors which must be included in some numerical form in a computer analysis of social and war systems.

We begin with a tentative definition of the draft

The draft (selective service, etc.) is an institution of **compulsory collective sacrifice and slavery, devised by the middle-aged and elderly for the purpose of pressing the young into doing the public dirty work. It further serves to make the youth as guilty as the elders, thus making criticism of the elders by the youth less likely** (Generational Stabilizer). It is marketed and sold to the public under the label of "*patriotic = national*" service.

Once a candid economic definition of the draft is achieved, that definition is used to outline the boundaries of a structure called a Human Value System, which in turn is translated into the terms of game theory. The value of such

a slave laborer is given in a Table of Human Values, a table broken down into categories by intellect, experience, post-service job demand, etc. Some of these categories are ordinary and can be tentatively evaluated in terms of the value of certain jobs for which a known fee exists. Some jobs are harder to value because they are unique to the demands of social subversion, for an extreme example: the value of a mother's instruction to her daughter, causing that daughter to put certain behavioral demands upon a future husband ten or fifteen years hence; thus, by suppressing his resistance to a perversion of a government, making it easier for a banking cartel to buy the State of New York in, say, twenty years.

Such a problem leans heavily upon the observations and data of wartime espionage and many types of psychological testing. But crude mathematical models (algorithms, etc.) can be devised, if not to predict, at least to predetermine these events with maximum certainty. What does not exist by natural cooperation is thus enhanced by calculated compulsion. Human beings are machines, levers which may be grasped and turned, and there is little real difference between automating a society and automating a shoe factory.

These derived values are variable. (It is necessary to use a current Table of Human Values for computer analysis.) These values are given in true measure rather than U.S. dollars, since the latter is unstable, being presently inflated beyond the production of national goods and services so as to give the economy a false kinetic energy ("*paper*" inductance).

The silver value is stable, it being possible to buy the same amount with a gram of silver today as it could be bought in 1920. Human value measured in silver units changes slightly due to changes in production technology.

Enforcement

Factor I

As in every social system approach, stability is achieved only by **understanding and accounting for human nature** (action/reaction patterns). **A failure to do so can be, and usually is, disastrous.** As in other human social schemes, one form or another of intimidation (or incentive) is essential to the success of the draft. Physical principles of action and reaction must be applied to both internal and external subsystems.

To secure the draft, individual brainwashing/programming and both the family unit and the peer group must be engaged and brought under control.

Factor II - Father

The man of the household must be housebroken to ensure that junior will grow up with the right social training and attitudes. The advertising media, etc., are engaged to see to it that father-to-be is **pussy-whipped** before or by the time he is married. He is taught that he either **conforms to the social notch cut out for him or his sex life will be hobbled and his tender companionship will be zero.** He is made to see that women demand security more than logical, principled, or honorable behavior.

By the time his son must go to war, father (with jelly for a backbone) will slam a gun into junior's hand before father will risk the censure of his peers, or make a hypocrite of himself by crossing the investment he has in his own personal opinion or self-esteem. Junior will go to war or father will be embarrassed. So junior will go to war, the true purpose notwithstanding.

Factor III - Mother

The **female element of human society is ruled by emotion first and logic second.** In the battle between logic and imagination, imagination always wins, fantasy prevails, maternal instinct dominates so that the child comes first and the future comes second. A woman with a newborn baby is too starry-eyed to see a wealthy man's *cannon fodder or a cheap source of slave labor.* A woman must, however, be conditioned to accept the transition to "*reality*" when it comes, or sooner.

As the transition becomes more difficult to manage, the **family unit must be carefully disintegrated, and state-controlled public education and state-operated child-care centers must become more common and legally enforced so as to begin the detachment of the child from the mother and father at an earlier age.**

Inoculation of behavioral drugs [Ritalin] can speed the transition for the child (mandatory).

Caution: A woman's impulsive anger can override her fear. An irate woman's power must never be underestimated, and her power over a pussy-whipped husband must likewise never be underestimated. It got women the vote in 1920.

Factor IV - Junior

The emotional pressure for self-preservation during the time of war and the self-serving attitude of the common herd that have an option to avoid the battlefield--if junior can be persuaded to go - is all of the pressure finally necessary to propel Johnny off to war. Their quiet blackmailings of him are the threats: "**No sacrifice, no friends; no glory, no girlfriends.**"

Factor V - Sister

And what about junior's sister? She is given all the good things of life by her father, and taught to **expect the same from her future husband regardless of the price.**

Factor VI - Cattle

Those who will not use their brains are no better off than those who have no brains, and so this mindless school of jelly-fish, father, mother, son, and daughter, become useful beasts of burden or trainers of the same.

This is the abrupt end of the despicable Illuminati manual—there is more but to we-the-decent, what other horrors it describes is a mystery.

Maybe this is a blessing.

Chapter 5: Fascist Hive Delusions: Reform or Revolt?

"Soylent Green is people!"

--Charlton Heston's Detective Thorne in the 1972 movie,
Soylent Green

Author and war zone journalist Chris Hedges rightly concludes that the rich 1%ers hate the sheeple within the hive and are together excessively consuming resources out of

control that will eventually kill-off the host organism (Earth) akin to our similar Malthusian warnings in Racket Theory:

combatreform.org/RACKETTHEORYv6.0.htm

Chris Hedges: The Pathology of the Rich & His Greatest Speech Ever

WE HAVE TO GRASP... THAT CORPORATIONS ARE NOT CONCERNED WITH THE COMMON GOOD. THEY EXPLOIT, POLLUTE, IMPOVERISH, REPRESS, KILL, AND LIE TO MAKE MONEY. THEY THROW POOR PEOPLE OUT OF HOMES, LET THE UNINSURED DIE, WAGE USELESS WARS FOR PROFIT, POISON AND POLLUTE THE ECOSYSTEM, SLASH SOCIAL ASSISTANCE PROGRAMS, GUT PUBLIC EDUCATION, TRASH THE GLOBAL ECONOMY, PLUNDER THE U.S. TREASURY AND CRUSH ALL POPULAR MOVEMENTS THAT SEEK JUSTICE FOR WORKING MEN AND WOMEN. THEY WORSHIP MONEY AND POWER.

CHRIS HEDGES

THE BLUE STREET JOURNAL

youtube.com/watch?v=L6unS2JF8TA
youtube.com/watch?v=vQky0mTizgY

His main points are:

1. The Rich elites think they are superior to the less rich and can't be reasoned with
2. The American system is headed to financial and environmental collapse
3. Sheeple are bogged down with feel-good consumerist delusions
4. The Rich have taken over every walk of life and block any incremental reforms
5. After the planned crash, the Rich think they will escape the civil war
6. Revolt is the only remaining option for the Hive sheeple

As brilliant as Hedges is, his secular REFUSENIK prescription overlooks WHY the rich became so powerful and offers no reasons why after the fated collapse/revolt the non-rich, sheeple will do any better? The answer is the 25/40/35 psychological humankind divide that got us into the 1%er rule mess that must be factored into any complete solution. Moreover, there is much evidence that the elites think they will hide out in underground bases or even do a *Moonraker* and go off-planet before RETURNING to rule over the (thinned) herd again.

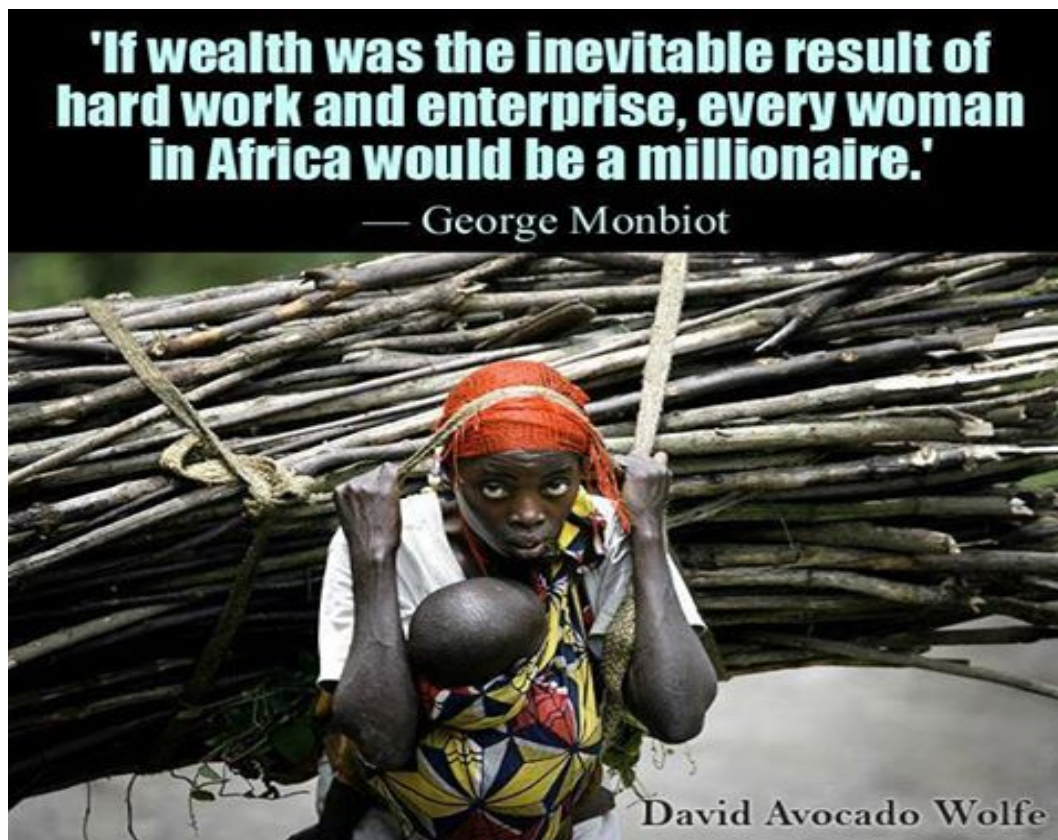

Assuming a clean slate after an American and/or global systemic collapse, we must never let the 25%ers rule over us ever again. Not being as fatalistic as the Godless Hedges that all we achieve with defiance is a vain statement of who we are, we must eliminate the 25%ers from societal power positions before the collapse and have the complete, ideal DREAM PLAN ready regardless. Hedges' father was a Presbyterian minister who believed in God; so his atheistic despair is sad and not needed. To the doubting Chris, I offer the following pro-God reality check: demon-possessed people prove that intelligent non-human life exists and it is as described in the

Bible; watch "*Age of Deceit*" towards about the 2 hour mark and you'll see actual d-posessed women running in the highway where they are hit by cars and trucks without suffering any bodily damage:

[youtube.com/watch?v=wjmFm8Plz8M](https://www.youtube.com/watch?v=wjmFm8Plz8M)

We can begin now by identifying all secret society members and removing them from ALL USG positions since this is already a guilty, treasonous act making it moot point that they are likely psycho-sociopaths. In the private sector, all business activities owned and operated by secret society members should be boycotted. A nation-wide strike demanding all secret society members be removed from USG positions can happen before any kind of large-scale, collapse.

Social Justice Must Be Built into the Economy and Social Fabric by Organized Decency

Another brilliant journalist with combat experience, John Pilger has an amazing array of documentaries showing the details of how the 1%ers screw-over sheeple around the world.

[youtube.com/justjohnpilger](https://www.youtube.com/justjohnpilger)

However, the main idea of these psycho-sociopaths isn't hammered home by John who maintains a journalistic detachment short of them admitting on camera they want 6/7ths of the world to die. It is clear that Pilger's on-camera villains look-down on destitute people because they think they should be able to lift themselves out of poverty with nothing. Not surprisingly, since the poor haven't extricated themselves, they deserve to suffer poverty and die. Type B personality existence of the 40% sheeple is considered "*weak*" and not enough justification to live. Only Type As who "*work*" are worthy of life to the psycho-sociopaths ie; themselves.

Even Pilger is fuzzy calling for a generalized relief of financial debt pressures on sheeple from the banksters hoping this will trickle down through steps to get the poor on their feet which ignores the 25/40/35 conundrum that has still has local psycho-sociopaths in the mix to ruin everything again.

Implied in everyone's presentations is this LIE that poor people have to do something and we have to stand back for something to happen--a slightly milder form of the 1%er snobbery. When I watch Pilger's videos of say the thousands of people living in a smoky trash heap I ask the common sense, decency question--why doesn't the President of the Philipines order the Army which is on the pay roll to "*defend*" these citizens by building inexpensive houses and relocating the people to them? If Red China attacks they'd be protected, so why not now?

Why not?

Let's face it.

Most sheeple--even most 35%ers--believe everyone should have to save themselves. Call this Life Situation Arrogance (LSA). Its so ingrained, we can't see the fact of the most obvious solution--DIRECT COPING and overcoming of the problems. We have computers today that can LIST by name every citizen in every town in every country and instigate directly their full employment

Why beat around the bush?

Just like the Philipine Army could relocate and house every person living in the Manila trash heap in under a month, the reality is nearly every human has LSA and doesn't want to help anyone tangibly because they think life is some sort of zero sum game competition and that would be "*cheating*" to get them on their feet. "*Why should they get something without working? I had to work for it*" goes the LSA mentality.

So do you, hivester want your society composed entirely of winner "*haves*"?

I say not.

Most, no all--hivesters want haves & have nots because they need someone to "*lose*" to somehow create a sick, demented ZST context of "*winning*" based on relative comparison to others--just like Pilger brilliantly shows class snobbery to not fall behind the "*Joneses*" is what drives the Japanese sheeple to overwork. This is all a fundamental lack of basic **Objective Reality Life Decency (ORLD)** that we are all here just a short time and its what we stand for that defines us--not our position vis-a-vis relative to others in socio-economic vain glory.

Societies must have a coherent PLAN based on ORLD--not LSA chaos. With computers and the ability to print money which are simply I Get, You Get Certificates (IGYGETS) of mutually beneficial co-operation there is no functional reason for slums and slum-dwellers. I propose the following societal formula:

Age	Event	Social Structural Benefit
-----	-------	---------------------------

1-7	Mom Gives Birth, Home Schools	Child learns alphabet, life skills
8-12	Elementary School	Reading, writing, math, history
13-17	High School	Computer learning, Mandatory Sports Middle of Day, Home Repair, Car Skills School dress code--no student social conformity, drug test for drivers license
18-20	2 Years National Service	Earn 2 years of wages; respect of elders, self-control; societal problem areas solved by direct coping actions
21-65	Adult Life in ORLD Economy	Jobs derived from National Service Areas and/or "reserve" status <ul style="list-style-type: none"> * High Speed Train Corps * Space Exploration Corps * National Life Re-Engineering Corps * American Defense Force * Hospital Corps * Conservation Corps * Police Corps

Citizens pay off mortgage to underground, shelter-equipped, solar/wind-powered, concrete home with civil defense capabilities against TBATE and TBAM threats. They do NOT have to spend wages on a electric car since trains get them to and from work which keeps cities decongested. Cities reorganized by Re-engineering corps to be pedstrian and logical.

After marriage, families can begin this life cycle with no more than 2 children total. American cumulative growth that exceeds zero must expand outward into space colonies--not congest the land space.

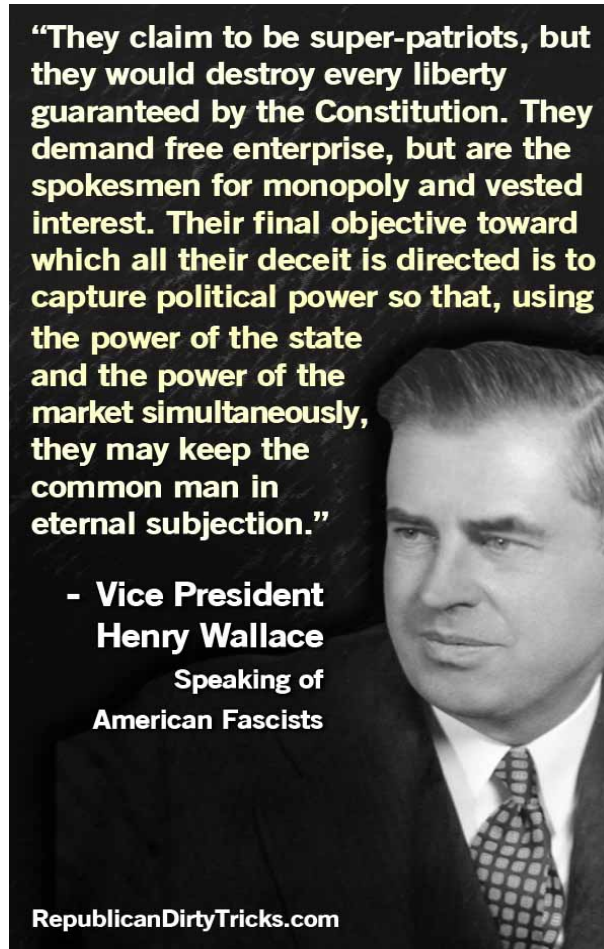

65-Endex Retirement

National Health Care System

The nation-state has the power to make citizens attend school, perform national service and build only disaster-hardened, renewable energy powered homes in accordance with coherent plans. Such an economy driven by ORLD functionality instead of consumerist anarchy without purpose would insure everyone is directly involved--ending haves and have nots. During the accession into national service, psychological tests ascertain who are the psycho-sociopaths who are then barred from any leadership positions within national service and ever holding any elected office.

The ORLD plan above puts every citizen into productive, constructive motion as part of a cohesive plan within a free market economy. The core concept is decency towards the Earth and people not selfish consumerism without sobriety or plan.

Decency Revolution Needed: We must Stop Living in Socialist or Fascist Hives.

Most humans love living in Hives. The sheeple 40%ers love living on bureaucratic autopilot so they can work some meaningless job while texting on their cells to afterwards come home (mini-Hive) to watch TV and do drugs obsessing over who is *"more socially conformant-than-thou"*. The 25%ers love dictating the Hive and the sheeple therein, getting sexual thrills at sending them to wars to steal resources and murder sub-sheeple they dislike even more than their own.

The only people who hate living in the Hive are the 35%er conscience-doers but they are stuck in the Hive and have been marginalized—removed from power—after 1945 when disastrously for evil they were allowed to get in charge and they brought WW2 to a quick conclusion, smashing many Illuminati plans. Men like Generals James M. Gavin, Matthew Ridgway, George Patton, senior officers like Ian Fleming, Harold Goulding were allowed to become HiveMinders and they worked for the people not the elites by prosecuting the war instead of prolonging it. Never again! Was the cry of the Illuminati and step 1 was not having pro-democracy Henry Wallace return as FDR's Vice President knowing the latter would be assassinated soon by Wall Street banker and pro-Nazi traitor Allen Dulles who was going to be tried for treason at war's end.

Henry Wallace's Anti-Fascist Speech

<http://republicandirtytricks.com/henry-a-wallaces-warning-of-american-fascism/>

In 1944 as World War II raged, Henry Wallace (FDR's Vice President from 1941 to 1945) penned an article in the New York Times about the dangers of American Fascism. Wallace warned of the American Fascist's deliberate perversion of truth and fact, monopolistic extortion, appeal to prejudice and fear while paying lip service to democracy, intolerance towards the "other," evasion of laws designed to protect the public good, elevation of money and power before the welfare of human beings to feed insatiable greed. With the exception of right-wing isolationism, the piece could have been written today. Give it a read and draw your own conclusions.

The Danger of American Fascism

By Henry A. Wallace

The New York Times

From Henry A. Wallace, Democracy Reborn (New York, 1944), edited by Russell Lord, p. 259.

Sunday 09 April 1944

On returning from my trip to the West in February, I received a request from The New York Times to write a piece answering the following questions:

What is a fascist?
How many fascists have we?
How dangerous are they?

A fascist is one whose lust for money or power is combined with such an intensity of intolerance toward those of other races, parties, classes, religions, cultures, regions or nations as to make him ruthless in his use of deceit or violence to attain his ends. The supreme god of a fascist, to which his ends are directed, may be money or power; may be a race or a class; may be a military, clique or an economic group; or may be a culture, religion, or a political party.

The perfect type of fascist throughout recent centuries has been the Prussian Junker, who developed such hatred for other races and such allegiance to a military clique as to make him willing at all times to engage in any degree of deceit and violence necessary to place his culture and race astride the world. In every big nation of the world are at least a few people who have the fascist temperament. Every Jew-baiter, every Catholic hater, is a fascist at heart. The hoodlums who have been desecrating churches, cathedrals and synagogues in some of our larger cities are ripe material for fascist leadership.

The obvious types of American fascists are dealt with on the air and in the press. These demagogues and stooges are fronts for others. Dangerous as these people may be, they are not so significant as thousands of other people who have never been mentioned. The really dangerous American fascists are not those who are hooked up directly or indirectly with the Axis. The FBI has its finger on those. The dangerous American fascist is the man who wants to do in the United States in an American way what Hitler did in Germany in a Prussian way. The American fascist would prefer not to use violence. His method is to poison the channels of public information. With a fascist the problem is never how best to present the truth to the public but how best to use the news to deceive the public into giving the fascist and his group more money or more power.

If we define an American fascist as one who in case of conflict puts money and power ahead of human beings, then there are undoubtedly several million fascists in the United States. There are probably several hundred thousand if we narrow the definition to include only those who in their search for money and power are ruthless and deceitful. Most American fascists are enthusiastically supporting the war effort. They are doing this even in those cases where they hope to have profitable connections with German chemical firms after the war ends. They are patriotic in time of war because it is to their interest to be so, but in time of peace they follow power and the dollar wherever they may lead.

American fascism will not be really dangerous until there is a purposeful coalition among the cartelists, the deliberate poisoners of public information, and those who stand for the K.K.K. type of demagoguery.

The European brand of fascism will probably present its most serious postwar threat to us via Latin America. The effect of the war has been to raise the cost of living in most Latin American countries much faster than the wages of labor. The fascists in most Latin American countries tell the people that the reason their wages will not buy as much in the way of goods is because of Yankee imperialism. The fascists in Latin America learn to speak and act like natives. Our chemical and other manufacturing concerns are all too often ready to let the Germans have Latin American markets, provided the American companies can work out an arrangement which will enable them to charge high prices to the consumer inside the United States. Following this war, technology will have reached such a point that it will be possible for Germans, using South America as a base, to cause us much more difficulty in World War III than they did in World War II. The military and landowning cliques in many South American countries will find it attractive financially to work with German fascist concerns as well as expedient from the standpoint of temporary power politics.

Fascism is a worldwide disease. Its greatest threat to the United States will come after the war, either via Latin America or within the United States itself.

Still another danger is represented by those who, paying lip service to democracy and the common welfare, in their insatiable greed for money and the power which money gives, do not hesitate surreptitiously to evade the laws designed to safeguard the public from monopolistic extortion. American fascists of this stamp were clandestinely aligned with their German counterparts before the war, and are even now preparing to resume where they left off, after "the present unpleasantness" ceases:

The symptoms of fascist thinking are colored by environment and adapted to immediate circumstances. But always and everywhere they can be identified by their appeal to prejudice and by the desire to play upon the fears and vanities of different groups in order to gain power. It is no coincidence that the growth of modern tyrants has in every case been heralded by the growth of prejudice. It may be shocking to some people in this country to realize that, without meaning to do so, they hold views in common with Hitler when they preach discrimination against other religious, racial or economic groups. Likewise, many people whose patriotism is their proudest boast play Hitler's game by retailing distrust of our Allies and by giving currency to snide suspicions without foundation in fact.

The American fascists are most easily recognized by their deliberate perversion of truth and fact. Their newspapers and propaganda carefully

cultivate every fissure of disunity, every crack in the common front against fascism. They use every opportunity to impugn democracy. They use isolationism as a slogan to conceal their own selfish imperialism. They cultivate hate and distrust of both Britain and Russia. They claim to be super-patriots, but they would destroy every liberty guaranteed by the Constitution. They demand free enterprise, but are the spokesmen for monopoly and vested interest. Their final objective toward which all their deceit is directed is to capture political power so that, using the power of the state and the power of the market simultaneously, they may keep the common man in eternal subjection.

Beware Of Fascism

Powerful and Continuing Nationalism

Disdain For Human Rights

Identification Of Enemies As A Unifying Cause

Supremacy Of The Military

Rampant Sexism

Controlled Mass Media

Obsession With National Security

Religion And Government Intertwined

Corporate Power Protected

Labor Power Suppressed

Disdain For Intellectuals And The Arts

Obsession With Crime And Punishment

Rampant Cronyism And Corruption

Fraudulent Elections

U.S. Democracy 1776-2000

Several leaders of industry in this country who have gained a new vision of the meaning of opportunity through co-operation with government have warned the public openly that there are some selfish groups in industry who are willing to jeopardize the structure of American liberty to gain some temporary advantage. We all know the part that the cartels played in bringing Hitler to power, and the rule the giant German trusts have played in

Nazi conquests. Monopolists who fear competition and who distrust democracy because it stands for equal opportunity would like to secure their position against small and energetic enterprise. In an effort to eliminate the possibility of any rival growing up, some monopolists would sacrifice democracy itself.

It has been claimed at times that our modern age of technology facilitates dictatorship. What we must understand is that the industries, processes, and inventions created by modern science can be used either to subjugate or liberate. The choice is up to us. The myth of fascist efficiency has deluded many people. It was Mussolini's vaunted claim that he "made the trains run on time." In the end, however, he brought to the Italian people impoverishment and defeat. It was Hitler's claim that he eliminated all unemployment in Germany. Neither is there unemployment in a prison camp.

Democracy to crush fascism internally must demonstrate its capacity to "*make the trains run on time.*" It must develop the ability to keep people fully employed and at the same time balance the budget. It must put human beings first and dollars second. It must appeal to reason and decency and not to violence and deceit. We must not tolerate oppressive government or industrial oligarchy in the form of monopolies and cartels. As long as scientific research and inventive ingenuity outran our ability to devise social mechanisms to raise the living standards of the people, we may expect the liberal potential of the United States to increase. If this liberal potential is properly channeled, we may expect the area of freedom of the United States to increase. The problem is to spend up our rate of social invention in the service of the welfare of all the people.

The worldwide, agelong struggle between fascism and democracy will not stop when the fighting ends in Germany and Japan. Democracy can win the peace only if it does two things:

Speeds up the rate of political and economic inventions so that both production and, especially, distribution can match in their power and practical effect on the daily life of the common man the immense and growing volume of scientific research, mechanical invention and management technique. Vivifies with the greatest intensity the spiritual processes which are both the foundation and the very essence of democracy.

The moral and spiritual aspects of both personal and international relationships have a practical bearing which so-called practical men deny. This dullness of vision regarding the importance of the general welfare to the individual is the measure of the failure of our schools and churches to teach the spiritual significance of genuine democracy. Until democracy in effective enthusiastic action fills the vacuum created by the power of modern

inventions, we may expect the fascists to increase in power after the war both in the United States and in the world.

Fascism in the postwar inevitably will push steadily for Anglo-Saxon imperialism and eventually for war with Russia. Already American fascists are talking and writing about this conflict and using it as an excuse for their internal hatreds and intolerances toward certain races, creeds and classes.

It should also be evident that exhibitions of the native brand of fascism are not confined to any single section, class or religion. Happily, it can be said that as yet fascism has not captured a predominant place in the outlook of any American section, class or religion. It may be encountered in Wall Street, Main Street or Tobacco Road. Some even suspect that they can detect incipient traces of it along the Potomac. It is an infectious disease, and we must all be on our guard against intolerance, bigotry and the pretension of invidious distinction. But if we put our trust in the common sense of common men and “with malice toward none and charity for all” go forward on the great adventure of making political, economic and social democracy a practical reality, we shall not fail.

Obviously, had Henry Wallace become POTUS if FDR died of natural causes there would have been no post-WW2 Illuminati power grab beginning with the U.S. military nor disbandment of the anti-Nazi OSS or creation of the abominable fascist CIA. However, like all 35%ers, Wallace was removed before the election and replaced by semi-obedient puppet Harry S. Truman. FDR was poisoned at Warm Springs, Georgia and Truman went on to be our worst POTUS to date making decisions that will be proven in history as fatal to our nation chief among them the National Security Act of 1947 sabotaging the USMIL from a war-winning War Department implying a publically-approved, limited action with an end state by creation instead of the bureaucratic “*Department of Defense*” internally divided by selfish USAF and USMC bureaucracies and the disgusting CIA that exports Wall Street corporatyranny around the world backed by the new DoD thuggery.

With the 35%ers increasingly marginalized over time, the current MILINDCOMP AmeroHive was born. If America is to be saved, the 35%ers must stop their brooding and re-engage to take-over the Hive. This time, when they regain control of the

Hive they must not get lost in all their current *zeitgeist* functional temporal reforms...they must first look to the future and never again let the 25%ers get into any kind of social fabric power, period. Societies constantly go through the said struggle, but the mistake is once the decent people take-over they don't take steps to mitigate against their own mortality since there is no guarantee next time evil takes over that there will be anyone to challenge them with another decency revolution.

The 40%ers sheeple will do whatever the Hive authority says; so if we want to break the Hive mentality up and have them live actively-thinking, conscience-following lives EXTREME CHARACTER DEVELOPMENT is required to instill self-discipline in them. This will not be easy. 2 years of national service followed by reserve service in their functional areas will be a necessary first step. The entire American way of life must change from Hive consumerism and entertainments towards instead actively meeting the problems of life head-on. Reorganizing American life realizing we are on spaceship Earth and colonizing the Moon and Mars must be the nation's focus with professional sports and rock stars banned. One can still play sports and make music as per life, liberty and pursuit of happiness (LLPH); but they must not be allowed to become money-making businesses by society using its powers to grant or not grant corporate existence. Corporations should only be granted temporary reasons to exist and only if they further the public good—not the goals of the elites.

The 25%ers being limited in society must not become a marginalization lest they play the victim card, garner public sympathy-for-the-devilhood and return to power abusing fuzzy Enlightenment-think using phrases like “*equality*” and whatever they can conjure up—and we must ready for some doozies. The 25%ers don't live like Hivesters do on autopilot--they actively live life on an evil Ayn Rand Atlas Shrugged personal ego trip. They are not going to be happy not dictating the Hive. They must be limited to individual lives and small businesses of less than 10 people where they can be tyrant assholes all they

want in these mini-Hives. Pity those who are born by them or choose to work there! The minute their business starts to harm the public good their corporate charter will be revoked. Yes, 25%ers are going to have less “rights” than everyone else. By necessity of them being born morally defective without consciences, they must be 2nd class citizens. Of course, everyone not a psycho-sociopath is a sinner tainted by Edenic poisoning and can misbehave. At least they the 75% have consciences that told them not to do it—and for the most part they live their lives in good faith as long as authority is directing everyone be decent. The 1st, number 1 task of the psycho-sociopath in life is to face who or she is and remedy it by a legal pardon from the Lord Jesus Christ and then have the Holy Spirit live inside them to direct them in spite of not having a conscience. However, even a “*Christian*” psycho-sociopath must not ever be allowed into major leadership positions in society. Call this actually taking the Bible—the Word of God seriously enough to functionally organize society around it—and scientifically-proven ponerologist realities.

AmeroHive Systemic Problems

There are over 310, 000, 000 Americans. 1, 000, 000 die each year but another new 2, 000, 000 Americans are born. Growing at over 1M people a year, America is now the #3 most populated nation on Earth behind Red China and India with only a 3, 000 mile long, 1, 000 mile deep land territory. America is getting crowded and has disastrously open borders letting in all sorts of dangerous psycho-sociopaths along with sheeple escaping dead economy Mexico.

This means America has (rounding down to 300M):

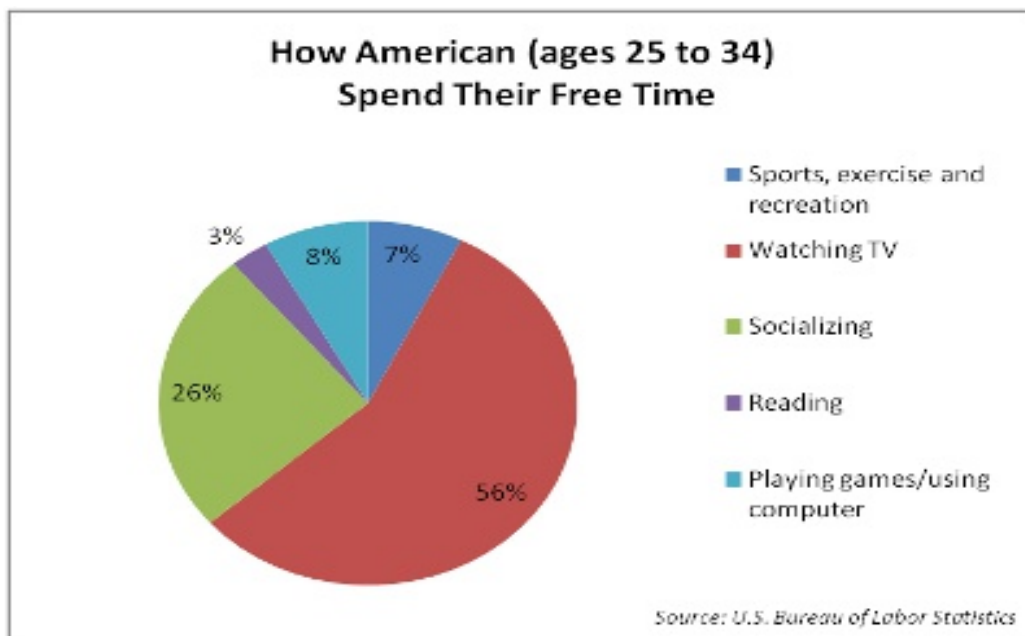

75M Psycho-Sociopaths
120M Apathetic Sheeple
105M Conscience-Doers

We know that most Americans watch TV and are on some kind of drugs.

nielsen.com/us/en/insights/news/2013/nielsen-estimates-115-6-million-tv-homes-in-the-u-s---up-1-2-.html

The universe of U.S. television homes is growing—and so is the TV audience. According to Nielsen’s 2014 Advance National TV Household Universe Estimate (UE), there are 115.6 million TV homes in the U.S., up 1.2% from the 2012-2013 estimate of 114.2 million. Nielsen estimates that **294 million** persons age 2 and older live in these TV homes, an increase of 1.6% from last year.

294M means essentially every American has a TV.

64% of the free time of young Americans is in front of a TV/computer screen. If “*socialization*” means their cell phones add another 26% watching a tiny TV screen. Older people watch even more TV. At best, only 18% to 34% do not watch TV. At best. Call it 1/4th or 25%. 75% of all Americans are hypnotized by TV and thus made compliant Hivesheep.

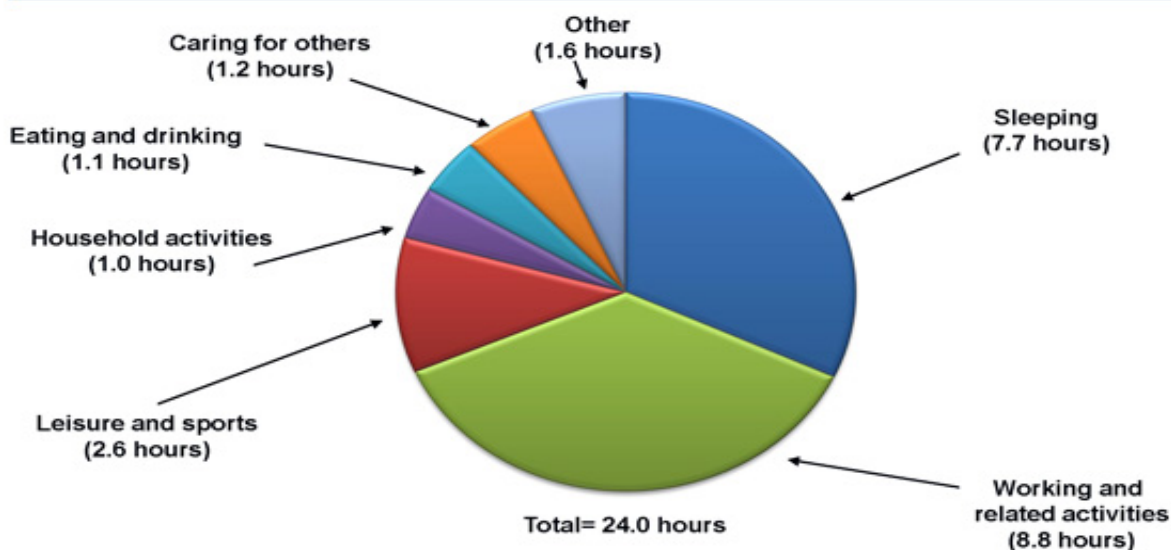

How many Americans are on drugs?

whitehouse.gov/sites/default/files/ondcp/current_use_of-any_illicit_drug.jpg

160M Americans are addicted to mind-altering drugs out of 300M—over $\frac{1}{2}$ or 50%.

If 75% of all Americans are hypnotized by TV and 50% are on drugs, assuming the very best possible non-overlap, at best only 25% of all Americans are sober and not brain-controlled. If the 50% of Americans who are not on mind-altering drugs happen to be TV, watchers, then NO ONE is sober or alert—exactly what the Illuminati wanted post-WW2 to insure G.I. Joe or Rosie-the-Riveter never challenge their authority ever again. The Illuminati play hard ball—and so should we. We should evict them from leadership positions in ALL our social institutions. Notice no one has any time to fight City Hall—or the Illuminati.

This is who we have to work with to start a Decency Revolution. The possible 25% non-drug, non-TV people coincide nicely

within the 35%er psychological break-down of mankind and implies about 10% are not doing their jobs by burying their heads in TV watching.

Methods

SheepleReach
HiveMind(er)Change

The 2 primary ways to effect a Decency Revolution are SheepleReach and HiveMind or HiveMinder change.

Most frustrated 35%ers vent in myriad of web pages and YOUTUBE videos hoping to somehow “*reach*” the apathetic sheeple and other conscience-doers to rally them to some idea or ethos and get a mass change. They don’t even realize that 1/4th are psycho-sociopaths who laugh at their good faith, heroic efforts. Doesn’t happen. Because they ignored the full existence of the 25%er psycho-sociopaths their web pages and videos are defaced by BS logical fallacies, red herrings and *ad hominem* attacks--bogus counter-arguments from these losers. Paul Revere didn’t hold a town hall meeting to decide if he was going to ride out and warn everyone “*The British are coming! The British are Coming!*”.

This “*SheepleReach*” effort has to be done carefully to exclude the psycho-sociopath’s inputs and it can only at best be counted on to reach the 35%ers--or 120M Americans. It can reach into the HiveMind and the minds of the HiveMinders as a supportive public pressure but the middle 40%er apathetic sheeple are not going to budge unless an authority figure says so. You can write the most brilliant *Banacek*-moment explanation of the 9/11 False Flag attacks ever and it will have no effect on the sheeple unless you are a significant authority figure within the Hive saying so. SheepleReach as a strategy to over-throw the Hive is a proven failure; most of the time it doesn’t work and the few times it does, its when the sheeple are backed into some life situational death corner, enraged like

cornered rats and protest without moral restraint as seen in the French Revolution or the American Anti-War Movement.

So far, the only way to change or abolish the Hive is to become the Hive rulers or to reach the HiveMinders usually by appeals to less lofty goals like self-preservation that coincide with loftier goals like decency. You discretely approach a 24%er sociopathic HiveMinder appealing to his latent unused conscience with your reform ideas and pray for a miracle. I did this to the U.S. Army Vice Chief of Staff, General John Keane in 2002 asking him to buy a small batch of 50 x BV206S light tracked armored vehicles (tanks) for his old unit, the 101st Airborne (Air Assault) unit because they fit inside the *Screaming Eagle's* CH-47 *Chinook* helicopters. Their tracked, armored cross-country mobility would keep Soldiers off roads and rebels land mines, give them superior 30mm automatic cannon firepower and a host of other benefits and he agreed with body language, nods and statements like “yes, you are right”, “Good idea”. However, at the end of the day, he didn't do a damn thing and thousands of Soldiers ended up dying and being maimed in Iraq and Afghanistan. I found out afterwards, that General Keane is a traitor—an Illuminati member who violates the Logan Act by attending European Bilderberg secret society meetings where they plot ways to murder millions to depopulate the Earth.

General Keane has no sentimental loyalty to anyone least of all “*The Band of Brothers*” but it was a good attempt on my part to find some common ground to get an asshole to do the decent thing since military efficiency and war-winning doesn't hold any sway with him and others like him—the rulers of the MILINDCOMP.

A positive example of HiveMinder change is POTUS John F. Kennedy who did many good things for the public which brought on his Rockefeller Illuminati assassination by CIA Director Dulles:

Means

REFUSENIK DREAMER REFORMER

In life, there are 3 primary ways for the decent person to live when amongst an evil Hive: REFUSENIK, DREAMER or REFORMER.

REFUSENIK is important that you and I at the individual level do not help evil. We should not delude ourselves like most NEW AGERS that somehow just changing individuals into REFUSENIKS who tune-out of the Hive by say yoga, meditations and other feel-good, you-are-a-god crap are going to stop the external world thuggies from rounding them up and taking them to the FEMA gulag death camps at gun point. The NEW AGE movement smacks of an Illuminati control-the-opposition ploy of diverting 35%ers into selfish introversion that is also a adjunct philosophy to their theosophism that man-will-become-god-through technological know-how derived from eating the Good/Evil fruit at the Garden of Eden. The Illuminati get a 2-for-1 deal—they silence the 35%ers by turning them from lions into striches and they get them into their false, Satanic religion. *“Break out the champagne, Henry (Kissinger!)”* says David Rockefeller.

You might be able to get a sheepleton to wear your *“Fuck-the-NWO”* t-shirt and do drugs/yoga, but he’s still going to pay his taxes, work his MILINDCOMP-approved job, watch TV and not do a damn thing if the Illuminati send their captive all-volunteer force victims (with his/her’s sons/daughters) to a Wall Street war without any public debate.

There are limits to what REFUSENIK can accomplish.

Its important to be a **DREAMER** because this is the mental, ideal of how the Hive should be changed--or better yet

abolished altogether. Crap notions that “*we can never achieve such an utopia*” miss the point: its important to figure out the best, most efficient solutions regardless if you’ll get to do them or not as a public mental land mark from which to compare and contrast the Hive’s evils so relativity and we-are-doing-the-best-we-can excuses can’t be employed by the 25%er psychosociopaths. Its from this “*perfect*” dream that “*good enough*” reforms can be ascertained.

Following on this, once as many people as possible are REFUSENIKS and DREAMERS have set the American Decent Ideal, hard choices must be made to craft discrete plans for change by **REFORMERS**. Each James Bond Citizen must be at least 1—a REFUSENIK--and possibly all 3 functions to live the maximumly powerful decent life in an evil Hive. By implication having the REFORMER mode, I disagree with Chris Hedges that the American republic is too-far-gone that its beyond alterations and only REFUSENIK protests and revolt are our only options.

The following describes how I see these functions should play out for the American Decency Revolution:

REFUSENIK

Get the 35%ers to Not Participate in the Hive’s Evils

DREAMER

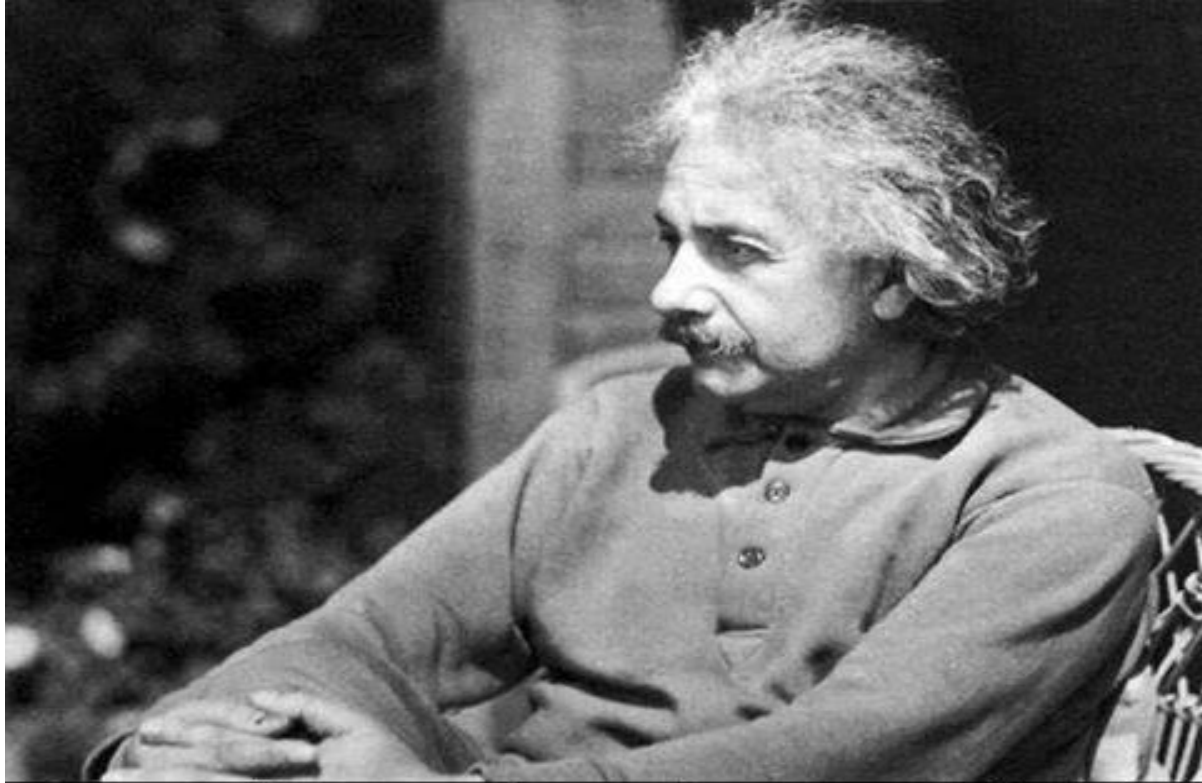

What is the HiveMind Plan? What would we do if we took over the Hive?—35%ers Direct the 40%ers, Disarm the 25%ers

REFORMER

Discretely changing the Hive by persuading the 25%ers HiveMinders through less lofty reasons like self-preservation

Outcomes

At the very least, an American Decency Revolution should stop America from being the world's #1 psycho-sociopathic imperial land grabber bully and Earth polluter. Such a decency revolution should inspire other peoples to fix their nations such that the Earth ecology-killing would stop and our planet could heal itself.

“Be a loner. That gives you time to wonder, to search for the truth. Have holy curiosity. Make your life worth living.”

Chapter 6: REFUSENIK

Reject the Hive

- * **Reject Materialism**
- * **No TV immersion**
- * **No Cell Phone Wear/infatuation**
- * **No Drug Use**
- * **Boycott Illuminati Corporations**
- * **Live Off-the-Grid**
- * **Limited Military Service for Skills**
- * **Don't Vote**
- * **Nation-Wide Strike ASAP**
- * **Demand No Secret Society Members in USG**
- * **Demand Balanced Budget**

Sometimes the Only Thing You Have is *“Fuck You and the Horse You Rode in On”*

*“Caution: A woman's impulsive **anger** can override her fear. An irate woman's power must never be underestimated, and her power over a pussy-whipped husband must likewise never be underestimated. It got women the vote in 1920.”*

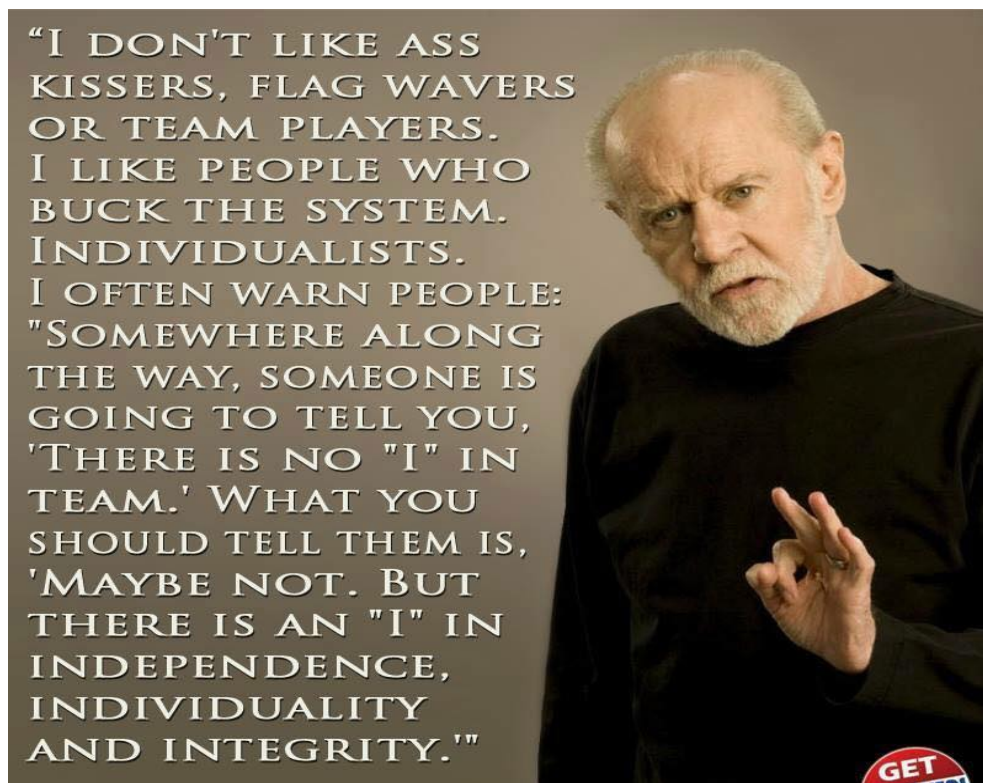

--SWFQW, CIA Manual, 1979

I have used the curse word “*fuck*” and other vulgarities sometimes in this book because its occasionally necessary to express the message precisely. “*Fuck*” actually means “*Fornicate Under Consent of the King*”. How did the beautiful act of love-making became a curse word? is tragic but there it is—it now means a forceful rejection of something or someone with all one’s being—and this is vitally important. We must get **angry** to fight and defeat evil. Why this is not fucking obvious to sheeple is more evidence why they are constantly being walked on by the wolves.

CFR Illuminati member/dupe, the ubersexy Angelina Jolie has made profound movies like the *Tom Raider* series where she blatantly condemns the Illuminati, has the young, pre-007 Daniel Craig in it, and “*The Changeling*” where she plays a mother, Christine Collins whose son in real life was kidnapped and the state gives her someone else’s kid to try to shut her up.

http://en.wikipedia.org/wiki/Changeling_%28film%29

She refuses to call him her son--as any decent person would--and gets thrown by the state (LAPD) into a mental ward. Once there, she finds another innocent political prisoner who tells her, “*Sometimes the only thing you have is ‘Fuck You! And the Horse you rode in on!’*”. Meaning we must not give up our last line of defense which is **justifiable anger—to include vulgarities--that** reminds everyone a real person is being harmed here--unlike the Clinton-era, bullshit PCness that anger is somehow some kind of sin.

Comedian George Carlin Nails the Truth Here!

Paradoxically, Clint Eastwood director of *The Changeling* later created the socially irresponsible, “*American Sniper*” movie based on the self-glorifying, autobio-boastfest by U.S. Navy SEAL psychopath Chris Kyle. Another important depiction in *The Changeling* is how leaders within the community confronted the assholes at the mental ward and demanded her release—try this today and they’d be thrown in with her since decentfolk are not sustained by sheeple who nod and wink at money-driven, fascism.

This leads us to Miss Abby Martin, former news anchor for Russia Today (RT). Abby Martin is a beautiful, sexy and smart woman. If she wants to wear a “*Fuck Chris Kyle*” t-shirt on her beautiful body because she utterly rejects American glorification of his psychopathic sniper bragging in his book/movie, American Sniper, its her damn RIGHT to do so and more power to her! as I agree with her and am a 30+ year USMIL veteran--so none of the Amerofascist victimology crap can be thrown my way. I have risked my life in USMIL service yet I do not agree with BS Wall Street wars incompetently executed--which includes having psychopathic assholes like

Kyle being allowed to wear the American uniform disgracing our entire country with glorified indecency sniping mostly innocent ragheads in Sub-National Conflicts (SNCs). What we need is to WALL-off belligerents and establish a political settlement--not go off on murder sprees. We need military force that smothers and ends conflicts--not feed American sheeple blood lust. Let's see Eastwood make a movie about that!

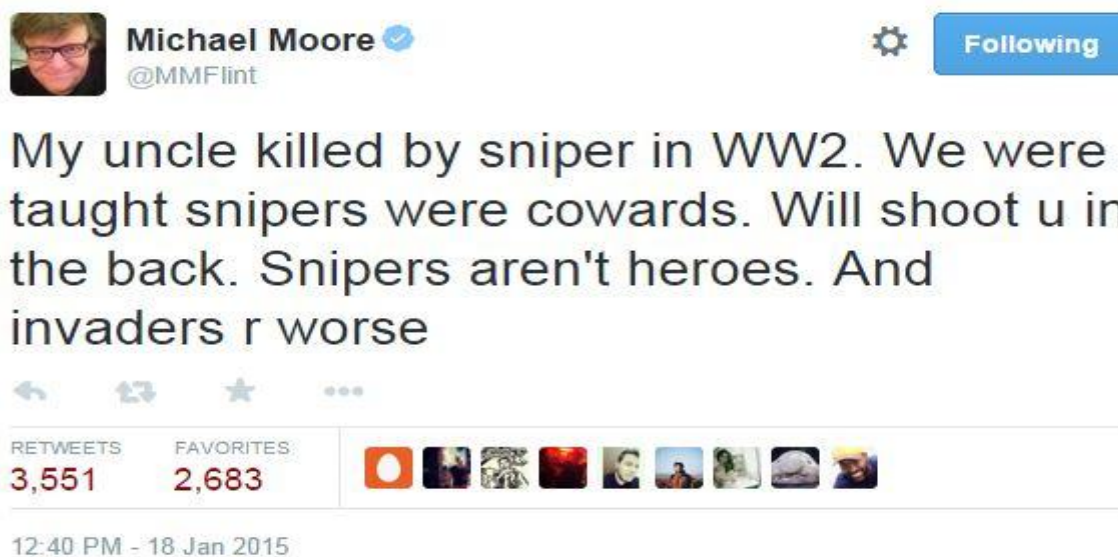

However, some AmeroNazis are threatening to rape/kill Miss Martin just because she dared defecate on their tin-god, the DEAD Chris Kyle. How disgusting on many levels.

<https://soundcloud.com/media-roots/chris-kyle-american-exceptionalism-expressed-through-sexual-violence>

1. Abby Martin is a beautiful woman; MEN should not harm women, period. Only cowards/pussies do such things--like the German Nazis of WW2.

2. Abby Martin is an American Citizen. She has the right to say anything she damn well pleases--as long as it not libelous or public safety dangerous like crying “*Fire!*” in a crowded theater when there is none.

3. Abby Martin happens to be right about rejecting Chris Kyle and all that he stood/his fanboys advocate for which is selfish, attention-getting by writing his book bragging about things he should have STFUed about--like actual military professionals do. He is a disgrace to the SEALs and the USMIL in general.

4. Last—but certainly not least--**threatening to rape and murder someone is a CRIME**. Those who have done this should be arrested even if it goes against the right-wing political sympathies of the American police who selectivel enforce or not enforce laws when it suits them. This is more proof of the MORAL PANIC America is in after being conned by the USG-instigated 9/11 attacks blamed on ragheads.

To get the SNC Corps that smothers/ends conflicts we need adult military professionals in order to do this; this will take drastic reforms which we will discuss later. Until then, my advice is not to join the current corrupt USMIL beyond 1 tour of

duty to gain vital military/defense skills. Wearing anti-war glorification t-shirts is most welcome especially over a fine chest like Abby Martin's.

If you need a visual of America's decency bottom falling out in this Decade of Indecency read the tweet below of an American sheeple-pussy:

You go, girl! Go join victimitis whiner gyrene 2-wife, Dakota Meyer and bitch about your suffering for Wall Street claiming it somehow defends "*freedom*" when really it perpetuates oil-and drug-based sheeple consumerism for elite profits and NWO goals. In their small penis boasts of their physical courage these victim whiners forgot about MORAL COURAGE to refuse to go along with immoral wars. The point of freedom is to live a moral and decent life--not be either a psycho-sociopathic asshole or sheeple hedonistic consumer. Sometimes moral and decent 35%er people are forced to say "*Fuck you and the horse you rode on*" to overcome psycho-sociopaths. Fuck, yes!

STILL THINK HE'S A HERO?

Our Freedom of Speech, Their Freedom to Lie

BBC's Jolyon Rubinstein

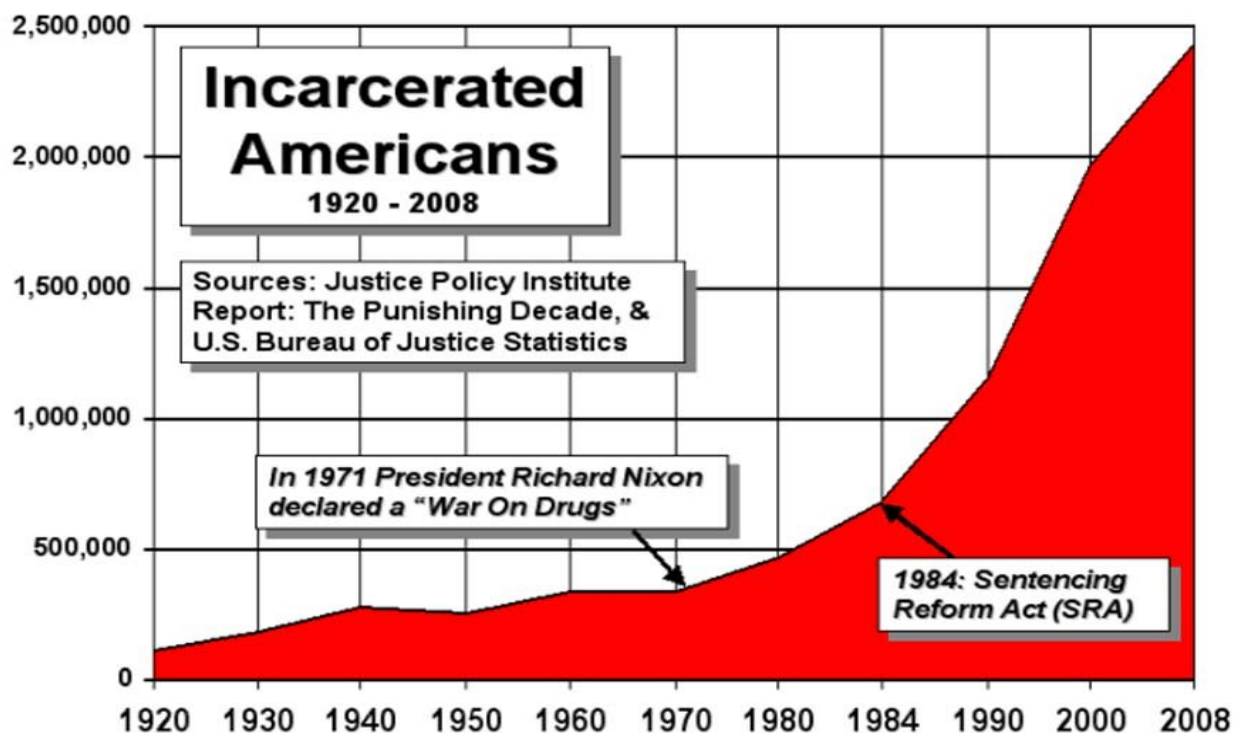

Jolyon Rubinstein's brilliant documentary "*An Idiot's Guide to Politics*" nails the current mess where the rich elite control every aspect of life and control the figurehead government:

youtube.com/watch?v=6lto6D6p6do
bbc.co.uk/programmes/b052n6bh

He just falls short of the actual cause by starting a petition to make it illegal to lie in governmental meetings (Parliament) when what the petition should have demanded is NO SECRET SOCIETY MEMBER IN GOVERNMENTAL SERVICE, period. That would have kinetic reality teeth to it and not be just mental fluffery.

The reality that freedom of speech is just feel-good sheeple venting of pressure within the Hive cannot be denied if tangible kinetic actions do not follow. Just as the sheeple feel free to sound off with their reality-ignorant delusions, the elites feel entitled to lie at will in any and all of their secret meetings as well as in public. We have freedom of speech, they have freedom of miss-speech.

The ruling class do not work for us. They need a minimum number of us around only for a bigger Hive effect--which they control by bureaucratic steering at the top. Their useful idiots working for them—their governmental bureaucrats--take on mandarin pretensions--smug airs of superiority as they screw-over the citizen at every turn with make-believe infractions that they milk into “*felonies*”. Call this Infraction Snowball Effect or “*Isball*”. This is evil BS—a felony should be an actual violent or major theft crime ie; murder, rape, arson--not mere deviating from some dubious bureaucratic regulation or a number of regulations.

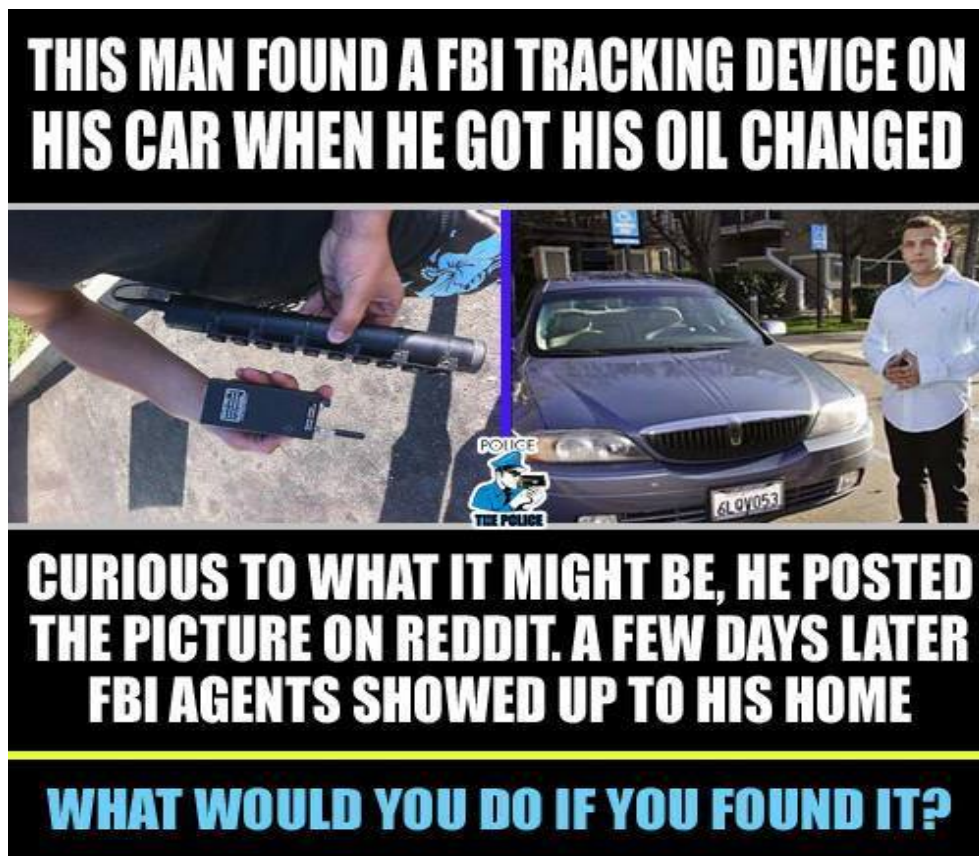

The recent shooting-in-the-back of an everyman, the black Coast Guard veteran Smith began as a traffic stop over a broken tail-light which is a safety concern--yet the cop murdered him violating the whole point of safety as in—keeping citizens alive. This reveals the naked bad faith mission of the ruling elites to destroy as many sheeple as possible for control and depopulation goals. Traffic stops are used by cops to not be a good faith effort at improving traffic safety but instead to go on digital fishing expeditions to find infractions—in this case,

black man Smith was behind in child support since a lot of men immersed in the black culture are Type B personality hedonists and have sex with everyone they can--creating unwanted, father-less babies, and since the majority of violent crimes are done by black men, the few remaining decent employers are too afraid to trust them so they can't get jobs--much less good-paying ones--to pay for all the babies they make. Since Smith was down on his luck--having no money to fix a tail light is no surprise. The Illuminati had turned him into a life-destruction time bomb waiting to go off. To light the fuse is the smug, white psycho-sociopathic cop looking for an excuse to gun someone down as soon as they can be defined as "*enemy*" (criminal) scum with which society would be better without. Finding these new infractions with which to add now to the tail-out infraction is an example of the BS evil gotya! game the snobby elites play so they can destroy people who are not abiding by their Hive rules like the terrified puppies they want us all to be.

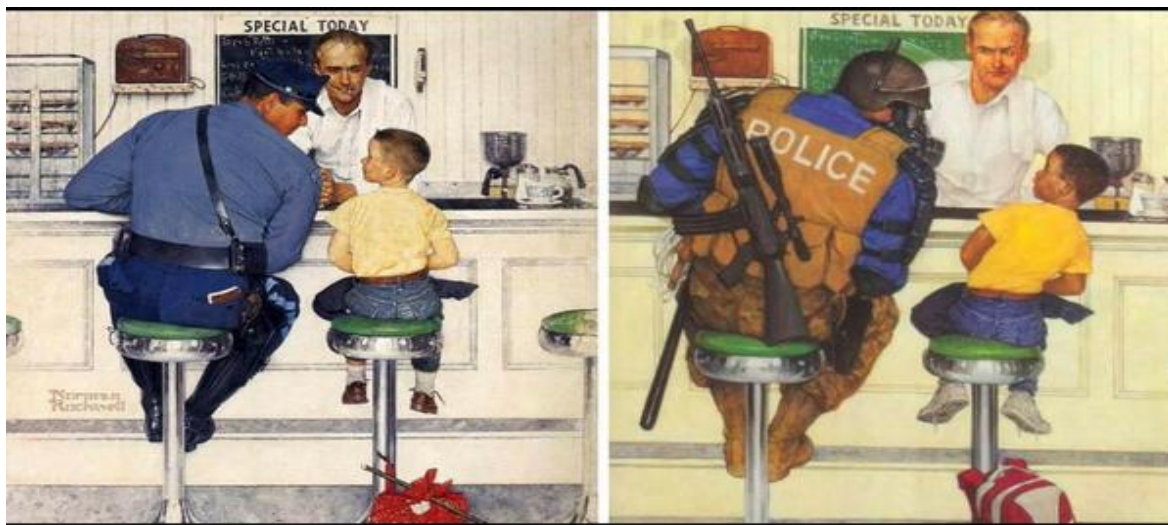

The elites murdered the moral, non-baby-making black leader Martin Luther King *(MLK) to keep the black community in a state of rage and keep them in a death hug with gangsta hedonism. Smith cornered by the infraction snowball game and in his life-situation-collapsing desperation, decides to run from his car--which further empowers the cop to taze him (another infraction "*resisting arrest*") to lay on Smith and a feel-good

power trip for the cop). Smith grabs the electrodes (maybe another infraction here—somehow “*harming or threatening the cop*”?) and the tazer gun falls free from the cop’s hands—a perfect excuse now for him to go FULL LETHAL and pump pistol bullets into Smith’s back to murder him. This is what you get when America turns into a police state filled with fascist psycho-sociopaths as a result of the moral panic caused by the fake 9/11 terrorist attacks perpetrated by the CIA and the MILINDCOMP. Evil rolls downhill once its embraced at the top.

The junior Illuminati bureaucrats also feel entitled to Make Shit Up (MSU) aka lie about anyone they dislike—which would mean anyone opposing their criminal rule---violating the U.S. Constitution’s demand that government should not go around punishing innocent people and must have some actual facts of actual wrong-doing. Ironically, if the current U.S. governmental mandarins were doing their actual Constitutional jobs they would be arresting themselves for their own criminal actions. The whole point of warrantless surveillance is so the junior Illuminati types (low-ranking freemasons etc.) can CLAIM and

fabricate a fake factual basis with which to smear innocent, courageous people who oppose their criminal corruption, then hide it behind redactions to play the digital McCarthyism game. Fake Infractions Snowball Effect or “*Fissball*”.

Look familiar, Mr. Rockwell?

Secret society symbolism on American police patches shows their betrayal of the public trust and oath to defend the U.S. Constitution—they should serve citizens not Hiram Abiff/Satan/Lucifer

Freedom of Speech is Mere Window Dressing if You Can't Live it

"It's not the people who vote that count. It's the people who count the votes"

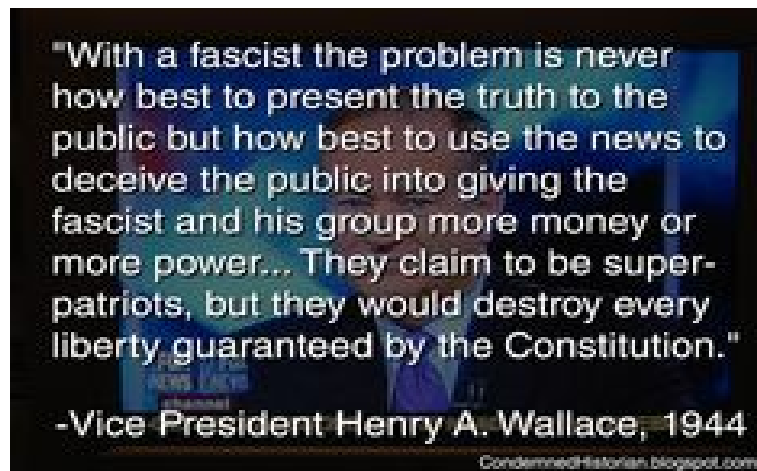

--Apocryphal to Soviet Dictator Stalin who murdered at least 30, 000, 000 Russians

If the elites only patronize us by freedom of speech and tokenism elected representatives knowing damn well they can ignore anything we say and who we elect are their own secret society members under their control, is the U.S. Constitution just another insincere rich man's trick? Stalin would claim universal ruthlessness is required to rule over a people. Some Christian theoligans say a 7x severity is needed to rule over a people. I am convinced that such broad-brush, fuzzy think at its core fails to understand the 25/40/35 psychological split of mankind that if followed instead of punishing everyone for the sins of the psycho-sociopaths, we would create governments and social fabrics that exclude these criminals from power.

I think the freemason cabal wanted the U.S. Constitution as a sheeple con to make a more powerful Hive under their evil control (*"None are more hopelessly enslaved than those who falsely believe they are free."* --Johann Wolfgang von Goethe) but a few of the founding fathers snuck in some elements that favor WE THE PEOPLE so the Illuminati has spent years having them removed—separation of powers, the right to only be factually accused and to know the accusers--and the very preamble which states every one of us has a RIGHT to life, liberty and the pursuit of happiness. This means we have a damn well right to be fuking alive and not be anyone's fuking slaves. Tom Jefferson must have caught hell for writing this at his secret society lodge meetings!

Voting in Rigged Elections is an Illuminati Trap

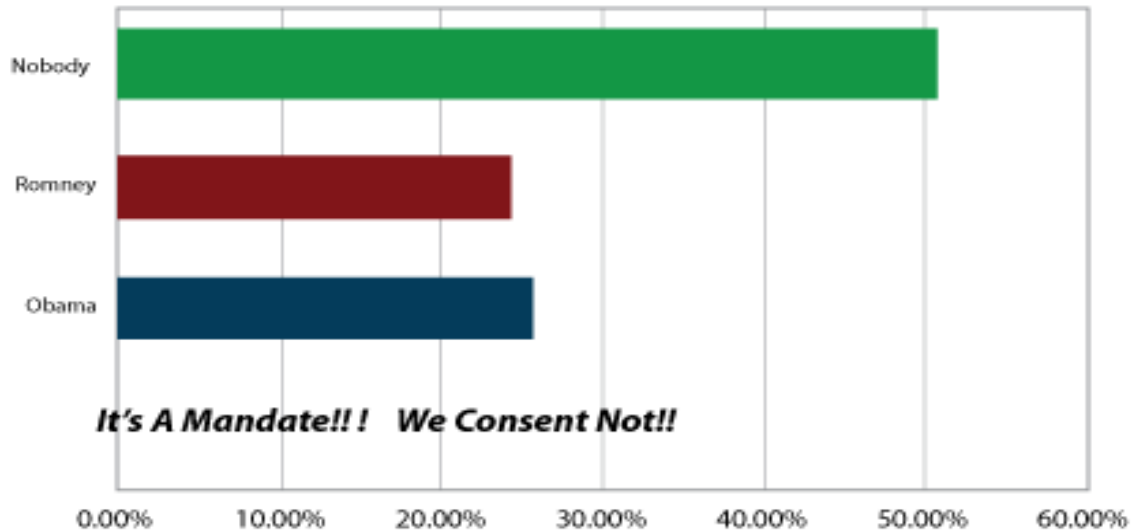

One of Rubinstein's fundamental flaws is his failure to understand voting means you agree to Hive rule over you. If voting is rigged against you by only Illuminati candidates even if some token non-secret society candidates are offered—the EFFECT IS YOU GOT YOUR SAY NOW GO SHUT THE FUK UP (STFU) AND ABIDE BY OUR HIVE RULE. By having the sheeple vote they perpetuate a broken social contract of the representatives NOT working for the people but instead working for the ruling Illuminati secret society class.

You could say we just need to GET EVERYONE to vote for the non-secret society candidates—feasible IF the voting machines are not rigged—but they are. The Illuminati controls the electronic voting machines so if you vote—just like with blanket surveillance—you only provide the criminals the data they need to make it look like you voted for their puppet candidates. You are providing them technowindow dressing. The only way complete voter vote theft *en masse* could be detected is if a huge majority of over 50% had their votes stolen and mis-directed so the sheeple can informally realize by chance questioning of others have it made it apparent. Someone should do a voting experiment and see how many people have to have their votes stolen before they can realize it later as a group.

A Non-Vote of No Confidence

A majority of voting age Americans voted for no one.

It's A Mandate!!! We Consent Not!!

WWW.AGORAFINANCIAL.COM

So the moral refusenik's actual best action is to NOT VOTE. Do not give his or her name to the elites as fodder to manufacture false hive consent. Apathy and kinetic costs work in our favor here; if we can reduce the number of people who actually vote to less than 10% of America's 300 million we can then clearly state the USG does not have consent of the governed. Not voting does not mean we go along with the secret society candidates offered and selected. The ability to vote is evil crap if we cannot get decent, non-secret society members into the USG to rid it of the current Illuminati criminals.

Dave Rockefeller Boasting he's the #1 Psychopath

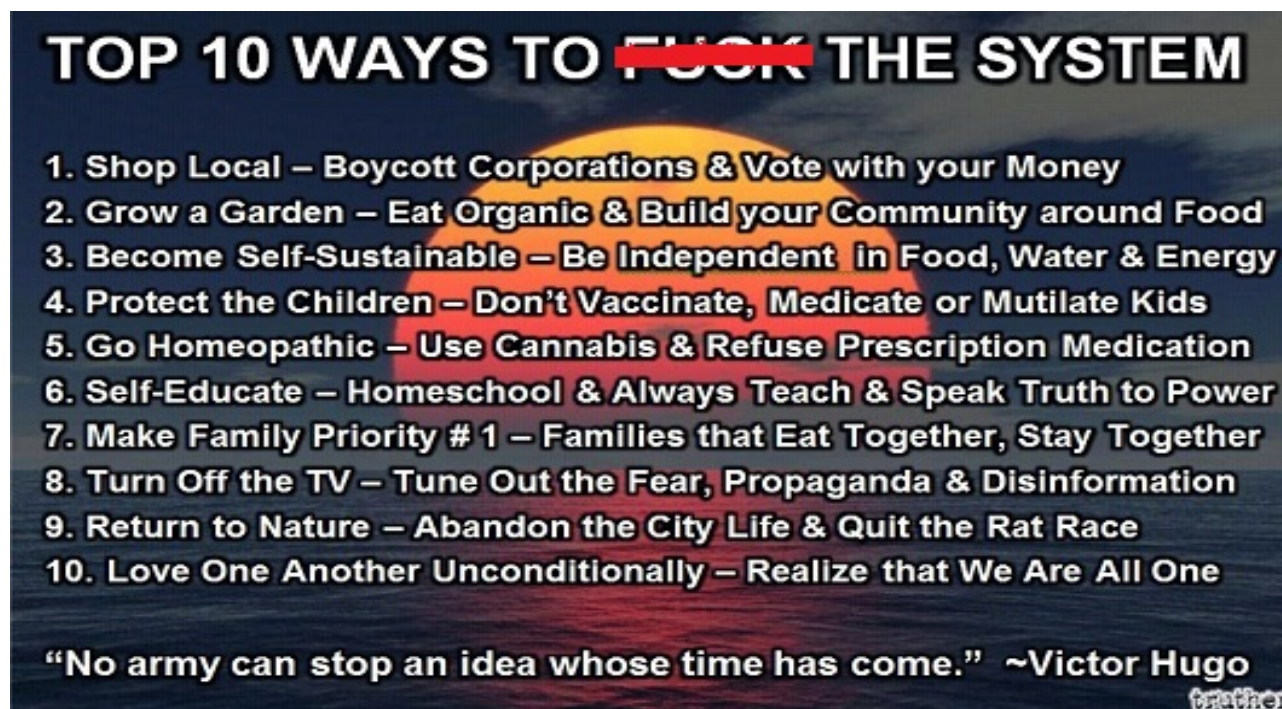

We can and still should demand after the elections that the fake representatives serve WE THE PEOPLE. Our letters can start off with: "*I didn't vote for you*"--which means you do not have my consent to govern over me. This reminds the Illuminati creep that you are not playing along with their Hive game and demand he/she abide by their oath to follow the U.S. Constitution.

The First Thing We Must Demand is No Secret Society Members in the Government

Rubinstein brilliantly has us experience the rich elite's snobbery by following them out to public gatherings and trying to talk to them—but he falls short because its WHAT THEY DO AT THEIR SECRET MEETINGS THAT FUKS OVER WE THE PEOPLE. He isn't likely to get to film secret society meetings unless he sneaks in like Alex Jones did at the Bohemian Grove.

The point is that BEING A SECRET SOCIETY MEMBER IS FUNDAMENTALLY "A CONFLICT OF INTEREST" (ya think?) and a VIOLATION OF ANYONE'S OATH TO FOLLOW THE U.S. CONSTITUTION. The U.S. Constitution says to serve WE THE PEOPLE--not Hiram Abiff/Satan and their fellow ruling class members driven by their treason concocting meetings. Being a member of any secret society is TREASON. A religion that secretly subverts and corrupts society is a treasonous criminal conspiracy as bad as an enemy spy ring—in fact, its worse because the sheeple's guards are down thinking they are fellow sheep--when really they are wolves in sheep's clothing. Saying you are serving the people--while instead destroying them is fundamental treason.

Concur on the points except cannabis—let's do without all drugs whenever we can.

To get the 25%er secret society members out of control of the USG will not happen by the corrupt bureaucratic machinery in place at no pain to the American sheeple. After a complete rejection of voting, THE ENTIRE COUNTRY must go on STRIKE.

This means ALL economic activity stops.

It means WE THE HIVESTERS ARE NOT GOING TO CONTINUE LIVING AND SUBSIDIZING AN EVIL HIVE WITH WHICH, YOU THE ILLUMINATI ABUSE TO DO YOUR CRIMES. The more self-sufficient Hivesters are, the better they can do without the Hive. Here's some more ideas.

Live Off-the-Grid

Tesla Motor's interesting home battery pack:

teslamotors.com/powerwall

To Solar Panel your Home with Current Inefficient Technology costs you \$30K and USG Rebates you \$15K. So real cost is \$15K. A \$100 electric bill costs you instead \$10 per month. Saving essentially \$100/month or about \$1,000/year

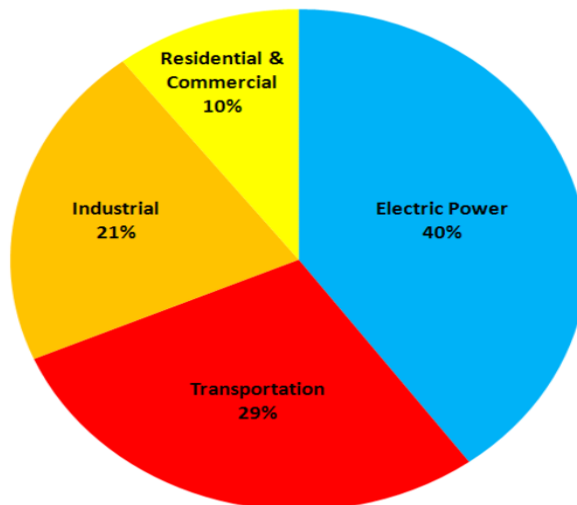

means it will take 15 years to have solarization pay for itself.

<http://news.yahoo.com/sunshine-state-not-florida-badly-behind-solar-power-153940047.html>

American home energy use is 10% of the nation's use. Solarizing all homes, businesses and to run

**US Energy Consumption

Data source: US Energy Information Administration

HSTs would eliminate 76% of America's oil energy use which is about 40% or ½ our total energy use. Keep coal, gas for industrial production.

Petroleum

37.1% of America's Total Energy Use:

71% Transportation

23% Industrial

5% Residential and Commercial

1% Electric Power

http://en.wikipedia.org/wiki/Energy_in_the_United_States

For example, after Congress voted to arm the CIA-coup-instigated, fascist Ukraine government to go to proxy war against the Russians for MILINDCOMP/Wall Street profits, the entire country should have went on strike. The 40% American sheeple should not tolerate war mongering BS--but they do. This is why they are NOT INNOCENT. It looks like only a nuclear war will wake up the war-monger sheeple—if they of course survive it to realize they have been had—which the

Illuminati of course doesn't want—200 million at least must go away for them to be comfy again on North America. America's indecent, belligerent foreign policy based on CIA-concocted Islamofascism bogeymen and now instigating border disputes to make the Russians into a new quasi-arch enemy as its excuses is on the road for nuclear war. Don't forget communist-capitalist pinko China in the east as a convenient war-monger excuse, too. The Illuminati want nuclear WW3 to meet their depopulation goals and by the time the 40% sheeple wake-up, it will be too late with them incinerated into nuclear dust like Lot's wife.

We can and should get lists of every secret society member and boycott all their businesses and runs for elected office.

Until the Department of Justice (DOJ) is run by 35%ers the above ain't going to happen—nice sentiment though!

America to date has never gone on a nation-wide strike over

ANY issue.

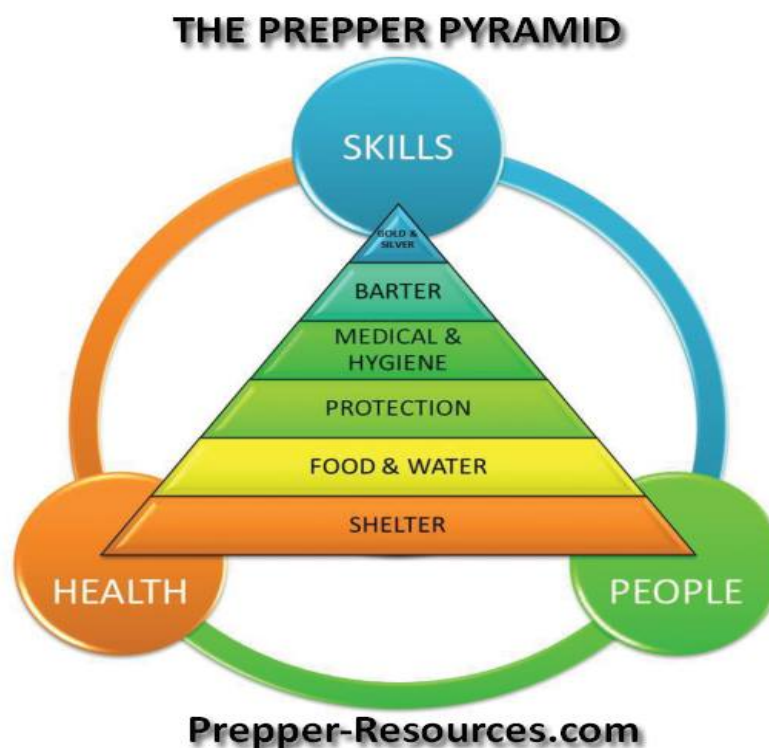

That's why America has continually gone to shit as time goes on.

There is nothing current corrupt Americans will go on strike over (lose money) unless it is money they are already losing on a local level, because Americans worship the god of money—money is the IGETYOUGET certificates of human co-operative behavior with which 25%er psycho-sociopaths and 40% apathetic sheepletons can all join hands and live life as indulgently as possible--while thumbing their noses at God Almighty. The love of money to live Racket-cooperatively in rebellion against Godly morality—is the root of all human evil.

Until we go on nation-wide strike, Illuminati criminals have the entire economic engine of 310, 000, 000+ Americans behind whatever evil they do. **Americans' god is money—until the Rackets kill off the Hive.**

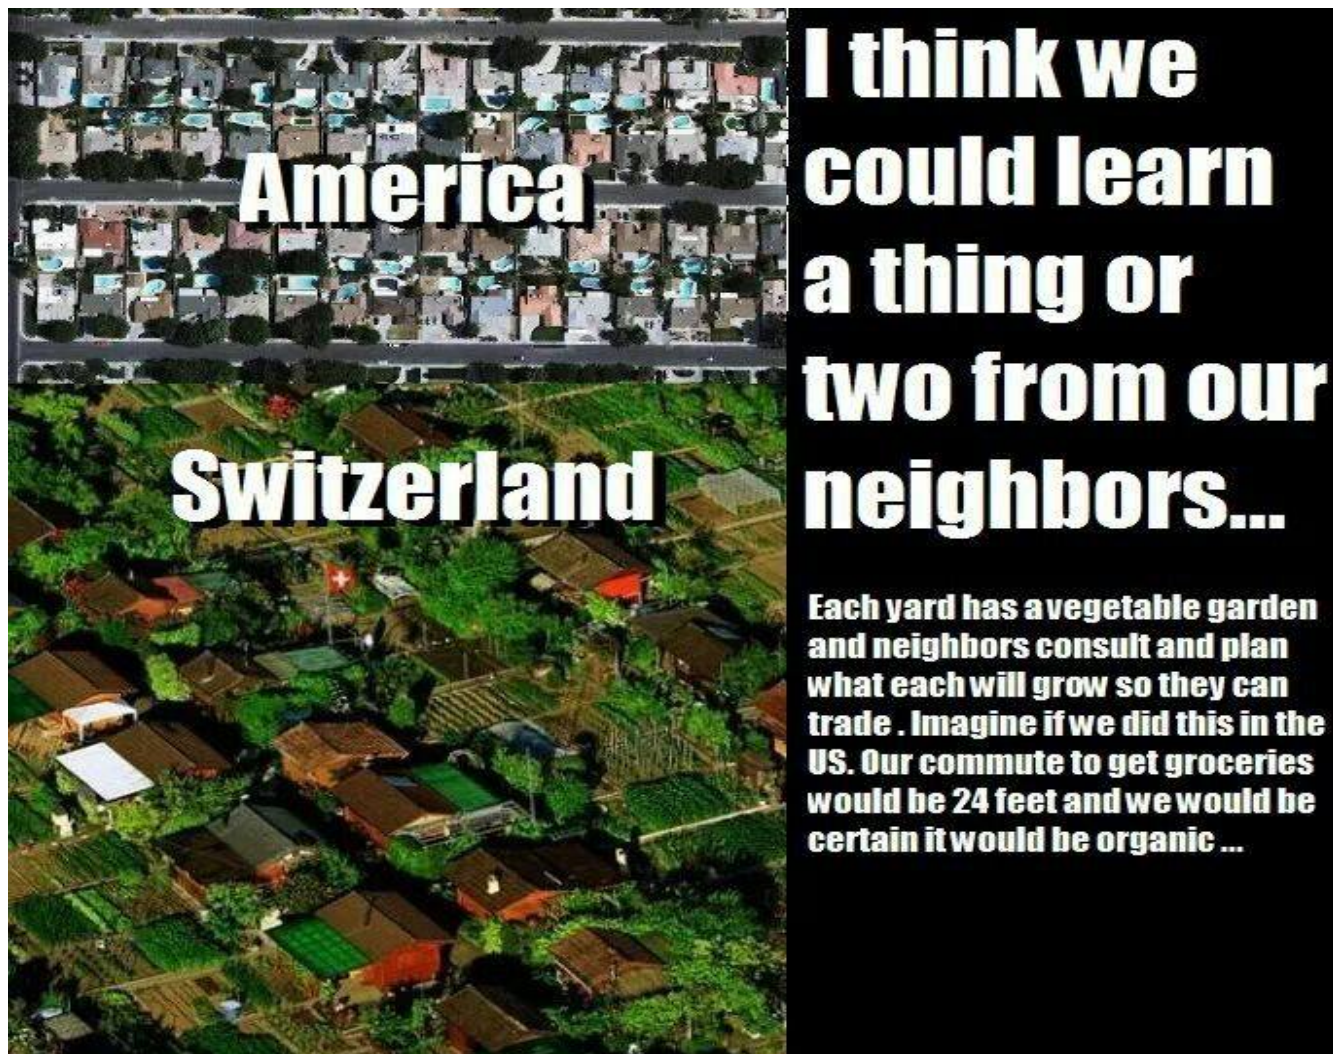

What Can We and Should We Do?

If we want to not die and be judged negatively by God to burn in hell for eternity, we should accept Christ's pardon for our sins. We should not be rich as God will not allow the rich into heaven. We should not vote in rigged elections nor pay any more taxes than we have to that subsidizes the evil AmeroHive we are in. Find out the salary level where one no longer pays any taxes and quit/switch jobs/reduce hours so you are not a tax payer. Its better to live at a low standard of living than to be immoral. A lack of money is the only braking action we seem to have on the MILINDCOMP. Do not serve in the U.S. military beyond one term to gain vital outdoor survival skills. Do not let yourself or your sons/daughters be cannon fodder for MILINDCOMP/Wall Street no-win, no-end wars. Live as healthily as you can by not watching TV, not wearing a cell phone, staying out of the sun's dangerous, age-causing, ultraviolet rays and sleeping as much as you can to keep your body healed, rested and ALERT.

When we complain about government we need to demand ACTUAL CORRECTIONS—the center of gravity is SECRET

SOCIETY MEMBERSHIP. Until we demand it be made illegal to be a secret society member in any governmental capacity, we are missing the actual enemy target destroying America. If America does not remove secret society members from power, we are fuked and you can kiss America goodbye someday in a nuclear WW3 and a host of other, more bizarre false flag causative traumas the Illuminati traitors have planned for us like the ET con job.

James Bond Citizens Meet at the Weapons Range

At family level, we must become “*preppers*” who are able to live for as long as possible without the Hive. Turn off the TV, get the cell phone off your body. Stock up on vital supplies and learn how to grow your own food. Learn how to defend yourself. If you don’t have a local shooting range to help you, former CIA agent (I guess we can forgive him for past indiscretions) Jason Hanson’s *survivallife.com* offers a \$47 online course based around an excellent video instruction on basic pistol use and legal-safety concerns:

...geared towards obtaining a non-resident Virginia state Concealed Carry Weapons (CCW) license good for 5 years costing \$100:

vsp.state.va.us/Firearms_NonresidentConcealed.shtm

Hanson also offers a Spycraft online course for just an additional \$27 that's vital for JBCs to acquire counter-intelligence skills since the USG police state is dead set on smearing us by FISSBALL concoctions claiming some sort of factual basis by invading our privacy so as to have the surveillance with which to editorialize and fabricate fake infractions that can be snowballed into the current, in-vogue smear fear label of the month; be it terraist, militia or conspiracy theorist etc. that the sheeple will buy into.

Been There, Done That, Got The T-Shirt

Let's face it.

Mankind has “*done*” human war a thousand times. He has also done sports dating back at least to the narcissistic Greek Olympics—B.C. That’s long “*Before Cell*” phones, boys and girls! Today’s professional sports are rigged by organized crime for gambling pay-offs so you’re watching fake entertainment not some sort of vain-glory-seeking, human struggle. What do human wars accomplish? You get x amount of resources and you get a sexual orgasm murdering those you hate—if you are a psycho-sociopath. For everyone else—war is a horror of death loss though there is kinetic adventure in

it if you can inflict pain and not take any losses within your own ranks.

I disagree with Einstein that military force has no utility—psycho-sociopaths don't give-a-fuck about understanding anything and must be stopped by force. Not all wars are about mental disagreements—some assholes love to kill—like the IRA types that when Michael Collins brokered a peace deal with the British rejected their own representative so they could keep bitching instead of creating constructive goods & services aka "*get a life*". Again, let's face it—we all love to see things explode and burn—destruction is fascinating and thrilling to most people of all the 25/40/35 divide—that's why we have 4th of Julies, bonfires, Guy Fawkes nights etc. However, its military malpractice to channel this destructive urge as the only way to do military force—destroying things does not keep peace and tends to do the opposite—breed revenge cycles. The best way to stop psycho-sociopaths whose parent societal Hive failed to quarantine from power positions is to smother them by walls and not play their adrenaline high game of chasing eachother with guns. If you can't wall them, then maneuver to decisively pen them in to get them to quit or kill/capture. Last choice is firepower—which is the first and only choice of current

American neoconic, psycho-sociopaths inheriting the PGM mentality from the Nazis they created and brought over after decent men like LTG Gavin defeated them unexpectedly in WW2.

OK, maybe war was interesting the first several hundred years, but even the most jaded sheepleton must admit its ho-hum, we've seen it before. **Same applies to consumerism.**

How many more bottles of beer must you consume? How many more drug highs?

Let's face it—mankind has done wars, sports, consumerism and its time to do something NEW.

Space Exploration.

NFL deflategate, air-leaker-cheater, Tom Brady thinks he's such a "*stud*" when he's never going to be a fraction of the man legendary quarterback Joe Montana is, let's see him in a spaceship headed to Mars and a REAL life-threatening "*air leak*" develops. All these vain assholes with their 6-pack abs, lets see them confront REAL EVIL doing REAL heroic deeds instead of the make-believe BS on a playing field. The same applies to combating real bullets as former NFL star Pat Tillman confronted military corruption in Afghanistan and was murdered by a fellow U.S. Army Ranger for his plans to blow-the-whistle on it. However, we don't want to make society's IDEAL goal to be war or espionage which is horizontally fighting eachother aka infighting, we must make space exploration and colonization our main vertical goal—and do it before an ecological collapse gun is pointed at our collective heads.

Sheeple in Spaceeee? Are They Up to it?

Since most American sheeple are physical cowards as well as moral cowards, we must remove the BS professional sports delusion as an ideal and a fake arena where selected entertainers act out fake acts of courage on fake settings

perpetuating a collective sham that the Hive is collectively courageous--when it damn well is not. There are indeed a heart-warming few who when they come upon a car crash take courageous and unselfish action but most American sheeple gawk hoping to see a real horror show—which you saw examples earlier in this book. Decent people who may not be tigers but who see themselves as tigers are the ones who save the day when the chips are down—and we must not discourage people wanting to be heroes. Its been said, *“Its better to travel hopefully than to arrive”* and that should be the humble, heroic American spirit not this flag-waving fascist crapola fed us today.

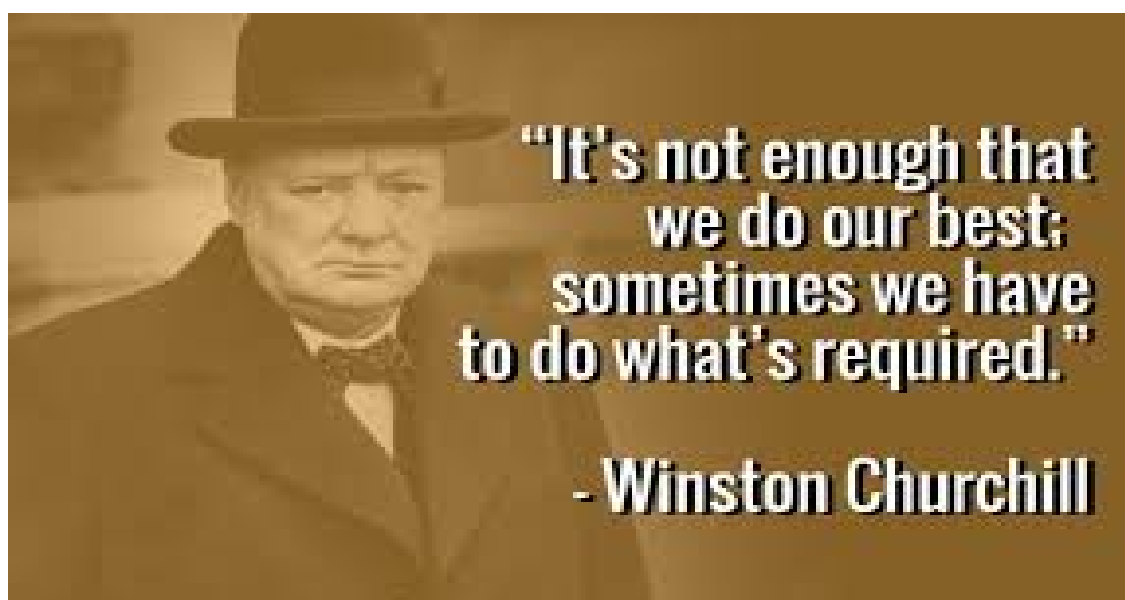

You are what YOU Think You Are...

Part of this character-building should come from 2 years of national service where youngsters are challenged to develop

physical courage. However moral courage—to fight systemic evils and actually solve problems beforehand must also be dreamt up so we can actually overmatch dangerous situations like cars on fire and exploding. Moral courage demands that we get unsafe cars and trucks off the road by more trains to limit the problem, and once this ounce of cure is in play, has an effective pound of cure, too. I believe the Highway Patrolman deliberately-selected-for-being-tall but a petty asshole who comes upon cars and runs license plates to Isball infractions and has no life-saving or firefighting equipment when he comes upon a crash is disgusting bad faith and should stop. Fascist fanboys reading this might whine that “*I’m not respecting all the dedicated smokeys out there yadda yadda yadda*”--shut-the-fuck-up troll turd excuse-mongering for the Hive. Of course, I am grateful for all of America’s first responders for what they do and the lives they save. But you know what?

IT’S NOT FUCKING GOOD ENOUGH.

THAT—is my point. We have to get beyond this perverse victim whining, inverse I’m-a-hero snobbery and get on with the job of ACTUALLY SOLVING PROBLEMS COMPLETELY if you want to actually BE a hero--and not just play the part of superficial facsimile. Winston Churchill nailed it when he said:

What we need is a REAL good faith, highway patrolman in a blaze orange fast cruiser car who pulls people over only for unsafe driving acts and does not asshole database check them to find infractions to arrest them to feed the 2M+ prison Racket or gun shot them like the cop did to former Coast Guardsman Smith cited earlier. Unattended cars are marked with blaze orange rear wraps so people don't ram into their stopped rear ends and exploding their gas tanks thinking they are in the traffic flow. The **Safety Patrolman** should be seen by all for what he is fighting for—safety--as in YOU—even if that “YOU” is a minor criminal. Even non-arsonist, criminals respect firemen because they are fighting for life—which could be theirs needing saving. Firemen are not constantly trying to find or fabricate fault with people to smear-ruin them in order to perpetuate a self-serving Racket. Police should do police work. Prevent crimes, arrest criminals not harass citizens over petty infractions that are not crimes. Safety should be about safety. The Safety Patrolmen would be armed for self-defense and can arrest folks only for serious traffic violations—nothing else. His safety cruiser would have a 500 gallon tank filled with firefighting foam and a water cannon on its roof so when a car fire is encountered it is IMMEDIATELY put it out, as in NOW. No more of these assholes in Smokey Hats who can't-do-crap-for-rescue but stand around and redirect gawker traffic as people burn-to- death in car/truck fires. Everyone—police and safety responders should be wearing fire-resistant Nomex uniforms. Yes, too many people in police work are psycho-sociopaths and they must be screened out and not allowed in the ranks. Yes, decent folk are not generally as “*tough*” as assholes but that's why we should invest in THEM and toughen them up beginning in the 2-year national service corps albeit psycho-sociopaths would not be allowed in the military or police corps career fields, ever.

This all sets-the-stage for space exploration—once the sheeple can handle mere point A to B transportation here on planet Earth, then they can—we can—tackle colonizing space where there is no BS spin and excuses---we have to do what's necessary all the fucking time or we are dead. Space travel is

like a constant car crash event in its need for decisive action that completely solves problems.

The Right Stuff Ends with Anti-Gravity Craft

"*The Right Stuff*" did NOT END with Colonel Yeager attempting to reach space with his rocket-assisted NF-104 *Starfighter* as this YOUTUBE Playlist takes you on a perilous journey--with sinister implications. Buckle your ejection seat harness!

youtube.com/playlist?list=PLSqKSM2a4b3OVimT6FssewilHfyRacWQC

"*The Right Stuff*" is an epic, awesome movie derived from Tom Wolfe's incredible book--sadly the last gift my mom gave me before she died. You always pick-up more insights every time you watch the film. Go ahead start this play list and watch to the end---and then when Colonel Yeager is plummeting to the ground in his NF-104 ask yourself, WHY COULDN'T WE BUILD A PLANE THAT TAKES OFF BREATHING AIR AND HAS BIG ENOUGH OF A ROCKET TO GO THE REST OF THE WAY INTO SPACE?

Keep asking that question...as you see at the same time Yeager was crashing--1963--the USAF had the X-20 *DynaSoar* aerospace plane set to blast off ON TOP OF (pay attention to this) a Titan missile as booster to get into space, then re-enter and land like a Chuck Yeager X-1 or X-15 unpowered glider....You can see they had the getting down like an airplane part solved...and the Mercury astronauts proved a rocket (actually a guided missile) could get it into space. So why not have a giant mother plane like a B-52 do it?

NF-104 *Starfighter* Rocket and Jet Climbing

You know the answer was given away when Burt Rutan did exactly this with his *Spaceship 1* in 2004. Rutan even forced into the public mind the fact that the U.S. MILINDCOMP has a way to re-enter without heat tiles that can fall off. So un-college educated Brigadier General Yeager could have went into space instead of flying B-57s over Vietnam--had the elites not cancelled the X-20 and the military version of the WHITE SPACE PROGRAM.

So why are the elites holding back Yeager and his above-board pilots back?

Brigadier General Yeager USAF (R) and Sam Shepherd who Played him in "*The Right Stuff*"

In 1947, when Captain Yeager broke the sound barrier in the X-1 rocket plane dropped from a B-29 the elites already had the turbojet, swept-wing F-86 that could break Mach 1 in a shallow dive. And in 1963, when Colonel Yeager was fighting for his life high over the California desert in his spinning *Starfighter*, America had already perfected ANTI-GRAVITY CRAFT (AGC) derived from Nazi scientists "*working for us*"---or were they? Even ET cheerleader Timothy Good admits by 1962, America had flying saucers. UFOs. Got it? What do you think was flying all over the world after WW2? Spielberg's cuddly ETs? Try demons if not good ole' Americans trying to catch up desperately with the 4th Reich Nazis down south with their own flying saucers. No ETs, sorry boys & girls you still need to go to Sunday school because the Bible is true. "ET" is an USG cover story based on reverse psychology--the more they deny "ET" the more the sheeple want him--there's even a new *X-Files* movie underway with sexy Gillian Anderson set to play the skeptic with pouty lips and David Duchovny the "*believer*" as

FBI agents similar to the real ones Guy Bannister lead out of the Montana field office in the late 1940s when the whole short-field pilot Kenneth Arnold (former OSS Colonel?, what did he do during the war?) "*flying saucers*" incident happened--both choices are BS. The alternative--the truth--is that most UFOs are human AGC.

Action-reaction rocketry is extremely inefficient--and extremely dangerous to go from zero altitude and zero speed to 15, 000 mph to orbit the Earth--ANY man or woman who blasts off this way is a courageous HERO, period. However, we did not get to the Moon this way. The *Apollo* missions were a giant deception operation directed at the Communist world. Lt. Colonel Gus Grissom continued on to the *Apollo* program after X-20 was wrongly cancelled--but realized the capsule was a sham, said so and was burned up in the *Apollo 1* "*accident*" with astronauts Chaffee and White. They were silenced as did another NASA whistle-blower engineer who had a convenient car accident. Call it a half-lie because America did and routinely goes to the Moon--by AGC. This is a hard pill for many to swallow, but the elites are snobs and they look down on heroes like Brigadier General Chuck Yeager USAF (R) and give them only weak rockets on weak planes to create an illusion that we are making progress towards space to pacify the sheeple they don't want going there, ever. The hard realities are there is no reason why we didn't plop the X-20 *DynaSoar* aerospace plane SAFELY on top of a *Titan* rocket and make going into and from space a scheduled affair and a routine event by fitting a rocket booster to the X-20 and taking it aloft by a giant joined B-52 or better yet atop a giant jet seaplane for unlimited take-off runs. But then, the sheeple would have their expectations raised too high. So instead Von Braun and his comrade went through the motions of action-reaction rocketry using re-entry capsules and then put the Space Shuttle alongside a huge liquid oxygen tank and fundamentally unsafe solid rocket boosters and watched 14 astronauts get burned up--first the *Challenger* by an explosion possibly by sabotage and then *Colombia* by a chunk of ice flaking off and ripping a heat tile that wasn't discovered it was missing until the crew were burning up during re-entry. Of

course, Rutan's effort to offer day trips for rich civilians has already had a fatal "*accident*"...you should see a pattern of ENEMY ACTION here, yes?

The "*Right Stuff*" shows all of this if you watch carefully--the politicians using the WHITE space program for propaganda purposes while suppressing decent military men like Yeager from getting into space by developing action-reaction rockets coupled with winged airplanes for atmospheric flight to their logical conclusion which Rutan and Paul Allen figured out is to get as high as possible in the air with a mother plane and then blast-off with rocketry where there is no air. German scientist Sanger knew this and certainly told Von Braun so the question is two-fold; why would he--himself a private pilot--go along with a capsule on top of an action-reaction rocket having witnessed dozens of V-2s explode on the pad during WW2 when he knew the mother aircraft and rocket plane is more efficient and safer? Forget the engineer snobbery depicted in the "*Right Stuff*", Von Braun was a pilot and he was pragmatic--so why pursue rockets-only to get men into space?. Two possible answers come up--and neither are good. Von Braun could have been secretly undermining the American space program as a German Nazi egotist with sour grapes--as Commander Ian Fleming later working for MI6-SIS warns us in his 1954 James Bond novel, Moonraker where Drax is clearly a cross between commando Colonel Skorzeny and Von Braun. The movie by the same name doesn't follow the original plot--but writer Chris Woods employs a very sinister storyline: Drax is going up to his Von Brain-style spinning-fort-gravity, space station in his private space shuttles for a TEMPORARY STAY with his perfect people while he instigates an Extinction Level Event (ELE). Sounds rather like the Illuminati, doesn't it? Why doesn't any of our space stations spin to create artificial gravity so upon return to Earth astronauts are not in such a weakened state?

Or Von Braun was simply following USG orders--he was good at doing that for his previous Nazi employers looking the other way as a rival in rocketry was conveniently arrested and sent to a death camp as he went to work ignoring the concentration

camp inmates who died building his V-2s in the Dora tunnels. Solid rocket booster rival Jack Parsons had a convenient fatal "*accident*" when VB and his liquid-fueled rocketeers came over on traitor Allen Dulles' Operation SUNRISE/PAPERCLIP. Sinister enough? It--believe it or not--could be even more so. Legendary UFO researcher, Bill Lyne (who actually owns a Nazi flying saucer gyrocompass found near an U.S. military base) is adamant that Von Braun not only knew about anti-gravity--he was behind it BEFORE WW2 coming to America to collaborate with us. If that is the case, Von Braun's complete participation, no leadership of the Army then NASA space rocketry program was a a patronizing sham for sheeple consumption. Von Braun knew of at least 1 if not 2 better ways to get into space but instead the most inefficient, costly and dangerous zero-to-hero approach has been followed for decades by NASA. How long will the launch pad action-reaction rocket sham continue under Illuminati orders to keep the sheeple from going into and colonizing space--depopulating the Earth decently without instigated mass murder ELEs?

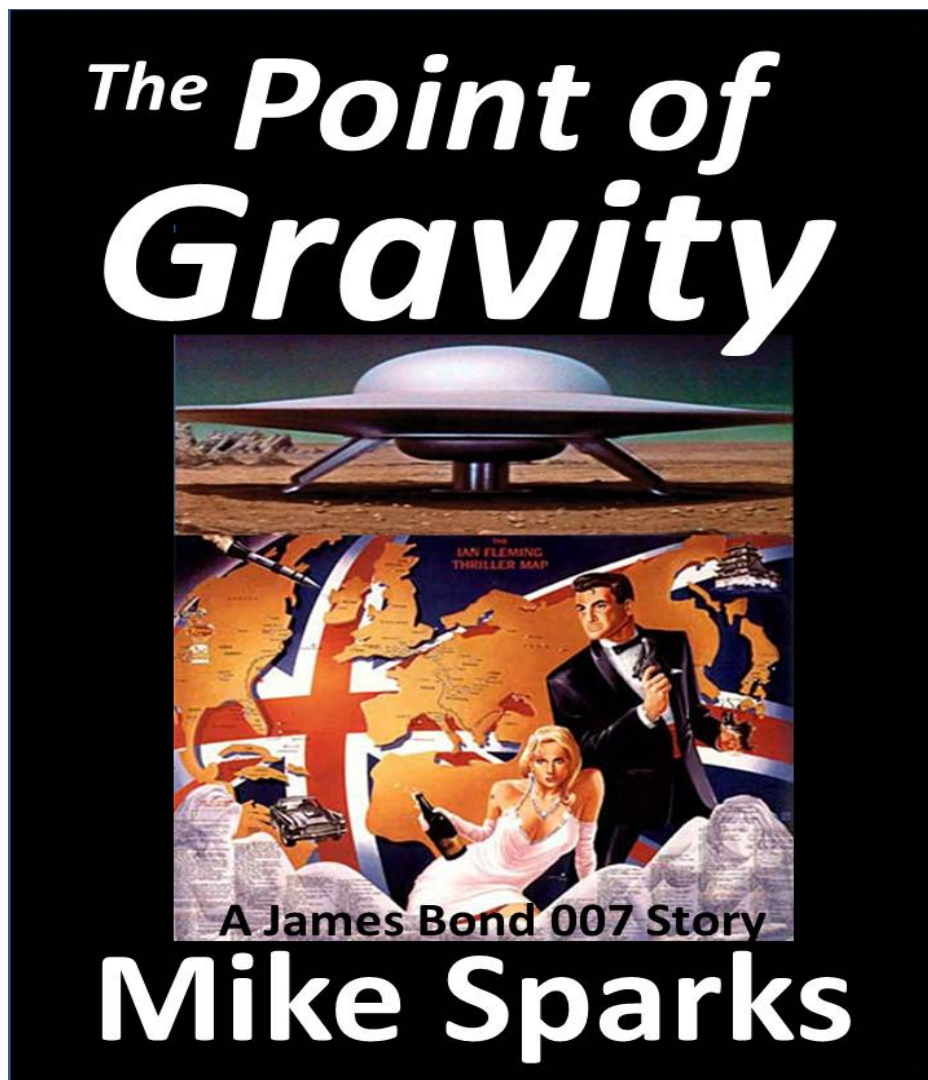

What the elites don't want to admit is that there are brave men and women within the general public who have the RIGHT

STUFF (courage and decency) that they as murderous snobs do not have. This is the central theme that runs throughout the movie beginning with Glennis Yeager challenging Chuck to always consider her untamed and give chase. The moral center of the movie comes when Yeager eclipsed by the public acclaim over the *Mercury* astronauts begins to feel sorry for himself. She warns him--and us--to never live in the past--or else she will run away and never be caught. Wow! what a woman! She represents virtue--the best that is in us that we must always choose if we have THE RIGHT STUFF.

She definitely has the right stuff...

The Anti-Gravity Question

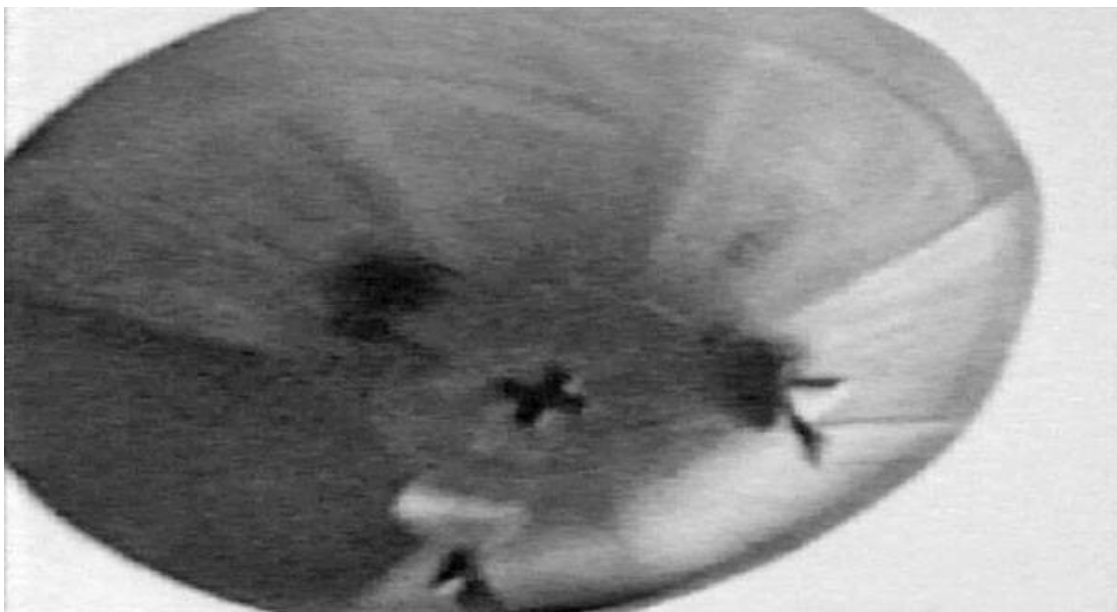

Therefore, before embarking on space exploration and colonization using current inefficient means, the need for efficiency, safety and truth cries out that we ask the following hard question before thousands of people sacrifice their lives:

Does mankind have a better way to reach space than 70+ year old action-reaction rocketry?

If so, is it Anti-Gravity Craft (AGC).

The answer is yes.

Nazi Flying Saucer

Before WW2 there were very few UFO sightings. The ones that were experienced indicate the demonic (IT-Intra-Terrestrial), occult, supernatural origin of flying disk technologies that inspired the German *Thule/Vril* secret societies. This is without dispute--so STFU deniers. Then, suddenly, WW2 ends and there are THOUSANDS of flying saucers sighted all over the world. Yes, a slight chance some Extra-Terrestrial, created beings (ETs) saw our atomic bomb blasts and decided to see what we were doing--but it doesn't fit the clumsy and mechanically slipshod demeanor of early 1950s craft. Obviously these were struggling, mechanically unreliable MAN-MADE, Anti-Gravity Craft beginning with the Nazis who fled the 3rd Reich to start their 4th Reich in Antarctica and South America. That thousands of Nazis fled with money and high technology to Argentina is without dispute, so again, truth-hating trolls, STFU.

Even ET fan boy, Timothy Good in Beyond Top Secret says America perfected its own AGC by 1962. Instead of accurately originating this technology with fallen angels aka demons, Good credits human AGC with an ET origin. How cute of him. Having dealt with demons and seen both human and supernatural UFOs, I don't buy into Good's ET limited hang-out but any help getting across the truth that we humans have our

own flying saucer AGC is appreciated. Thanks, Tim. Go hug ET (your nearest demon) and see what it gets you.

Pre-Flood Civilizations Flew by AGC: We Ain't as Advanced as we delude ourselves to be...

I know from direct, personal experience that demons are capable of and are masquerading as alleged ET created beings from other planets because this feeds the delusion most sheeple want to embrace--that the Bible story isn't true and they have nothing to worry about in terms of God judging their lives when the lights go out. They can be full-time assholes and/or party all they want—just like in the days of Noah before God sent the world-wide flood and washed away the first AGC usage re: the Indian *vamanas*, flying carpets and molten glass remnants of nuclear war against their enemies the pre-Pakistanis. If you see an UFO and its not a human AGC, its certainly demonic and accounts for 25% of all sightings. The other 75% are HUMAN flying saucers. A noted insider wrote me:

"NASA has always had two space programs, the public one for public consumption and limited technology development for

industrial/corporate purposes. The second one is secret and involves the Nazi part, the anti-gravity craft, relationships with 'alien ETs' and inter-dimensional interstellar travel and secret space war. The first one is necessary to serve as cover for the second one and to justify all the big budgets. There are official and secret treaties between various world govts and 'alien ETs'. All alien ETs are demons and fallen angels in disguise working for Lucifer. Might as well start calling America "Luciferland" since the recent supreme court decisions by five crooked, bribed justices."

Demons masquerade as malevolent ETs, the hate-humans, evil part isn't a put-on...

Are the Illuminati going to share AGC--and by implication--free energy with the sheeple?

No, they are not. With 2 years of national service or even a hundred years, regardless--they look down on the sheeple, period and reserve the good technologies for themselves. This is why AGC have been seen getting bigger and bigger over the years—so they can transport the Illuminati to off-planet locations ie; Moon and Mars bases to sit-out their Extinction Level Event (ELE) they've concocted to murder 6/7th of the sheeple. Just like *Moonraker*. Remember, they are psycho-sociopaths!

However, since this is the chapter on dreaming ideal solutions, yes mankind **with AGC** could rapidly colonize both the Moon and Mars beyond the currently logical, we-already have secret military bases there. However, even in a non-psycho-sociopathically-run world, we can't have Jim-Bob have access to free energy. If he breaks up with Billy-Jean, there'd be nothing to stop him from blowing up the entire world. Sorry, Dr. Judy Wood & her delusionists--the Illuminati are right in not sharing free energy with the sheeple—even if its for the wrong, evil, selfish oil Racketeering and NWO mass-murder reasons.

Therefore, the next best ideal for space exploration/colonization is inefficient action-reaction rocketry which I object to NASA's current Von Braun zero-to-hero from the launch pad approach. Zero altitude and zero speed from the pad filled with volatile fuel is simply nuts to put humans anywhere near.

Remember the Space Shuttle *Challenger* disaster in 1986 when an o-ring seal in a solid rocket booster supposedly failed causing a burn-through that ignited the liquid oxygen tank feeding the main engines exploding the shuttle so the 7 astronauts without ejection seats that could have saved them instead fell into the ocean to their deaths?

How about in 2003, the shuttle *Colombia* burning up during re-entry because during lift-off a chunk of liquid oxygen frozen ice broke off and ripped away a thermal tile?

NASA: Need Another Seven (7) Astronauts!

Burt Rutan and German scientist Dr. Eugen Sanger proposed and the former has proven a better way to space: use AIRCRAFT with wings to at least get up to 60, 000 feet and 600 mph and from this kinetic energy start go the rest of the way into space. To get the massive mother ships we need up to 60K/600 we need to re-vitalize SEAPLANES that have unlimited runway lengths to take-off from. Burt Rutan should run NASA or be given its job.

Spinning space station orbiting Mars

Once modules are boosted into space, assembled they should be made into a spinning space station with 1G artificial gravity so the astronauts inside don't have their bodies deteriorate. Why neither America or Russia has spun a space station for this is a mystery. Must we only see it in space movies like Kubrick's ode-to-the-Illuminati, *2001: A Space Odyssey*?

To spur space exploration onward, we need to offer carrots instead of sticks. When a young person joins the Space Corps and his assignment needs him to go back to college for technical skills/understanding, he goes there (don't laugh!) as a Space Cadet. Meaning he is **SOMEBODY** with esteem and a mission to learn arcane scientific stuff, not the current kick-everyone-in-the-teeth, hate knowledge and it's up to you to find some dignified use for this trivial pursuit game fodder. It's almost as-if the Illuminati don't want us to learn anything. Imagine that.

Mars Space Station Close-up

Some people are going to die colonizing space for mankind.

Make no bones about it.

This is why I stressed early-on that REAL COURAGE from REAL HEROES will be required--not BS frauds like footballer Tom Brady. You can tell I dislike that boast-tard.

And everyone that dies exploring, colonizing space in good faith will be a HERO worthy of our remembrances.

This extreme challenge demands America cease being a BS Hive and instead become a thinking PROFESSIONAL Colony beginning here on Earth by re-organizing how we live realizing we are already living a “*science fiction space movie*”--for real on “*spaceship Earth*” as it travels at 66, 000 mph around the sun. All Americans must think like they are astronauts even here on the Earth by self-sufficient living. We must stop terra-destructing our home planet as we terra-form others.

Key to terra-forming other planets is finding the needed materials on the planet itself

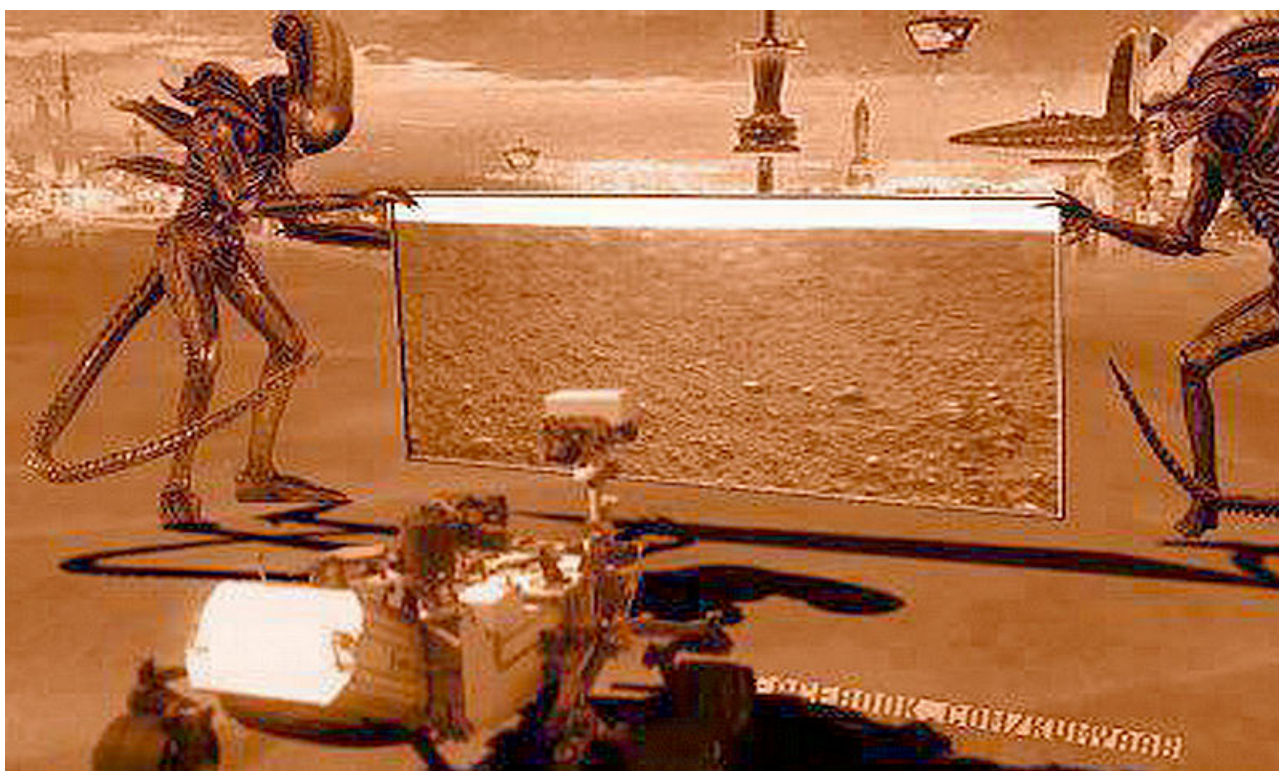

Once its established that science has an exciting, functional point to it—that all Americans can participate as astronauts, war will fade as the most exciting activity in favor of the kinetics of space travel.

Mountain climbing on Mars

Not one to shy away from difficult questions, but it appears that on Mars there are signs of non-human intelligent life having

been there and attacked as in possibly Lucifer/Satan's rebellion against God Almighty. Scary shit. The astronauts who confront these we-are-not-alone artifacts and megaliths can't freak-out like Ridley Scott's Millennial generation weenies do in his *Alien* pre-quel movie, *Prometheus* which has the lovely/sexy Charlize Theron flame-throwing a fellow astronaut infected with the alien being. Maybe we should call her "*Charl(broil) Theron*" since her character in her teens played by the equally lovely Jennifer Lawrence incinerates her mom played by sexy Kim Basinger while having a love union in a trailer in *The Burning Plain*.

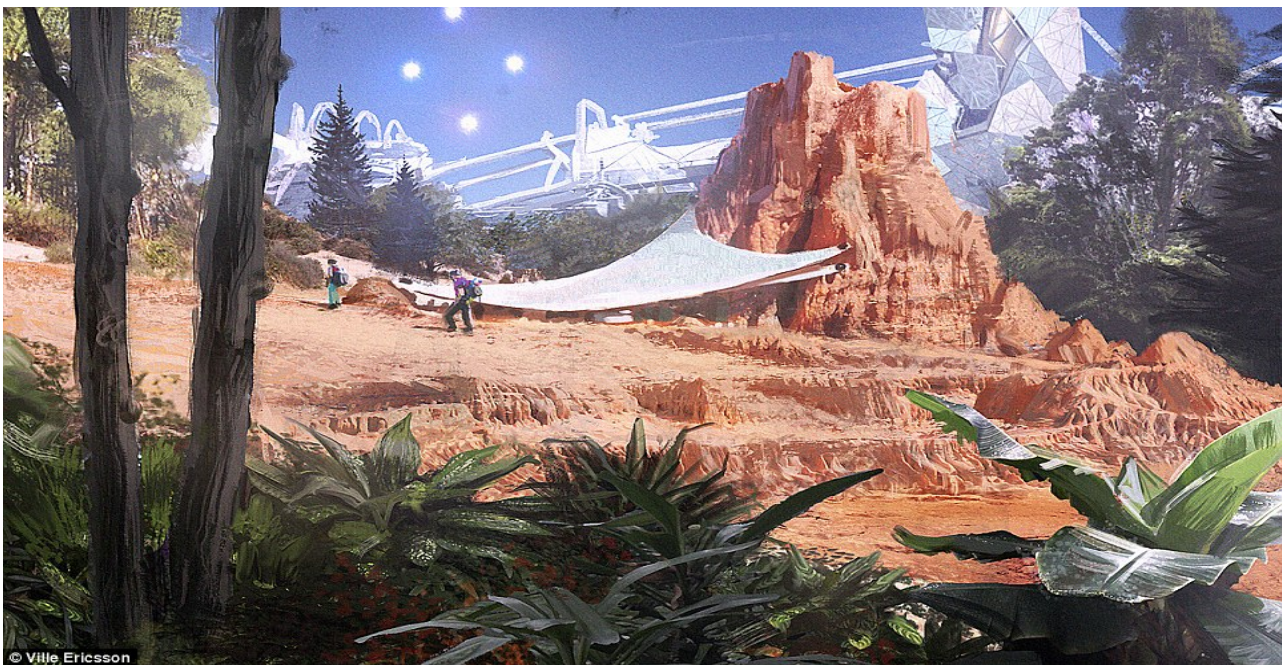

Here are Ridley Scott's Aliens doing a con-job on a NASA unmanned lander: why we need to grow a pair and actually land on Mars ourselves

It will take years to terra-form Mars into a living planet but small colonies could be created to house astronauts doing the work. Whatever colonies we build on the moon need to be underground to shield from meteorite strikes and the harsh unrelenting sun.

What is a Profession? Why Does it Differ from a Bureaucracy?

A profession is based on everyone within having intrinsic worth such that class/social position games are not played. If a professional sees something, his observations are evaluated objectively and acted on. Professions focus on external, objective reality--not subjective inward delusions of asshole bureaucrats playing control games. The American Hive has no clue about the above—the sheeple have no inkling that there is a better way than mindless, bureaucratic autopilot.

The goal of decent men: a New Garden of Eden—only possible if we keep psycho-sociopaths away from leadership positions in society's Earth, Moon and Mars colonies

dailymail.co.uk/sciencetech/article-3079534/Welcome-new-home-MARS-Stunning-drawings-reveal-red-planet-look-like-colonised-it.html

The drawings were created by Ville Ericsson, a 26-year-old concept artist and illustrator from Stockholm, Sweden. They envision a future Mars that has not only been colonized, but partially terraformed -- turned Earth-like -- as well.

Mr Ericsson's drawings show huge transparent domes with cities inside, and also plants and grass growing on the ground. Domes have been suggested

as a good structure to use on Mars, as they can be built fairly large while remaining intact, and withstand the low-pressure Martian environment.

Inside the pressurized dome, people can walk about without the need for a spacesuit, as shown in one of the images. In the drawings a team of climbers are also seen scaling the side of Olympus Mons, the largest volcano not only on the red planet, but in the solar system as well.

Olympus Mons is 25 miles (16 km) high, three times the height of Mount Everest, and about 374 miles (624 km) across, roughly the size of France.

Two other images show a space station in orbit around the red planet, bearing some similarities to the ISS. The large modular-like structure has solar panels to provide power, in addition to large fuel tanks, while a rotating section provides artificial gravity for the crew on board.

Chapter 8: REFORMER

Change the Hive

Main Goals:

**War-Smothering USMIL
Build Spaceship Earth**

*** No Secret Society Members in USG**

- * No psycho-sociopaths in USMIL or Intel Agencies**
- * Disband the CIA/FBI; Replace with OSS/Whatever**
- * Balance Federal Budget**
- * Repeal 17th Amendment**
- * Cut DoD in 1/2**
- * Cut Welfare in 1/2**
- * High Speed Train (HST) System employs 11M unemployed**
- * Minimum Wage \$10/hour all jobs**
- * No Corporations as Person**
- * No Corporations for Life**
- * No Corporation Owners Out-Sourcing Overseas**
- * Eliminate POTUS War Powers w/o Congress**
- * Seal USA Border with Tangible Walls**
- * Disband USMC, Chop TacAir-Airlift from USAF to Army**
- * Sub-National Conflict Corps to Smother Wars**
- * Every Home Hardened against TBATE/TBAM**

*** Electric Cars Norm for Intra-City Only**

Alas, we come crashing back down to Earth with REFUSENIK acting as a rear guard holding action for decency and DREAMER giving us the ideal goals. Here, as the REFORMER we must get our house-in-order and change the Hive.

Realistic reforms presented here are in synch with the ideal, professional-driven American Space Colonists DREAM--but focus is on the here-on-Earth first steps like eliminating secret society control of the AmeroHive, balancing the budget and reorganizing the USMIL into a war-smothering, war-ending profession. Instilling decency into the economic life by eliminating psych-sociopathic corporations that out-source jobs to slaves overseas, underpay the Americans doing jobs they can't foist onto a slave and putting everyone to work on an

exciting 300 mph High Speed Train System (HST) is entirely feasible if a decent person became POTUS. Insuring that politicians are not bought by the Illuminati requires the 17th Amendment be repealed and elections be funded evenly amongst candidates by public financing only. Zero campaign contributions from anyone allowed.

Realistic REFORMING will not take place until enough REFUSENIK pressure is brought to bear by a nation-wide, stay home strike. I do not advocate public protests because the CIA will hire thugs to shoot both sides and blame the group they want to smear. They pulled this stunt recently in Kiev and Venezuela.

You will note that REFORMING does not have space colonization or 2 years of national service because we must first remove the Illuminati from power and steer the ship-of-state away from the rocks of financial and military collapse. Right now, America's military is the biggest, most expensive,

incompetent bully-thugs of all time, inviting its commeupance. We must stop this at once.

There are 18,600,000 vacant homes in
the United States.

That's enough for every homeless
person to have six.

As soon as the reform steps are done and the national \$18T debt is paid off in 20 years by making big corporations pay their required taxes, America would be in position to perform both the 2-year national service program as well as colonize the Moon and Mars. 20 years is not a long time. 20 years ago was 1995—Bill Clinton's presidency, BS political correctness—and the internet began (1997 more precisely for its kick-off with the sheeple). I remember waiting for my dial-up modem to sign me into America Online—AOL and all the new people I began to talk to that I never would have otherwise. We need the HST system to close-the-deal of the internet—those we are

introduced mentally on the internet, we physically meet by HST rides to kinetically act on our refusenik, dreamer and reformer actions. In other words, the asshole Illuminati's worst nightmare: the sheeple becoming more sophisticated and skillful than them. However, we must not just become mini-Illuminati train-setters with the reform plan's stabilizing. HST travel must not be used to further consumer hedonism; so as soon as possible the consumer AmeroHive must be replaced with an AmeroColonial mindset--with character and decency. Americans must become colonists again as LTG Gavin said in 1958 in his book, War and Peace in the Space Age. Americans are at our best when we are fighting the elements and not other human beings.

We must become people again.

"The American Society of Civil Engineers estimates that it would cost \$3.6 trillion to bring our nation's infrastructure to a state of good repair. Spending one trillion would create about 13 million jobs. The choice is clear. Let's rebuild America and create jobs here."

Chapter 9: Closing Thoughts

The Indian chick here has the New Age Delusion that All We Have to Do is Individually Tune-Out of the Hive

Will the AmeroDecency Revolution Be Enough to Save the Earth GeoHive?

The Earth was made by God and given to man to caretake. Man has surrendered much of the planet to a fallen angel rebellion that drives the evil men who run-ruin the world. THERE ARE MANY WAYS TO SAVE PLANET EARTH. None of them are relevant until WE REMOVE THE EVIL MEN ruining the Earth from power so any of these fixes can be acted on. Who are the evil people? 1 out of every 4 people are psychosociopaths born without or with inoperative consciences.

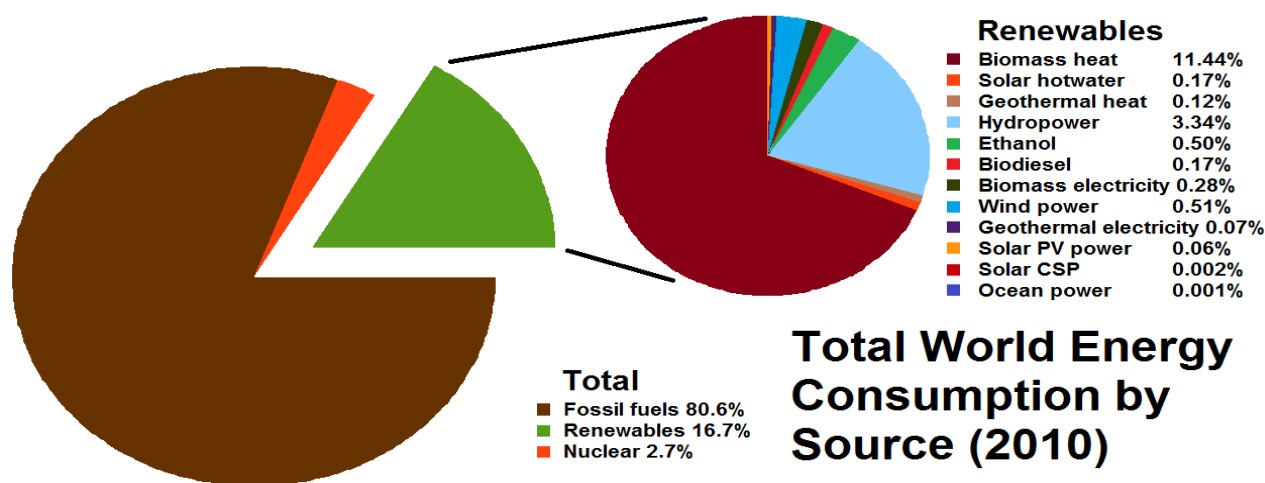

1 out of 4.

25%.

A FACT proven by ponerologists. 40% of mankind are apathetic sheeple who do whatever authority tells them to do. The remaining 35% are conscience doers who I imagine are the frustrated people reading this book. This means 65% of mankind wants to live as outrageously as they can and don't care about preserving the Earth for future generations. The 25%ers plan their bad faith concoctions in their many secret societies. Therefore, the #1 thing to saving the Earth is removing ALL secret society members from social power ie; make it illegal to be in charge of anything. Until you do this, the 40%ers are going to follow them in destroying the Earth.

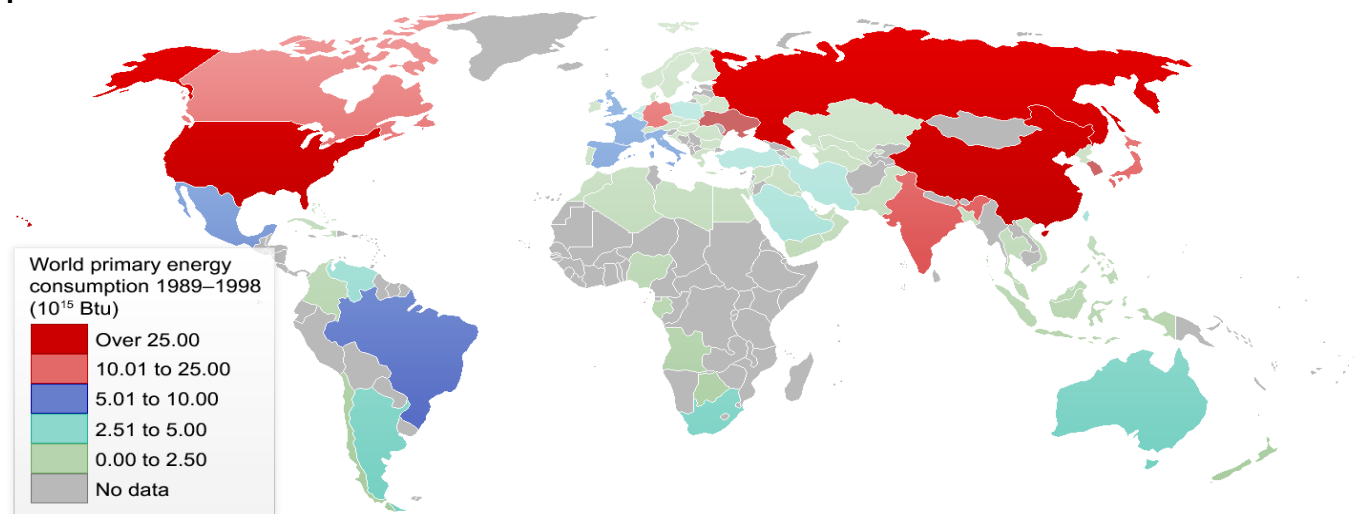

Let's Conduct a Thought Experiment: Can We Wish Away Evil with New Age Higher Consciousness?

If you could convince every decent person to tune-out the collective GeoHives and become self-sufficient, live off-the-grid etc. this would be at best 35% of the 7 BILLION people on Earth--not enough to negate the physical damage the 65% are doing.

We have been going about life under-estimating the number of people who are evil or potentially evil by at least 24%. I'd estimate most governments operate according to the naive delusion that only 1% are "*bad apples*". Dangerously wrong. When you realize 1 out of every 4 people you encounter in just your own life are psycho-sociopaths--events start to explain

themselves. I'm not saying we identify the 25% and execute them. I'm saying DO NOT LET THEM INTO POWER POSITIONS IN SOCIETY, PERIOD. There are tests that can ascertain if one is a psychopath or a sociopath. I know its harsh and it contradicts our "*all men created equal*" Enlightenment Age delusions, but its the truth if we want mankind steered by conscience-doers--and not psycho-socios to our extinction. The 25%ers can live their lives fully as individuals--but they must never be allowed into power--no one in any power position without a conscience.

The good news is that the main Earth polluters are America, Russia and China-India. If decent people re-invent America there goes ½ of whatever is causing our north and south poles to melt. It may be a BS con by the HAARP microwaves doing the Earth sabotage. Russia is a reasonable country and wants to be America's ally. Whatever we figure out in good faith, they will not only go along with, they will help us do it better. President Putin is a decent man. This leaves over-populated China and India. India is the easiest to fix—where is Gandhi when you need him? He got his country's independence in 1947 and its been a shit-hole ever since the British left. This is where a generalized definition of what a decent standard of living is comes in handy as proposed earlier. The entire world must come down hard on India and make them stop their stupid shit they do. Vulgarity justified and necessary here in order to communicate the truth. Sorry, your "*culture*" is killing our planet. You must stop treating your people like shit and shitting all over

your part of our planet. If you want a justified reason for a war—a psycho-sociopathic nation-state cries out for a precision regime change military operation.

This leaves China full of brilliant but face-conscious, people who have to be made to think its their idea. They have plenty of good ideas and we can use their help. Their solution to being crowded is the same as ours—get off the planet! At least half the space colonists would be Chinese to relieve pollution pressure on our shared Earth.

Saving the Earth: Doable.

Enter the New Agers Who Say Everything is Getting Better (In their Heads)

Here's the problem--platitudism. Wishful thinking. All the "awake" people today are not having a fraction of the effect of say the anti-war protestors during Vietnam which actually stopped a deliberately prolonged war. Until we have nation-wide strikes--absolutely stop the economic Hive activity--the elites milk from us, all our refuseniking is going to do is mean the 35%ers die knowing we tried. We need to start fighting to WIN and we can't win if we refuse to face the whole problem--which I outlined and its not fuzzy statistics its ACTIONABLE.

The French revolutionists were imbued by a smug, philosophical narcissism similar to all this "new age" consciousness stuff--if there is not a sober safeguard on the 25%ers among us--the result could be everyone who crosses the newly-in-power, revolutionaries being executed. Ignoring the REALITY that 25% of all people are psycho-sociopaths--to include amongst any social "*movement*" is an invitation to repeat the French Revolution's blood bath.

{ Three simple rules in life }

1. If you do not GO after what you want, you'll never have it.
2. If you do not ASK, the answer will always be NO.
3. If you do not step forward, you'll always be in the same place.

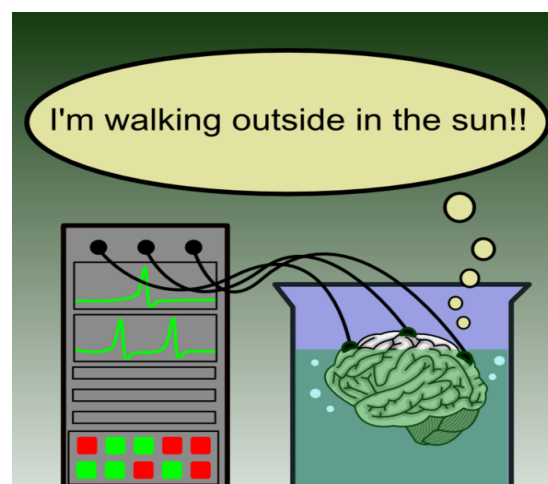

Step 1 is understanding the problem, period. Whether can can or will solve it is a SEPARATE issue.

Step 2 is HOW we can solve the problem based on an accurate, sober assessment--which most whiners have not done. Whining is only the pain response beginning. If America had a nation-wide strike with 1 TANGIBLE GRIEVANCE REDRESS--MAKE IT ILLEGAL TO BE A SECRET SOCIETY MEMBER AND AN USG EMPLOYEE or balance the budget now etc. we would be striking at the source of the enemy's power--instead of cursing-the-darkness. I like to WIN.

The white European settlers refused peace with the Indians on an individual as well as nation-state level. Again, psycho-sociopathic indecency is being ignored here. Your decency does not drive the psycho-sociopath to be what he cannot be--have and live by a conscience. Only LAWS backed by

police/military force can restrain evil men, sometimes stop them or sadly punish them after-the-crimes. The cause-->effect materialist is always going to have the upper hand in our objective reality world over someone introverted into subjective delusions. This may be a temporary supremacy that will be punished in the after life if used for evil--but all the zen and quantum mechanics BS in the world is not going to stop the killer from stabbing you as you sleep unable to gaze at the atoms so they change their orientation ala Niels Bohr.

Part of the lies fed sheeple by the elite psycho-socopaths is not to get angry—a perfect door mat recipe. Anger reminds everyone in a discussion that a REAL PERSON is being hurt--its not some preferential fluff of debating points. we must be accurate--25% are psycho-sociopaths, be angry--not naive pacifists, not protest lest we help governments stage a massacre blamed on innocents they dislike ie; a nation-wide stay home strike. The Vietnam War protests worked albeit with violence which I first want to point out that the '60s generation was more dedicated than today's because they did find a way to force the elites to change to their tune. The current generation has not and I don't think will because they don't want to get angry, piss anyone off and instead think if they turn inward--like the American Indians who thought the 7th Cavalry is somehow not going to storm into their teepee and gun everyone down. New Agism is phenomenalism—the only reality is what's in your mind—go run across the room and see if there indeed is physical, objective reality—or not.

I think New Age introversion deluding itself that all people are connected in an Earth ether that can be covertly directed by wishful meditations of the decent threatens no one and makes better sheeple to subjugate. Can I not be any more clear?

Moreover, I think New Agism is a cheap imitation of early Christianity--but lacking the true power of the Gospel to legally forgive men and offer the Holy Spirit to live within even psycho-sociopaths to provide an external conscience when there wasn't one. New Agism cannot constrain psycho-sociopaths—only the Holy Spirit living inside them or decent men with guns and walls outside them can stop them. New Agism will supply you a demon, ehh “*spirit guide*” to live inside you. No fucking thank you.

Another pile of crap New Agers throw at the sane, concrete refusenik/dreamer/reformer is that kinetic refuseniking and self-defense with guns against tyranny is "*violence*". The v-card is exactly like their BS anger card. I refuse to use the "v" word to describe JUSTIFIED PHYSICAL, DESTRUCTIVE FORCE. Many New Agers dishonestly portray self-defensive actions of people against tyranny as the "v" word. This is lying behavior on their part.

<http://dictionary.reference.com/browse/violence>

the definition of violence

Violence definition, swift and intense force: the violence of a storm.

Apparently, the TRUTH IS LIKE I SUSPECTED THAT VIOLENCE DOES NOT MEAN ONLY UNLAWFUL FORCE--read the definition above. Definitions 1, 2, 4, 5, 6 describe lawful violence contexts.

violence
noun

1. swift and intense force: the violence of a storm.
2. rough or injurious physical force, action, or treatment: to die by violence.
3. an unjust or unwarranted exertion of force or power, as against rights or laws: to take over a government by violence.
4. a violent act or proceeding.
5. rough or immoderate vehemence, as of feeling or language: the violence of his hatred.
6. damage through distortion or unwarranted alteration: to do editorial violence to a text.

So have the psycho-sociopaths lied and distorted the word "*violence*" to attempt to rob us of self-defensive destructive powers? I say since the sheeple are brain-washed into whatever lies are fed them, avoid using the "v" word altogether when describing justified self-defense whenever possibly. Avoid

their BS trap. So it appears the psycho-sociopathic elites are trying to rob us from the ability to use destructive force to defend ourselves by making the word "*violence*" mean only unjustified--which is an absurd lie because you need to be able to use the word to describe a damaging storm of nature...anyone who buys into the "v" word meaning a pejorative is a sheeple embracing their newspeak lies.

<http://en.wikipedia.org/wiki/Newspeak>

Newspeak is the fictional language in the novel Nineteen Eighty-Four, written by George Orwell. It is a controlled language created by the totalitarian state as a tool to limit freedom of thought, and concepts that pose a threat to the regime such as freedom, self-expression, individuality, and peace. Any form of thought alternative to the party's construct is classified as "*thoughtcrime*".

Newspeak is explained in chapters 4 and 5 of Nineteen Eighty-Four, and in an appendix to the book. The language follows, for the most part, the same grammatical rules as English, but has a much more limiting, and constantly shifting vocabulary. Any synonyms or antonyms, along with undesirable concepts are eradicated. The goal is for everyone to be speaking this language by the year 2050

If the government comes to unjustly arrest us we should use "*violence*" (boo hoo! New Age pacifist) to defend ourselves, sorry if that bursts your New Age introverted bubble. Did the 1776 Declaration of Independence alone make America a free nation-state?

NO.

It took a war of independence to achieve that. If you want to walk to the death camps humming New Age chants be my guest! Remember that Gandhi was gunned down. Peaceful protesting only works if you are being "*oppressed*" by decent though snobby benefactors like the British in India. If it were Hitler and the SS running India (they came damn close to achieving this in WW2) they'd have gunned down and flame-thrower incinerated Gandhi and his followers who would have

burned well in their bed sheets and rag clothing as the Nazis laughed their asses off.

Now notice I changed the situation being discussed from what we should do to reform our country to what happens if it collapses into Nazi-like tyranny. I have met several WW2 concentration camp survivors in my life and they all to the man and woman said DO NOT LET YOURSELF BE SENT TO THE CAMPS. Get guns and fight back. Even if you have no guns, fight back. Its better to be shot resisting than to die a slow death in a concentration camp.

The False Choice of Either Violence or Doing Nothing

One of the false BS cons is to pretend that the other guy somehow isn't answering your question--a desperation tactic of the butt hurt loser. Life is more complex than either/or violence or pacifism strait-jacket. What New Agers want is for us to be either a door mat pacifist or a war-monger "violentist"—when its not an either/or situation. This is a complex and/or situation. The whole right to self-defense in order to have life, liberty and the pursuit of happiness (LLPH) is implied directly in the 2nd Amendment is necessary to protect a person from psycho-sociopaths--and boo hoo! it involves using the v-word.

<http://en.wikipedia.org/wiki/Violence>

Violence is defined by the World Health Organization as "*the intentional use of physical force or power*"

What New Agers deceitfully try to do by portraying self-defense as illegal "*violence*" is called building a straw man to knock down. :

http://en.wikipedia.org/wiki/Straw_man

A straw man is a common form of argument and is an informal fallacy based on false representation of an opponent's argument.[1] To be successful, a straw man argument requires that the audience be ignorant or uninformed of the original argument.

The so-called typical "*attacking a straw man*" argument creates the illusion of having completely refuted or defeated an opponent's proposition by covertly replacing it with a different proposition (i.e., "stand up a straw man") and then to refute or defeat that false argument ("*knock down a straw man*") instead of the original proposition.[2][3]

This technique has been used throughout history in polemical debate, particularly in arguments about highly charged emotional issues where a fiery, entertaining "*battle*" and the defeat of an "*enemy*" may be more valued than critical thinking or understanding both sides of the issue.

New Agers using the "v" word also constitutes a RED HERRING.

http://en.wikipedia.org/wiki/Red_herring

Red herring - Wikipedia, the free encyclopedia

A red herring is something that misleads or distracts from a relevant or important issue.[1] It may be either a logical fallacy or a literary device that leads readers or audiences towards a false conclusion.

Moreover, New Agers presenting the lie that only 2 choices are available is called a FALSE DILEMMA. THE LIE THAT THE ONLY CHOICES TO NWO TYRANNY IS EITHER THE V WORD BOGEYMAN or their pacifistic, zen introversions.

Not so.

http://en.wikipedia.org/wiki/False_dilemma

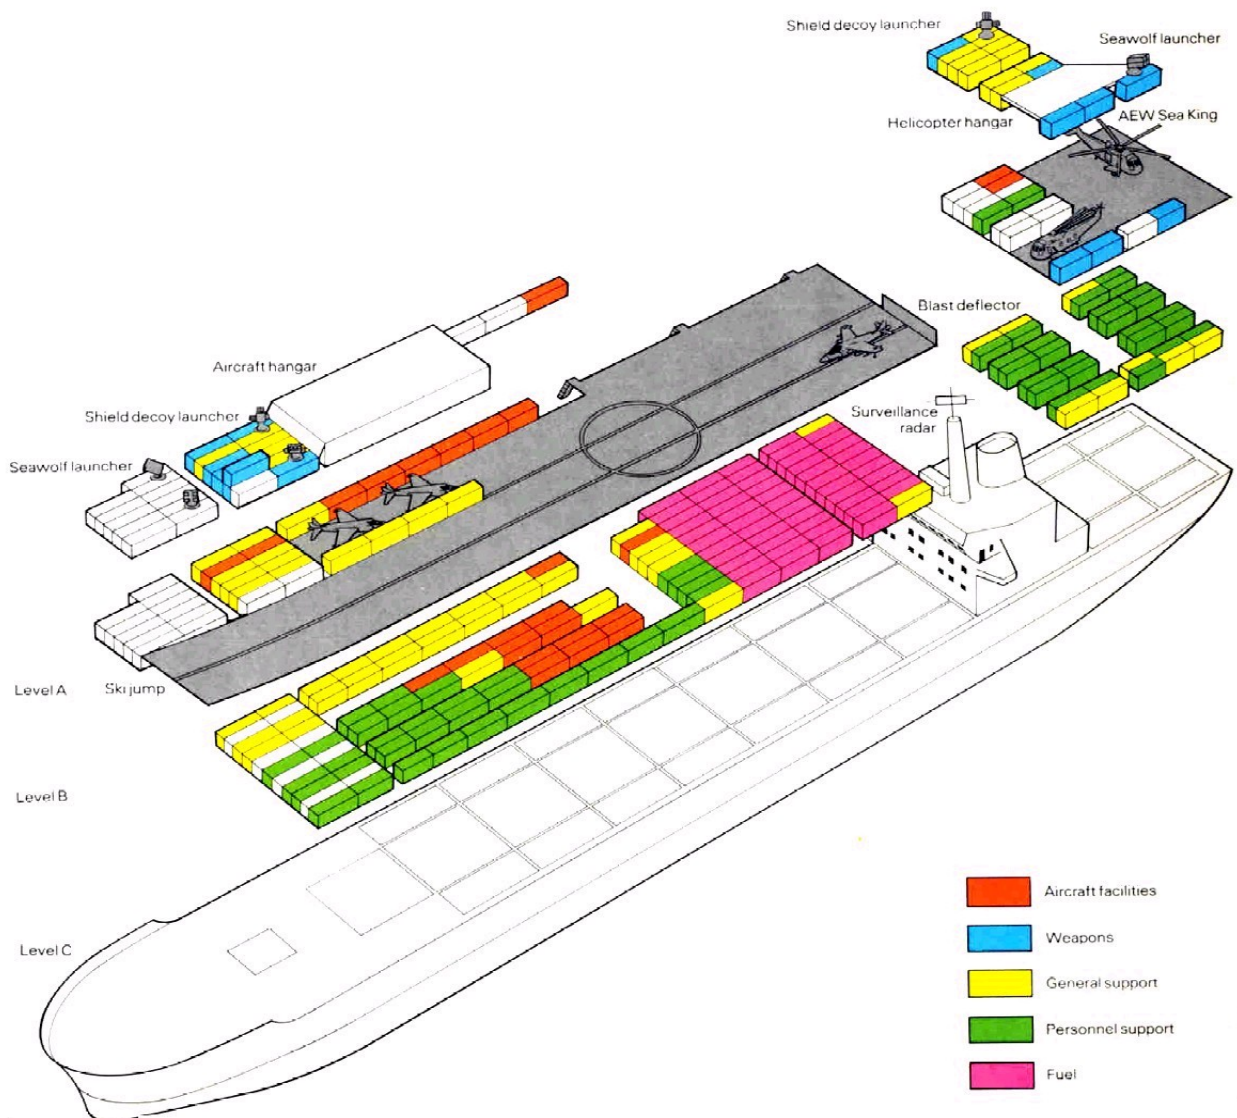

False dilemma - Wikipedia, the free encyclopedia

A false dilemma (also called black-and-white thinking, bifurcation, denying a conjunct, the either–or fallacy, false dichotomy, fallacy of exhaustive hypotheses, the fallacy of false choice, the fallacy of the false alternative, or the fallacy of the excluded middle) is a type of informal fallacy that involves a situation in which only limited alternatives are considered, when in fact there is at least one additional option. The opposite of this fallacy is argument to moderation.

False dilemma can arise intentionally, when fallacy is used in an attempt to force a choice or outcome (such as, in some contexts, the assertion that *"if you are not with us, you are against us"*)

So you can see the self-professed “*peaceful*” New Agers can get nasty and violent (hahaha) with their words when you threaten their sit-on-their-ass BS with the truth.

A FINAL WARNING

Here's a visual depiction of a kit to turn a container ship into a Sea Control aircraft carrier. Clever, cash-poor Brits came up with it.

Switch-out the nearly, non-existent, *Harrier* fighter-bombers for SEAPLANES and add cranes for water recovery--and we have an ASW/ASuW solution applicable to convoy self-defense executed by a Naval Maritime Defense Force (NMDF) etc.

Seaplanes: More Efficient, More Capable, Less Costly than Helicopters:
USN Racketeers NOT Interested!

Of course, the USN is not interested--it doesn't even want to duel enemy fleets well--it wants to fling \$1M each TLAMs (*Tomahawk* Land Attack Missiles) at Wall Street's enemies. So we have flimsy, unarmored, weakly-armed USN surface ships sailing into pink (part Capitalist, part Communist) Chinese contested waters so milsheeple can bitch each other out on the radio and hopefully one draws his "*gun*", fires and the sacrificial cow "*Arch Duke and his wife*" is slain to set off Wall Street's desired WW3.

Just watched a sickening bio vid on Germany's Kaiser Wilhelm II:

[youtube.com/watch?v=JzbCh4c-8vA](https://www.youtube.com/watch?v=JzbCh4c-8vA)

The jerk got infatuated with having warm water ports for his own *dreadnaught* real-life bath tub toys after reading Mahan's

book. Irony is he invaded France to try to get those ports and brought on a WW1 naval blockade that starved the German people to die by the millions.

Ignoring civilian ship commerce can be fatal in wars.

The Kaiser read U.S. Navy (USN) then-Captain Alfred Thayer Mahan's book, The Influence of Sea Power Upon History [gutenberg.org/files/13529/13529-h/13529-h.htm], then formed delusions about having his own fleet in warm-water ports, so he invades to try to conquer France to get them. Disgusting lunacy of a psycho-sociopath who rejected his mother's attempts to instill some decency into him to overcome his birth handicap. It gets worse. He ignores the WHOLE POINT of sea power by bringing on WW1 and its Royal Navy blockade which starves over a million German civilians to death and weakens his army into battlefield defeat.

http://en.wikipedia.org/wiki/Alfred_Thayer_Mahan

"However, as the Royal Navy's blockade of the German Empire was a critical direct and indirect factor in the eventual German collapse, Mahan's theories were vindicated by the First World War."

Military egotism isn't concerned about un-sexy things like escorting "*lower-life-form*" civilians in their ships re: today's U.S. Navy---and the result is LOSING WARS. Ask the Japanese soldiers who starved on Pacific islands about the American submarine sinking of their cargo ships or any living WW2 UK resident about how close "*The Battle of the Atlantic*" came to starving England into submission.

Here is where Mahan goes astray furthering the feel-good naval Racket and the genesis of the lots-of-crappy-ships USN comes from:

"This control of the sea could not be achieved by destruction of commerce [ED; WTF? Says who? Did you ask your pal

Kaiser Wilhelm II before you died?] but only by destroying or neutralizing the enemy fleet. This called for concentration of naval forces composed of capital ships, **not unduly large but numerous**, well-manned with crews thoroughly trained, and operating under the principle that the best defense is an aggressive offense. Mahan contended that with command of the sea, even if local and temporary, naval operations in support of land forces can be of decisive importance and that naval supremacy can be exercised by a transnational consortium acting in defense of a multinational system of free trade. His theories—**written before the submarine became a factor in warfare against shipping—delayed the introduction of convoys as a defense against German U-boats in World War I. By the 1930s the U.S. Navy was building long-range submarines to raid Japanese shipping, but the Japanese, still tied to Mahan, designed their submarines as ancillaries to the fleet and failed to attack American supply lines in the Pacific in World War II. Mahan's name became a household word in the German navy, as Kaiser William II ordered his officers to read Mahan, and Admiral Alfred von Tirpitz (1849–1930) used Mahan's reputation to finance a powerful surface fleet.**

Total navalist narcissistic Racketeering BS. How convenient.

So we have Mahan-Racket-style, flimsy unarmored, weakly-armed USN surface ships sailing into contested SEA waters to force a confrontation and war with pinko (half-free market, half-enforced Socialism) China. Wonderful.

Elite psycho-sociopaths should not perpetually rule nation-states be it by birth or accumulated monies. Watch how today's Kaisers are steering us to war against Russia/China--its WW1's The Guns of August all over again. In 1914 the sheeple held peace protests 1 week before WW1 broke out. We don't even protest today. Note to self: don't give ground-breaking. military theory books to Hive-ruling psycho-sociopaths! Kaiser Wilhelm II gets a "F" on his Mahan book report. Several million Fs for each one of the people he murdered in WW1 and WW2. I did say WW2, too.

Even more disgusting--if that's possible--Wilhelm II after WW1 goes into hiding in Holland and supports the rise of Hitler and his Nazis. He praises them starting WW2. Kaiser Wilhelm IS the prototype of the German psycho-sociopathic asshole – the foreunner of Hitler. He looks remarkably like a Kimungwhatever or a W or Jeb Bush or a Hillary Clinton (in a femini-ugly female power suit). Both Jeb and Hillary support arming the Ukraine that could lead to a WW1-style escalation and war with nuclear-armed Russia. Are you ready to lose LA, Chicago, New York City, Miami to Russian nukes to defend CIA-installed Nazi-style fascists in the Ukraine? Both Jeb and Hillary should be disqualified from the presidency.

Notice I didn't say Washington D.C. that would be incinerated into radioactive dust if Russia attacks--Jeb/Hillary actually think they will somehow be in a Deep Underground Military Base (DUMBs) after 15 minutes warning of ICBM launch and survive

while the rest of the 300+ million Amerosheep get incinerated. Also notice that if the CIA instigates an ISIS nuclear “*terraist*” attack that conveniently does NOT target the most lucrative target for an alleged Islamofascist--Washington D.C.--that it's a “*tell*” of an inside job by them. Can't have CIA HQs in Langley turned into ashes--who will then instigate wars for Wall Street?

America, God's Country? You Don't Say!

“For the time is come that judgment must begin at the house of God: and if it first begin at us, what shall the end be of them that obey not the gospel of God?”

--I Peter 4:17, God, The King James Bible

Illuminati member Madonna in her new video, “*Ghost Town*” is doing a public service by warning us of False Flag Attacks (FFAs) to be blamed on ragheads; see Operation BLACKJACK in the recent Madonna music video:

[youtube.com/watch?v=GgDxv0Qg_Rg](https://www.youtube.com/watch?v=GgDxv0Qg_Rg)

British James Bond Citizen, John Kimber warns us in detail:

<https://johnkimber.wordpress.com/2015/05/10/isis-favors-6-22-15-nuclear-9-11/>

Her sentiment is beautiful and I'm glad she had children and became a mother so she didn't destruct like Marilyn Monroe; I also like the black actor Terence Howard depicted as a military-skilled, WW3 survivor; Howard usually comes off with a strong sense of DECENCY that has been missed in the Iron Man sequels. Like a typical mother, Madonna laments what evil has done to the world--its up to all of us to take these warnings and stop them by spoiling any surprise they could have by making as many people know of them BEFORE anything happens. Enough people know about the FFAs--to include knowing they are con jobs--the higher the chance the psycho-sociopaths will have to not do them. We are being tested--it's our move.

Dr. Viken gives us the final warning.

"I have done my part, now it is up to each person in America to wake up before it is too late.

Be certain about this however, God Almighty is going to judge America for its illegal, unprovoked, unConstitutional, un-winnable, perpetual wars for massive profits in the Mideast that mass-murdered over two million Islamics, most innocent women and children and all the infrastructure we allowed our Military to destroy there.

We were all asleep at the wheel and allowed our criminal USG to get away with false-flag attacks and big USG lies and false-narratives and start these wars for the Rothschild Khazarian Mafia based in England and in the Likudists in Israel.

Israel is now a failing economy and many of the good midle class folks there like here are having serious troublepaying their basic expenses while the Likudist and Israeli defense contractors get fat and rich.

The American sheeple believed all these big USG lies and propaganda and allowed the Banksters and the Defense contractors to line their pockets with massive war profits while everyone else including the American Sheeple have paid for it and now must endure a decaying unsustainable infrastructure. As economic ruin descends on us, we must face the fact this is likely God Almighty's Judgement for our national sins and ignoring Him and His Statutes.

Now we will all have to endure extreme judgment from God Almighty for all these national sins of illegal wars and mass-murder unless there is massive repentance in America and a new understanding of serious truth. Even if most repent we still must endure all the damage our Satanic/pedophile rulers has wrought on us and America."

YOU HAVE BEEN WARNED.

Fix Bayonets! Charge!

America has been in dire straits before.

In 1863, we were on the verge of losing the Civil War and becoming 2 minor nations--as the European Illuminati wanted. The Confederates brilliantly lead by former U.S. Army senior officer, General Robert E. Lee had invaded into the north all the way into Pennsylvania in the hopes of defeating the Union Army to get President Lincoln to let the south leave the Union. However, leading hot-heads, Lee could not refuse battle after Union Cavalry General Buford took the high ground over the town of Gettysburg. Clever southern General Longstreet realizing a frontal attack was suicidal, threw in an attack at the very end of the Union line—Little Round Top--where Colonel Joshua Lawrence Chamberlain's under-strength men of the 20th Maine just reached to defend. They ran out of ammunition and did a desperate bayonet charge to just defeat the Confederate attacks, saving the Union—saving America. They barely had just enough men because Colonel Chamberlain--a decent man and not a snobby asshole--refused to brutalize or

shoot the 120 deserters who the bureaucracy had lied to and kept on beyond their enlistment contracts insuring their deaths.

He instead, **ASKED** them to fight.

The following is what he asked and what I ask you to do today to defeat the psycho-sociopaths destroying America.

Joshua Lawrence Chamberlain played by Jeff Daniels in *Gettysburg*

https://youtu.be/2d2_zeJTJcw

Chamberlain: *This regiment was formed last summer in Maine. There were a thousand of us then. There are less than three hundred of us now. All of us volunteered to fight for the union, just as you did. Some came mainly because we were bored at home -- thought this looked like it might be fun. Some came because we were ashamed not to. **Many of us came because it was the right thing to do.** And all of us have seen men die.*

*This is a different kind of army. If you look back through history, you will see **men fighting for pay**, for women, for some other kind of **loot**. They fight for **land, power**, because a king leads them or -- or just because **they like killing**. But we are here for something new. This has not happened much in the history of the world. We are an army out to **set other men free**.*

*America should be **free** ground -- all of it. Not divided by a line between slave state and free -- all the way, from here to the Pacific Ocean. No man has to bow. No man born to royalty. **Here, we judge you by what you do, not by who your father was. Here, you can be something.** Here, is the place to build a home.*

*But it's not the land. **There's always more land.***

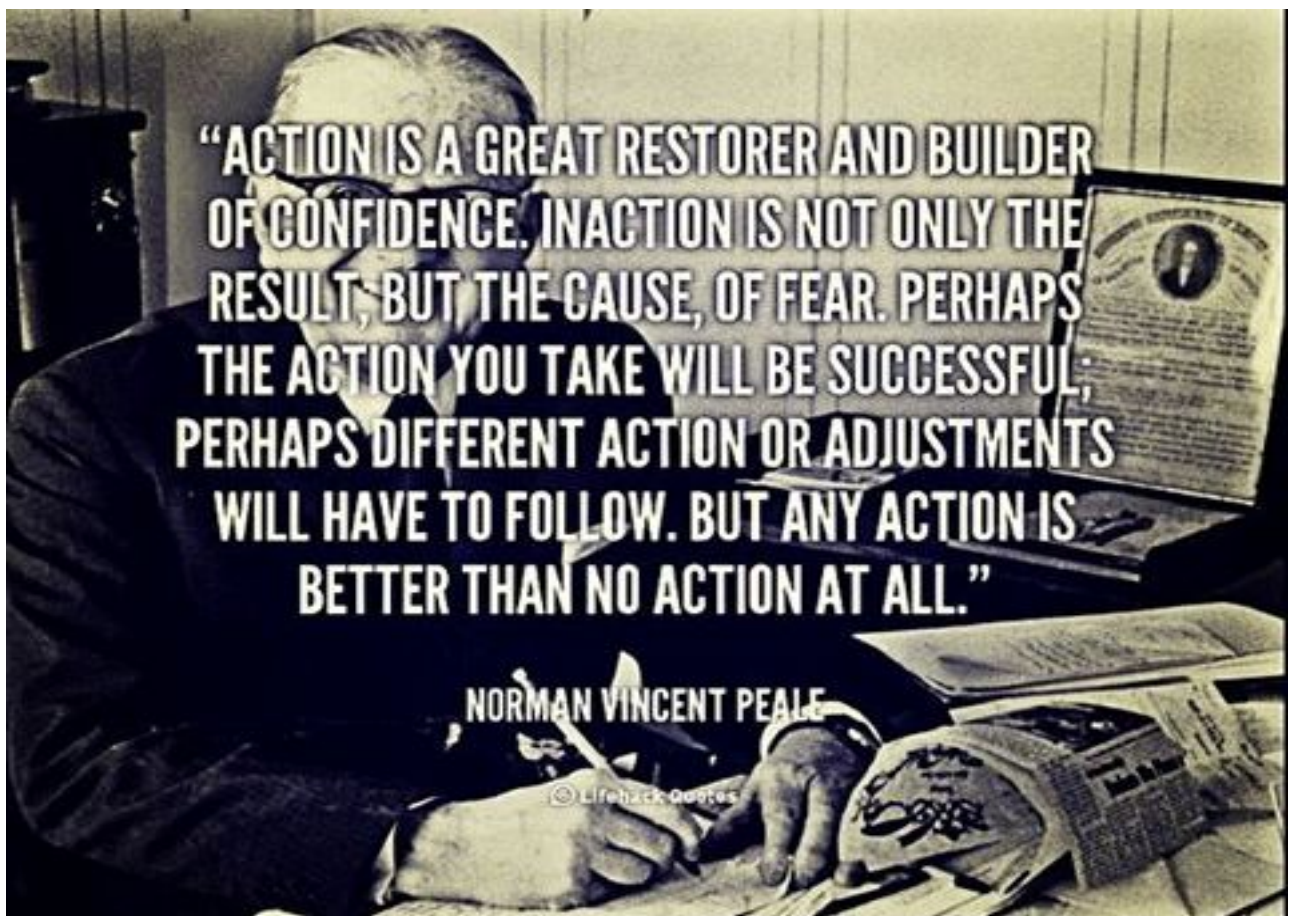

*It's the idea that **we all have value -- you and me.***

*What we're fighting for, in the end, we're fighting **for each other.***

*Sorry, I didn't mean to preach. You, you go ahead. You talk for awhile. If you -- If you choose to join us, you want your muskets back, you can have 'em. Nothing more will be said by anybody anywhere. If you choose not to join us, well you can come along under guard, and when this is all over **I will do what I can to see you get a fair treatment.** But for now, we're moving out.*

Gentlemen, I think if we lose this fight, we lose the war. So if you choose to join us, I'll be personally very grateful.

**Now, Its up to YOU--with the rest of us--to DO
SOMETHING.**

Let's Hope Sir Winston is right. You have a say in this, don't you?

GLOSSARY

AVF: All Volunteer Force (Farce); victims who are used as pawns by the Illuminati for Wall Street wars

CIA: Central Intelligence Agency, Nazi fascist, treasonous bureaucracy serving the Illuminati and not the American sheeple; needs to be disbanded; criminals rounded up and tried for war crimes and treason

Dirty Tricks: Indecent back-stabs and sabotages done by psycho-sociopaths against we the decent people and rival assholes

Hive: Sheeple tolerating multiple societal destructive Rackets because they collectively provide a short-term, comfortable social, political, military and economic womb.

Infractionism; Isball: Infraction Snowball Effect, bureaucrats infringing on intent and letter of Constitutional law

FISSBALL: Fake Infraction Snowball Effect; assholes in USG can lie about anyone they dislike and use computers to make it look legit when its not

LSA: Life Situation Arrogance

MILINDCOMP: Military Industrial Intelligence Congressional Complex

MSU: Make Shit Up; a dirty trick bureaucracies do usually in secret to smear decent people; digital McCarthyism

NSA: National Security Act of 1947; you are lucky National Security Agency indecent, privacy invaders! A greater evil NSA than you got the focus in this book. You are second fiddle when it comes to evil.

STFU: Shut-the-Fuck-Up; common military sheeple whip crack to tolerate some bureaucratic evil; refreshingly used here against psycho-sociopath excuse-mongers

U.S. Army: Mostly garritrooper tyrants and eager-to-be-door-mats-sheeple who want to do nothing tangible to prepare for war but get middle class wages wasting ½ the day on sports PT, the other ½ going to chow 3x a day, building/lawn care and digital paperwork that has to be perfect—why? Because we can!

USN: Cruise missile land attackers that neither want to sink enemy fleets or protect commerce, most of Mahan (they like the part where they sail lots of crappy ships) is not their game; sucking up to Wall Street neocons, is.

USAF: Egomaniacs in flight suits who want to pick up chicks at the officer's club claiming to be Tom Cruise in *Top Gun*--while increasingly flying farther and farther away from any enemies and dropping ever more expensive munitions from greater and greater stand-offs 'til such time that they are simply playing a video game for the blood-thirsty psycho-sociopaths running-ruining America. They will slink out from their video joysticks in their flight suits and scam the chicks at the "O" club who will not know any better—they have middle class incomes and that's what most American women really care about, anyway—the almighty dollar. They can get their hair done that way. Buy more shoes as the country goes to shit because men don't stand up for any decency.

USMC: Useless Iwo Jima Racketeers that pack flimsy, vulnerable surface ships with thousands of low-grade foot sloggers; when they get killed and maimed they cry that they need to be honored while at same time bragging that they are somehow the best when they fucked up. The USMC is a bureaucracy that need to be dsbanded ASAP
